Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ On August 12, 2015, Enzon Pharmaceuticals, Inc. made a cash distribution of \$0.50 per share for a total of \$22,091,204. to its shareholders of record on July 21, 2015.

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ The distribution per share was \$0.50. \$0.19 per share is estimated to be a taxable dividend (with no effect on basis). To the extent the tax basis in the share is less than \$0.31 per share, the excess of \$0.31 over the basis in that share is recognized as a capital gain.

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ When a cash distribution (or other distribution of property) is made by a corporation, it is treated as a taxable dividend to the extent of the current and accumulated earnings and profits ("E&P") of that corporation at the date of the distribution or, in certain cases, at the end of the tax year in which the distribution was made. In order to determine what portion of this cash distribution should be treated as a taxable dividend versus return of capital/capital gain, Enzon Pharmaceuticals, Inc. completed a computation of E&P as of December 31, 2015, with an estimate of the current year E&P for the year ended December 31, 2015. According to this computation, Enzon Pharmaceuticals, Inc. had approximately \$0.19 of E&P per outstanding share of stock. As a result, the distribution of \$0.50 per share resulted in a dividend of \$0.19 per share (with no effect on basis) and a reduction in basis of up to \$0.31 per share.
