EnerNOC Recognized as 2017 ENERGY STAR® Partner of the Year

BOSTON, April 11, 2017 (GLOBE NEWSWIRE) -- [EnerNOC, Inc.](#) (Nasdaq:ENOC), a leading provider of energy intelligence software (EIS) and demand response solutions, today announced that it has been recognized by the U.S. Environmental Protection Agency (EPA) with a 2017 ENERGY STAR Partner of the Year — Service and Product Provider Award for its outstanding success in helping businesses drive profitability, improve sustainability, and achieve new levels of visibility with its energy intelligence software.

"We're honored that once again EnerNOC has been named an ENERGY STAR Partner of the Year. This award is a testament to our ability to help companies manage energy more holistically and deliver significant bottom line impact by controlling costs and improving visibility into their operations," said Micah Remley, SVP and General Manager, EnerNOC. "Although we're proud of our award, it's even more rewarding to see so many of our customers who rely on our energy intelligence software recognized as leaders in their respective industries."

EnerNOC was recognized for providing a suite of ENERGY STAR Portfolio Manager data management capabilities that integrate with EnerNOC's EIS to automate data exchange processes for ENERGY STAR reporting. Since 2015, EnerNOC has helped to benchmark nearly 8,500 buildings in Portfolio Manager.

ENERGY STAR has 16,000 partners working to protect the environment through greater energy efficiency, including manufacturers, retailers, public schools, hospitals, real estate companies, and home builders.

About EnerNOC

EnerNOC is a leading provider of demand response solutions and energy intelligence software (EIS). EnerNOC offers access to more demand response programs worldwide than any other provider, providing enterprises a valuable payment stream to further enhance bottom line results and utilities and grid operators a reliable, cost-effective demand-side resource. Also, with capabilities to better address budgets and procurement, utility bill management, facility analysis and optimization, sustainability and reporting, project tracking, and demand management, EnerNOC's SaaS platform helps enterprises control energy costs, mitigate risk, and streamline compliance and sustainability reporting. Safe Harbor Statement

Statements in this press release regarding management's future expectations, beliefs, intentions, goals, strategies, plans or prospects, including, without limitation, statements relating to the Company's future financial performance on both a GAAP and non-GAAP basis, and the future growth and success of the Company's energy intelligence software and demand response solutions, may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and other federal securities laws. Forward-looking statements can be identified by terminology such as "anticipate," "believe," "could," "could increase the likelihood," "estimate," "expect," "intend," "is planned," "may," "should," "will," "will enable," "would be expected," "look forward," "may provide," "would" or similar terms, variations of such terms or the negative of those terms. Such forward-looking statements involve known and unknown risks, uncertainties and other factors including those risks, uncertainties and factors referred to under the section "Risk Factors" in EnerNOC's most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q, as well as other documents that may be filed by EnerNOC from time to time with the Securities and Exchange Commission. As a result of such risks, uncertainties and factors, the Company's actual results may differ materially from any future results, performance or achievements discussed in or implied by the forward-looking statements contained herein. EnerNOC is providing the information in this press release as of this date and assumes no obligations to update the information included in this press release or revise any forward-looking statements, whether as a result of new information, future events or otherwise.
