

Energy Conversion Devices CEO to Speak at Investor Events

ROCHESTER HILLS, Mich., June 4, 2010 (GLOBE NEWSWIRE) -- Energy Conversion Devices, Inc. (ECD) (Nasdaq:ENER), the leading global manufacturer of thin-film flexible solar laminate products for the building-integrated and commercial rooftop markets, today announced that Mark Morelli, President and CEO, is scheduled to participate at two key investor events.

On Wednesday, June 9, at 4:30 PM EDT, Mark Morelli will present at the annual *UBS Global Technology and Services Conference* being held at the Crowne Plaza Hotel, Times Square, New York City. An audio webcast and presentation of this event can be accessed in the Investor Relations – Events & Presentations section of the company's website at www.energyconversiondevices.com.

On Thursday, June 10, Mr. Morelli will participate in the "PV Growth in China Outlook" panel, along with other industry executives, in the *Lazard Capital Markets 2nd Annual Alternative Energy Investor Summit* being held June 9-10, 2010, at the Mandarin Oriental Hotel in New York City. The "PV Growth in China Outlook" panel is scheduled to take place at 10:45 AM EDT. The event will not be webcast.

About Energy Conversion Devices

Energy Conversion Devices (ECD) (Nasdaq:ENER) is a leader in building-integrated and rooftop photovoltaics. The company manufactures, sells and installs thin-film solar laminates that convert sunlight to energy using proprietary technology. ECD's *UNI-SOLAR*[®] brand products are unique because of their flexibility, light weight, ease of installation, durability, and real-world efficiency. Through its Solar Integrated Technologies business, the company also designs, manufactures and installs rooftop photovoltaic systems, which enable customers to transform unused space on the rooftop into a value-generating asset. In addition, ECD's Ovonic Materials Division is the pioneer in NiMH battery technology, and is developing low cost fuel cells, hydrogen production from bioreformation, and hydrogen storage technologies.
