

## **Compuware Vantage and Gomez Help NHL.com Deliver Peak Application Performance to Millions of Hockey Fans Worldwide**

### **NHL Takes Center Stage at Gartner Data Center Conference to Discuss Best Practices to Optimize Application Performance Across the Enterprise and Internet**

LAS VEGAS, Dec. 1, 2009 (GLOBE NEWSWIRE) -- Compuware Corporation (Nasdaq:CPWR) today announced that the National Hockey League(R) (NHL) will discuss how Compuware's end-to-end [application performance management](#) is helping to deliver peak application performance to millions of NHL(R) hockey fans worldwide. The presentation will take place at the Gartner Data Center Conference in Las Vegas on December 2, 2009, at 1:45 p.m PT. The session, titled: "[Learn How NHL.com Delivers Peak Performance for Hockey Fans.](#)" will highlight how the NHL achieves outstanding performance of critical applications across the Enterprise and Internet using [Compuware Vantage and Gomez solutions](#).

Each month, the NHL averages more than 10 million unique visitors to NHL.com and more than 18 million visitors to the NHL.com Network, which includes Club sites. Monitoring the response time of the online fan experience plays a critical role in preventing performance problems from happening. Peter DelGiaccio, NHL Executive Vice President and Chief Technology Officer, will discuss best practices to manage and achieve application performance, as well as the benefits of having a true end-to-end application performance management solution that spans the Enterprise and the Internet with Compuware Vantage and Gomez.

"NHL fans expect peak performance, whether on the ice or at NHL.com, so we want to make sure their online experience is flawless and problem-free," said DelGiaccio. "Together, Compuware Vantage and Gomez give my IT team insight into fans' online experience and provide a unified view of application performance across the Enterprise and Internet. I look forward to sharing this story with my peers at the Gartner Data Center Conference."

Compuware will also exhibit at the Gartner Data Center Conference (booth # O) and will demonstrate Compuware Vantage and Gomez solutions.

Compuware Vantage provides end-to-end management of application performance to ensure problems are detected proactively and solved quickly and efficiently, and IT service delivery is aligned with business needs. Compuware Vantage is the market's only [IT service management](#) solution that integrates [end-user experience monitoring](#), [application performance management](#) and [business service management](#) into a single offering.

Gomez, the Web performance division of Compuware, provides the industry's leading solutions for optimizing the performance, availability, and quality of Web and mobile applications. The on-demand Gomez platform integrates solutions for Web load testing, Web performance management, Web cross-browser testing, and Web performance business analysis that test and measure Web and mobile applications from the "outside-in" -- across all users, browsers, devices, and geographies -- using a global network of over 100,000 locations. When combined with Compuware Vantage, Gomez offers the industry's only solution for optimizing application performance across the Enterprise and the Internet. Over 2,500 customers worldwide, ranging from small companies to large enterprises -- including 12 of the top 20 most visited US Web sites -- use Gomez solutions to increase revenue, build brand loyalty, and decrease costs.
