

ERF Wireless and The Computer Works Enter into a Strategic Agreement to Deploy Wireless Broadband to Oil-and-Gas-Rich North Central Arkansas

Company Adds 3,000 Square Miles of Coverage in the Fayetteville Shale Region

LEAGUE CITY, Texas, Nov 19, 2009 (BUSINESS WIRE) -- ERF Wireless (OTCBB:ERFW), a leading provider of enterprise-class wireless and broadband products and services, announced today that the company has entered into a Master Services Agreement with The Computer Works, based in Conway, Arkansas, for the provisioning and delivery of broadband services to mobile and static oil and gas sites in North Central Arkansas.

According to Dr. H. Dean Cubley, CEO of ERF Wireless, "This is the third in a series of agreements to expand the company's coverage in active oil and gas territories with quality wireless network providers. As noted previously, our strategic plan is focused on supporting our growing base of oil and gas customers through the expansion of our wireless broadband networks by acquisition or master service agreements."

"With a history dating back over 20 years, The Computer Works has earned its reputation for first-class service in this market," said Pat Wilson, President of The Computer Works. Our enterprise-class wireless broadband network currently serves more than 5,000 customers and we have 42 towers that provide more than 3,000 square miles of wireless broadband coverage over a five-county area which includes the Fayetteville Shale in the greater North Central Arkansas area. We're looking forward to helping ERF Wireless deliver high-speed wireless broadband services to their oil and gas customers."

About The Computer Works

The Computer Works, based in Conway, Arkansas, is a leading wireless broadband service provider in the five-county area surrounding North Central Arkansas, including the Fayetteville Shale. The company offers a suite of high-speed data, voice over IP, and other managed services over its wireless network to residential, business, education and government customers. The Computer Works also designs, builds, and maintains wireless networks for cities, municipalities, school districts, and others. For more information, visit www.tcworks.com.
