Cavanaugh's Hospitality Corporation Announces Agreement With Wizcom International, Ltd.

SPOKANE, WA -- Cavanaugh's Hospitality Corporation (NYSE:CVH), a lodging, entertainment and management services company, today announced an agreement with WizCom International, Ltd. ("WizCom") that will provide Cavanaugh's with Global Distribution System (GDS) connectivity solutions. WizCom's Wisdom® GDS switching technology will broaden the distribution reach of Cavanaugh's by offering interactive, Type A processing, seamless connectivity, online rate updates and availability processing to travel agents and users worldwide. Previously unavailable, Internet users will now be able to query for room type availability and receive an answer in seconds. The customer then can purchase that room online and receive a confirmation of their order, also within seconds. This service is expected to go live this summer and will be available through the TicketsWest.com website. TicketsWest.com is a division of Cavanaugh's Hospitality Corporation and provides seamless transactions for ticket purchases to entertainment events and other leisure services. The Internet site was launched on May 7. Cavanaugh's previously announced the acquisition of software for real-time ticketing solutions that is currently being used on the site.

"We currently are accessing two GDS's by allocating blocks of rooms which travel agents can access and book," said John Taffin, Vice President of Hotel Operations, Cavanaugh's Hospitality Corporation. "Confirmations for these bookings are not seamless and take much longer to confirm, which of course is not as desirable of a system for travel agents. With this new technology we will be adding two additional GDS's, with all four operating in real-time, and be able to allow both travel agents and individual Internet users to book rooms online and immediately know that they have a confirmation on a booking for a specific type of room."

"This will increase our ability, combined with our newly launched TicketsWest.com website, to serve our customer with entertainment and lodging accommodations in real-time from one Internet location," added Jack Lucas, Vice President of Entertainment Services, Cavanaugh's Hospitality Corporation. "Our products will be more visible and easier to access than ever before. We are entering an age where having an internet presence will be essential and that internet strategy must also be in a quick and easy to use format. That is what we are providing through TicketsWest.com. WizCom has all of the qualities we were looking for in a provider of technology solutions - quality, dependability and innovation. We want to have access to the best hospitality products and services in the industry that will allow us to continue to grow in our markets. As the original developer of the GDS switch and seamless technology, WizCom's proven transactions processing and connectivity enables us to expand our strong market position and better meet the needs of our customers."

"The agreement with Cavanaugh's further proves our commitment to offering our customers flexible solutions that help them grow and manage their businesses," said Flo Lugli, president of WizCom. "Having access to WizCom's switch technology gives customers a competitive edge in the hotel and hospitality industries. WizCom offers customers access to the best distribution technology available today and helps them manage the distribution challenges they will face tomorrow."

WizCom International, Ltd., a wholly owned subsidiary of Cendant Corporation, was founded in 1987 and has provided its proven GDS and Internet connectivity and transactions processing to the hotel and auto rental industries for over ten years. WizCom processes GDS reservation services for more than 90 hotel companies and over 25 rental firms.

Cavanaugh's Hospitality Corporation serves the Northwest with 3,933 full-service hotel rooms in 19 hotels, including 47 restaurants and lounges and 196,900 square feet of meeting space. Cavanaugh's provides entertainment services through TicketsWest.com, which encompasses G&B Select-a-Seat, a computerized ticket company, and Cavanaugh's Entertainment, a Broadway and special event presenting company. TicketsWest.com services are available through its website, stand-alone outlets and a 24-hour toll free call center. G&B Real Estate Services is the real estate division of Cavanaugh's Hospitality Corporation and owns 590,000 square feet of Company commercial real estate and manages 3.4 million square feet of Company and third party owned commercial real estate, and 2,000 units of third party owned apartment and condominium properties.

This release contains forward looking statements which are made pursuant to the Safe Harbor provisions of the Private Securities Litigation Reform Act of 1995, including those concerning the future products and activities of the Company. Investors are cautioned that all forward looking statements involve risks and uncertainties, including without limitation, risks relating to the operation and acquisition of hotels, the availability of capital to finance growth, and the historical cyclicality of the lodging industry, the early development stage of the Company's TicketsWest.com product and its dependence on increased ticket sales, the unpredictability and potential fluctuations in future revenues and operating results, as well as the other matters disclosed in the documents filed by the Company with the Securities & Exchange Commission. The Company's actual results

could differ materially from these statements. SOURCE Cavanaugh's Hospitality Corporation.
