

ELECTRONIC ARTS™

Supplemental Data
Second Quarter Ended September 30, 2005

Fiscal Second Quarter 2006 Supplemental Data

Cautionary / Safe Harbor Statement

Readers are cautioned that the estimates and projections contained in this presentation relate to hardware and software sales for the interactive entertainment industry in general, and are not meant to be indicative of Electronic Arts' ("EA") future performance. Such estimates and projections were prepared by EA and may not reflect the views of the hardware manufacturers identified herein. The hardware manufacturers have not reviewed or approved these estimates or projections.

The estimates and projections contained in this presentation, and the factors influencing them, will likely change. EA will not necessarily update the information contained in this presentation, which speaks only as of November 1, 2005.

These estimates and projections are based solely on limited information currently available to EA and are subject to many risks and uncertainties, any of which could cause actual results to be materially different than anticipated. Some of these risks and uncertainties include: delays in hardware manufacturing and shipments; timing of introduction of next-generation platforms; timing and amount of price reductions for current-generation consoles; market acceptance of new platforms, including handhelds; timing of consumer transition to next-generation consoles; declines in average software prices; popular appeal and quality of current and new titles; consolidation in the interactive entertainment industry; impact of online gameplay and distribution; legislation affecting the interactive entertainment industry; and general economic trends.

The estimates and projections contained in this presentation are not meant to be indicative of EA's future performance. Some of the factors which could cause EA's future performance to differ materially from the estimates and projections for the interactive entertainment industry as a whole include the following: consumer spending trends; the seasonal and cyclical nature of the interactive game segment; timely development and release of Electronic Arts' products; competition in the interactive entertainment industry; the Company's ability to manage expenses during fiscal year 2006; the timely release of next-generation hardware; the availability of an adequate supply of current-generation and next-generation hardware units; the Company's ability to predict consumer preferences among competing hardware platforms; the Company's ability to secure licenses to valuable entertainment properties on favorable terms; the Company's ability to attract and retain key personnel; changes in the Company's effective tax rates; adoption of new accounting regulations and standards; potential regulation of the Company's products in key territories; developments in the law regarding protection of the Company's products; fluctuations in foreign exchange rates; and other factors described in EA's Annual Report on Form 10-K for the year ended March 31, 2005 and Form 10-Q for the quarter ended June 30, 2005.

Current Generation Hardware / PC
