## DISH Alliance Group strengthens ISPs with broadband sales support, video offerings

- Provides marketing, sales and installation support to broadband partners
- Simplified access to DISH satellite television, Sling TV and AirTV

ENGLEWOOD, Colo., April 10, 2018 /PRNewswire/ -- DISH Network Corp. today introduced the DISH Alliance Group, a business unit dedicated to supporting internet service providers (ISPs) interested in marketing their broadband services through DISH's call centers. Additionally, the group provides ISPs access to DISH's best-in-class residential and commercial video offerings, including the company's flagship satellite television, and its live streaming and over-the-air solutions, [Sling TV](#) and [AirTV](#).

"DISH provides ISPs with an economical path to delivering video and other value-add services to their customers," said Perry Crider, manager of DISH Alliance Group. "By working with the DISH Alliance Group, our partners can focus on selling broadband internet with help from DISH's marketing and sales channels, and rely on our video expertise to bring an outstanding TV experience to customers."

In addition to connecting partners with video services, the DISH Alliance Group provides access to the following:

- 1 **Marketing:** DISH Alliance Group creates co-marketing opportunities for partners, giving ISPs the ability to further monetize their broadband-only customer base and meet customer demand for leading video programming and technology.
- 1 **Sales:** Through its call centers, DISH markets broadband services from DISH Alliance Group partners to video customers looking for the best internet options in their area.
- 1 **In-Home Services:** DISH operates a national installation workforce, which is comprised of professionally trained and certified technicians using the latest tools and equipment. DISH In-Home Services reaches virtually any home or business in the United States.
- 1 **DISH Business:** ISP partners have the flexibility to market DISH video services to commercial enterprises, including bars, restaurants, offices, hotels, hospitals, apartments and condos.

The DISH Alliance Group serves as a single touch point partners can use to seamlessly access all of DISH's capabilities. For more information about how to participate, visit [dish.com/alliance](http://dish.com/alliance).

### **About DISH Alliance Group**

DISH Alliance Group, a DISH Network Corporation (NASDAQ: DISH) business unit, works with internet service providers (ISPs) to market broadband through DISH's Customer Experience Centers. The group offers ISPs access to DISH's full catalogue of residential and commercial video offerings, the company's national in-home installation workforce and participation in exclusive co-marketing programs.
