

Energy Conversion Devices to Announce Second Fiscal Quarter Financial Results on Wednesday, February 9, 2011

AUBURN HILLS, Mich., Jan. 28, 2011 (GLOBE NEWSWIRE) -- Energy Conversion Devices, Inc. (ECD) (Nasdaq:ENER), the leading global provider of thin-film flexible solar laminate products and systems for the building-integrated and commercial rooftop markets, will report financial results for the second quarter of fiscal year 2011 ended December 31, 2010 before the market opens on Wednesday, February 9, 2011.

In conjunction with the release, ECD's management will host a conference call at 10:00 a.m. EST on Wednesday, February 9, 2011 to review the financial results. To participate in the conference call, please dial (800) 480-3596 or (706) 643-3219 (international) at least 10 minutes prior to the start of the call. Callers will need to reference conference ID number 40062151.

The conference call will be webcast live over the Internet and can be accessed in the Investor Relations section of the company's website at energyconversiondevices.com under "Events".

An audio replay of the call will be available approximately two hours after the conclusion of the call. The replay will remain available until 11:59 p.m. EST February 11, 2011 and can be accessed by dialing (800) 642-1687 or (706) 645-9291 (international) and entering conference ID number 40062151. The webcast will also be archived on the Company's website.

About Energy Conversion Devices

Energy Conversion Devices (ECD) is a leader in building-integrated and rooftop photovoltaics. The company manufactures, sells and installs thin-film solar laminates that convert sunlight to energy using proprietary technology. ECD's UNI-SOLAR® brand products are unique because of their flexibility, light weight, ease of installation, durability, and real-world efficiency. Through its Solar Integrated Technologies business, the company also designs, manufactures and installs rooftop photovoltaic systems which enable customers to transform unused space on the rooftop into a value-generating asset. In addition, ECD's Ovonic Materials Division is the pioneer in NiMH battery technology, and is developing low cost fuel cells, hydrogen production from bioreformation, and hydrogen storage technologies.
