About Compass Diversified Holdings

Compass Diversified Holdings ("CODI") offers our shareholders an opportunity to own profitable middle market businesses that hold highly defensible positions in their individual market niches.

We own controlling interests in our subsidiary businesses, which maximizes our ability to impact their performance. Our model for creating shareholder value involves discipline in identifying and valuing businesses and proactive engagement with the management teams of the companies we acquire. From time to time, we will monetize our interests in those subsidiaries if we believe that doing so will maximize value to our owners.

We deliver a high level of transparency in our financial reporting and governance processes. We believe our owners deserve and should demand nothing less.

CODI owns and manages eight diverse subsidiaries; we believe that these businesses will continue to produce stable and growing cash flows over the long term, enabling us both to invest in the long-term growth of the company and to make distributions of cash to our shareholders.

In addition, we own approximately 23% of the common stock of Fox Factory Holding Corp. ("FOX", Nasdaq: FOXF), a former subsidiary business that completed its initial public offering in August 2013. FOX designs and manufactures high-performance suspension products primarily for mountain bikes, all-terrain vehicles, snowmobiles and other off-road vehicles.

- Diverse customer and supplier base

Operating Improvements

We work with our subsidiary management teams to expand cash flows by:

- Pursuing organic and/or external growth opportunities
- Considering alternate product applications or sourcing

- Enhancing financial reporting and monitoring
- Implementing appropriate incentive compensation programs

Key Factors for Success

- Disciplined approach to valuation and due diligence
- Proactive monitoring and management
