## PROXY STATEMENT

**O**ur Board of Directors is soliciting proxies for the 2004 Annual Meeting of Stockholders. This Proxy Statement contains important information for you to consider when deciding how to vote on the matters brought before the meeting. Please read it carefully.

The Board has set June 8, 2004 as the record date for the meeting. Stockholders who owned Class A common stock on that date are entitled to notice of the meeting, and to attend and vote at the meeting, with each share entitled to one vote. There were 302,999,386 shares of Class A common stock outstanding on the record date.

Stockholders who owned Class B common stock on the record date are entitled to notice of the meeting, and to attend and vote at the meeting, with each share entitled to 0.05214 of one vote. There were 200,130 shares of Class B common stock outstanding on the record date, representing 10,434 votes.

Voting materials, which include the Proxy Statement, Proxy Card and 2004 Annual Report, were mailed to stockholders on or about June 28, 2004.

In this Proxy Statement:

- “EA”, “we” and “Company” mean Electronic Arts Inc.
- “2000 Equity Plan” or “Equity Plan” means EA’s 2000 Equity Incentive Plan
- “2000 Purchase Plan”, “Purchase Plan” or “ESPP” means EA’s 2000 Employee Stock Purchase Plan.
- Holding shares in “street name” means your EA shares are held in an account at a bank, brokerage firm or other nominee.
- “Class A common stock” means EA’s Class A common stock as described in EA’s current Certificate of Incorporation.
- “Class B common stock” means EA’s Class B common stock as described in EA’s current Certificate of Incorporation.
- Unless otherwise noted, all Class A common stock share and per share information has been adjusted to reflect a two-for-one stock split of our Class A common stock, which was distributed on November 17, 2003 in the form of a stock dividend for stockholders of record at the close of business on November 3, 2003.

## COMMONLY ASKED QUESTIONS and ANSWERS

### **Q: Why am I receiving this Proxy Statement and Proxy Card?**

**A:** This Proxy Statement describes proposals on which you, as a stockholder, will vote. It also gives you information on these proposals, as well as other information so that you can make an informed decision. You are invited to attend the Annual Meeting to vote on the proposals, but you do not need to attend in person in order to vote. You may instead follow the instructions below to vote by mail using the enclosed proxy card, or to vote by telephone or over the Internet. By doing so, you are giving a proxy appointing Lawrence F. Probst III and Warren C. Jenson to vote your shares at the meeting as you have instructed. If a proposal comes up for vote at the meeting that is not on the proxy card, or if you do not indicate an instruction, Mr. Probst and Mr. Jenson will vote your shares according to their best judgment. Even if you currently plan to attend the meeting, it is a good idea to complete and return your proxy card, or vote by telephone or on the Internet, before the meeting date just in case your plans change.

### **Q: Who can vote at the Annual Meeting?**

**A:** Stockholders who owned Class A and Class B common stock on June 8, 2004 may attend and vote at the Annual Meeting. Each share of Class A common stock is entitled to one vote. Each share of Class B common stock is entitled to .05214 of one vote. There were 302,999,386 shares of Class A and 200,130 shares of Class B common stock outstanding on June 8, 2004, respectively, representing a total of 303,009,820 votes.

### **Q: What am I voting on?**

**A:** We are asking you to:

- Elect nine Directors;
- Approve amendments to the 2000 Equity Incentive Plan to (a) increase by 11 million the number of shares of common stock reserved for issuance under the plan, (b) provide for the issuance of awards of restricted stock units, (c) limit the total number of shares underlying awards of restricted stock and restricted stock units to 3 million, (d) provide that the exercise price of all stock options may not be less than 100% of the fair market value of a share of Class A common stock, (e) reduce the size of initial and annual option grants to Directors under the plan, and (f) authorize the Compensation Committee to determine the vesting provisions of options granted to Directors under the plan;
- Approve an amendment to the 2000 Employee Stock Purchase Plan to increase by 1,500,000 the number of shares of common stock reserved for issuance under the plan;
- Approve the amendment and restatement of our Certificate of Incorporation to consolidate our Class A common stock and Class B common stock into a single class of common stock by reclassifying each share of Class A common stock as one share of common stock, and converting each outstanding share of Class B common stock into 0.001 share of common stock;
- Approve the further amendment and restatement of our Certificate of Incorporation to increase the number of authorized shares of common stock from 500 million to 1 billion shares (or 1 billion shares of Class A common stock if stockholders do not approve the proposal to consolidate our Class A and Class B common stock); and
- Ratify the appointment of KPMG LLP as our independent auditors for fiscal 2005.

**Q: *How do I vote?***

**A: • You may vote by mail**

Complete, date, sign and mail the enclosed proxy card in the postage pre-paid envelope provided. If you mark your voting instructions on the proxy card, your shares will be voted as you instruct.

If you do not mark your voting instructions on the proxy card, your shares will be voted:

- for** the election of nine Directors;
- for** the amendments to the 2000 Equity Incentive Plan;
- for** the amendment to the 2000 Purchase Plan;
- for** the amendment and restatement of the Certificate of Incorporation to consolidate the Class A common stock and Class B common stock into a single class of common stock;
- for** the further amendment and restatement of the Certificate of Incorporation to increase the number of authorized shares of common stock; and
- for** ratification of the appointment of KPMG LLP as our independent auditors for fiscal 2005.

**• You may vote by telephone**

You may do this by following the “Vote by Telephone” instructions on your proxy card. If you vote by telephone, you do not have to mail in your proxy card.

**• You may vote on the Internet**

You may do this by following the “Vote by Internet” instructions on your proxy card. If you vote by Internet, you do not have to mail in your proxy card. The law of Delaware, where we are incorporated, allows a proxy to be sent electronically, so long as it includes or is accompanied by information that lets the inspector of elections determine it has been authorized by the stockholder.

**• You may vote in person at the meeting**

You may complete the ballot we will pass out to any stockholder who wants to vote at the meeting. However, if you hold your shares in street name, you must obtain a proxy from the institution that holds your shares in order to vote at the meeting.

**Q: *What does it mean if I receive more than one proxy card?***

**A:** It means that you have multiple accounts at the transfer agent or with stockbrokers. Please complete and return all proxy cards, or follow the instructions on each to vote by telephone or over the Internet, to ensure that all your shares are voted.

**Q: *What if I change my mind after I give my proxy?***

**A:** You may revoke your proxy and change your vote at any time before the polls close at the meeting. You may do this by:

- Sending a signed statement to the Company that the proxy is revoked (you may send such a statement to the Company’s Secretary at our corporate headquarters address listed on the Notice of Meeting), or
- Signing another proxy with a later date, or
- Voting by telephone or on the Internet at a later date (your latest vote is counted), or
- Voting in person at the meeting.

Your proxy will not be revoked if you attend the meeting but do not vote.

**Q: *Who will count the votes?***

**A:** Employees of Wells Fargo Shareowner Services will tabulate the votes and act as the inspectors of election.

**Q: *How many shares must be present to hold the meeting?***

**A:** To hold the meeting and conduct business, a majority of EA's outstanding voting shares as of June 8, 2004 must be present or represented by proxies at the meeting. On this date a total of 302,999,386 shares of Class A and 200,130 shares of Class B common stock were outstanding and entitled to vote a total of 303,009,820 votes. Shares representing a majority, or 151,504,911 of these votes must be present. This is called a quorum.

Shares are counted as present at the meeting if:

- They are voted in person at the meeting, or
- The stockholder has properly submitted a proxy card or voted via telephone or the Internet.

**Q: *Will my shares be voted if I do not sign and return my proxy card?***

**A:** If your shares are registered in your name, they will not be voted unless you submit your proxy card, vote by telephone or on the Internet or vote in person at the meeting. A failure to vote shares registered in your name will have the same effect as a negative vote with respect to Proposals 4 and 5.

**Q: *How will my shares be voted if they are held in "street name"?***

**A:** If your shares are held in "street name", you should have received voting instructions with these materials from your broker or other nominee. We urge you to instruct your broker or other nominee how to vote your shares by following those instructions. If you do not give your broker or nominee instructions as to how to vote your shares, they may be voted only on matters for which the broker or nominee has discretionary authority under applicable rules, and thus will not be voted with respect to Proposals 2, 3 and 4. These "broker non-votes" will be counted for purposes of determining whether a quorum is present, will not be counted for any purpose with respect to Proposals 2 and 3, and will have the effect of negative votes with respect to Proposal 4.

**Q: *How are votes counted?***

**A:** In the election of Directors, you may vote either "for" each nominee or withhold your vote. You may vote "for", "against" or "abstain" on each of the other proposals. Abstentions, although counted for purposes of determining whether a quorum is present, will not be counted for any other purpose with respect to Proposals 2, 3 and 6, and will have the effect of negative votes with respect to Proposals 4 and 5.

If you sign and return your proxy without voting instructions, your shares will be counted as a "for" vote in favor of each nominee and in favor of each other proposal.

**Q:** *How many votes must the nominees have to be elected as Directors?*

**A:** The nine nominees receiving the highest number of “for” votes will be elected as Directors. This number is called a plurality.

**Q:** *What happens if one or more of the nominees is unable to stand for re-election?*

**A:** The Board may reduce the number of Directors or select a substitute nominee. In the latter case, if you have completed and returned your proxy card, Lawrence F. Probst III and Warren C. Jenson can vote your shares for a substitute nominee. They cannot vote for more than nine nominees.

**Q:** *How many votes are required to pass the amendments to the 2000 Equity Plan and 2000 Purchase Plan, and to ratify the Company’s selection of auditors?*

**A:** The 2000 Plan amendments and the ratification of auditors must receive a “for” vote of a majority of the votes present at the meeting in person or by proxy and voting on these proposals.

**Q:** *How many votes are necessary to pass the proposal to amend and restate the Company’s Certificate of Incorporation to consolidate the Class A common stock and Class B common stock into a single class of common stock?*

**A:** To pass, this proposal must receive a “for” vote of both:

- a majority of the outstanding shares of the Class A common stock and Class B common stock, voting together as a single class, and
- a majority of the outstanding shares of Class B common stock voting separately.

**Q:** *How many votes are necessary to pass the proposal to amend and restate the Company’s Certificate of Incorporation to increase the number of authorized shares of common stock from 500 million to 1 billion shares (or 1 billion shares of Class A common stock if stockholders do not approve the proposal to consolidate our Class A and Class B common stock)?*

**A:** This proposal must receive a “for” vote of a majority of the outstanding shares of the Class A common stock and Class B common stock, voting together as a single class.

**Q:** *Where do I find the voting results of the meeting?*

**A:** We will announce preliminary voting results at the meeting. We will publish the final results in our quarterly report on Form 10-Q for the second quarter of fiscal 2005. We will file that report with the Securities and Exchange Commission, and you can get a copy by contacting our Investor Relations Hotline at (650) 628-7352 or the SEC at (800) SEC-0330 for the location of its nearest public reference room. You can also get a copy on the Internet at <http://investor.ea.com> or through the SEC’s electronic data system called EDGAR at [www.sec.gov](http://www.sec.gov).

**Q:** *Why are you amending the 2000 Equity Plan?*

**A:** First, we are amending the 2000 Equity Plan to increase the number of shares available. We want to ensure that the plan includes enough shares for employees, officers and Directors to be appropriately compensated under the plan going forward. We believe it is essential to be able to grant equity incentives to new and existing employees, officers and Directors in order to recruit and retain key talent and to drive our performance.

Second, we are amending the 2000 Equity Plan to ensure that we have flexibility by expressly providing for the ability to grant restricted stock units.

Third, we are amending the 2000 Equity Plan to limit the total number of shares underlying awards of restricted stock and restricted stock units to 3 million.

Fourth, we are proposing to amend the 2000 Equity Plan such that the exercise price of all stock options may not be less than 100% of the fair market value of a share of Class A common stock on the date of grant. Although we have never granted stock options under the plan with an exercise price below fair market value on the date of grant, the plan currently provides us with the ability to do so in the case of nonqualified stock options (at an exercise as low as 85% of fair market value). As we have no intention of granting any stock options under the plan with an exercise price below fair market value, we feel that it would be appropriate to amend the plan to reflect both our current practices and intentions for the future.

Fifth, we are proposing to amend the Plan to adjust the automatic option grants to Directors. To date, although Directors have been eligible to receive awards under the 2000 Equity Plan, they have not done so. Instead, they received equity awards under the Directors' Plan. Going forward, we intend to use the 2000 Equity Plan for automatic option grants to Directors, and therefore propose the following changes:

- reduce the number of shares underlying the options that are automatically granted to non-employee Directors upon their initial appointment or election from 100,000 shares to 25,000 shares;
- reduce the number of shares underlying options that are automatically granted to non-employee Directors upon re-election by the stockholders each year from 32,000 shares to 10,000 shares; and
- remove the vesting provisions in the 2000 Equity Plan for the annual option grants (but not for the initial grant). The Board currently intends to provide, in the option agreements, that annual option grants will fully vest after 1 year to better coincide with the term of service for which the annual option grants are made.

**Q: *Why are you amending the 2000 Purchase Plan?***

**A:** We are amending the 2000 Purchase Plan to increase the number of shares available. The Purchase Plan permits the purchase of our common stock by our employees through payroll deductions and provides continuing opportunities for our employees to become stockholders. It also provides an incentive for continued employment. Since the adoption of the Purchase Plan, we have experienced both significant growth in the number of employees as well an increase in the percentage of employees who elect to participate in the Purchase Plan. We estimate that an additional 1,500,000 shares available for issuance under the Purchase Plan will permit all current and potential future employees to fully participate in the Purchase Plan for at least fiscal 2005.

**Q: *Why are you amending and restating the Certificate of Incorporation to consolidate the Class A common stock and the Class B common stock into a single class of common stock?***

**A:** The two classes of common stock were created by way of an amendment to our Certificate of Incorporation in 2000 for the purpose of establishing a class of common stock that reflected the performance of the Company as a whole (the Class A common stock) and establishing a "tracking stock" that was to reflect the performance of our online games business (the Class B common stock) and potentially be offered to the public. We no longer operate the online games business as a separate segment of our business, and therefore we no longer have a need for a separate class of stock to track this part of our business nor do we have any plans for the creation of a public market for the Class B common stock. Therefore, we are proposing to consolidate the Class A common stock and the Class B common stock primarily to simplify our capital structure.

**Q:** *Why are you also amending and restating the Certificate of Incorporation to increase the number of authorized shares of common stock from 500 million total shares of Class A and Class B common stock to 1 billion shares (or 1 billion shares of Class A common stock if stockholders do not approve the proposal to consolidate our Class A and Class B common stock)?*

**A:** Our Certificate of Incorporation currently authorizes us to issue up to 400 million shares of Class A common stock and 100 million shares of Class B common stock. If our stockholders approve the consolidation of our Class A and Class B common stock (without approving an increase in the number of shares of authorized common stock), we would be authorized to issue up to 400 million shares of common stock. As of March 1, 2004, there were a total of 302,174,818 shares of Class A common stock issued and outstanding, an additional 43,554,031 shares were reserved for issuance upon the exercise of outstanding options, 8,670,239 shares were reserved for future issuance under our stock option plans, and 571,389 shares were reserved for issuance under our 2000 Employee Stock Purchase Plan. Based on our capitalization as of March 31, 2004, we had less than 46 million shares of Class A common stock available for issuance and not otherwise reserved for other purposes.

In November 2003, we effected a two-for-one stock split of our Class A common stock, which was distributed in the form of a stock dividend, thereby greatly reducing the number of shares of Class A common stock available for issuance. Earlier this year, the SEC granted effectiveness to a registration statement on Form S-3 (a so-called “shelf registration”) that allows us, under certain circumstances, to issue up to \$2 billion in equity and/or debt securities. If the Board wished to approve a future stock split or sale of shares of our common stock, it may be limited in its ability to do so by the number of authorized shares available for issuance. We believe that the

proposed increase in the number of shares of authorized common stock would provide us with the flexibility we need to meet our corporate objectives.

**Q:** *What if stockholders do not approve the consolidation of the Class A and Class B common stock, but approve an increase in the number of shares of authorized common stock? And if the opposite were to occur?*

**A:** As we have no future plans for the Class B common stock, our Certificate of Incorporation would be amended such that the entire increase would be attributable to Class A common stock, resulting in there being authorized 1 billion shares of Class A and 100 million shares of Class B common stock, respectively. Conversely, if stockholders approve the consolidation without approving an increase in the number of shares of authorized common stock, our Certificate of Incorporation would be amended such that there would be authorized a total of 400 million shares of common stock.

**Q:** *Who will pay for this proxy solicitation?*

**A:** We have retained Georgeson & Company Inc. to solicit proxies from stockholders at an estimated fee of \$8,000 plus expenses and we will pay these costs. This fee does not include our costs of printing and mailing the proxy statements. Some of our officers and other agents may also solicit proxies personally, by telephone and by mail, and we will pay these costs as well. EA will also reimburse brokerage houses and other custodians for their reasonable out-of-pocket expenses for forwarding proxy and solicitation materials to the beneficial owners of common stock.

**Q:** *Whom can I call with any questions?*

**A:** You may call Wells Fargo Shareowner Services at 1-800-468-9716 or visit their web site at [www.wellsfargo.com/shareownerservices](http://www.wellsfargo.com/shareownerservices).

## **BOARD, BOARD MEETINGS, AND COMMITTEES**

Our Board of Directors currently consists of nine Directors. Our Board has determined that all of our Directors, other than Mr. Probst and Mr. Mott, are “independent” as that term is used in the Nasdaq Marketplace Rules.

The Board meets on a fixed schedule four times each year and also occasionally holds special meetings and acts by written consent. At each regularly scheduled meeting, the independent members of the Board meet in executive session separately without management present. A Lead Director, elected by the independent Directors and serving a two-year term, is responsible for chairing executive sessions of the Board and other meetings of the Board in the absence of the Chairman of the Board, serving as a liaison between the Chairman of the Board and the other independent Directors, and overseeing the Board’s stockholder communication policies and procedures (including, under appropriate circumstances, meeting with stockholders). Our Lead Director may also call meetings of the independent Directors. Our current Lead Director is Linda Srere, who has been elected to serve in this capacity until our 2006 Annual Meeting of Stockholders.

The Board currently has three committees, each of which operates under a charter approved by the Board: the Audit Committee; the Compensation Committee; and the Nominating and Governance Committee. The Board of Directors amended and restated the Audit Committee’s charter in February 2003, and adopted the charters of the Compensation Committee and the Nominating and Governance Committee in February and May 2003, respectively. Copies of the charters of each Committee may be found in the Investor Relations portion of our website at <http://investor.ea.com>. In accordance with the charters for each, and with current regulatory requirements, all members of these Committees are independent Directors. During fiscal 2004, each Director participated in at least 75% of all Board meetings and Committee meetings held during the period for which he or she was a member. The Committee members are as follows:

Audit	Gregory B. Maffei (Chair), Gary M. Kusin and M. Richard Asher
Compensation	M. Richard Asher (Chair), William J. Byron and Linda J. Srere
Nominating and Governance	Linda J. Srere (Chair) and Leonard S. Coleman

### **AUDIT COMMITTEE**

The Audit Committee assists the Board in its oversight of the Company’s financial reporting and other matters, and is directly responsible for the appointment, compensation and oversight of our independent auditors. The Audit Committee is comprised of three Directors, each of whom in the opinion of the Board of Directors meets the independence requirements and the financial literacy standards of the Nasdaq Marketplace Rules, as well as the independence requirements of the SEC. In the opinion of the Board of Directors, Mr. Maffei meets the criteria for an “audit committee financial expert” as set forth in applicable SEC rules. The Audit Committee met eight times in fiscal 2004. For further information about the Audit Committee, please see the Report of the Audit Committee below.

### **COMPENSATION COMMITTEE**

The Compensation Committee is responsible for setting the overall compensation strategy for the Company, for determining the compensation of the CEO and other executive officers and for overseeing the Company’s equity incentive plans and other benefit plans. In addition, the Compensation Committee is responsible for reviewing and recommending to the Board compensation for non-employee Directors. The Compensation Committee is comprised of three Directors,

each of whom in the opinion of the Board of Directors meets the independence requirements of the Nasdaq Marketplace Rules and qualifies as an “outside director” within the meaning of Section 162(m) of the Internal Revenue Code, as amended. The Compensation Committee met six times in fiscal 2004 and also acts regularly by written consent. For further information about the Compensation Committee, please see the Report of the Compensation Committee below.

### **NOMINATING AND GOVERNANCE COMMITTEE**

The Nominating and Governance Committee is responsible for recommending to the Board nominees for election to the Board of Directors, for appointing Directors to Board committees, and for reviewing developments in corporate governance, reviewing and ensuring the quality of the Company’s succession plans, recommending formal governance standards to the Board, and establishing the Board’s criteria for selecting nominees for Director and for reviewing from time to time the appropriate skills, characteristics and experience required of the Board as a whole, as well as its individual members. In May 2004, the Nominating and Governance Committee recommended, and the Board of Directors adopted, a formal set of corporate governance guidelines. The Nominating and Governance Committee met four times in fiscal 2004.

In evaluating nominees for Director to recommend to the Board, the Nominating and Governance Committee will take into account many factors within the context of the characteristics and needs of the Board as a whole. While the specific needs of the Board may change from time to time, all nominees for Director are considered on the basis of the following minimum qualifications:

- the highest level of personal and professional ethics and integrity, including a commitment to EA’s ACTION values (as set forth in EA’s Global Code of Conduct);
- practical wisdom and mature judgment;
- broad training and significant leadership experience in business, entertainment, technology, finance, corporate governance, public interest or other disciplines relevant to the long-term success of EA;
- the ability to gain an in-depth understanding of EA’s business; and
- a willingness to represent the best interests of all EA stockholders and objectively appraise management’s performance.

In determining whether to recommend a Director for re-election, the Nominating and Governance Committee will also consider the Director’s tenure on the Board, past attendance at meetings, participation in and contributions to the activities of the Board, the Director’s continued independence (including any actual, potential or perceived conflicts of interest), as well as the Director’s age and changes in his or her principal occupation or professional status.

The Nominating and Governance Committee believes that the continuing service of qualified incumbent Directors promotes stability and continuity on the Board of Directors, contributing to the Board’s ability to work effectively as a collective body, while providing EA with the benefits of familiarity and insight into EA’s affairs that its Directors have developed over the course of their service. Accordingly, consistent with past EA practice, the Nominating and Governance Committee will first consider recommending incumbent Directors who wish to continue to serve on the Board for re-election at EA’s annual meeting of stockholders.

In situations where the Committee determines not to recommend an incumbent Director for re-election, an incumbent Director declines to stand for re-election, or a vacancy arises on the Board for any reason (including the resignation, retirement, removal, death or disability of an incumbent director or a decision of the Directors to expand the size of the Board), the Committee will commence a search for new Director nominees. While the Nominating and Governance Committee may, in its discretion, use a variety of means to identify potential nominees for Director, it will generally direct EA's senior executive officer in charge of human resources to develop a list of potential nominees meeting the Board's general membership criteria discussed above. The Nominating and Governance Committee may also use third-party resources, including qualified search firms. EA has in the past engaged, and may continue in the future to engage, a third-party search firm to assist with the identification and evaluation of potential candidates for Director. The Nominating and Governance Committee may consider potential nominees identified by other sources, including current Directors, senior management and stockholders. In determining whether to recommend a candidate to the Board of Directors, the Nominating and Governance Committee will consider the current composition and capabilities of current Directors, as well as any additional qualities or capabilities considered necessary or desirable in light of the existing or anticipated needs of the Board.

The Nominating and Governance Committee will evaluate candidates proposed by stockholders under criteria similar to the evaluation of other candidates, except that it may also consider as one of the factors in its evaluation, the amount of EA voting stock held by the stockholder and the length of time the stockholder has held such stock. Stockholders wishing to submit candidates for consideration by the Nominating and Governance Committee may do so by writing to EA's Corporate Secretary at 209 Redwood Shores Parkway, Redwood City, CA 94065, Attn: Director Nominations. To be considered by the Nominating and Governance Committee in connection with EA's annual meeting of stockholders, recommendations must be submitted in writing to EA not less than 120 calendar days prior to the anniversary of the date on which EA's proxy statement was released to stockholders in connection with the previous year's annual meeting. Recommendations should include: (1) the stockholder's name, address and telephone number; (2) the amount and nature of record and/or beneficial ownership of EA securities held by the stockholder; (3) the name, age, business address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding five full fiscal years of the proposed candidate; (4) a description of the qualifications and background of the proposed candidate that addresses the minimum qualifications and other criteria for Board membership approved by the Board from time to time and set forth in EA's Corporate Governance Guidelines; (5) the amount and nature of record and/or beneficial ownership of EA securities held by the proposed candidate, if any; (6) a description of all arrangements or understandings between the stockholder and the proposed candidate relating to the proposed candidate's candidacy; (7) a statement as to whether the proposed candidate would be considered an independent director under applicable Nasdaq rules; (8) the consent of the proposed candidate (a) to be named in the proxy statement relating to EA's annual meeting of stockholders, and (b) to serve as a Director if elected at such annual meeting; and (9) any other information regarding the proposed candidate that may be required to be included in a proxy statement by applicable SEC rules. The Nominating and Governance Committee may request any additional information reasonably necessary to assist it in assessing a proposed candidate.

EA stockholders may communicate with the Board as a whole, with a committee of the Board, or with an individual Director by sending a letter to EA's Corporate Secretary at Electronic Arts Inc., 209 Redwood Shores Parkway, Redwood City, CA 94065, or by sending an email to [StockholderCommunications@ea.com](mailto:StockholderCommunications@ea.com). All stockholder communications received will be handled in accordance with procedures approved by the independent Directors serving on the Board. ***DIRECTOR COMPENSATION AND STOCK OWNERSHIP GUIDELINES***

Mr. Probst, the Company's Chief Executive Officer, is not paid additional compensation for his services as a Director. During fiscal 2004, compensation for non-employee Directors included the following stock and cash elements:

***Cash Compensation***

- \$16,000 annual retainer;
- \$1,200 for each Board meeting attended;
- \$950 for each telephone Board meeting attended;
- \$1,000 for each Committee meeting attended; and
- \$750 for each telephone Committee meeting attended.

During the past year, the Compensation Committee undertook a comprehensive review of the compensation program for the Company's Board of Directors, with the assistance of EA management. The Committee reviewed both the cash and equity portions of the current Board compensation program and determined that: (1) for recruitment purposes and to remain competitive, the cash portion of Board compensation should be increased to levels consistent with other high technology (primarily software developers), entertainment and selected packaged goods companies, (2) cash compensation should be paid to each Director in the form of an annual retainer for discharging his or her duties as a board member, and as a committee member and/or committee chair, rather than payment on a per-meeting-attended basis as is currently the case, and (3) Board members should forego the automatic increases (due to recent Company stock splits) in the size of the initial and annual option grants made to directors under the 2000 Equity Incentive Plan. The Compensation Committee formulated its recommendations for a new Director compensation program, which were adopted by the Compensation Committee and the full Board in May 2004. Beginning after the 2004 Annual Meeting of Stockholders, non-employee Directors will receive the following cash compensation:

- \$35,000 annual retainer for service on the Board of Directors;
- \$7,500 annual retainer for service on the Compensation or Nominating and Governance Committees;
- \$2,500 additional annual retainer for service as Chair of the Compensation or Nominating and Governance Committees;
- \$10,000 annual retainer for service on the Audit Committee;
- \$5,000 additional annual retainer for service as Chair of the Audit Committee; and
- \$1,000 per day, with the approval of the Board of Directors, to individual Directors for special assignments, which may include providing advisory services to management in such areas as sales, marketing, public relations and finance (provided, however, no independent Director is eligible for a special assignment if the assignment or payment for the assignment would prevent the Director from being considered independent under applicable Nasdaq or SEC rules).

**Stock Compensation**

Under the 1998 Directors' Stock Option Plan, non-employee Directors receive an automatic grant of options to purchase 8,000 shares of Class A common stock upon re-election by the stockholders each year. New Directors receive a grant of 25,000 shares to purchase Class A common stock under the Directors' Plan upon their election or appointment. No new automatic option grants will be made to Directors under the Directors' Plan in the future; rather, such grants will be made under the 2000 Equity Incentive Plan.

Although non-employee Directors have not received option grants under the current 2000 Equity Incentive Plan, under the terms of that plan they are eligible to receive an automatic grant of options to purchase 32,000 shares of Class A common stock (on a split-adjusted basis) upon re-election by the stockholders each year and new Directors are eligible to receive an option grant to purchase 100,000 shares of Class A common stock (on a split-adjusted basis) upon their initial election or appointment. However, if the proposed amendments to the 2000 Equity Incentive Plan discussed in Proposal No. 2 below are approved by the stockholders at the Annual Meeting, then the stock options granted upon re-election and initial election or appointment will be reduced to 10,000 and 25,000 shares, respectively.

An annual option grant to purchase 8,000 shares (on a pre-split basis) of Class A common stock was made under the Directors' Plan to each of the seven non-employee Directors who were re-elected at the 2003 Annual Meeting of Stockholders. These options were granted on July 31, 2003, the date of the Directors' re-election to the Board, at a split-adjusted exercise price of \$41.98 per share. Because Mr. Maffei had been appointed to the Board on June 3, 2003, the number of shares subject to his option was pro-rated to 1,333 shares (on a pre-split basis).

Under the Directors' Plan and 2000 Equity Incentive Plans, non-employee Directors may elect to receive all or part of their cash compensation in the form of Class A common stock. As an incentive for our non-employee Directors to increase their stock ownership in EA, non-employee Directors making such an election receive shares of Class A common stock valued at 110% of the cash compensation they would have otherwise received.

The material terms regarding the exercise price of options, vesting, changes in capital structure, assumption of options and acceleration of vesting and prohibitions on "repricing" under the Directors' Plan are substantially similar to the terms of the 2000 Equity Incentive Plan, summarized in Appendix A to this Proxy Statement.

**Stock Ownership Guidelines**

Each non-employee Director is required, within three years of becoming a Director, to own shares of EA Class A common stock having a value of at least 3 years' annual retainer for service on the Board.

**PROPOSAL 2. AMENDMENTS TO THE 2000 EQUITY INCENTIVE PLAN**

The 2000 Equity Incentive Plan, which initially was approved by the stockholders on March 22, 2000, continues EA's program of providing equity incentives to qualified employees, officers and Directors. We offer these incentives in order to assist in recruiting and retaining qualified employees, officers and Directors. Since the Plan's adoption, 46,400,000 shares of Class A common stock have been reserved for issuance.

***The amendments would increase the number of shares authorized under the 2000 Equity Incentive Plan by 11,000,000 Shares to a total of 57,400,000 Shares.*** We continue to believe that alignment of the interests of our stockholders and our employees, officers and Directors is best advanced through the issuance of equity incentives as a portion of their total compensation. In this way, we reinforce the link between our stockholders and our employees', officers' and Directors' focus on personal responsibility, creativity and stockholder returns. We also believe that delivering a portion of their total compensation in the form of long-term equity compensation helps encourage a long-term view in an industry that is subject to lengthy business cycles. Stock options also play an important role in our recruitment and retention strategies, as the competition for creative and technical talent and leadership in our industry is very intense.

Having said this, we also recognize our responsibility to keep the dilutive impact of stock options and other equity incentives within a reasonable range. For example, we decreased the size of option grants we made to our executive officers in fiscal 2004 and, following the two-for-one split of our Class A common stock in November 2003, we did not adjust our broad-based stock option award guidelines to reflect the split. During fiscal 2004, a year in which our employee base grew by approximately 800 people, we carefully managed stock option issuances, granting options to purchase a total of 9,181,602 shares, or approximately 3% of our total shares outstanding. In the three years prior to fiscal 2004, we granted stock options at an average annual rate of approximately 4.6% of total shares outstanding.

In addition, the 2000 Equity Incentive Plan contains several features designed to protect stockholders' interests. For example, as proposed to be amended, the Plan would not allow any options to be granted at less than 100% of fair market value. In addition, the Plan does not contain an "evergreen" provision, and the exercise price of outstanding options issued under the Plan may not be reduced without stockholder approval. In an effort to further align the interests of our Directors, executive officers and stockholders, we have implemented minimum stock ownership requirements for our Directors and executive officers.

As we head into fiscal 2005, we will continue to responsibly manage stock option issuances, and we will engage in a comprehensive analysis of our total compensation programs to ensure their continued effectiveness and to prepare for the possibility of mandatory stock option expensing.

*The amendments would also:*

***Expressly authorize the issuance of awards of restricted stock units in addition to awards of stock options and restricted stock.*** We believe that our ability to employ different forms of equity incentives is important, and restricted stock units provide additional and alternative methods of providing equity incentives to our employees.

***Limit the total number of shares underlying awards of restricted stock and restricted stock units that may be granted under the 2000 Equity Incentive Plan to 3 million.***

***Provide that the exercise price of stock options may not be less than 100% of the fair market value of a share of Class A common stock on the date of grant.*** Although we have never granted stock options under the Plan with an exercise price below fair market value on the date of grant, the Plan currently provides us with the ability to do so (at an exercise as low as 85% of fair market value). As we have no intention of granting nonqualified stock options under the Plan with an exercise price below fair market value, we feel that it would be appropriate to amend the Plan to reflect both our current practices and intentions for the future.

***Reduce the automatic formula for stock option grants to each outside Director upon first joining the Board from an option to purchase 100,000 shares to an option to purchase 25,000 shares, and reduce the annual stock option grant to each Director upon his or her re-election from an option to purchase 32,000 shares to an option to purchase 10,000 shares.*** The formula as originally adopted provided for initial grants of options to purchase 25,000 shares and annual grants of options to purchase 8,000 shares and was identical to the formula included in the Directors' Plan under which Director grants have been made since 1998. By the terms of the 2000 Equity Incentive Plan, this formula for grants was automatically adjusted for the two-for-one stock splits effected in September 2000 and November 2003. As so adjusted, the 2000 Equity Incentive Plan currently provides for a grant of a stock option to purchase 100,000 shares when a Director is initially appointed or elected, and an annual grant of an option to purchase 32,000 shares upon re-election to the Board. We are proposing these amendments because it is our intention that future automatic option grants to Directors be made under the 2000 Equity Incentive Plan rather than the Directors' Plan.

***Remove the vesting requirements for the annual grants to outside Directors from the Plan.*** Currently, the 2000 Equity Plan provides that all grants to outside Directors vest at the rate of 2% a month. No change is proposed with respect to vesting of the initial grant. However, the proposed amendment would provide that the annual grant to each Director made upon re-election to the Board will vest at the discretion of the Compensation Committee. The Compensation Committee believes that vesting of annual grants should be aligned with the term of service and thus currently intends to provide, in the option agreements, for full vesting of annual grants on the last day of the term for which each Director has been elected.

**NEW PLAN BENEFITS**

As discussed above, the 2000 Equity Incentive Plan currently provides for automatic grants of options to purchase shares of Class A common stock to non-employee Directors. As proposed to be amended, the size of each automatic grant would be reduced from an option to purchase 100,000 shares to an option to purchase 25,000 shares when a non-employee Director first joins the Board, and from an option to purchase 32,000 shares to an option to purchase 10,000 shares upon a Director's re-election to the Board. The following table sets forth the number of shares of Class A common stock underlying options that will be automatically awarded to our non-employee Directors upon their re-election at the Annual Meeting if this Proposal is approved by our stockholders:

***New Plan Benefits Table***  
***2000 Equity Incentive Plan***

Name and Position <sup>(1)</sup>	Dollar Value (\$)	Shares
All Current Directors Who Are Not Executive Officers, as a Group (8 Persons) <sup>(2)</sup>	<sup>(3)</sup>	77,500 <sup>(4)</sup>

- (1) Because awards that might be made under the Plan to our executive officers and non-executive employees will depend on the discretionary actions of the Compensation Committee and the fair market value of the Class A common stock at various future dates, it is not currently possible to determine the benefits that might be received by these persons.
- (2) Assumes all eight of our non-employee Directors are re-elected at the Annual Meeting.
- (3) The dollar value of awards is based on the fair market value of our Class A common stock on the date of grant, and is not determinable as of the mailing date of this proxy statement.
- (4) As Mr. Pittman was appointed to the Board of Directors effective November 1, 2003, the number of shares subject to his automatic option grant will be pro-rated to 7,500. Non-employee Directors may also elect to receive shares of Class A common stock in lieu of cash compensation, if the Director so desires. The number and value of shares of Class A common stock that may be granted to Directors under the Plan in lieu of cash compensation cannot be determined as of the mailing date of this proxy statement because of the elective nature of this benefit, and because the number of shares granted in lieu of cash compensation depends on the future value of the Class A common stock on the date of grant.

For more information about the 2000 Equity Incentive Plan, we urge you to read the summary of its material terms and proposed changes included as Appendix A to this Proxy Statement.

**REQUIRED VOTE AND BOARD OF DIRECTORS' RECOMMENDATION**

Approval of this proposal requires the affirmative vote of a majority of the votes present at the meeting in person or by proxy and voting on this proposal.

*The Board recommends a vote FOR the amendments to the 2000 Equity Incentive Plan.*

**PROPOSAL 3. AMENDMENT TO THE 2000 EMPLOYEE STOCK PURCHASE PLAN**

The 2000 Employee Stock Purchase Plan, which initially was approved by the stockholders on July 27, 2000, provides our employees with a convenient means of purchasing equity in the Company through payroll deductions. It also provides an incentive for continued employment. Since its adoption, 2,300,000 shares of Class A common stock have been reserved for issuance under the 2000 Purchase Plan.

Since the adoption of the 2000 Purchase Plan, we have experienced significant growth in the number of employees as well in the number of employees who elect to participate in the Purchase Plan. In addition, in February 2003, we terminated our International Employee Stock Purchase Plan, and have since allowed our international employees to participate in the 2000 Purchase Plan. The following table presents information since the beginning of fiscal year 2002 relating to the aggregate number of shares purchased under the Purchase Plan and the International Purchase Plan, as well as the number of employees who have participated in such plans:

	Shares Purchased Pursuant to 2000 Purchase Plan	Shares Purchased Pursuant to International Purchase Plan <sup>(1)</sup>	Total Shares Purchased	No. of Employees Participating as of the Last Purchase Date in Fiscal Year
Fiscal Year 2002	421,542	204,938	626,480	2,217
Fiscal Year 2003	440,528	257,368	697,896	2,418
Fiscal Year 2004	866,541	—	866,541	2,933
Fiscal Year 2005	<sup>(2)</sup>	—	<sup>(2)</sup>	3,459 <sup>(3)</sup>

(1) The International Employee Stock Purchase Plan was terminated in February 2003.

(2) Fiscal year 2005 purchases under the 2000 Purchase Plan will be made in August 2004 and February 2005.

(3) Represents number of participants in the 2000 Purchase Plan as of May 15, 2004. Participants have the right to withdraw from the 2000 Purchase Plan at any time prior to a purchase date. The number of participants may increase or decrease prior to February 2005, the last purchase date in fiscal 2005.

The proposed amendment would increase the number of shares authorized under the 2000 Purchase Plan by 1,500,000 to a total of 3,800,000, an amount that we estimate will permit all current and potential future employees to fully participate in the Purchase Plan for at least fiscal year 2005.

For more information about the 2000 Purchase Plan, we urge you to read the summary of its material terms included as Appendix B to this Proxy Statement.

**REQUIRED VOTE AND BOARD OF DIRECTORS' RECOMMENDATION**

Approval of this proposal requires the affirmative vote of a majority of the votes present at the meeting in person or by proxy and voting on this proposal.

*The Board recommends a vote FOR the amendment to the 2000 Employee Stock Purchase Plan.*

**PROPOSAL 4. AMENDMENT AND RESTATEMENT OF OUR CERTIFICATE OF INCORPORATION TO CONSOLIDATE OUR CLASS A COMMON STOCK AND CLASS B COMMON STOCK INTO A SINGLE CLASS OF COMMON STOCK**

This proposal would amend and restate our Certificate of Incorporation, as described below. A copy of the Amended and Restated Certificate of Incorporation that you are being asked to approve is attached to this Proxy Statement as Appendix C.

**Consolidation of Class A and Class B Common Stock**

We are proposing to amend and restate our Certificate of Incorporation to consolidate our Class A common stock and Class B common stock into a single class of common stock by reclassifying each outstanding share of Class A common stock as one share of common stock and converting each outstanding share of Class B common stock into 0.001 shares of common stock (which we refer to as the “Consolidation Amendment”). We are also proposing to make the following related amendments to our Certificate of Incorporation:

- We presently have provisions in our Certificate of Incorporation authorizing 500 million shares of common stock, comprised of 400 million shares of Class A common stock and 100 million shares of Class B common stock. Because the Amendment would reclassify the Class A common stock as common stock and we would no longer have any shares of Class B authorized, *if stockholders do not approve the proposal to increase the number of shares of authorized common stock discussed in Proposal No. 5 below*, following the Consolidation Amendment there would only be authorized 400 million shares of a single class of common stock. In addition, if the Consolidation Amendment is approved, we will continue to have 10 million shares of preferred stock (none of which are issued and outstanding) authorized under our Certificate of Incorporation and this will not be changed by the Consolidation Amendment.
- We presently have various provisions in our Certificate of Incorporation designating certain separate rights of the holders of Class A common stock and Class B common stock. Because the Consolidation Amendment will result in the conversion of all outstanding Class B Common Stock to the single class of common stock, the authorized Class B common stock will be eliminated and each of the provisions governing the separate rights of the Class B common stock will be deleted.

**Effects of Approving the Consolidation Amendment**

If our stockholders approve the Consolidation Amendment, we will file an Amended and Restated Certificate of Incorporation reflecting the Consolidation Amendment with the Delaware Secretary of State, which will become effective on the date the filing is accepted by the Delaware Secretary of State.

As of June 8, 2004, the record date for the Annual Meeting, there were issued and outstanding 302,999,386 shares of our Class A common stock and 200,130 shares of our Class B common stock. As of the effective date of the Consolidation Amendment, (i) each outstanding share of Class A common stock would be reclassified as one outstanding share of common stock and (ii) each outstanding share of the Class B common stock would be converted into 0.001 shares of common stock, for a total of 200 shares of common stock. The Consolidation Amendment’s elimination of the authorized Class B Common Stock would also eliminate some restrictions that currently exist on the Class A common stock that provide protection for the separate rights of the holders of the Class B common stock. The rights and privileges of the holders of Class A common stock would not otherwise be effected by the Consolidation Amendment. Each outstanding option to acquire a share of Class B common stock under our Class B Equity Incentive Plan would become an option to acquire 0.001 shares of common stock. As of the record date, there were options outstanding to acquire 34,439 shares of Class B common stock.

If our stockholders approve the Consolidation Amendment, we will issue a total of 200 shares of common stock to the current holders of our Class B common stock. No fractional shares will be issued in connection with the consolidation; rather, we will pay in cash the fair value of any fractional shares.

The Class B common stock was intended to reflect the performance of our former online games division, EA.com. Beginning in fiscal 2004, we ceased operating EA.com as a separate business and integrated our online games business into our overall software business. Therefore, the separate value of our online games business, which the Class B common stock is designed to track, is nominal. Following effectiveness of the Consolidation Amendment, we intend for our single class of common stock to reflect the combined performance of our business as a whole.

There is currently no mandatory redemption or exchange provision with respect to the Class A common stock. Currently, if we dispose of all or substantially all of the assets of EA.com, we would be required to choose one of the following three alternatives: (i) pay a dividend to holders of Class B common stock in an amount equal to their proportionate interest in the net proceeds of such disposition, (ii) redeem from holders of Class B common stock, for an amount equal to their proportionate interest in the net proceeds of such disposition, the outstanding shares of Class B common stock (or redeem a portion of the Class B common stock if EA.com continues to hold a material amount of its assets after such disposition), or (iii) issue Class A common stock in exchange for outstanding Class B common stock at a 15% premium. At any time within one year after completing a special dividend or partial redemption referred to above, we have the right to issue Class A common stock in exchange for outstanding Class B common stock at a 15% premium. Upon effectiveness of the Consolidation Amendment, the obligations to effect such a special dividend or redemption will be terminated and there will be no mandatory redemption, dividend or exchange provision with respect to our common stock.

The Class A common stock has one vote per share. Currently the Class B common stock has 0.05214 votes per share. Holders of Class A common stock and Class B common stock vote together as a single class, except in certain limited circumstances where the Class B common stock must approve changes to the terms of the Class B common stock. Upon effectiveness of the Consolidation Amendment, each share of the single class of common stock will have one vote and will vote together on all matters.

Currently, our ability to pay dividends to either the Class A common stock or the Class B common stock, is limited to what our ability to legally pay dividends would be if the portion of our business represented by each such class of common stock were a separate Delaware corporation. Following effectiveness of the Consolidation Amendment these separate limits will no longer be in effect and we will be permitted to pay dividends as legally permitted under Delaware law. However, we currently intend to retain all of our earnings to finance our operations and fund future growth. We have not paid any dividends on the Class A common stock nor we do not anticipate paying cash dividends on the common stock for the foreseeable future. There are no arrears as to dividends on the Class A common stock or Class B common stock.

If our stockholders do not approve the Consolidation Amendment, there would be no change in our existing capital stock. As such, holders of Class A common stock would continue to hold Class A common stock, and holders of Class B common stock would continue to hold Class B common stock.

**Background and Reasons for the Consolidation Amendment**

At a Special Meeting of Stockholders in March 2000, our stockholders approved an amendment and restatement of our Certificate of Incorporation to create our two classes of common stock, Class A common stock and Class B common stock. The Class B common stock was intended to be a tracking stock to reflect the performance of EA.com, which, at the time, was our online games division. Prior to the creation of the Class A and Class B common stock, we had a single class of outstanding common stock, designated simply as “common stock”. In connection with the March 2000 amendment, each then-outstanding share of common stock was redesignated as one share of Class A common stock. We subsequently sold shares of Class B common stock to certain EA executives and issued warrants to purchase shares of Class B common stock to certain institutional buyers. We also reserved additional shares of Class B common stock for the creation of our Class B Equity Incentive Plan.

Our reasons for creating the Class B common stock included:

- By reporting the operating results of EA.com, we would increase the market’s understanding of EA.com and of the revenues, costs, earnings or losses associated with this business.
- Creating separate investment vehicles represented by the Class A common stock and the Class B common stock to meet the requirements of distinct investors—those looking for a more mature software business like EA, and those looking for the growth potential of a newer Internet business such as EA.com.
- Equity incentive awards using the Class B common stock would assist EA.com in attracting and retaining key talent in the competitive employee market in online businesses.
- The Class B common stock would facilitate the separation of our online business from our packaged goods business while retaining ownership of our online assets.
- Class B common stock would assist the Board in meeting the capital requirements of EA.com by creating an additional security for use in raising capital and as currency for acquisitions by EA.com.

While the Class B common stock provided some of these benefits, EA.com is no longer a separate business and we no longer have any plans, nor do we see meaningful prospects, for the creation of a public market for our Class B common stock. Further, given the administrative costs of maintaining the Class B common stock and the potential confusion caused by our dual class common stock structure, our Board of Directors has determined that it is no longer in our best interests or those of our stockholders to continue to maintain two classes of common stock.

Our Class B common stock warrant holders have previously exercised their rights as set forth in our original agreements with such investors to exchange their Class B common stock warrants for Class A common stock warrants. In addition, most of our employees who held options to purchase Class B common stock under our Class B Equity Incentive Plan voluntarily tendered such options in exchange for cash. As of the record date, 200,130 shares of Class B common stock and options to purchase 34,439 shares of Class B common stock remained outstanding.

Accordingly, in March 2003, we consolidated the operations of the EA.com business segment into our core operations in order to increase efficiency, simplify our reporting structure and more directly integrate online activities into our core console and PC business. As a result, we eliminated dual class reporting starting in fiscal 2004. Since March 2003, we have not issued, and we do not intend to issue, additional Class B common stock, stock options or warrants to purchase Class B common stock. No further options are available for grant under the Class B Equity Incentive Plan.

***Post-Consolidation Activity***

Our stockholders will not need to take any further action with respect to their existing stock certificates representing their Class A common stock or Class B common stock, as the case may be, following the effectiveness of the Consolidation Amendment. Once the Consolidation Amendment becomes effective, our Board of Directors will take such action as may be necessary to amend our equity compensation plans and any other agreements to reflect the new single class of common stock.

***No Appraisal Rights***

No appraisal rights are available under the Delaware General Corporation Law or under our Certificate of Incorporation or bylaws to any stockholder who doesn't vote in favor of the Consolidation Amendment.

***Tax Consequences***

The following summary of the federal income tax consequences of the Consolidation Amendment and the ownership of Class A common stock and Class B common stock is based on the Internal Revenue Code of 1986, as amended to the date hereof (the "Code"), Treasury Department regulations, published positions of the Internal Revenue Service (the "IRS") and court decisions now in effect, all of which are subject to change. **You should consult your own tax advisors with regard to the application of the federal income tax laws to your particular situation, as well as to the applicability and effect of any state, local, or foreign tax laws to which you may be subject.**

We believe that for federal income tax purposes Class A common stock and Class B common stock will be considered to be EA common stock. Accordingly, we believe that for federal income tax purposes, neither you nor Electronic Arts will recognize any income, gain or loss as a result of the reclassification of existing Class A common stock into common stock or the conversion of the Class B common stock into common stock. There are, however, no court decisions or other authority bearing directly on the classification of instruments with characteristics similar to those of Class A common stock and Class B common stock.

Further, the IRS has announced that it will not issue advance rulings on the correct classification for federal income tax purposes of instruments such as tracking stock. It is possible, therefore, that the IRS could assert that the Class A common stock or the Class B common stock or both represent property other than common stock of the Company. Finally, stockholders should be aware that this discussion does not address any issues that may be relevant to stockholders who acquired their shares in compensatory transactions or other holders who are subject to special circumstances or tax rules (such as dealers in securities or foreign persons).

### ***Interests of Certain Persons in the Consolidation Amendment***

There is currently no public trading market for our Class B common stock, nor do we expect for one to develop. If the Consolidation Amendment is approved, several of our current and former executive officers who hold shares of Class B common stock will receive shares of common stock, which will trade on the Nasdaq National Market. The following table sets forth information regarding the Consolidation Amendment for persons who are or have been an executive officer of EA since April 1, 2003:

### **REQUIRED VOTE AND BOARD OF DIRECTORS' RECOMMENDATION**

Approval of this proposal requires the affirmative vote of (i) a majority of the outstanding shares of the Class A common stock and Class B common stock, voting together as a single class, and (ii) a majority of the outstanding shares of Class B common stock voting separately.

*The Board recommends a vote FOR the amendment and restatement of our Certificate of Incorporation to consolidate our Class A common stock and Class B common stock into a single class of common stock.*

**PROPOSAL 5. FURTHER AMENDMENT AND RESTATEMENT OF OUR CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK**

Under our current Certificate of Incorporation, there are authorized 400 million shares of Class A common stock, 100 million shares of Class B common stock, and 10 million shares of preferred stock. If stockholders approve both this proposal and the Consolidation Amendment discussed above in Proposal No. 4, the amendment and restatement of the Certificate of Incorporation would increase the total number of authorized shares of common stock to 1 billion shares. If stockholders do not approve the Consolidation Amendment but approve this proposal, the amendment and restatement of the Certificate of Incorporation would increase the number of authorized shares of Class A common stock to 1 billion shares, while the number of authorized shares of Class B common stock would remain at 100 million. The amendment and restatement of the Certificate of Incorporation does not include any change to the authorized number of shares of preferred stock, which would remain at 10 million authorized shares.

The Board has unanimously determined that it would be in the best interests of the Company and our stockholders to amend the Certificate of Incorporation to increase the number of authorized shares of common stock to 1 billion shares (or 1 billion shares of Class A common stock if stockholders do not approve the Consolidation Amendment).

As of March 31, 2004, 302,174,818 of the 400 million authorized shares of Class A common stock were issued and outstanding, an additional 43,554,031 shares were reserved for issuance upon the exercise of outstanding options, 8,670,239 shares were reserved for future issuance under our stock option plans, and 571,389 shares were reserved for future issuance under our 2000 Employee Stock Purchase Plan. Based on our capitalization as of March 31, 2004, we had less than 46 million authorized shares available for issuance and not otherwise reserved for other purposes.

The proposed increase in the number of shares of common stock will permit the Company to move quickly, without the delay and expense of a stockholder meeting, if the Board determines that it is desirable for the Company to issue shares of common stock in excess of the currently authorized number of shares for business and financial purposes, which may include stock dividends and splits, financings, strategic relationships with other companies, expanding our business or product lines through acquisitions of other businesses or products, and other corporate actions.

For example, in September 2000, and again in November 2003, the Board effected two-for-one stock split of our Class A common stock which was distributed in the form of a stock dividend. Further, earlier this year, the SEC granted effectiveness to a registration statement filed by the Company on Form S-3 (a so-called "shelf registration") of up to \$2 billion of equity or debt securities to be issued by the Company at the direction of the Board. The proposed increase in the number of authorized shares of common stock will give the Board flexibility to effect additional stock dividends, issue shares of common stock under the shelf-registration and pursue other corporate goals when the Board believes that it is in the best interests of the Company and its stockholders to do so.

A portion of the additional shares could also be issued pursuant to our stock option and stock purchase plans, as authorized by the stockholders from time to time. For example, pursuant to Proposal No. 2 and Proposal No. 3 above, additional shares of common stock would be reserved for issuance under the 2000 Equity Plan and the Stock Purchase Plan. In the event that stockholders do not approve this proposal, however, we would still have a sufficient number of shares of Class A common stock to permit us to effect the proposed increases to our stock option and stock purchase plans described in Proposal No. 2 and Proposal No. 3. The Board does not currently have any other specific plans to issue any of the additional shares to be authorized. We do not intend to seek further

stockholder authorization for the issuance of additional shares unless such stockholder authorization is otherwise required under applicable law or the rules of the Nasdaq National Market (on which our Class A common stock is traded) due to the nature and size of the transaction or transactions in which the shares are to be issued, or as may be required to reserve additional shares of common stock for issuance under our equity plans.

Although it is not the intention of this proposal, the Board recognizes that an increase in the number of shares of authorized common stock could have the effect of discouraging attempts to take control of the Company, as the issuance of the additional shares made available by this proposal could be used to dilute the stock ownership of, or increase the cost to, a potential acquirer. For example, in the event of a hostile takeover attempt of the Company, it may be possible for the Company to impede the attempt by issuing shares of common stock, thereby diluting the voting power of other outstanding shares, and increasing the cost to acquire control of the Company. If passed, this proposal could therefore have the effect of discouraging unsolicited takeover attempts of the Company. By potentially discouraging initiation of any such unsolicited takeover attempt, the proposal may limit the opportunity for stockholders to dispose of their shares for a higher price than they would otherwise be able to obtain. However, the Board is not aware of any attempt to take control of the Company and has not presented this proposal with the intent that it be utilized as an anti-takeover device.

If both this proposal and the Consolidation Amendment described in Proposal No. 4 above are approved by the stockholders, the Board intends to amend the Company's Certificate of Incorporation to increase the number of authorized shares of common stock as provided in the proposed Amended and Restated Certificate of Incorporation attached to this proxy statement as Appendix C.

If this proposal is approved by the stockholders, but the Consolidation Amendment in Proposal No. 4 above is not approved, then Article IV of our current Certificate of Incorporation will be restated in its entirety to read:

#### “ARTICLE IV

The total number of shares of stock of all classes which the Company is authorized to issue is 1,110,000,000 shares, consisting of 1,000,000,000 shares of Class A Common Stock, par value \$0.01 per share (“Class A Common Stock”), 100,000,000 shares of Class B Common Stock, par value \$0.01 per share (“Class B Common Stock”), and 10,000,000 shares of Preferred Stock, par value \$0.01 per share.

The Board of Directors is authorized, subject to any limitations prescribed by the law of the State of Delaware, to provide for the issuance of Preferred Stock in one or more series, to establish from time to time the number of shares to be included in each such series, to fix the designation, powers, preferences and rights of the shares of each such series and any qualifications, limitations or restrictions thereof, and to increase or decrease the shares of any such series (but not below the number of shares of such series then outstanding).”

However, the Board reserves the right not to amend the Certificate of Incorporation, despite approval by the stockholders, if the Board determines that it would not be in the best interests of the Company and its stockholders to do so.

#### **REQUIRED VOTE AND BOARD OF DIRECTORS' RECOMMENDATION**

Approval of this proposal requires the affirmative vote of a majority of the outstanding shares of the Class A common stock and Class B common stock, voting together as a single class.

*The Board recommends a vote FOR the amendment and restatement of our Certificate of Incorporation to increase the number of authorized shares of common stock.*

## **PROPOSAL 6. RATIFICATION OF THE APPOINTMENT OF KPMG LLP, INDEPENDENT AUDITORS**

KPMG LLP has audited the financial statements of EA and its consolidated subsidiaries since fiscal year 1987. The Board, through the Audit Committee, has appointed KPMG LLP as EA's independent auditors for fiscal year 2005. The Audit Committee and the Board believe that KPMG LLP's long-term knowledge of EA and its subsidiaries is valuable to the Company. Representatives of KPMG LLP have direct access to members of the Audit Committee and the Board. Representatives of KPMG LLP will attend the meeting in order to respond to appropriate questions from stockholders, and may make a statement if they desire to do so.

Ratification of the appointment of KPMG LLP as our independent auditors is not required by our bylaws or otherwise. The Board of Directors has determined to submit this proposal to the stockholders as a matter of good corporate practice. If the stockholders do not ratify the appointment, the Audit Committee will review their future selection of auditors. Even if the appointment is ratified, the Audit Committee may, in its discretion, direct the appointment of different independent auditors at any time during the year if they determine that such a change would be in the best interests of the Company and the stockholders.

### **Fees of Independent Auditors**

The aggregate fees billed for the last two fiscal years for each of the following categories of services are set forth below:

<b>Description of Fees</b>	<b>Year Ended March 31, 2004</b>	<b>Year Ended March 31, 2003</b>

<b>All Other Fees<sup>(4)</sup></b>		
<b>Total all other fees</b>	<b>--</b>	<b>--</b>
<b>Total All Fees</b>	<b>\$ 2,968,000</b>	<b>\$ 2,480,000</b>

(1) Audit Fees: This category includes the annual audit of the Company's financial statements, (including required quarterly reviews of financial statements included in the Company's quarterly reports on Form 10-Q) and services normally provided by the independent auditors in connection with regulatory filings. This category also includes advice on matters that arose during, or as a result of the audit or review of financial statements, statutory audits required for our non-US subsidiaries, and services associated with our registration statement on Form S-3 filed in January 2003, periodic reports and other documents filed with the SEC and foreign filings, as well as Sarbanes-Oxley Section 404 compliance assistance.

(2) Audit Related Fees: This category consists of fees related to audits of employee benefit plans.

(3) Tax Services: This category includes compliance services rendered for US and foreign tax compliance and returns, and transfer pricing, as well as planning and advice which consists primarily of technical tax consulting.

(4) Other: In fiscal year 2004, no products or services were provided under this category.

**Services Provided by the Independent Auditors**

The Audit Committee is required to pre-approve the engagement of and engages KPMG LLP to perform audit and other services for the Company and its subsidiaries. The Company's procedures for the pre-approval by the Audit Committee of all services provided by KPMG LLP comply with SEC regulations regarding pre-approval of services. Services subject to these SEC requirements include audit services, audit-related services, tax services and other services. The audit engagement is specifically approved and the auditors are retained by the Audit Committee. In some cases, pre-approval for a particular category or group of services is provided by the Audit Committee for up to a year, subject to a specific budget and to regular management reporting. In other cases, the Chairman of the Audit Committee has the delegated authority from the Audit Committee to pre-approve additional services up to a specified dollar limit, and such pre-approvals are then communicated to the full Audit Committee.

The Audit Committee considered and determined that fees for services other than audit and audit-related services are compatible with maintaining KPMG LLP's independence.

**REQUIRED VOTE AND BOARD OF DIRECTORS' RECOMMENDATION**

Approval of this proposal requires the affirmative vote of a majority of the votes present at the meeting in person or by proxy and voting for or against the proposal.

*The Board recommends a vote FOR the ratification of KPMG LLP as our independent auditors for fiscal year 2005.*

**OTHER BUSINESS**

The Board knows of no other business for consideration at the Annual Meeting. If other matters are properly presented at the Annual Meeting, or at any adjournment or postponement of the Annual Meeting, Lawrence F. Probst III and Warren C. Jenson will vote, or otherwise act, in accordance with their judgment on such matters.

## STOCK OPTION GRANTS

This table shows stock options granted to the Named Executive Officers during the last fiscal year. In accordance with the rules of the Securities and Exchange Commission, the table sets forth the hypothetical gains that would exist for the options at the end of their respective 10 year terms. This hypothetical gain is based on assumed annualized rates of compound stock price appreciation of 5% and 10% from the dates the options were granted to the end of their respective ten year option terms. Actual gains, if any, on option exercises are dependent on the future performance of EA's common stock. The hypothetical gains shown in this table are not intended to forecast possible future appreciation, if any, of the stock price.

All option grants listed above were made pursuant to EA's 2000 Equity Incentive Plan. The material terms regarding the exercise price of options, vesting, change of control, and prohibitions on "repricing" are summarized in Appendix A to this Proxy Statement.

- Subtracting the option exercise price from \$51.78 (the fair market value of EA's common stock at the close of business on the last trading day of fiscal year 2004, March 26, 2004) to get the value per share subject to option, and
- Multiplying the value per share subject to option by the number of shares underlying exercisable and unexercisable options.

## EQUITY COMPENSATION PLAN INFORMATION

### Class A Common Stock

**CHANGE OF CONTROL AGREEMENTS**

EA currently has no employment contracts with any Named Executive Officer or severance arrangements with respect to their resignation or termination of employment, except that outstanding options under the 2000 Equity Plan, including those held by executive officers, may immediately vest in connection with certain changes in control or ownership of the Company, unless the successor company assumes or replaces those options.

The following is the Report of the Compensation Committee describing the compensation policies applicable to EA's executive officers. This information shall not be deemed to be "soliciting material" or to be "filed" with the Securities and Exchange Commission nor shall this information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that EA specifically incorporates it by reference into a filing.

## **COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION**

### ***Responsibilities and Composition of the Compensation Committee***

During fiscal year 2004, the Compensation Committee consisted of Mr. Asher, Mr. Byron and Ms. Srere. None of these members is a current or past employee of EA or any of its subsidiaries, nor are any of them eligible to participate in any of the executive compensation programs of the Company except through automatic formulaic grants pursuant to either the 2000 Equity Incentive Plan or Directors' Plan. In addition, each meets the definition of "Outside Director" for the purposes of administering the compensation programs to meet the tax deductibility criteria under Section 162(m) of the Internal Revenue Code, and the definition of "independent director" under the rules of the Nasdaq National Market.

The Compensation Committee reviews and approves the compensation philosophy and policies for EA's executives and reviews the salaries, bonuses and stock incentives of each of the executive officers including the Chief Executive Officer. The Compensation Committee also administers the Company's equity compensation plans and the bonus plan for executive officers and all significant or non-standard equity grants for other employees. In February 2003, the Board of Directors adopted the Committee's charter, which reflects these responsibilities and which provides that all members must be independent as defined in the applicable regulations and listing standards.

### ***Compensation Philosophy and Challenges***

EA's compensation philosophy to attract and retain the best executive talent relies on two basic principles. First, a significant portion of each executive's compensation should be in the form of equity to align the executive's interests with those of EA's stockholders. Second, a significant portion of each executive's cash compensation should be performance-based and "at risk" — varying from year to year depending on EA's financial and operational performance and on the individual meeting

financial and other performance measures. For fiscal year 2004 the incentive plan payouts reflect the Company's financial performance. The Committee and the Company remain committed to this "pay for performance" philosophy which ensures that executive cash compensation will mirror the Company's and the executive's performance.

In the last fiscal year, notwithstanding the continued sluggishness of the economy generally, competitive recruiting efforts aimed at EA's executives continued. EA's leading and growing position within the entertainment industry makes it a prime target for recruiting of executives and key creative talent to assist in the consolidation and talent demands that the interactive entertainment industry is experiencing.

The Company also continues to recruit for key talent and executives. Competition in attracting and retaining talent comes primarily from three broad industry segments: entertainment, high technology and consumer packaged goods. EA has continued to build its senior management team and has been successful in attracting talent from the entertainment software industry and other market segments to add management depth and experience to the organization. The Company continues to look at creative new methods using its compensation programs to successfully recruit new talent into the organization while maintaining parity with compensation of current key executives. Just as important as recruiting new talent and executives into the organization is the internal development and retention of key talent and executives. As EA grows it will, like all organizations, have normal turnover within its executive ranks, such as the changes experienced this past year when two key executives (the Company's President in charge of Publishing, and its General Counsel) left the Company. To address these departures, EA has been able to both promote and expand roles from within its existing ranks to fill parts of their responsibilities. The Company will also take this opportunity to bring new executive talent to the organization.

### **Data Considered and Process Used**

In fiscal 2004, EA's Human Resources Department gathered executive compensation data from nationally recognized surveys for the industries mentioned above and provided this data to the Compensation Committee. The data was compiled from numerous companies with median sales and growth approximately equal to those of EA. The factors used to determine the participants in the survey included annual revenues, industry growth rate and geography. Companies included in this data were from high technology (primarily software developers), entertainment and selected packaged goods companies as reference points. The companies in the compensation survey overlap considerably with the companies contained in the RDG Technology Composite index. Additional companies included in the survey group were judged to be relevant because they compete for executive talent with EA. Other companies were excluded from the survey either because they were determined not to be competitive with EA for executive talent, or because compensation information was unavailable.

EA's executive level positions, including the CEO, were matched to comparable survey positions and competitive market compensation levels to determine base salary ranges, target incentives and target total cash compensation. EA's Human Resources Department participated in comprehensive surveys such as the IQuantic Equity Practices Survey for the High Technology Industry to assist in determining appropriate equity level compensation.

This competitive market data was reviewed by the Human Resources Department with the CEO for each benchmark executive level position, and with the Compensation Committee for the CEO and other key executives. In addition, each executive officer's performance for the last fiscal year and objectives for the subsequent year are reviewed in written form. The Compensation Committee also considers each executive's responsibility level and EA's fiscal performance compared to objectives and potential performance targets for the subsequent year.

### **Executive Compensation**

The Compensation Committee awards executive compensation in three components: base salary, cash incentive bonus and equity incentives. Historically, the Committee has generally reviewed and, if appropriate, adjusted executive compensation in October of each year. Beginning with the Company's current fiscal year, in order to better align with EA's fiscal year planning and performance, the Committee will be moving its annual executive compensation review to February.

**Base Salary.** For fiscal 2004, executive officers' base salaries were within the approximate third quartile of salary levels in effect for comparable positions with survey companies. In addition, the Compensation Committee considered each executive's performance over the last year as reported by the CEO and the Executive Vice President of Human Resources, as well as each executive's responsibility level. In fiscal 2004, those eligible executives received an annual merit increase to their base salary during the Committee's October 2003 compensation review, including the Named Executive Officers. The increases in "Salary" noted in the Summary Compensation Table above reflect increased contributions to our 401(k) Plan as a result of EA's performance, and the effect of increases granted in the normal course in the Committee's October 2003 compensation review.

**Incentive Bonus.** Our annual incentive Bonus Plan remained the same for fiscal 2004. The Committee assigned a target bonus to each executive officer (expressed as a percentage of that executive's base salary), determined which portions of each executive's target bonus are dependent on EA's financial performance and individual achievements and approved the overall mechanics and structure of the Bonus Plan.

**Stock Options.** In October 2003 the Committee made Class A stock option grants to certain executive officers including the CEO. See "Options Granted in Fiscal 2004" above. Stock options typically have been granted to executive officers when the executive first joins EA, in connection with a significant change in

responsibilities, annually to provide incentives for continued performance and retention of employment and occasionally, to achieve equity within a peer group. The number of shares subject to each stock option granted to an executive officer was calculated to achieve a future value in unvested options equal to a multiple of each executive's annual base salary assuming both growth and stock appreciation. All grants were made at fair market value on the date of grant and vest as described in the "Options Granted in Fiscal 2004" above. The Company and the Committee continue to believe in the use of stock options as the best form of equity compensation to achieve the Company's goals of attracting the best talent to EA, retaining its high-performing team and providing an incentive for its executives to perform at their highest levels. The Committee and the Company also continue to believe that stock options reward executives in a manner consistent with the value that is created for the Company's stockholders when the Company achieves its goals, and that performance is reflected in the growth of the Company's share price. Like other companies that see the same value in the use of stock options as a key component of executive compensation, the Committee and the Company are looking closely at the amount of options granted annually and preparing for the potential of stock option expensing.

#### **Executive Ownership Requirements.**

This past year the Board of Directors also implemented EA stock ownership requirements for all executive officers. These ownership requirements are established as multiples of the executive's base pay and are dependent on the executive's level within the organization. The Committee believes these ownership guidelines further align the interests of EA's stockholders and executives.

**Other.** In June of 2002, EA hired Warren Jenson as our Chief Financial Officer. As part of its efforts to recruit Mr. Jenson, EA offered to loan him \$4 million, to be forgiven over four years based on his continued employment. (See "Certain Transactions" below.) This offer and the associated loan were made prior to

enactment of the Sarbanes-Oxley Act of 2002 and the prohibition on loans to executive officers. However, the Committee did review this proposed arrangement in light of the then-current environment and sensitivity to transactions with management and determined the environment for recruiting highly regarded and talented chief financial officers was, and has been, intensely competitive, and the Committee believed that a competitive compensation offer tied to continuing service was significantly more beneficial to the Company than unrestricted cash payments. The first portion of Mr. Jenson's loan forgiveness will occur in June of 2004 upon his two-year service anniversary with the Company.

#### ***Fiscal 2004 CEO Compensation***

Compensation for the CEO is determined through a process similar to that discussed above for executive officers in general.

The Compensation Committee increased the base salary for Mr. Probst in fiscal 2004 by 3.85% to \$675,000 per annum. Mr. Probst received a cash performance incentive bonus of \$781,000 tied to the Company exceeding its fiscal 2004 financial performance objectives. Mr. Probst's total cash compensation in fiscal 2004 decreased by 19.1% from the prior fiscal year.

In October 2003, the Committee approved a new stock option grant to Mr. Probst for 200,000 shares of Class A common stock based upon the retention and incentive factors discussed above and taking into account prior option grant history, the level of vested versus unvested shares and the number of shares Mr. Probst already owned as of October 2003. The grant of 200,000 shares will first vest and become exercisable 12 months from vest start date (24%), and will then vest 2% on the first calendar day of each month thereafter for 38 months. This grant reflects the Committee's continuing policy to subject a substantial portion of his overall compensation each year to the market performance of the Company's common stock and to maintain his option holdings at a level consistent with that for other chief executive officers of the survey companies.

### ***Equity Compensation Analysis***

As mentioned above, during the fiscal year, the Company and the Committee reviewed the merits of a variety of alternative equity-based compensation approaches and evaluated its approach of relying on stock options for employees and executive officers. While the 2000 Equity Plan permits issuance of restricted stock, and if proposal number 2 is approved will also expressly permit the issuance of restricted stock units, the Committee expects stock options to continue to be EA's primary form of equity incentive. While EA may make limited use of restricted stock and (potentially) restricted stock units in the future, the Committee continues to believe that stock options and their high-potential risks and rewards have been vital to our growth, provide the strongest incentive for employee performance in a growth company, and best meet the Company's philosophy of aligning employee compensation with stockholder value.

### ***Tax Law Limits on Executive Compensation***

Section 162(m) of the Internal Revenue Code limits deductions for executive compensation in excess of \$1 million except for certain compensation which qualifies for a performance-based exception. Certain types of compensation in excess of \$1 million are deductible by the Company if performance criteria are specified in detail and are contingent on stockholder approval of the compensation arrangement. The Company and the Committee have endeavored to structure executive compensation plans to achieve maximum deductibility under Section 162(m) with minimal sacrifices of flexibility and corporate objectives.

With respect to equity compensation arrangements, the Committee has structured its current stock option arrangements in a manner intended to achieve tax deductibility of such amounts. With respect to non-equity compensation arrangements, the Committee has reviewed the terms of those arrangements most likely to be subject to Section 162(m).

Cash compensation in fiscal 2004 for Mr. Probst, Mr. Mattrick, Mr. Jenson and Mr. Riccitiello slightly exceeded the Section 162(m) threshold. Although the excess will reduce the tax deduction available to EA, that reduction will not be significant and the Committee believes that such payments were consistent with EA's "pay for performance" compensation philosophy.

While the Compensation Committee will continue to consider deductibility under Section 162(m) with respect to future compensation arrangements with executive officers, deductibility will not be the only factor used in ascertaining appropriate levels or modes of compensation. Since corporate objectives may not always be consistent with the requirements for full deductibility, it is possible that the Committee may, if consistent with EA's "pay for performance" philosophy described above, enter into compensation arrangements in the future under which payments are not fully deductible under Section 162(m).

## **REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS**

The Audit Committee of the Board of Directors is comprised of three non-employee Directors, each of whom in the opinion of the Board of Directors meets the current independence requirements and financial literacy standards of the Nasdaq Marketplace rules. In addition, in the opinion of the Board of Directors, Mr. Maffei meets the criteria for a “financial expert” under Nasdaq Marketplace rules as well as the above-mentioned independence requirements.

The Audit Committee operates under a written charter which was most recently amended in February 2003 in order to comply with the requirements of the Sarbanes-Oxley Act of 2002, regulations adopted by the SEC and related Nasdaq Marketplace rules concerning audit committee membership and responsibilities.

Primary responsibility for the preparation, presentation and integrity of the Company’s financial statements lies with management. EA’s independent auditors are responsible for performing an independent audit of the financial statements in accordance with generally accepted auditing standards and expressing an opinion as to the conformity of the financial statements with generally accepted accounting principles. The function of the Audit Committee is to assist the Board of Directors in its oversight responsibilities relating to EA’s accounting policies, internal controls and financial reporting. The Audit Committee reviews EA’s quarterly and annual financial statements prior to submission to the Securities and Exchange Commission (“SEC”); reviews quarterly financial statements prior to earnings releases; reviews and evaluates the performance of EA’s internal audit department; reviews and evaluates the performance of EA’s independent accountants; consults with the independent accountants and EA’s internal audit department regarding internal controls and accuracy of the Company’s financial statements; recommends

to the Board of Directors the selection of the independent accountants; and assesses the independence of the independent accountants.

In this context, the Audit Committee has met and held discussions with management and the independent auditors. Management represented to the Audit Committee that the Company’s consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States, and the Audit Committee has reviewed and discussed the consolidated financial statements with management and the independent auditors. The Committee discussed with the independent auditors matters required to be discussed by Statement on Auditing Standards No. 61 (Communications with Audit Committees), as amended, including the quality and acceptability of the Company’s financial reporting process and controls. The Committee has also discussed with the Company’s independent auditors the overall scope and plans for their annual audit.

In addition, the Committee has discussed with the independent auditors the auditors’ independence from the Company and its management, including the matters in the written disclosures required by the Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees) and also considered whether the provision of any non-audit services (as described in the Company’s 2004 proxy statement under “*Proposal No. 6. Ratification of the Appointment of KPMG LLP, Independent Auditors — Fees of Independent Auditors*”) and the employment of former KPMG LLP employees by the Company is compatible with maintaining the independence of KPMG LLP.

The members of the Audit Committee are not engaged in the practice of auditing or accounting. In performing all of its functions, the Audit Committee necessarily relies on

the work and assurances of the Company's management and independent auditors, which, in their report, express an opinion on the conformity of the Company's annual financial statements to accounting principles generally accepted in the United States. In reliance on the reviews and discussions referred to in this report and in light of its role and responsibilities, the Committee recommended to the Board of Directors that the audited financial statements of the Company for the three years ended March 31, 2004 be included for filing with the SEC in the Company's Annual Report on Form 10-K for the year ended March 31, 2004. The Committee has also approved the selection of KPMG LLP as the Company's independent auditors for fiscal 2005.

The Audit Committee's oversight function thus does not duplicate the activities of management or the independent accountants and does not provide an independent verification that management has employed appropriate accounting and financial reporting principles, or that appropriate procedures to ensure compliance with accounting standards and laws and regulations, or that the financial statements have been presented in accordance with generally accepted accounting principles, or that EA's auditors are in fact "independent".

### **CERTAIN TRANSACTIONS**

#### ***Indebtedness of Management***

On June 24, 2002, we agreed to loan Warren Jenson \$4,000,000, to be forgiven over four years based on his continuing employment. Two million dollars of the note will be forgiven after two years employment (at which time we will provide Mr. Jenson the funds required to offset the tax implications of the forgiveness), and the remainder forgiven after four years. No additional funds will be provided to offset the tax implications of the forgiveness of the second two million dollars. The loan does not bear interest. The entire balance of the loan was outstanding as of May 15, 2004.

In April 2002, we agreed to pay certain taxes incurred by Bruce McMillan, Executive Vice President, Group Studio Head of EA Canada, arising from his temporary employment with us in the United Kingdom. Mr. McMillan agreed to reimburse us for those payments upon receipt of his corresponding tax refund from the Canadian taxing authorities. We subsequently paid approximately \$168,704 and \$32,931 in October 2002 and April 2003, respectively, to the UK Inland Revenue for taxes incurred by Mr. McMillan. In May 2003, Mr. McMillan became an executive officer of Electronic Arts. As of January 22, 2004, Mr. McMillan had repaid us the entire amount of the tax payments we made on his behalf.

### **COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION**

EA's Compensation Committee is composed of M. Richard Asher, William J. Byron, and Linda J. Srere, none of whom is an employee or current or former officer of EA. No EA officer serves or has served since the beginning of fiscal 2004 as a member of the board of directors or the compensation committee of a company at which a member of EA's Compensation Committee is an employee or officer. Timothy J. Mott, an EA Director, has served as Chairman of All Covered Inc. since June 2000, and served as its Chief Executive Officer from November 2001 until February 2004. Rusty Rueff, EA's

Executive Vice President, Human Resources and Facilities, serves on the Board of Directors of All Covered and was a member of its compensation committee until May 2004.

### **SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Securities Exchange Act of 1934 requires EA's Directors and executive officers, and persons who own more than ten percent of a registered class of EA's equity securities, to file reports of ownership and changes in ownership of common stock and other equity securities of EA. We have adopted procedures to assist EA's Directors and officers in complying with these requirements, which include assisting officers and Directors in preparing forms for filing.

To EA's knowledge, based solely upon review of such reports furnished to us and written representations that no other reports were required, we believe that during the fiscal year ended March 31, 2004, all Section 16(a) filing requirements applicable to our officers, Directors and greater than ten percent stockholders were complied with on a timely basis.

### **STOCKHOLDER PROPOSALS FOR 2005 ANNUAL MEETING**

If you want us to consider a proposal to be included in our 2005 proxy statement and proxy card, you must deliver it to the Company's Corporate Secretary at our principal executive office no later than February 28, 2005. Unless a stockholder who wishes to bring a matter before the stockholders at the Company's 2005 Annual Meeting of Stockholders notifies the Company of such matters before May 14, 2005, management will have the discretionary authority to vote all shares for which it has proxies against such matter.

### **HOUSEHOLDING OF PROXY MATERIALS**

The SEC has adopted rules that permit companies and intermediaries (e.g., brokers) to satisfy the delivery requirements for proxy statements and annual reports with respect to two or more stockholders sharing the same

address by delivering a single proxy statement addressed to those stockholders. This process, which is commonly referred to as "householding", potentially means extra convenience for stockholders and cost savings for companies.

This year a number of brokers with account holders who are EA stockholders will be "householding" our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker that they will be "householding" communications to your address, "householding" will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in "householding" and would prefer to receive a separate proxy statement and annual report, please notify your broker, direct your written request to our Corporate Secretary at our principal executive office, or contact our Corporate Secretary at (650) 628-1500. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request "householding" of their communications should contact their broker.

### **OTHER BUSINESS**

The Board does not know of any other matter that will be presented for consideration at the meeting except as specified in the notice of the meeting. If any other matter does properly come before the Annual Meeting, it is intended that the proxies will be voted in respect thereof in accordance with the judgment of the persons voting the proxies.

By Order of the Board of Directors,

**STEPHEN G. BENÉ**

*Vice President, Acting General Counsel  
and Secretary*

## **REQUESTS TO THE COMPANY**

The Company will provide without charge, to each person to whom a proxy statement is delivered, upon request of such person and by first class mail within one (1) business day of receipt of such request, a copy of the 2000 Equity Incentive Plan and 2000 Employee Stock Purchase Plan requested. Any such request should be directed as follows: Stock Administration Department, Electronic Arts Inc., 209 Redwood Shores Parkway, Redwood City, California 94065 - telephone number (650) 628-1500.

## **Appendix A**

### **GENERAL DESCRIPTION OF THE 2000 EQUITY INCENTIVE PLAN**

#### **History**

The Company's 2000 Equity Incentive Plan was adopted by our Board of Directors on January 27, 2000 and approved by our stockholders on March 22, 2000. The 2000 Equity Plan was amended by our stockholders on July 31, 2003, August 1, 2002 and August 1, 2001. In February 2002, our Board of Directors amended the 2000 Equity Plan to prohibit the reduction of the exercise price of outstanding options issued under the 2000 Equity Plan without stockholder approval. In April 2001, the Board approved an Addendum to the 2000 Equity Plan applicable to grants of options to employees who are residents of the United Kingdom.

#### *Shares Subject to the 2000 Equity Plan*

The stock subject to issuance under the 2000 Equity Plan consists of shares of the Company's authorized but unissued common stock. The 2000 Equity Plan, as amended to date, authorizes the issuance of up to 46,400,000 shares of common stock pursuant to awards of stock options and restricted stock under such plan. In addition, shares are again available for grant and issuance under the 2000 Equity Plan that (a) were subject to an option granted under the 2000 Equity Plan that terminated, to the extent then unexercised, (b) were subject to an award granted pursuant to a restricted stock purchase agreement under the 2000 Equity Plan that is subsequently forfeited or repurchased by us at the original issue price, if any, or

(c) are subject to an award granted pursuant to a restricted stock purchase agreement under the 2000 Equity Plan that otherwise terminates without shares being issued.

As proposed to be amended, shares subject to an award granted pursuant to a restricted stock unit agreement of restricted stock units which are subsequently forfeited or terminated without stock being issued will also be available for grant and issuance under the 2000 Equity Plan.

The number of shares issuable under the 2000 Equity Plan, and under outstanding options and restricted stock awards, is subject to proportional adjustment to reflect stock splits, stock dividends and other similar events.

#### *Limitation on Number of Shares Subject to Restricted Stock Awards and Restricted Stock Unit Awards.*

As proposed to be amended, the number of shares of common stock that may be issued pursuant to awards of restricted stock and restricted stock units may not exceed 3,000,000 in the aggregate.

#### **Eligibility**

The 2000 Equity Plan provides for the issuance of incentive stock options, nonqualified stock options and restricted stock awards. The 2000 Equity Plan provides that employees (including officers and Directors who are also employees) of Electronic Arts or any parent or subsidiary of Electronic Arts may receive incentive stock options under the 2000 Equity Plan. Nonqualified stock options and restricted stock awards may be granted to employees and Directors of Electronic Arts or any parent or subsidiary of Electronic Arts. As of June 1, 2004, approximately 4,700 persons were in the class of persons eligible to participate in the 2000 Equity Plan. No person is eligible to receive more than 1,400,000 shares of common stock (of which no more than 400,000 shares may be covered by awards of restricted stock) in any calendar year other than new employees who will be eligible to receive up to 2,800,000 shares of common stock (of which no more than 800,000 shares may be covered by awards of restricted stock) in the calendar year in which they commence employment. No awards of restricted stock have

been made to date under the 2000 Equity Plan. A participant may hold more than one award granted under the 2000 Equity Plan.

As proposed to be amended, the 2000 Equity Plan would also expressly authorize issuance of restricted stock units to employees of Electronic Arts or any parent or subsidiary of Electronic Arts, subject to the numerical limits set forth above.

### **Administration**

The 2000 Equity Plan is administered by our Compensation Committee. All of the members of the Compensation Committee are “non-employee” and “independent directors” under applicable federal securities laws and the Nasdaq listing requirements and “outside directors” as defined under applicable federal tax laws. The Compensation Committee has the authority to construe and interpret the 2000 Equity Plan, grant awards and make all other determinations necessary or advisable for the administration of the plan. The members of the Compensation Committee receive no compensation for administering the 2000 Equity Plan other than their compensation for being Board and Committee members. The Company bears all expenses in connection with administration of the 2000 Equity Plan and has agreed to indemnify members of the Compensation Committee in connection with their administration of the 2000 Equity Plan. The Compensation Committee may delegate one or more officers of the Company the authority to grant Awards under the 2000 Equity Plan to participants who are not executives of the Company. Except as members of the Board of Directors and its Committees, members of the Compensation Committee have no material relationships with the Company, its employees or its affiliates.

### **Stock Options**

Stock options granted under the 2000 Equity Plan may be either incentive stock options or nonqualified stock options.

### **Exercise Price; No Repricings.**

The Compensation Committee determines the exercise price of each option granted under the 2000 Equity Plan. The option exercise price for each incentive stock option share must be no less than 100% of the “fair market value” (as defined in the 2000 Equity Plan) of a share of Class A common stock at the time the incentive stock option is granted. In the case of an incentive stock option granted to a stockholder that owns more than 10% of the total combined voting power of all classes of stock of Electronic Arts or any parent or subsidiary of Electronic Arts (a “Ten Percent Stockholder”), the exercise price for each such incentive stock option share must be no less than 110% of the fair market value of a share of Class A common stock at the time the incentive stock option is granted. As proposed to be amended, under the 2000 Equity Plan, the option exercise price for each nonqualified stock option share must be no less than 100% of the fair market value of a share of Class A common stock at the time of grant. Pursuant to an amendment to the 2000 Equity Plan approved by the Board of Directors in February 2002, the exercise price of outstanding options issued under the 2000 Equity Plan may not be reduced without stockholder approval.

The exercise price of options granted under the 2000 Equity Plan may be paid as approved by the Compensation Committee at the time of grant: (1) in cash (by check); (2) by cancellation of indebtedness of the Company to the optionee; (3) by surrender of shares of the Company’s common stock obtained by the optionee in the public market or owned by the optionee for at least six months and having a fair market value on the date of surrender equal to the aggregate exercise price of the option; (4) subject to applicable laws, by tender of a full recourse promissory note; (5) by waiver of compensation due to or accrued by the optionee for services rendered; (6) subject to applicable laws by a “same-day sale” commitment from the optionee and a National Association of Securities Dealers, Inc. (“NASD”) broker; (7) by a “margin” commitment from the optionee and a NASD broker; or (8) by any combination of the foregoing.

**Outside Directors**

Our non-employee Directors are entitled to receive automatic annual grants of options to purchase shares of our Class A common stock under the 2000 Equity Plan. As originally adopted, each non-employee Director who first becomes a member of the Board of Directors is granted an option to purchase 25,000 shares of Class A common stock. Upon re-election to our Board of Directors following each annual meeting of our stockholders, each non-employee Director is automatically granted an additional option to purchase 8,000 shares of Class A common stock. If a non-employee Director has not served on our Board of Directors for a full year at the time of the annual meeting of our stockholders, such Director will receive a pro-rated annual grant. This formula was identical to that included in the Director's Plan under which Directors have been granted options since 1998. This formulaic grant was automatically adjusted pursuant to the terms of the 2000 Equity Plan to reflect the two-for-one stock splits of our Class A common stock which were distributed in the form of stock dividends effected in September 2000 and November 2003. As adjusted, the 2000 Equity Plan currently provides for an initial nonqualified stock option grant to purchase 100,000 shares and annual grants to purchase 32,000 shares upon re-election to the Board.

As proposed to be amended, the formula for Director grants would be adjusted to reduce the initial nonqualified stock option grant to an option to purchase 25,000 shares and to set subsequent annual grants to options to purchase 10,000 shares upon re-election to the Board.

Under the 2000 Equity Plan all options issued to outside Directors are exercisable as to 2% of the shares on the date of grant and as to an additional 2% of the shares on the first day of each calendar month after the date of grant so long as the outside Director continues as a member of the Board. As proposed to be amended, the vesting schedule for annual grants made to Directors upon their re-election to the Board will be subject to the discretion of the Compensation Committee. No change to the vesting schedule is proposed for the initial grant made upon a Director first joining the Board.

In the event of our dissolution or liquidation or a "change in control" transaction, options granted to our non-employee Directors under the 2000 Equity Plan will become 100% vested and exercisable in full.

In addition, our non-employee Directors may elect to receive all or a portion of their cash compensation in shares of common stock. Directors making this election are entitled to receive shares having a value equal to 110% of the amount of the cash compensation foregone.

**Restricted Stock Awards**

The Compensation Committee may grant restricted stock awards either in addition to, or in tandem with, other awards under the 2000 Equity Plan under such terms, conditions and restrictions as the Compensation Committee may determine. A restricted stock award is an offer by Electronic Arts to award shares of common stock that are subject to restrictions established by the Compensation Committee. These restrictions may be based upon completion by the award holder of a specified number of years of service or by the attainment of certain performance goals established by the Compensation Committee including (a) net revenue and/or net revenue growth; (b) earnings before income taxes and amortization and/or earnings before income taxes and amortization growth; (c) operating income and/or operating income growth; (d) net income and/or net income growth; (e) earnings per share and/or earnings per share growth; (f) total stockholder return and/or total stockholder return growth; (g) return on equity; (h) operating cash flow return on income; (i) adjusted operating cash flow return on income; (j) economic value added; and (k) individual confidential business objectives. The purchase price, if any, for each such award is determined by the Compensation Committee at the time of grant. In the case of an award to a Ten Percent Stockholder, the purchase price must be 100% of fair market value. The purchase price, if any, may be paid for in any of the forms of consideration listed in items (1) through (5) in "Stock Options" above, as are approved by the Compensation Committee at the time of grant.

**Restricted Stock Units**

As proposed to be amended, the Compensation Committee will have the express authority to grant restricted stock unit awards either in addition to, or in tandem with, other awards under the 2000 Equity Plan under such terms, conditions and restrictions as the Compensation Committee may determine. A restricted stock unit award is similar to a restricted stock award, except the stock is not delivered to the participant unless and until all restrictions have terminated.

**Mergers, Consolidations, Change of Control**

Except for automatic grants to non-employee Directors, in the event of a merger, consolidation, dissolution or liquidation of Electronic Arts, the sale of substantially all of its assets or any other similar corporate transaction, the successor corporation may assume, replace or substitute equivalent awards in exchange for those granted under the 2000 Equity Plan or provide substantially similar consideration, shares or other property as was provided to our stockholders (after taking into account the provisions of the awards). In the event that the successor corporation does not assume, replace or substitute awards, such awards will accelerate and all options will become exercisable in full prior to the consummation of the transaction at the time and upon the conditions as the Compensation Committee determines. Any options not exercised prior to the consummation of the transaction will terminate.

**Transferability**

Incentive stock options granted under the 2000 Equity Plan are not transferable other than by means of a distribution upon the optionee's death. Nonqualified stock options and restricted stock awards are subject to similar restrictions on transfer unless otherwise determined by the Compensation Committee and except that nonqualified stock options may be transferred to family members and trusts or foundations controlled by, or primarily benefiting, family members.

**Term of the 2000 Equity Plan**

Unless terminated earlier as provided in the 2000 Equity Plan, the 2000 Equity Plan will expire ten (10) years from the date it was adopted by the Board of Directors.

**United States Federal Income Tax Information**

THE FOLLOWING IS A GENERAL SUMMARY AS OF THE DATE OF THIS PROXY STATEMENT OF THE UNITED STATES FEDERAL INCOME TAX CONSEQUENCES TO THE COMPANY AND PARTICIPANTS UNDER THE 2000 EQUITY PLAN. THE FEDERAL TAX LAWS MAY CHANGE AND THE FEDERAL, STATE AND LOCAL TAX CONSEQUENCES FOR ANY PARTICIPANT WILL DEPEND UPON HIS OR HER INDIVIDUAL CIRCUMSTANCES. ANY TAX EFFECTS THAT ACCRUE TO FOREIGN PARTICIPANTS AS A RESULT OF PARTICIPATING IN THE INCENTIVE PLAN ARE GOVERNED BY THE TAX LAWS OF THE COUNTRIES IN WHICH SUCH PARTICIPANT RESIDES. EACH PARTICIPANT WILL BE ENCOURAGED TO SEEK THE ADVICE OF A QUALIFIED TAX ADVISOR REGARDING THE TAX CONSEQUENCES OF PARTICIPATION IN THE INCENTIVE PLAN.

**Incentive Stock Options**

A participant will recognize no income upon grant of an incentive stock option and incur no tax on its exercise, unless the participant is subject to the alternative minimum tax ("AMT"). If the participant holds shares acquired upon exercise of an incentive stock option (the "ISO Shares") for more than one year after the date the option was exercised and for more than two years after the date the option was granted, the participant generally will realize capital gain or loss (rather than ordinary income or loss) upon disposition of the ISO Shares. This gain or loss will be equal to the difference between the amount realized upon such disposition and the amount paid for the ISO Shares. The rate of taxation that applies to capital gain depends upon the amount of time the ISO Shares are held by the Participant.

If the participant disposes of ISO Shares prior to the expiration of either required holding period (a “*disqualifying disposition*”), the gain realized upon such disposition, up to the difference between the fair market value of the ISO Shares on the date of exercise (or, if less, the amount realized on a sale of such shares) and the option exercise price, will be treated as ordinary income. Any additional gain will be capital gain, taxed at a rate that depends upon the amount of time the ISO Shares were held by the participant.

#### **Alternative Minimum Tax**

The difference between the option exercise price and the fair market value of the ISO Shares that are vested on the date of exercise is an adjustment to income for purposes of the AMT. If a participant exercises an ISO before it has fully vested, the participant may incur an AMT liability as the ISO Shares vest and the Company’s right to repurchase the ISO Shares at the original issue price lapses, unless the participant makes a timely election under Code Section 83(b) (an “*83(b) election*”). The AMT (imposed to the extent it exceeds the taxpayer’s regular income tax) is 26% of an individual taxpayer’s alternative minimum taxable income (28% in the case of alternative minimum taxable income in excess of \$175,000). Alternative minimum taxable income is determined by adjusting regular taxable income for certain items, increasing that income by certain tax preference items (including the difference between the fair market value of the ISO Shares on the date of exercise and the exercise price) and reducing this amount by the applicable exemption amount (\$45,000 in case of a joint return, subject to reduction under certain circumstances). If a disqualifying disposition of the ISO Shares occurs in the same calendar year as exercise of the ISO, there is no AMT adjustment with respect to those ISO Shares. Also, upon a sale of ISO Shares that is not a disqualifying disposition, alternative minimum taxable income is reduced in the year of sale by the excess of the fair market value of the ISO Shares at exercise over the amount paid for the ISO Shares.

#### **Nonqualified Stock Options**

A participant will not recognize any taxable income at the time a nonqualified stock option (“NQSO”) is granted. However, upon exercise of an NQSO for vested shares, the participant must include in income as compensation an amount equal to the difference between the fair market value of the shares on the date of exercise and the participant’s exercise price. The included amount must be treated as ordinary income by the participant and may be subject to withholding by the Company (either by payment in cash or withholding out of the participant’s salary). If a participant exercises an NQSO before it has fully vested, the participant may incur a regular income liability as the shares vest and the Company’s right to repurchase the shares at the original issue price lapses, unless the participant makes a timely 83(b) election. Upon resale of the shares by the participant, any subsequent appreciation or depreciation in the value of the shares will be treated as capital gain or loss, taxable at a rate that depends upon the length of time the shares were held by the participant.

#### **Restricted Stock Awards**

A participant who receives a restricted stock award will include the amount of the award in income as compensation at the time that any forfeiture restrictions on the shares of stock lapse, unless the participant makes a timely 83(b) election. If the participant does not timely make an 83(b) election, the participant will include in income the fair market value of the shares of stock on the date that the restrictions lapse as to those shares, less any purchase price paid for such shares. The included amount may be treated as ordinary income by the participant and will be subject to withholding by the Company (either by payment in cash or withholding out of the participant’s award).

If the participant makes a timely 83(b) election, the participant who receives a restricted stock award will include in income as ordinary income, the fair market value of the shares of stock on the date of receipt of the award (determined without regard to lapse restrictions), less any purchase price paid for such shares. The income may be subject to

withholding by the Company (either by payment in cash or withholding out of the participant's award). If the award is subsequently forfeited, the participant will not receive any deduction for the amount treated as ordinary income.

### **Restricted Stock Units**

Tax consequences to participants receiving restricted stock units are identical to those for awards of restricted stock, except that for restricted stock units, the amount of the award will be included in income as compensation at the time restrictions lapse, and the participant is entitled to receive the stock or cash.

### **Tax Treatment of the Company**

The Company generally will be entitled to a deduction in connection with the exercise of a NQSO by a participant or the receipt by the participant of restricted stock or restricted stock units to the extent that the participant recognizes ordinary income and the Company properly reports such income to the Internal Revenue Service (the "IRS"). The Company will be entitled to a deduction in connection with the disposition of ISO Shares only to the extent that the participant recognizes ordinary income on a disqualifying disposition of the ISO Shares, provided that the Company properly reports such income to the IRS.

### **ERISA**

The 2000 Equity Plan is not subject to any of the provisions of the Employee Retirement Income Security Act of 1974 and is not qualified under Section 401(a) of the Code.

### **Outstanding Options Under the 2000 Equity Plan**

As of March 31, 2004, 5,798,254 shares had been issued pursuant to exercises of stock options under the 2000 Equity Plan by award recipients, 4,623 persons held NQSOs under the 2000 Equity Plan to purchase an aggregate of 32,278,256 shares of common stock, with a weighted average exercise price of \$32.42 per share, and there were 8,323,490 shares of common stock available for future awards under the 2000 Equity Plan. An aggregate of

46,400,000 shares of the Company's authorized common stock has been reserved for issuance under the 2000 Equity Plan.

### **Proposed Amendments to the 2000 Equity Plan**

At the Meeting, stockholders will be asked to approve amendments to the 2000 Equity Plan as follows:

- Increase the number of shares authorized and reserved for issuance under the 2000 Equity Plan by 11,000,000 shares to a total of 55,400,000 shares;
- Expressly authorize the issuance of awards of restricted stock units in addition to awards of stock options and restricted stock;
- Limit the total number of shares underlying awards of restricted stock and restricted stock units that may be granted under the 2000 Equity Plan to 3 million;
- Provide that the exercise price of nonqualified stock options may not be less than 100% of the fair market value of a share of Class A common stock on the date of grant;
- Reduce the automatic formula for stock option grants to each outside Director upon joining the Board from an option to purchase 100,000 shares to an option to purchase 25,000 shares, and to amend the annual stock option grant to each Director upon his or her re-election from an option to purchase 32,000 shares to an option to purchase 10,000 shares; and
- Remove the vesting provisions for the annual grants to outside Directors.

## Appendix B

### GENERAL DESCRIPTION OF THE 2000 EMPLOYEE STOCK PURCHASE PLAN

#### 2000 Employee Stock Purchase Plan as Amended

**History.** The 2000 Purchase Plan was adopted by the Board on May 25, 2000; approved by the Stockholders on July 27, 2000; was amended on February 13, 2003 to facilitate participation by employees of the Company moving to and from the United States and other countries; was amended on June 26, 2003; and approved by the Stockholders on July 31, 2003. The following discussion describes the terms of the 2000 Purchase Plan.

**Purpose.** The purpose of the 2000 Purchase Plan is to provide employees of the Company with a convenient means of acquiring Class A common stock of the Company through payroll deductions, to enhance the employees' sense of participation in the affairs of the Company and subsidiaries, and to provide an incentive for continued employment.

**Administration.** The 2000 Purchase Plan will be administered by the Board. The interpretation by the Compensation Committee of the Board of any provision of the 2000 Purchase Plan is final and binding on all participating employees.

**Eligibility.** All employees of the Company (including Directors who are employees), or any parent or subsidiary, are eligible to participate in the 2000 Purchase Plan except the following: (i) employees who are not employed by the Company on the 15th day of the month before the beginning of an Offering Period (as defined below); (ii) employees who are customarily employed for less than 20 hours per week; (iii) employees who are customarily employed for less than 5 months in a calendar year; and (iv) employees who, pursuant to Section 424(d) of the Code, own or hold options to purchase or who, as a result of participation in the 2000 Purchase Plan, would own stock or hold options to purchase stock possessing 5% or more of

the total combined voting power or value of all classes of stock of the Company or any parent or subsidiary. As of June 1, 2004, the Company estimates that approximately 5,700 persons were eligible to participate in the 2000 Purchase Plan.

**Participation.** Each offering of common stock under the 2000 Purchase Plan is for a period of one year (the "Offering Period"). Offering Periods commence on the first business day of March and September of each year. The first day of each Offering Period is the "Offering Date" for such Offering Period. An employee cannot participate simultaneously in more than one Offering Period. Each Offering Period consists of two six-month purchase periods (each a "Purchase Period") commencing on the first business day of March and September. The last day of each Purchase Period is a "Purchase Date."

Employees may participate in the 2000 Purchase Plan during each pay period through payroll deductions. An employee sets the rate of such payroll deductions, which may not be less than 2% nor more than 10% of the employee's base salary, wages, commissions, overtime, shift premiums and bonuses plus draws against commissions, unreduced by the amount by which the employee's salary is reduced pursuant to Sections 125 or 401(k) of the Code. Eligible employees may elect to participate in any Offering Period by enrolling as provided under the terms of the 2000 Purchase Plan. Once enrolled, a participating employee will automatically participate in each succeeding Offering Period unless such employee withdraws from the Offering Period. After the rate of payroll deductions for an Offering Period has been set by an employee, that rate continues to be effective for the remainder of the Offering Period (and for all subsequent Offering Periods in which the employee is automatically enrolled) unless otherwise changed by the employee. The employee may increase or lower the rate of payroll deductions for any subsequent Offering Period but may only lower the rate of payroll deductions during the current Purchase Period. Not more than one change may be made effective during any one Purchase Period.

In any given Purchase Period, no employee may purchase more than (a) twice the number of shares that could have been purchased with the payroll deductions if the purchase price were determined by using 85% of the fair market value of a share of the Company's common stock on the Offering Date or (b) the maximum number of shares set by the Board. In addition, no employee may purchase shares at a rate that, when aggregated with all other rights to purchase stock under all other employee stock purchase plans of the Company, or any parent or subsidiary of the Company, exceeds \$25,000 in fair market value (determined on the Offering Date) for each year.

**Purchase Price.** The purchase price of shares that may be acquired in any Purchase Period under the 2000 Purchase Plan is 85% of the lesser of (a) the fair market value of the shares on the Offering Date of the Offering Period in which the participant is enrolled or (b) the fair market value of the shares on the Purchase Date. The fair market value of the Class A common stock on a given date is the closing price of the Class A common stock on the immediately preceding business day as quoted on the Nasdaq National Market. On June 1, 2004, the closing price of the Company's common stock was \$51.14.

**Purchase of Stock.** The number of whole shares an employee may purchase in any Purchase Period is determined by dividing the total amount of payroll deductions withheld from the employee during the Purchase Period pursuant to the 2000 Purchase Plan by the price per share determined as described above, subject to the limitations described above. The purchase takes place automatically on the last day of the Purchase Period.

**Withdrawal.** An employee may withdraw from any Offering Period at any time at least 15 days prior to the end of an Offering Period. No further payroll deductions for the purchase of shares will be made for the succeeding Offering Period unless the employee enrolls in the new Offering Period in the same manner as for initial participation in the Purchase Plan.

**Termination of Employment.** Termination of an employee's employment for any reason, including retirement or death, immediately cancels the employee's participation in the 2000 Purchase Plan. In such event, the payroll deductions credited to the employee's account will be returned to such employee or, in case of death, to the employee's legal representative.

**Adjustment Upon Changes in Capitalization.** The number of shares subject to any option, and the number of shares issuable under the 2000 Purchase Plan, is subject to adjustment in the event of a recapitalization of the Company's common stock. In the event of a proposed dissolution or liquidation of the Company, the Offering Period will terminate and the Board may, in its sole discretion, give participants the right to purchase shares that would not otherwise be purchasable until the last day of the applicable Purchase Period.

**Tax Treatment of the U.S. Employed Participant.** Participating employees in the U.S. will not recognize income for federal income tax purposes either upon enrollment in the 2000 Purchase Plan or upon the purchase of shares. All tax consequences are deferred until a participating U.S. employee sells the shares, disposes of the shares by gift, or dies.

If shares are held for more than one year after the date of purchase and more than two years from the beginning of the applicable Offering Period, or if the employee dies while owning the shares, the employee realizes ordinary income on a sale (or a disposition by way of gift or upon death) to the extent of the lesser of: (i) 15% of the fair market value of the shares at the beginning of the Offering Period; or (ii) the actual gain (the amount by which the market value of the shares on the date of sale, gift or death, exceeds the purchase price). All additional gain upon the sale of shares is treated as long-term capital gain. If the shares are sold and the sale price is less than the purchase price, there is no ordinary income, and the employee has a long-term capital loss for the difference between the sale price and the purchase price.

If the shares are sold or are otherwise disposed of, including by way of gift (but not death, bequest or inheritance), within either the one-year or the two-year holding periods described above (in any case a “*disqualifying disposition*”), the employee will realize ordinary income at the time of sale or other disposition taxable to the extent that the fair market value of the shares at the date of purchase was greater than the purchase price. This excess will constitute ordinary income in the year of the sale or other disposition even if no gain is realized on the sale or if a gratuitous transfer is made. The difference, if any, between the proceeds of sale and the fair market value of the shares at the date of purchase is a capital gain or loss. Capital gains may be offset by capital losses, and up to \$3,000 of capital losses in excess of capital gains may be offset annually against ordinary income. Ordinary income recognized by an employee upon a disqualifying disposition constitutes taxable compensation that will be reported on a W-2 form. The Company takes the position that any ordinary income recognized upon a sale or other disposition is not subject to withholding.

**Tax Treatment of the non-U.S. Employed Participant.** For participants residing outside the U.S., the Company will assess its requirements regarding tax, social insurance and other applicable taxes in connection with participation in the 2000 Purchase Plan. These requirements may change from time to time as laws or interpretations change.

**Tax Treatment of the Company.**

The Company is entitled to a deduction in connection with the disposition of shares acquired under the 2000 Purchase Plan only to the extent that the employee recognized ordinary income on a disqualifying disposition of the shares. The Company treats any transfer of record ownership of shares, including transfer to a broker or nominee or into “street name,” as a disposition, unless it is notified to the contrary. In order to enable the Company to learn of disqualifying dispositions and ascertain the amount of the deductions to which it is entitled, employees are required to notify the Company in writing of the date and terms of any disposition of shares purchased under the 2000 Purchase Plan.

**Proposed amendment of the 2000 Employee Stock Purchase Plan.** At the meeting, stockholders will be asked to approve an amendment to the 2000 Employee Stock Purchase Plan to increase by 1,500,000 the number of shares of the Company’s Class A common stock reserved for issuance under the Plan. None of these proposed shares have been granted or issued on the basis of such proposed approval.
