- Quarterly Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**
For the quarterly period ended **June 30, 2010**
- Transition Report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934**
For the transition period from _____ to _____

Commission file number:001-33304

Converted Organics Inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

20-4075963
(I.R.S. Employer Identification No.)

137A Lewis Wharf, Boston, MA 02110
(Address of principal executive offices) (Zip Code)

(617) 624-0111
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: As of August 9, 2010, there were 42,607,871 shares of our common stock outstanding.

**CONVERTED ORGANICS INC.
NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS
(UNAUDITED)**

NOTE 1 — BASIS OF PRESENTATION AND NATURE OF OPERATIONS

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission (the “SEC”) for interim financial reporting. Certain information and footnote disclosures normally included in the annual financial statements of Converted Organics Inc. (the “Company”) have been condensed or omitted. In the Company’s opinion, the unaudited interim consolidated financial statements and accompanying notes reflect all adjustments, consisting of normal and recurring adjustments, that are necessary for a fair presentation of its financial position and operating results as of and for the three and six month interim periods ended June 30, 2010 and 2009.

The results of operations for the interim periods are not necessarily indicative of the results to be expected for the entire year. This Form 10-Q should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Company’s Form 10-K as of and for the year ended December 31, 2009.

NATURE OF OPERATIONS

Converted Organics Inc. uses food and other waste as a raw material to manufacture, sell and distribute all-natural fertilizer products with nutrition characteristics and which have been shown to support disease suppression. The Company generates revenues from two sources: product sales and tip fees. Product sales revenue comes from the sale of fertilizer products. Tip fee revenue is derived from waste haulers who pay the Company “tip” fees for accepting food waste generated by food distributors such as grocery stores, produce docks and fish markets, food processors and hospitality venues such as hotels, restaurants, convention centers and airports.

Converted Organics of California, LLC, a California limited liability company and wholly-owned subsidiary of the Company, which operates the Company’s facility in Gonzales, California (the “Gonzales facility”) was formed when the Company acquired the assets of United Organics Products, LLC (“UOP”) and Waste Recovery Industries, LLC (“WRI”). The Gonzales facility produces approximately 25 tons of organic fertilizer per day, which is sold primarily to the California agricultural market. The Gonzales facility employs a proprietary method called High Temperature Liquid Composting (“HTLC”). The Gonzales facility has been upgraded to enable it to accept larger amounts of food waste from waste haulers and may be further upgraded, depending on demand, to have the capability to produce a dry product in addition to the current liquid fertilizer it produces.

Converted Organics of Woodbridge, LLC, is a New Jersey limited liability company and wholly-owned subsidiary of the Company, which was formed for the purpose of owning, constructing and operating the Company’s second facility in Woodbridge, New Jersey (the “Woodbridge facility”). The Woodbridge facility is designed to service the New York-Northern New Jersey metropolitan area and is currently operating at less than full capacity. This facility also employs HTLC.

Converted Organics of Rhode Island, LLC, a Rhode Island limited liability company and subsidiary of the Company, was formed in July 2008 for the purpose of developing a facility at the Rhode Island central landfill. Converted Organics of Rhode Island, LLC has not had any activity since its formation. On February 25, 2010, the Company signed a letter of intent with the owners of the non-controlling interest in Converted Organics of Rhode Island, LLC to sell substantially all of its assets and a limited select amount of liabilities, a transaction that would include an assignment of the Company’s lease with the Rhode Island Resource Recovery Corporation (“RIRRC”).

On January 26, 2010, the Company formed Converted Organics of Mississippi, LLC, a Mississippi limited liability company and a wholly-owned subsidiary of the Company, for the purpose of hiring a sales force and adding a poultry litter-based fertilizer product to the Company’s existing product lines. The Company has outsourced production of this product.

On February 25, 2010, the Company signed a memorandum of understanding with MassOrganics I, under which MassOrganics I would operate the new manufacturing facility to be constructed at the Sutton Commerce Park in Sutton, Massachusetts. MassOrganics I has agreed to enter into a license agreement under which MassOrganics I will pay a licensing fee to the Company.

On May 20, 2010, the Company formed TerraSphere Inc., a Delaware corporation and a wholly-owned subsidiary of the Company, for the purpose of acquiring TerraSphere Systems LLC (see Note 11).

CONVERTED ORGANICS INC.
NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS — CONTINUED
(UNAUDITED)

NOTE 2 – MANAGEMENT’S PLAN OF OPERATION

On July 30, 2010 the Company announced a reduction of its work force by 50% which included employees at the corporate level and the Woodbridge facility. The Company expects those salary reductions to save approximately \$2.1 million over the next twelve months. In addition, the Company is working with creditors to restructure or eliminate debt and lease payments to reduce costs in order to evaluate the revised cost structure and projected revenue from the Woodbridge facility. The Company has not completed that evaluation and therefore have not determined the extent of savings available to the Company from this restructuring. To facilitate the evaluation, the Company has temporarily halted production at the Woodbridge facility until the evaluation has been completed. As of the date of filing this report, the Company has been granted forbearance of principal payments on certain contractor notes payable, but have not reached agreement with the holder of the New Jersey Economic Development Bonds and the Company has not made approximately \$234,000 of required interest payments on that debt. In addition, the Company did not make certain payments on the lease obligations to the Woodbridge facility landlord.

The Company currently has manufacturing capabilities at its Gonzales facility. The Gonzales facility is cash flow positive and has additional production capacity. The Company is focusing its current sales efforts on taking advantage of the additional production capacity. Previously, the Company estimated its negative cash flow requirements on a monthly basis were approximately \$400,000 at the corporate level and \$500,000 for Woodbridge. The Company estimated the current cost reduction efforts will lower the monthly cash flow requirements at the corporate level to \$200,000. The Company does not have a final estimate on the revised cash flow requirements for the Woodbridge facility and will not have such until the current restructure negotiations are completed. If the Company is unable to increase sales levels at Gonzales and if the current plans to restructure certain costs and expenses are not successful, then the Company will need to seek additional financing.

On July 6, 2010, the Company reached an agreement to acquire TerraSphere Systems LLC (Note 11). The transaction is subject to shareholder approval at a meeting currently scheduled for August 31, 2010. If the transaction is approved and if all the closing conditions are met, including a condition renegotiating the terms of its debt obligations in connection with the operations in New Jersey, then the Company anticipates there will be cash available to the Company from the acquired entity. The amount of cash that will be available is uncertain. However, any amount available to the Company would reduce any amounts that otherwise may be needed to be raised through a financing.

The Company previously disclosed that it believed the funds received through its October 2009 secondary public offering and the April 2010 financing would be sufficient to operate the current business until the Company was cash flow positive assuming it achieved the desired production capacity and sales levels and assuming it did not encounter additional costs or expenses, either unforeseen or through any proposed mergers and/or acquisitions. To date, the Company has not achieved the desired sales levels relating to the liquid product produced at its Woodbridge facility and the chicken litter based fertilizer product that the Company contracted to sell. Therefore, the Company may require additional financing prior to achieving cash flow from operations for which it has no commitments. On July 2, 2010, a registration statement was filed on Form S-3 to register \$75,000,000 of common stock, which was declared effective on July 15, 2010. There is no assurance that capital in any form would be available to the Company, and if available, on terms and conditions that are acceptable. Moreover, the Company is not permitted to borrow any future funds unless it obtains the consent of the holders of the New Jersey Economic Development Authority bonds. The Company has obtained such consent for prior financing, but there is no guarantee that it can obtain such consent in the future.

NOTE 3 — NEWLY ADOPTED ACCOUNTING STANDARDS

There are no new accounting standards significantly affecting the Company in the three and six month periods ended June 30, 2010.

NOTE 4 — INVENTORIES

The Company’s inventories consisted of the following at June 30, 2010 and December 31, 2009:

	<u>2010</u>	<u>2009</u>
Finished goods	\$174,852	\$252,860
Raw materials	38,667	195,888
Total inventories	<u>\$213,519</u>	<u>\$448,748</u>

CONVERTED ORGANICS INC.
NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS — *CONTINUED*
(UNAUDITED)

NOTE 5 — DEBT

TERM NOTES

The Company entered into a financing agreement with an equipment financing company to acquire equipment for its Woodbridge facility. The note is for \$118,250, bears an imputed interest rate of 9% and has a three year term, maturing January 2012.

During 2009, the Company agreed to convert certain accounts payable totaling approximately \$4,718,000, related to the construction of the Woodbridge facility, into term notes ranging from 12 to 24 months at various rates ranging from 0% to 9% and payment terms maturing through September 2011. Certain of these notes carry liens which will be released upon full and final payment of the note. The Company has recorded a discount on certain of the notes representing imputed interest of approximately \$54,000, which is being amortized during the non-interest bearing period of the notes repayments. The outstanding balance of these term notes was approximately \$1,880,000 and \$3,250,000 at June 30, 2010 and December 31, 2009, respectively.

The Company obtained the necessary bondholder consents to enter into these agreements.

BOND FINANCING

On February 16, 2007, concurrent with its initial public offering, the Company's wholly-owned subsidiary, Converted Organics of Woodbridge ("Woodbridge"), completed the sale of \$17,500,000 of New Jersey Economic Development Authority Bonds. The bonds carry a stated interest rate of 8% and mature on August 1, 2027. The bonds are secured by a leasehold mortgage and a first lien on the equipment of Woodbridge. In addition, Woodbridge had agreed to, among other things, establish a fifteen month capitalized interest reserve and to comply with certain financial statement ratios. The capitalized interest reserve has been depleted and is now being funded monthly by the Company. The Company has provided a guarantee to the bondholders on behalf of Woodbridge for the entire bond offering.

CONVERTIBLE NOTE PAYABLE

The holder of the convertible note issued in connection with the acquisition of UOP and WRI commenced converting the principal and interest payments to shares of common stock. During the six month period ended June 30, 2010, the Company issued 181,500 shares of common stock representing principal and interest payments of approximately \$194,000. The principal balance of the note is approximately \$198,000 at June 30, 2010.

NOTE 6 – DERIVATIVE INSTRUMENTS

On May 7, 2009, in connection with notes issued pursuant to a financing agreement an investor received five-year warrants to purchase 750,000 shares and 350,000 shares of Company common stock, with an original exercise price of \$1.00 per share and \$1.50 per share, respectively, (Class C and D warrants, respectively) subject to certain anti-dilution provisions. The placement agent used for the offering was issued 135,000 Class C warrants and 65,000 Class D warrants. These warrants are subject to certain anti-dilution rights for issuance below the exercise prices and are not registered and cannot be traded. The exercise price for the Class C and D warrants are \$1.00 per share and \$1.02 per share, respectively, at June 30, 2010. The Company has determined that the warrant provisions providing for protection for issuances below the warrant exercise prices could result in modification of the exercise price based on a variable that is not an input to the fair value for a fixed-for-fixed option. Therefore, the Company determined the warrants issued in connection with this financing are a derivative instrument which is subject to mark-to-market adjustment each reporting period. At December 31, 2009, the fair value of the warrants was determined using a Black-Scholes model with the following assumptions: risk-free interest rate of 2.35%; no dividend yield; volatility of 98.6% resulting in a derivative liability of approximately \$563,500. The liability was revalued as of June 30, 2010 using a Black-Scholes model and the following assumptions: risk-free interest rate of 1.79%; no dividend yield, volatility of 108.3%, resulting in a revalued liability of approximately \$532,600 and has recognized a derivative gain of approximately \$237,000 and \$31,000 on the consolidated statements of operations for the three and six month periods ended June 30, 2010, respectively.

NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS — *CONTINUED*
(UNAUDITED)

NOTE 6 – DERIVATIVE INSTRUMENTS (Continued)

On September 8, 2009, in connection with notes issued pursuant to a financing agreement on that date, an investor received a five-year warrant to purchase 2,500,000 shares of the Company's common stock, with an original exercise price of \$1.25 per share. These warrants are subject to certain anti-dilution rights for issuances below the exercise price; provided that absent shareholder approval, the exercise price may not be reduced to less than \$1.08 per share (Class G warrants). These warrants are not registered and cannot be traded. The Class G warrants are exercisable at \$1.25 per share at June 30, 2010 as the Company has received a one time waiver for the Class G anti-dilution provision relating to the triggering event which occurred on April 22, 2010 (Class I Warrants). The Company has determined the warrant provisions providing for issuances below the warrant exercise price could result in modification of the exercise price based on a variable that is not an input to the fair value for a fixed-for-fixed option. The Company has determined that the warrants issued in connection with this financing are a derivative instrument which is required to be shown as a derivative liability subject to mark-to-market adjustment each reporting period. At December 31, 2009, the fair value of the warrants was determined using a Black-Scholes model with the following assumptions: risk-free interest rate of 2.35%; no dividend yield; volatility of 98.6% was a derivative liability of approximately \$1,063,200. The liability was revalued as of June 30, 2010 using a Black-Scholes model and the following assumptions: risk-free interest rate of 1.79%; no dividend yield, volatility of 108.3%, resulting in a revalued liability of approximately \$1,041,500 and a derivative gain of approximately \$451,000 and \$21,700, on the consolidated statements of operations for the three and six month periods ended June 30, 2010, respectively.

On April 22, 2010, in connection with notes issued pursuant to a financing agreement on that date, an investor received a five-year warrant to purchase 1,163,362 shares of the Company's common stock, with an original exercise price of \$1.06 per share, subject to certain anti-dilution rights for issuances below such exercise price (Class I warrants) and are not registered and cannot be traded. The Class I warrants are exercisable one year from the date of issuance. The Company has determined that the warrant provisions providing for issuances below the warrant exercise price could result in modification of the exercise price based on a variable that is not an input to the fair value for a fixed-for-fixed option. The Company has determined the warrants issued in connection with this financing are a derivative instrument which is subject to mark-to-market adjustment each reporting period. At April 22, 2010, the fair value of the warrants was determined to be approximately \$968,000. At June 30, 2010, the fair value of the warrants was determined using a Black-Scholes model with the following assumptions: risk-free interest rate of 1.79%; no dividend yield; volatility of 108.3% resulting in a derivative liability of approximately \$522,000 and a derivative gain of \$446,000, on the consolidated statements of operations for both the three and six month periods ended June 30, 2010. (*also see Note 7*)

NOTE 7 — OWNERS' EQUITY (DEFICIT)

On March 17, 2010, the Company granted 165,000 shares of common stock to a consultant who provides consulting services to the Company as remuneration for services previously rendered. The grant was measured using the closing price of the Company's stock on the date of grant. The statements of operations includes a charge of \$160,050 for the six months ended June 30, 2010 related to this grant, which was credited to common stock and additional paid-in capital.

On April 22, 2010, Converted Organics Inc. entered into a Securities Purchase Agreement with a single institutional investor. Pursuant to the Securities Purchase Agreement, the Company agreed to issue to the investor: (a) 2,400,000 shares of its common stock at \$1.06 per share and (b) five-year warrants to purchase 1,163,362 shares of its common stock at an exercise price of \$1.06 per share. The warrants may be exercised at any time on or following a date one year after the date of issuance and will expire five years from the date of issuance. The transaction provided the Company with net proceeds of approximately \$2.4 million.

On June 30, 2010, the Company's stockholders approved the amendment to the Company's Certificate of Incorporation to increase the number of shares of common stock that the Company is authorized to issue from 75,000,000 shares to 250,000,000 shares.

NOTE 8 — FAIR VALUE MEASUREMENTS

The Company applies ASC 820, which defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. ASC 820 applies to reported balances that are required or permitted to be measured at fair value under existing accounting pronouncements.

ASC 820 emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair value measurements, ASC 820 establishes a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The Company's liabilities that are reported at fair value in the accompanying consolidated balance sheets as of June 30, 2010 and December 31, 2009 were as follows:

	Observable Inputs Level 3	Balance	
		June 30, 2010	December 31, 2009
Derivative liabilities		\$2,096,109	\$ 1,626,742

CONVERTED ORGANICS INC.
NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS — CONTINUED
(UNAUDITED)

NOTE 8 — FAIR VALUE MEASUREMENTS (Continued)

The following table reflects the change in Level 3 fair value of the Company's derivative liabilities for the three and six month periods ended June 30, 2010:

	Three months ended	Six months ended
Balance, beginning of period	\$ 2,261,897	\$ 1,626,742
Fair value of derivatives issued	968,096	968,096
Derivative (gain) loss	(1,133,884)	(498,729)
Balance, end of period	<u>\$ 2,096,109</u>	<u>\$ 2,096,109</u>

The Company has other non-derivative financial instruments, such as cash, accounts receivable, accounts payable, accrued expenses and long-term debt, which carrying amounts approximate fair value.

NOTE 9 — STOCK OPTION PLAN

The following table presents the activity under the 2006 Stock Option Plan from January 1, 2010 through June 30, 2010:

	Options Outstanding	Price Per Share
Outstanding at December 31, 2009	1,230,295	\$ 3.54
Granted	2,508,500	.68
Exercised	50,000	.68
Canceled	—	—
Outstanding at June 30, 2010	<u>3,788,795</u>	<u>\$ 1.63</u>
Exercisable at June 30, 2010	<u>3,638,795</u>	<u>\$ 1.63</u>

The expense associated with granting these options was calculated using a Black-Scholes model. The resulting expense of the above options granted was \$1,286,532 is included in general and administrative expense on the consolidated statements of operations for the three and six month periods ended June 30, 2010. As of June 30, 2010, there was unrecognized compensation cost of approximately \$11,000 related to non-vested share-based compensation arrangements granted under the Company's stock option plan. There was no intrinsic value of the Company's outstanding stock options at June 30, 2010.

NOTE 10 — COMMITMENTS AND CONTINGENCIES**LEASE COMMITMENT**

The Company's future minimum lease payments are as follows:

Years ending December 31,	
2010 (July 1, 2010 through December 31, 2010)	\$ 638,189
2011	1,291,182
2012	1,297,845
2013	1,202,281
2014	1,214,479
2015 and thereafter	8,359,440
	<u>\$14,003,416</u>

LOAN COMMITMENT

On March 23, 2010, the Company entered into a bridge loan and license agreement with Heartland Technology Partners, LLC ("HTP"). The bridge loan agreement requires the Company to advance \$500,000 to HTP in three monthly installments commencing upon signing of the loan. The Company has advanced HTP \$500,000, classified as non-current other assets at June 30, 2010.

CONVERTED ORGANICS INC.
NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS — *CONTINUED*
(UNAUDITED)

NOTE 10 — COMMITMENTS AND CONTINGENCIES (*Continued*)

PURCHASE COMMITMENT

On January 25, 2010, Converted Organics of Mississippi, LLC, a wholly-owned subsidiary of the Company entered into a purchase order for 4700 tons of chicken litter based fertilizer for \$615,700. At June 30, 2010, the Company has made deposits of \$615,700 to the contractor and has taken delivery of \$103,000 of product.

LEGAL PROCEEDINGS

The Company is not currently aware of any pending or threatened legal proceeding to which it is or would be a party, or any proceedings being contemplated by governmental authorities against it, or any of its executive officers or directors relating to the services performed on the Company's behalf except as follows.

On December 11, 2008, the Company received notice that a complaint had been filed in a putative class action lawsuit on behalf of 59 persons or entities that purchased units pursuant to a financing terms agreement, or FTA, dated April 11, 2006, captioned Gerald S. Leeseberg, et al. v. Converted Organics, Inc., filed in the U.S. District Court for the District of Delaware. The lawsuit alleges breach of contract, conversion, unjust enrichment, and breach of the implied covenant of good faith in connection with the alleged failure to register certain securities issued in the FTA, and the redemption of the Company's Class A warrants in November 2008. The lawsuit seeks damages related to the failure to register certain securities, including alleged late fee payments, of approximately \$5.25 million, and unspecified damages related to the redemption of the Class A warrants. In February 2009, the Company filed a Motion for Partial Dismissal of Complaint. On October 7, 2009, the Court concluded that Leeseberg has properly stated a claim for actual damages resulting from the Company's alleged breach of contract, but that Leeseberg has failed to state claims for conversion, unjust enrichment and breach of the implied covenant of good faith, and the Court dismissed such claims. On November 6, 2009, the Company filed its answer to the Complaint with the Court. On March 4, 2010, the parties participated in a conference, and began discussing discovery issues. Plaintiff filed a Motion for Class Certification on June 22, 2010, which is pending before the District Court. A jury trial has been set for May 17, 2011. The Company plans to vigorously defend this matter and are unable to estimate any contingent losses that may or may not be incurred as a result of this litigation and its eventual disposition. Accordingly, no contingent loss has been recorded related to this matter.

Related to the above matter, in December 2009, the Company filed a complaint in the Superior Court of Massachusetts for the County of Suffolk, captioned Converted Organics Inc. v. Holland & Knight LLP. The Company claims that in the event it is required to pay any monies to Mr. Leeseberg and his proposed class in the matter of Gerald S. Leeseberg, et al. v. Converted Organics, Inc., that Holland & Knight should make the Company whole, because its handling of the registration of the securities at issue in the Leeseberg lawsuit caused any loss that Mr. Leeseberg and other putative class members claim to have suffered. Holland & Knight has not yet responded to the complaint. It has threatened to bring counterclaims against Converted Organics for legal fees allegedly owed, which we would contest vigorously. On May 12, 2010, the Superior Court stayed the proceedings, pending resolution of the *Leeseberg* litigation. At this early stage in the case, the Company is unable to predict the likelihood of an unfavorable outcome, or to estimate the amount or range of potential loss.

On May 19, 2009, the Company received notice that a complaint had been filed in the Middlesex County Superior Court of New Jersey, captioned Lefcourt Associates, Ltd. v. Converted Organics of Woodbridge, et al. The lawsuit alleged private and public nuisances, negligence, continuing trespasses and consumer common-law fraud in connection with the odors emanating from the Woodbridge facility and its alleged, intentional failure to disclose to adjacent property owners the possibility of the facility causing pollution and was later amended to allege adverse possession, acquiescence and easement. The lawsuit sought enjoinder of any and all operations which in any way cause or contribute to the alleged pollution, compensatory and punitive damages, counsel fees and costs of suit and any and all other relief the Court deems equitable and just. On April 12, 2010, the Middlesex County Superior Court of New Jersey issued an administrative order settlement dismissing without prejudice the matter of Lefcourt Associates, Ltd. v. Converted Organics of Woodbridge, et al. On June 8, 2010, Lefcourt Associates, Ltd re-filed their lawsuit but before a different court, the Chancery Division in Bergen County. The Company has filed a motion to transfer the action back to the original court in Middlesex County and will seek to have the lawsuit dismissed.

CONVERTED ORGANICS INC.
NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS — *CONTINUED*
(UNAUDITED)

NOTE 11 – SUBSEQUENT EVENTS

On July 6, 2010, a membership interest purchase agreement was entered into by TerraSphere, Inc., a wholly-owned subsidiary of the Company, TerraSphere Systems LLC (“TerraSphere”) and the members of TerraSphere, to which the Company agreed to acquire 100% of TerraSphere. The maximum total purchase price for TerraSphere is estimated to be \$25,830,000, which includes earn-out payments of up to \$11,040,000, payable solely in shares of the Company’s common stock valued at \$0.756 per share. Pursuant to the purchase agreement, if the acquisition is approved by the Company’s stockholders, the Company will issue up to 34,166,667 shares of its common stock to the members of TerraSphere in exchange for 100% of the membership interest of TerraSphere, subject to certain anti-dilution adjustments. Of these shares, 19,563,492 shares will be issued at the closing of the acquisition, and the remainder of the shares will be issued if TerraSphere achieves certain milestones. Upon completion of the proposed acquisition, TerraSphere would become a wholly-owned subsidiary of the Company. TerraSphere designs, builds and operates highly efficient and scalable systems, featuring a patented, proprietary technology that utilizes vertically-stacked modules to house rows of plants, which are then placed perpendicular to an interior light source to grow pesticide-free, organic fruits and vegetables. Due to a controlled, indoor environment, the system generates fresh produce year-round in any location or climate world-wide.

Mr. Edward J. Gildea, the Company’s Chairman and Chief Executive Officer, has an interest in 8.75% of the units of TerraSphere, and family members of Mr. Gildea hold significant units of TerraSphere and serve as officers of TerraSphere.

On July 19, 2010, the Company issued 1,623,333 shares of its common stock and a warrant to acquire 1,623,333 shares of common stock to Atlas Advisors, LLC (“Atlas”). The warrant will expire five years from the date of issuance, or July 19, 2015, and has a strike price of \$0.54 per share. The issuance to Atlas was made pursuant to an agreement between the parties regarding payments due to Atlas pursuant to a Business Development Agreement dated January 29, 2010. Under the Business Development Agreement, the Company had agreed to compensate Atlas in the event of any mergers and/or acquisitions that were a result of the services provided by Atlas, such payment to have included both cash payments and equity payments. Pursuant to the agreement reached between the parties, in exchange for the equity consideration listed herein, Atlas agreed that no further consideration be paid to it in connection with the Company’s proposed acquisition of TerraSphere Systems, LLC. The all stock payment was made to Atlas at a share price of \$0.54, which was the closing price of the Company’s common stock on the date of the TerraSphere acquisition agreement. The warrant issued to Atlas was issued at an exercise price equal to the price at which the common shares were issued. The Company and Atlas have also agreed to terminate the Business Development Agreement for additional equity consideration pending agreement between the parties of a mutually acceptable termination agreement.

On July 30, 2010, the Company restructured certain functions at its headquarters in Boston, MA and its manufacturing facility in Woodbridge, NJ. The corporate restructuring represents a reduction of the Company’s workforce. The estimated annual salary and benefit savings related to this restructuring is approximately \$2.1 million.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated interim financial statements and related notes to the consolidated interim financial statements included elsewhere in this report. This discussion contains forward-looking statements that relate to future events or our future financial performance. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. These forward-looking statements are based largely on our current expectations and are subject to a number of uncertainties and risks including the Risk Factors identified in our Annual Report on Form 10-K for the year ended December 31, 2009. Actual results could differ materially from these forward-looking statements. Converted Organics Inc. is sometimes referred to herein as “we”, “us”, “our” and the “Company”.

Introduction

Our operating structure is composed of our parent company, Converted Organics Inc., three wholly-owned operating subsidiaries, a newly formed wholly-owned subsidiary, TerraSphere Inc. and a 92.5% owned non-operating subsidiary. The first operating subsidiary is Converted Organics of Woodbridge, LLC, which includes the operation of our Woodbridge, New Jersey facility. The second operating subsidiary is Converted Organics of California, LLC, which includes the operation of our Gonzales, California facility. The third operating subsidiary is Converted Organics of Mississippi, LLC (“Converted Organics of Mississippi”), a Mississippi limited liability company, established for the purpose of adding a poultry litter-based fertilizer product to the Company’s existing product lines. On May 20, 2010, the Company formed TerraSphere Inc. (“TerraSphere Inc”), a Delaware corporation, to acquire TerraSphere Systems LLC, subject to approval of our shareholders at a special meeting to be held on August 31, 2010. The 92.5% owned subsidiary is Converted Organics of Rhode Island, LLC (“Converted Organics of RI”), which currently has no operating activity. On February 25, 2010, the Company signed a letter of intent with the non-controlling member in Converted Organics of RI to sell substantially all of the assets and a limited select amount of liabilities of Converted Organics of RI. We construct and operate processing facilities that use food waste as raw material to manufacture all-natural fertilizer and soil amendment products combining nutritional and disease suppression characteristics. In addition, we have sales of a poultry litter based fertilizer product. We have current sales in the agribusiness, retail and turf management markets. We also hope to achieve additional revenue by licensing the use of our technology to others.

Converted Organics of California, LLC — Gonzales Facility

The Gonzales facility is a state-of-the-art production facility that services a strong West Coast agribusiness customer base through established distribution channels. This facility uses our proprietary technology and process known as the High Temperature Liquid Composting, or HTLC, system, which processes various biodegradable waste products into liquid and solid food waste-based fertilizer and feed products.

The Gonzales facility began to generate positive cash flow in June 2009 and has continued to through June 2010. In the six month period ending June 30, 2010, the Gonzales facility generated revenues of \$1,722,000 and a positive gross margin of \$422,000, or 25% (based on no allocation of corporate overhead). We plan to continue to improve this operating margin by channeling sales into the turf and retail markets, by generating tip fees from receiving additional quantities of food processing waste and by reducing the amount of raw material and freight costs currently associated with the production process. We estimate that the plant in its current configuration, and based on current market prices, has the capacity to generate monthly sales in the range of \$350,000 to \$400,000. In addition, we have plans to add capacity to the Gonzales plant, whereby the plant will be able to produce approximately three times its current production and will be capable of producing both liquid and solid products. We have completed certain aspects of the planned upgrades which allow us to receive solid food waste for processing but have delayed the upgrades which would allow us to produce dry product. The remaining upgrades have been delayed due to a lack in market demand for a dry product within the area the Gonzales facility serves. Because we will have to obtain the proper building permits for continued expansion, further development of the Gonzales facility will be delayed until further market research is completed and those permits are obtained.

Converted Organics of Woodbridge, LLC — Woodbridge Facility

The Woodbridge facility is our first internally constructed waste conversion facility. We have the ability to produce both liquid and dry product at the facility. We have two revenue streams: (1) tip fees that in our potential markets range from \$25 to \$80 per ton, and (2) product sales. Tip fees are paid to us to receive the food waste stream from waste haulers; the hauler pays us, instead of a landfill, to take the waste. If the haulers source, separate and pay in advance, they are charged tip fees that are up to 20% below

Table of Contents

market. In the first six months of 2010, we recorded tip fees and product sales revenue of approximately \$728,000. During the first six months of 2010, we generated revenue from this facility in the form of tip fees of approximately \$70,000 and product sales of approximately \$658,000. In order for this facility to be cash flow positive, we estimate that sales would need to be in a range of \$450,000 to \$550,000 per month. We estimate that the product can be sold in the range of \$400 to \$700 per ton based on the market to which it is sold. Based on the above, we would have to produce and sell approximately 45-55% of the capacity of the Woodbridge facility to be cash flow positive. As of the date of filing, we have not achieved 45-55% of capacity and therefore, have begun implementing a plan to reduce costs and restructure the debt of the Woodbridge facility. See the Liquidity and Capital Resources section for more information.

Converted Organics of Mississippi, LLC

On January 26, 2010, the Company formed Converted Organics of Mississippi, LLC, a Mississippi limited liability company and a wholly owned subsidiary of the Company, for the purpose of adding a poultry litter-based fertilizer product to our existing product lines. The Company has outsourced production of this new product line. From the date of inception through June 30, 2010, Converted Organics of Mississippi, LLC recorded product sales revenue of approximately \$235,000. To date, the sales of this product have not met our original estimates and we are evaluating the continuation of this product line.

TerraSphere Inc.

On May 20, 2010, the Company formed TerraSphere Inc., a Delaware corporation and a wholly owned subsidiary of the Company, for the purpose of acquiring TerraSphere Systems LLC (“TerraSphere”). On July 6, 2010, a membership interest purchase agreement was entered into by the Company, TerraSphere Inc., TerraSphere and the members of TerraSphere, pursuant to which the Company agreed to acquire 100% of the membership interest of TerraSphere. The maximum total purchase price for TerraSphere is estimated to be \$25,830,000, which includes earn-out payments of up to \$11,040,000, payable solely in shares of the Company’s common stock valued at \$0.756 per share. Pursuant to the purchase agreement, if the acquisition is approved by the Company’s stockholders, the Company will issue up to 34,166,667 shares of its common stock to the members of TerraSphere in exchange for 100% of the units of TerraSphere, subject to certain anti-dilution adjustments. Of these shares, 19,563,492 shares will be issued at the closing of the acquisition, and the remainder of the shares will be issued if TerraSphere achieves certain milestones. Upon completion of the proposed acquisition, TerraSphere would become a wholly-owned subsidiary of the Company. TerraSphere designs, builds and operates highly efficient and scalable systems, featuring a patented, proprietary technology that utilizes vertically-stacked modules to house rows of plants, which are then placed perpendicular to an interior light source to grow pesticide-free, organic fruits and vegetables. Due to a controlled, indoor environment, the system generates fresh produce year-round in any location or climate world-wide. We believe the acquisition of TerraSphere will expand our portfolio of sustainable, environmentally-friendly businesses, and will provide us with an immediate revenue stream.

Industrial Wastewater Resources Division

On March 23, 2010, we entered into a loan and license agreement with Heartland Technology Partners, LLC (“HTP”). The loan agreement requires the Company to advance \$500,000 to HTP in three monthly installments that commenced upon signing of the loan. The outstanding principal balance of the loan is due if either a change of control of HTP or the completion by HTP of a financing in excess of \$10 million occurs on or before June 30, 2012. In consideration for entering the loan agreement, the Company was granted an exclusive, irrevocable license to utilize HTP’s patented LM-HT™ Concentrator technology in the U.S. industrial wastewater (IWW) market. The IWW market involves the treatment of waters that have been contaminated by anthropogenic industrial or commercial activities, prior to their reuse or release into the environment. A breakthrough wastewater treatment process, the LM-HT™ Concentrator reduces carbon emissions compared to traditional technologies by using waste heat and renewable energy as thermal fuel. In addition, we have hired a senior executive in the waste water processing industry and have begun to develop plans to operate our Industrial Wastewater Resources division. On July 30, 2010, we signed a letter of intent with Spirit Services, Inc. to jointly develop an energy and IWW treatment facility using our exclusively licensed technology to evaporate IWW at a facility in South Boston, Virginia.

Recent Financing Activities

On April 20, 2010, we entered into an agreement with a single institutional investor, pursuant to which we issued to the investor: (a) 2,400,000 shares of common stock and (b) a five-year warrant to purchase 1,163,362 shares of common stock at an exercise price of \$1.06 per share. The warrant may be exercised at any time on or following a date one year after the date of issuance and expires

Table of Contents

five years from the date of issuance. The transaction closed on April 22, 2010 and provided the Company with net proceeds of approximately \$2.4 million.

Future Development

Our long-term strategic plan calls for growth of our organic fertilizer business as well as expansion of our portfolio of sustainable, environmentally-friendly businesses. To grow our existing fertilizer business, we plan to develop and license additional organic fertilizer manufacturing facilities and expand the capacity of our Gonzales facility. In connection with the plan for additional facilities, we have completed preliminary work aimed at establishing facilities in Massachusetts, where we have performed initial development work in connection with construction of three manufacturing facilities to serve the eastern Massachusetts market. Two of our proposals to develop facilities are currently under review by the property owners. The third proposal has evolved into the MassOrganics I transaction described below. The Massachusetts Strategic Envirotechnology Partnership Program has completed a review of our technology. In connection with our plan to expand the capacity of our Gonzales facility, we plan to increase production to approximately three times the facility's current production and to expand the capability of the plant to have the ability to produce both liquid and solid products.

We also plan to strengthen our green technology portfolio by completing the TerraSphere acquisition and growing our Industrial Wastewater Resources Division. Through the TerraSphere acquisition, we will expand our business into the market of building highly efficient systems for growing pesticide-free, organics fruits and vegetables in controlled indoor environments. TerraSphere will provide us with an immediate revenue stream and its clean technology helps to promote the sustainable consumption of natural resources by accelerating plan production and maximizing crop yields, while improving environmental footprints through the reduction of carbon emissions and fuel use associated with traditional crop production and distribution. Also, we will continue to grow our Industrial Wastewater Resources Division by working to form industry and/or project-based partnerships that utilize our exclusively licensed technology to treat industrial wastewaters.

In addition to the above listed growth opportunities, we have also initiated a restructuring plan for the Woodbridge facility under which we are working with creditors to restructure or eliminate debt and lease payments to reduce costs associated with that facility. As a result of this restructuring plan, we hope to evaluate the revised cost structure and projected revenue from the Woodbridge facility. As of the date of this report, we have not completed that evaluation, however plan to continue with it in order to determine the extent of savings available to us from this restructuring.

We have developed smaller capacity operating units, namely the Scalable Modular AeRobic Technology (SMART) units, that are suitable for processing 5 to 50 tons of waste per day, depending on owner/user preference. The semi-portable units are capable of operating indoors or outdoors and may be as sophisticated or as basic in design and function as the owner/user requires. The SMART units will be delivered to jobsites in pre-assembled, pre-tested components, and will include a license to use the HTLC technology. Our target market is users who seek to address waste problems on a smaller scale than would be addressed by a large processing facility. Our plan contemplates that purchasers of the SMART units would receive tip fees for accepting waste and would sell fertilizer and soil amendment products in the markets where their units operate. We plan to market and sell the SMART units in both the United States and abroad.

We have also begun the development of a licensing program, under which we will license to third parties, the right to use our proprietary technology. The licensing program consists of a know-how license, which could be complemented with SMART unit sales so that any individual or entity buying a SMART unit would also receive a license agreement to use our technology. We are working to patent our process and technology and anticipate that we will expand upon the licensing program when the necessary patent registrations are achieved. We are currently in negotiations with MassOrganics I, LLC ("MassOrganics I") regarding the use of Converted Organics' proprietary technology for the manufacture of organic fertilizer products. On January 25, 2010, we signed a memorandum of understanding under which MassOrganics I would install and operate the system at a new manufacturing facility to be constructed at The Sutton Commerce Park in Sutton, Massachusetts. MassOrganics I has agreed to enter into a licensing agreement under which MassOrganics I will pay a licensing fee to Converted Organics.

Trends and Uncertainties Affecting our Operations

We are subject to a number of factors that may affect our operations and financial performance. These factors include, but are not limited to, the available supply and price of organic food waste, the market for liquid and solid organic fertilizer, increasing energy costs, the unpredictable cost of compliance with environmental and other government regulation, and the time and cost of obtaining USDA, state or other product labeling designations. Demand for organic fertilizer and the resulting prices customers are willing to pay also may not be as high as our market studies suggest. In addition, supply of organic fertilizer products from the use of other

Table of Contents

technologies or other competitors may adversely affect our selling prices and consequently our overall profitability. Furthermore our plan calls for raising additional debt and/or equity financing to construct additional operating facilities. Currently there has been a slowdown in lending in both the equity and bond markets which may hinder our ability to raise the required funds.

Liquidity and Capital Resources

At June 30, 2010, we had total current assets of approximately \$5.3 million consisting primarily of cash, accounts receivable, inventories and prepaid assets, and had current liabilities of approximately \$5.8 million, consisting primarily of accounts payable, accrued expenses and notes payable, leaving us with a negative working capital of approximately \$500,000. Non-current assets totaled \$22.4 million and consisted primarily of property and equipment, intangible assets and deposits. Non-current liabilities of approximately \$19.7 million consist primarily of bonds payable of \$17.5 million and a \$2.1 million derivative liability. We have an accumulated deficit at June 30, 2010 of approximately \$59.6 million. Shareholders' equity at June 30, 2010 was approximately \$2.2 million.

During the six month period ended June 30, 2010, we used approximately \$8.7 million in cash on hand. The significant cash expenditures during the first six months of 2010 were as follows:

\$1,435,000	to fund future revenue generating activities, including the purchase of chicken litter-based fertilizer product (\$615,000), a deposit for a license to treat Industrial Wastewater (\$500,000) and to fund capital equipment purchases (\$320,000).
\$1,400,000	to repay debt principal and interest on term notes.
\$1,400,000	to reduce accounts payable and accruals.
\$4,465,000	to fund ongoing operations during the first six months of 2010, including \$600,000 of marketing costs to implement a formal marketing program.

On July 30, 2010 we announced that we reduced our work force by 50% which included employees at the corporate level and the Woodbridge facility. We expect those salary reductions to save approximately \$2.1 million over the next twelve months. In addition, we are working with creditors to restructure or eliminate debt and lease payments to reduce costs as much as possible in order to evaluate the revised cost structure and projected revenue from the Woodbridge facility. We have not completed that evaluation and therefore have not determined the extent of savings available to us from this restructuring. To facilitate the evaluation, we have temporarily halted production at our Woodbridge facility until we complete the evaluation. As of the date of filing this report, we have been granted forbearance of principal payments on certain contractor notes payable, but have not reached agreement with the holder of the New Jersey Economic Development Bonds and we have not made approximately \$234,000 of required interest payments on that debt. In addition, we did not make certain payments on our lease obligations to the Woodbridge facility landlord.

We currently have manufacturing capabilities at our Gonzales facility. The Gonzales facility is cash flow positive and has additional production capacity. We are focusing our current sales efforts on taking advantage of the additional production capacity. Previously, we estimated our negative cash flow requirements on a monthly basis were approximately \$400,000 at the corporate level and \$500,000 for Woodbridge. We estimate that the current cost reduction efforts will lower the monthly cash flow requirements at the corporate level to \$200,000. We do not have a final estimate on the revised cash flow requirements for the Woodbridge facility and will not have such until the current restructure negotiations are completed. If we are unable to increase sales levels at Gonzales and if the current plans to restructure certain costs and expenses are not successful, then we will need to seek additional financing.

On July 6, 2010 we reached an agreement to acquire TerraSphere Systems LLC. The transaction is subject to approval by our shareholder's at a meeting currently scheduled for August 31, 2010. If the transaction is approved and if all the closing conditions are met, including a condition that we renegotiate the terms of our debt obligations in connection with the operations in New Jersey, then we anticipate there will be cash available to the company from the acquired entity. The amount of cash that will be available is uncertain. However, any amount available to the company would reduce any amounts that otherwise may be needed to be raised through a financing.

On April 20, 2010, we raised net proceeds of \$2.4 million by through the issuance of (a) 2,400,000 shares of common stock and (b) a five-year warrant to purchase 1,163,362 shares of common stock at an exercise price of \$1.06 per share. We previously disclosed

Table of Contents

that we believed the funds received through our secondary public offering of 17,250,000 units which raised \$16.4 million after expenses and the April 2010 financing would be sufficient to operate our current business until we were cash flow positive assuming we achieved our desired production capacity and sales levels and assuming we did not encounter additional costs or expenses, either unforeseen or through any proposed mergers and/or acquisitions. To date, we have not achieved the desired sales levels relating to the liquid product produced at our Woodbridge facility and the chicken litter based fertilizer product that we contracted to sell. Therefore, we may require additional financing prior to achieving cash flow from operations for which we have no commitments. On July 2, 2010, we filed a registration statement on Form S-3 to register \$75,000,000 of our common stock, which was declared effective on July 15, 2010. There is no assurance that capital in any form would be available to us, and if available, on terms and conditions that are acceptable. Moreover, we are not permitted to borrow any future funds unless we obtain the consent of the holders of the New Jersey Economic Development Authority bonds. We have obtained such consent for prior financing, but there is no guarantee that we can obtain such consent in the future.

Results of Operations

Sales

The Company's sales increased \$834,000 or 84%, and \$1,201,000 or 81% for the three and six month periods ended June 30, 2010, respectively, compared to the same periods ended June 30, 2009. The Company attributes its significant growth to the Company's targeted marketing efforts, and to the increasing recognition nationwide regarding the importance of using organic fertilizer products for lawncare, professional turf, and agricultural applications.

The Company's sales by location were as follows:

Location	For the three months ended June 30			For the six months ended June 30		
	2010	2009	Change	2010	2009	Change
Gonzales, CA	\$1,127,000	\$809,000	\$318,000	\$1,722,000	\$1,079,000	\$615,000
Woodbridge, NJ	580,000	155,000	425,000	728,000	377,000	351,000
Mississippi	118,000	n/a	118,000	235,000	n/a	235,000

Sales at the Gonzales facility increased \$318,000 or 39% and \$615,000 or 57% for the three and six month periods ended June 30, 2010 compared to the same periods ended June 30, 2009.

Sales at the Woodbridge facility increased \$425,000 or 274% and \$351,000 or 93% for the three and six month periods ended June 30, 2010 compared to the same periods ended June 30, 2009.

Since its inception on January 26, 2010, Mississippi has generated sales of \$235,000.

Cost of Sales

For the three and six month periods ended June 30, 2010 cost of goods sold increased approximately \$1.1 million and \$1.4 million, respectively, compared to the same periods in 2009.

The Company's cost of goods sold by location were as follows:

Location	For the three months ended June 30			For the six months ended June 30		
	2010	2009	Change	2010	2009	Change
Gonzales, CA	\$ 801,000	\$ 741,000	\$ 60,000	\$1,299,000	\$1,156,000	\$ 143,000
Woodbridge, NJ	2,367,000	1,336,000	1,031,000	3,768,000	2,592,000	1,176,000
Mississippi	71,000	n/a	71,000	138,000	n/a	138,000

Cost of goods sold at the Gonzales facility increased 8% and 12% for the three and six month periods ended June 30, 2010 compared to the same periods ended June 30, 2009 due to an increase in raw materials used to meet increase sales demand while the current level of fixed costs remained relatively unchanged. The Gonzales facility generated a 25% gross margin for the six months ended June 30, 2010 compared to a negative gross margin in the same period in 2009.

Cost of goods sold at the Woodbridge facility increased \$1,031,000 or 77% and \$1,176,000 or 45% for three and six month periods ended June 30, 2010 compared to the same periods ended June 30, 2009 due to assets placed in service and depreciated and an

Table of Contents

increase in waste disposal costs due to an increase in sales and higher waste disposal charges. The Woodbridge facility continues to generate a negative gross margin due to sales not meeting the volume required to cover all fixed costs associated with the facility.

Mississippi generated a gross margin of 42% on sales of \$235,000 for the six months ended June 30, 2010.

General and Administrative Expenses

General and Administrative expenses for the three month periods ended June 30, 2010 and 2009 remained flat. The approximately \$2.4 million increase in general and administrative expenses for the six months ended June 30, 2010 compared to the same period in 2009 is composed of increases related to compensation expense related to the issuance of stock options and restricted shares of \$1.4 million along with an increase in marketing costs of approximately \$600,000.

Interest Expense

Interest expense decreased approximately \$1.7 million or 82% and \$3.2 million or 80% for the three and six month periods ended June 30, 2010, respectively, compared to the same periods ended June 30, 2009. The increases in 2009 were due to interest expense associated with the issuance of warrants and interest recognized in connection with borrowing transactions, primarily non-cash items. The interest expense for the three and six month periods ended June 30, 2010 was primarily the interest on the NJ EDA bonds.

Derivative gain (loss)

We recognized derivative gains of approximately \$1,134,000 and \$499,000 in the three and six month periods ended June 30, 2010, respectively. These gains are non-cash in nature and represent mark-to-market adjustments due to changes in fair value.

Critical Accounting Policies

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the consolidated financial statements. Actual results could differ from those estimates.

Accounts Receivables

Accounts receivable represents balances due from customers, net of applicable reserves for doubtful accounts. In determining the need for an allowance, objective evidence that a single receivable is uncollectible, as well as historical collection patterns for accounts receivable are considered at each balance sheet date.

Inventories

Inventories are valued at the lower of cost or market, with cost determined by the first in, first out basis. Inventories consist primarily of raw materials and finished goods, which consist of soil amendment products. Inventory balances are presented net of applicable reserves.

Intangible Assets

The Company accounts for its intangible assets in accordance with ASC section 350. The standard requires that intangible assets with finite lives, such as the Company's license, be capitalized and amortized over their respective estimated lives and reviewed for impairment whenever events or other changes in circumstances indicate that the carrying amount may not be recoverable.

Derivative Instruments

The Company accounts for derivative instruments in accordance with ASC 815, which establishes accounting and reporting standards for derivative instruments and hedging activities, including certain derivative instruments embedded in other financial instruments or contracts and requires recognition of all derivatives on the balance sheet at fair value, regardless of the hedging relationship designation. Accounting for changes in the fair value of the derivative instruments depends on whether the derivatives qualify as hedge relationships and the types of relationships designated are based on the exposures hedged.

Revenue Recognition

Table of Contents

Revenue is recognized when each of the following criteria is met: persuasive evidence of a sales arrangement exists; delivery of the product has occurred; the sales price is fixed or determinable, and collectability is reasonably assured. In those cases where all four criteria are not met, the Company defers recognition of revenue until the period these criteria are satisfied. Revenue is generally recognized upon shipment.

Share Based Compensation

The Company accounts for share based compensation paid to employees in accordance with ASC 718. Under the provisions of the guidance, share-based compensation issued to employees is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the requisite service period (generally the vesting period of the grant). The Company accounts for share based compensation issued to non-employees in accordance with ASC 505. Under the provisions of the guidance, such compensation is measured at the grant date, based on the fair value of the equity instruments issued and is recognized as an expense over the requisite service period.

Off-Balance Sheet Transactions

We do not engage in material off-balance sheet transactions.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4. Controls and Procedures

Under the supervision, and with the participation of our management, including the Principal Executive Officer and Principal Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rules 13a-15 and 15d-15 as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that these disclosure controls and procedures were effective such that the material information required to be filed in our SEC reports is recorded, processed, summarized and reported within the required time periods specified in the SEC rules and forms. This conclusion was based on the fact that the business operations to date have been limited and the Principal Executive Officer and Principal Financial Officer have had complete access to all records and financial information.

There were no changes in our internal control over financial reporting during the six months ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Potential investors should be aware that the design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of future events. There can be no assurance that any system of controls and procedures will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings

On December 11, 2008, we received notice that a complaint had been filed in a putative class action lawsuit on behalf of 59 persons or entities that purchased units pursuant to a financing terms agreement, or FTA, dated April 11, 2006, captioned Gerald S. Leeseberg, et al. v. Converted Organics, Inc., filed in the U.S. District Court for the District of Delaware. The lawsuit alleges breach of contract, conversion, unjust enrichment, and breach of the implied covenant of good faith in connection with the alleged failure to register certain securities issued in the FTA, and the redemption of our Class A warrants in November 2008. The lawsuit seeks damages related to the failure to register certain securities, including alleged late fee payments, of approximately \$5.25 million, and unspecified damages related to the redemption of the Class A warrants. In February 2009, we filed a Motion for Partial Dismissal of Complaint. On October 7, 2009, the Court concluded that Leeseberg has properly stated a claim for actual damages resulting from our alleged breach of contract, but that Leeseberg has failed to state claims for conversion, unjust enrichment and breach of the implied covenant of good faith, and the Court dismissed such claims. On November 6, 2009, we filed our answer to the Complaint with the Court. On March 4, 2010, the parties participated in a conference, and began discussing discovery issues. Plaintiff filed a Motion for Class Certification on June 22, 2010, which is pending before the District Court. A jury trial has been set for May 17, 2011. We plan to vigorously defend this matter and are unable to estimate any contingent losses that may or may not be incurred as a result of this litigation and its eventual disposition. Accordingly, no contingent loss has been recorded related to this matter.

Table of Contents

Related to the above matter, in December 2009, we filed a complaint in the Superior Court of Massachusetts for the County of Suffolk, captioned *Converted Organics Inc. v. Holland & Knight LLP*. We claim that in the event we are required to pay any monies to Mr. Leeseberg and his proposed class in the matter of *Gerald S. Leeseberg, et al. v. Converted Organics, Inc.*, that Holland & Knight should make us whole, because its handling of the registration of the securities at issue in the Leeseberg lawsuit caused any loss that Mr. Leeseberg and other putative class members claim to have suffered. Holland & Knight has not yet responded to the complaint. It has threatened to bring counterclaims against *Converted Organics* for legal fees allegedly owed, which we would contest vigorously. On May 12, 2010, the Superior Court stayed the proceedings, pending resolution of the *Leeseberg* litigation. At this early stage in the case, we are unable to predict the likelihood of an unfavorable outcome, or to estimate the amount or range of potential loss.

On May 19, 2009, we received notice that a complaint had been filed in the Middlesex County Superior Court of New Jersey, captioned *Lefcourt Associates, Ltd. v. Converted Organics of Woodbridge, et al.* The lawsuit alleged private and public nuisances, negligence, continuing trespasses and consumer common-law fraud in connection with the odors emanating from our Woodbridge facility and our alleged, intentional failure to disclose to adjacent property owners the possibility of our facility causing pollution and was later amended to allege adverse possession, acquiescence and easement. The lawsuit sought enjoinder of any and all operations which in any way cause or contribute to the alleged pollution, compensatory and punitive damages, counsel fees and costs of suit and any and all other relief the Court deems equitable and just. On April 12, 2010, the Middlesex County Superior Court of New Jersey issued an administrative order settlement dismissing without prejudice the matter of *Lefcourt Associates, Ltd. v. Converted Organics of Woodbridge, et al.* On June 8, 2010, *Lefcourt Associates, Ltd* re-filed their lawsuit but before a different court, the Chancery Division in Bergen County. We have filed a motion to transfer the action back to the original court in Middlesex County and will seek to have the lawsuit dismissed.

On July 28, 2010 we received notice that a complaint had been filed in the District Court, Third Division, State of Rhode Island and Providence Plantations captioned *Rhode Island Resource Recovery Corporation v. Converted Organics Inc.* The lawsuit alleged nonpayment of rent under a Ground Lease between the parties dated September 1, 2008. The lawsuit sought eviction and the grant of possession to the Plaintiff, the payment of back rent in the sum of \$55,000.02, the payment of aggregate late charges of \$1,200.00, the payment of all other sums due and owing pursuant to the Ground Lease including interest, costs and attorney's fees and such other relief as the Court may deem just and proper. We have twenty days to provide an answer to the complaint. We plan to vigorously defend this matter. No loss has been recorded related to this matter.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

During the first quarter 2010, we issued 165,000 unregistered shares of common stock to New Castle Consulting, LLC for consulting services with regard to investor relations. This transaction was exempt from the registration requirement of the Securities Act of 1933, as amended (the "1933 Act"), pursuant to Section 4(2) under the 1933 Act, as the recipient is an "accredited investor" as defined in the 1933 Act.

Item 3. Defaults upon Senior Securities

None.

Item 4. [Removed and Reserved]

Item 5. Other Information.

None.

Item 6. Exhibits

CERTIFICATIONS

I, Edward J. Gildea, certify that:

1. I have reviewed the quarterly report on Form 10-Q for the period ended June 30, 2010 of Converted Organics Inc.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal controls over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 906
OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Converted Organics Inc. (the "Company") on Form 10-Q for the period ended June 30, 2010 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Edward J. Gildea, Chief Executive Officer and President of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- 1) The Report fully complies with the requirement of Section 13(a) or 15 (d) of the Securities Exchange Act of 1934; and
- 2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company as of the dates and for the periods expressed in the Report.

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 906
OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of Converted Organics Inc. (the "Company") on Form 10-Q for the period ended June 30, 2010 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, David R. Allen, Chief Financial Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that to my knowledge:

- 1) The Report fully complies with the requirement of Section 13(a) or 15 (d) of the Securities Exchange Act of 1934; and
- 2) The information contained in the Report fairly presents, in all material respects, the financial condition and result of operations of the Company as of the dates and for the periods expressed in the Report.
