Comtech Telecommunications Corp. Receives \$12.4 Million of Movement Tracking System Orders for Mobile Satellite Terminal Equipment and Support Services

MELVILLE, N.Y., Aug 09, 2007 (BUSINESS WIRE) --

Comtech Telecommunications Corp. (NASDAQ:CMTL) announced today that its Maryland-based subsidiary, Comtech Mobile Datacom Corporation, received orders totaling \$12.4 million under its Movement Tracking System, or MTS contract, with the U.S. Army. Total orders received to date against the \$463.2 million MTS contract increased to \$428.6 million.

The orders are for the supply of Comtech's Model MT-2011 and MT-2012 mobile satellite transceivers, ruggedized and control station computers and support services. The orders are in support of ongoing program activities in the United States and abroad. Comtech's Model MT-2012 mobile satellite transceivers feature embedded Radio Frequency Identification (RFID) technology, including Savi Technology's ISO-compliant EchoPoint RFID Reader, as well as secure Global Positioning System (GPS) capabilities.

Fred Kornberg, President and Chief Executive Officer of Comtech Telecommunications Corp., said, "We are proud of our continuing participation in the MTS Program. We look forward to supporting the future communication requirements of the MTS Program and other critical programs for the Department of Defense."

Comtech Mobile Datacom Corporation, a Germantown, Maryland-based company, is engaged in the provision of satellite-based packet data communication systems and location and messaging services through the use of advanced communication and network technology. To learn more about Comtech Mobile Datacom, please visit the company's website at www.comtechmobile.com.

Comtech Telecommunications Corp. designs, develops, produces and markets innovative products, systems and services for advanced communications solutions. The Company believes many of its solutions play a vital role in providing or enhancing communication capabilities when terrestrial communications infrastructure is unavailable or ineffective. The Company conducts business through three complementary segments: telecommunications transmission, mobile data communications and RF microwave amplifiers. The Company sells products to a diverse customer base in the global commercial and government communications markets. The Company believes it is a market leader in the market segments that it serves.

Savi Technology is a leading provider of supply chain management and security solutions leveraging software and Automatic Identification and Data Collection (AIDC) technologies, including Radio Frequency Identification (RFID). Savi Technology is a wholly owned subsidiary of Lockheed Martin Corporation (NYSE: LMT).
