

ERF Wireless Presenting at WiMAX Forum Congress Americas in Fort Lauderdale

Mike Jones, Chief Technology Officer for ERF Wireless, Will Speak on RF Spectrum Policy, License Valuation and Technology/Spectrum Integration for the 4G Industry

LEAGUE CITY, Texas, Dec 03, 2009 (BUSINESS WIRE) -- ERF Wireless Inc. (OTCBB:ERFW), a leading provider of enterprise-class wireless and broadband products and services, announced today that its CTO, Mike Jones, will present at the WiMAX Forum Congress Americas '09 on December 3, 2009, in Fort Lauderdale, Fla.

Mr. Jones will make a presentation on the valuation of spectrum licenses for wireless broadband services, including WiMAX as well as other technologies. These valuations and sustainable policy for broadband spectrum administration are critical to the universal development of wireless access networks and infrastructure. They will directly impact the sustainability of existing enterprises as well as broadband growth fueled in part by the American Recovery and Reinvestment Act of 2009 (ARRA).

Commenting on the announcement, Mr. Jones stated, "This is a critical moment in our nation's history for the true development of universal broadband access. If all of us in industry and government work together, we can greatly accelerate the deployment of broadband products to benefit society as a whole rather than benefiting just a few in concentrated population areas. I look forward to an energetic discussion."

About ERF Wireless
