## Constant Contact Introduces EventSpot

***Rebranded event management product features integration with ProPay to enable online and mobile credit card payment***

WALTHAM, Mass.--(BUSINESS WIRE)-- [Constant Contact®, Inc.](#) (NASDAQ: CTCT) has renamed the latest version of its event management product [EventSpot from Contact Contact](#). Affordable and easy-to-use, EventSpot's focus remains on helping small businesses, nonprofits and associations hold successful events — starting with event promotion, through the event itself, and beyond. The product also now integrates with [ProPay](#) to enable online mobile credit card payment.

"EventSpot is designed to help small businesses and nonprofits planning events more effectively promote their events and more efficiently capture and track event registration," said Christopher M. Litster, vice president and general manager of EventSpot at Constant Contact. "Our event management product continues to provide small businesses and organizations who hold events with a comprehensive online tool, encompassing everything from event promotion, to robust registration and web-based meeting tools, to analytics and post-event communication. The new name reflects the true value that Constant Contact brings to the table: EventSpot is a one-stop, online shop for the small businesses and organizations that meets their marketing and management needs before, during and after their events."

A new integration with [ProPay](#), a payment solutions provider, will give EventSpot customers access to new credit card payment options for registrants. The ProPay integration will offer an all-in-one merchant account and payment gateway service built specifically for small businesses. EventSpot customers will be able to accept credit card payments from event registrants through their merchant accounts and [Authorize.net](#) (the most requested payment gateway) seamlessly from within EventSpot, enabling the direct payment of event fees to their account. Registrants will be able to sign up for events from the registration page and pay with a credit card, without being redirected to other sites to make payments. Both planners and registrants will benefit from ProPay's industry-leading merchant compliance and risk features.
