Compuware Presents Live Webcast Featuring Independent Research Firm: "Speed Your Apps Launch to Market: Learn Six Best Practices for DevOps"

Webcast to Detail Best Practices to Help Organizations Deliver Successful DevOps Models

DETROIT, Oct. 25, 2011 (GLOBE NEWSWIRE) -- Compuware Corporation (Nasdaq:CPWR), the technology performance company, today announced a live webcast featuring Forrester Research, Inc. that will highlight six best practices to help organizations deliver successful DevOps models.

Title:	"Speed Your Apps Launch to Market: Learn Six Best Practices for DevOps"
When:	Thursday, October 27, 2011
Time:	1 p.m. Eastern time
Presenters:	Glenn O'Donnell, Senior Analyst, Forrester Research; Alois Reitbauer, Technology Strategist, Compuware dynaTrace
Why:	Today's pace of business and competitive pressures are driving organizations to constantly release new applications and features. Organizations are embracing the concept of DevOps to enable apps to be designed, developed and deployed more quickly, at lower cost and with fewer problems. New technology and best practices can help propel organizations toward a successful DevOps model.
What:	During this free webcast, attendees will learn:
	· Six Steps IT Ops Can Take To Build A Tighter Relationship With Development Groups;
	· How to identify hidden dependencies and unforeseen risks; and
	· Overview of current and future tools used in DevOps environments.

Register Here: http://bit.ly/qZOMIE

Attendees who register today will receive a complimentary copy of the Forrester report: *"Improving the Ops in DevOps."* This 11-page report, co-authored by Glenn O'Donnell, outlines the six steps enterprises can take to improve DevOps collaboration.

The Compuware Gomez platform is the industry's leading solution for optimizing the performance of Web, non-Web, mobile, streaming and cloud applications. Driven by end-user experience, Gomez provides a unified view across the entire application delivery chain, from a user's browser or mobile device, across the Internet or a corporate WAN, in the cloud, to inside the data center, eliminating blind spots from the First Mile to the Last Mile.

About dynaTrace software

dynaTrace, a division of Compuware, is the new leader in application performance management (APM). With its patented PurePath Technology, the company offers the only continuous APM system on the market, transforming how applications are monitored, managed and optimized. Hundreds of companies including Zappos, Macy's, BBVA and Thomson Reuters rely on dynaTrace to drive better business results by optimizing performance, accelerating release cycles, reducing application management costs, and bringing business and IT closer together. Visit dynaTrace online at http://www.dynatrace.com.

Compuware is recognized as a leader in Gartner Inc.'s *"Magic Quadrant for Application Performance Monitoring"* report. To view and download a complimentary copy of the report, click here.
