"We are very appreciative of the continued support of our long-term financial partners," commented Thomas J. Frank, Sr., the Company's Chairman and CEO. "We believe this renewal and our recent completion of the asset based loan facility are recognition by the banking community of the strength, performance, and growth opportunities of our Company."

The Company also sells lawn and garden products, furniture and mattresses, and continues to introduce additional product categories for the home to help respond to its customers' product needs and to increase same store sales.

Unlike many of its competitors, the Company provides flexible in-house credit options for its customers. In the last three years, the Company has financed, on average, approximately 59% of its retail sales. Customer receivables are financed substantially through an asset-backed securitization facility, from which the Company derives servicing fee income and interest income. The Company transfers receivables, consisting of retail installment contracts and revolving accounts extended to its customers, to a qualifying special purpose entity (QSPE) in exchange for cash and subordinated securities. The QSPE funds its purchases of the receivables through the issuance of medium-term and variable funding notes issued to third parties and secured by the receivables, and subordinated securities issued to the Company. In August 2008, the Company entered into an asset based loan agreement to provide financing for a portion of its receivables. Receivables financed by this facility and amounts borrowed under the facility will be carried on the Company's balance sheet.
