Endologix to Present at Oppenheimer 21st Annual Healthcare Conference

IRVINE, Calif., Oct 25, 2010 /PRNewswire via COMTEX News Network/ -- Endologix, Inc. (Nasdaq: ELGX), developer of minimally invasive treatments for aortic disorders, announced today that John McDermott, President and Chief Executive Officer, is scheduled to present at the Oppenheimer 21st Annual Healthcare Conference in New York, NY.

Event: Oppenheimer's 21st Annual Healthcare Conference
Date: Tuesday, November 2, 2010
Time: 12:00 p.m. ET

An audio Web cast of the Company's presentation will be available by visiting the investor relations section of Endologix's Web site at www.endologix.com. A replay of the presentation will be available for 30 days.

About Endologix, Inc.

Endologix, Inc. develops and manufactures minimally invasive treatments for aortic disorders. The Company's flagship product is the Powerlink(R) System, which is an endovascular stent graft for the treatment of abdominal aortic aneurysms (AAA). AAA is a weakening of the wall of the aorta, the largest artery in the body, resulting in a balloon-like enlargement. Once AAA develops, it continues to enlarge and, if left untreated, becomes increasingly susceptible to rupture. The overall patient mortality rate for ruptured AAA is approximately 75%, making it a leading cause of death in the U.S. Additional information can be found on Endologix's Web site at www.endologix.com.
