

E*TRADE Financial Q2 2017 StreetWise Report

Insights from E*TRADE'S quarterly tracking study of
900+ experienced investors

Q2 2017 survey methodology and background

Methodology

This wave of the survey was conducted from April 1 to April 10 of 2017 among an online U.S. sample of 958 self-directed active investors who manage at least \$10,000 in an online brokerage account. The survey has a margin of error of ± 3.18 percent at the 95 percent confidence level. It was fielded and administered by Research Now. The panel is broken into thirds of active (trade more than once a week), swing (trade less than once a week but more than once a month), and passive (trade less than once a month). The panel is 60 percent male and 40 percent female with an even distribution across online brokerages, geographic regions, and age bands.

This study looks into the minds and behaviors of self-identified experienced investors

- They self-select as having moderate to professional investing experience.
- They have taken charge of their investments.
- They believe they understand the markets, investment products, and asset classes.

Q2 2017 survey timing mapped against major market indexes

Sentiment

VIEWS ON THE MARKET AND WHERE
THE OPPORTUNITIES LIE

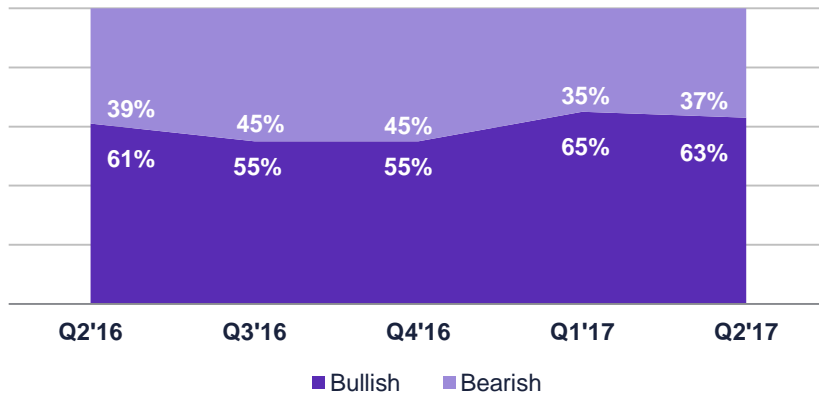

Views on the market

Bullish sentiment levelled off

When it comes to the current market, are you...?

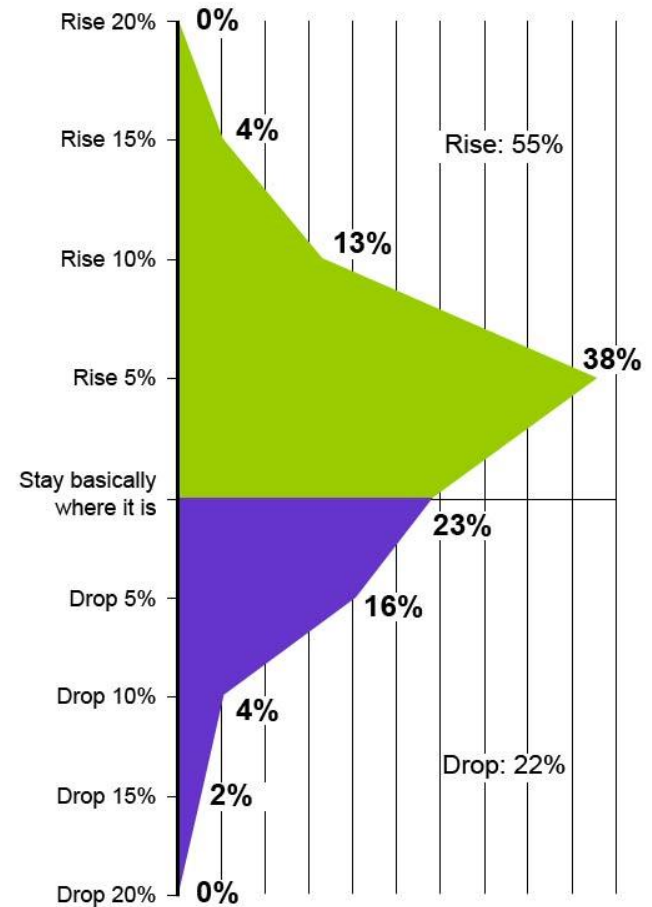

Investors are feeling more *Easy Rider* and less *Dazed and Confused*

Which movie title best describes how you feel about the market?

Majority still believe the market will rise in Q2 2017

Robo solutions are considered most for retirement savings and long-term growth

For what would you be most likely to use an automatic investing solution that uses algorithms to rebalance?

Millennials and Gen X are more likely to prefer a hybrid model that offers auto rebalancing and human support

If you had to choose, in which of the following managed accounts are you most interested?

"Millennials" defined as age 25-34, "Gen X" defined as age 35-54, "Baby Boomers" defined as age 55+.

Mobile usage among Millennials, Gen X, and Baby Boomers

Investors want to use wearables to check the markets

Which of the following would you be most likely to use a wearable device to do? (Select top two.)

More than half of Millennials use investing apps once a week or more

Approximately how often do you use an investing and trading app on your smartphone?

A robust mobile experience is important for investors of all ages

To what extent do you agree or disagree with the following statements... (% = Strongly/Somewhat agree)

"Millennials" defined as age 25-34, "Gen X" defined as age 35-54, "Baby Boomers" defined as age 55+.

Platform usage: Top five activities

For Millennials and Gen X, smartphone usage rivals desktop usage across several core activities

How often do you use your computer/smartphone/tablet to...(%=Very/Somewhat frequently)

	Millennials	Gen X	Boomers
Tablet			
Mobile			
Desktop			

"Millennials" defined as age 25–34, "Gen X" defined as age 35–54, "Baby Boomers" defined as age 55+.

Platform usage: Bottom five activities

Millennials are more likely to use smartphones for activities traditionally reserved for desktops or tablets

How often do you use your computer/smartphone/tablet to...(%=Very/Somewhat frequently)

	Millennials	Gen X	Boomers
Tablet			
Mobile			
Desktop			

"Millennials" defined as age 25–34, "Gen X" defined as age 35–54, "Baby Boomers" defined as age 55+.

Active vs. passive investing

Active vs. passive is not either/or: The majority believe both play a role

If you had to choose, which of the following approaches would you be most interested in for your portfolio?

Investors of all ages are most interested in U.S. market index, dividend ETFs, and sector- and industry-specific ETFs

In what types of ETFs are you most interested? Please choose your top three. (Top 10 shown)

"Millennials" defined as age 25-34, "Gen X" defined as age 35-54, "Baby Boomers" defined as age 55+.

Views on retirement

HOW EXPERIENCED INVESTORS THINK ABOUT RETIREMENT INVESTING

Retirement investing among Millennials, Gen X, and Baby Boomers

Retirement is the highest single priority for long-term saving, although less so for Millennials

What are the main reasons you are saving for the long term? (% = Selected as a top three choice.)

Retirement worries persist for Millennials and Gen X

How often do you worry about each of the following? (% = Always/Frequently)

■ AGE: 25-34 ■ AGE: 35-54 ■ AGE: 55+

"Millennials" defined as age 25-34, "Gen X" defined as age 35-54, "Baby Boomers" defined as age 55+.

Retirement investing among Millennials, Gen X, and Baby Boomers

Gen X are more reliant than other generations on their 401(k) for retirement

How important are each of the following in meeting your retirement goal? (% = selected as most important)

Millennials are less optimistic about relying solely on their 401(k)s, but also support a diversified approach

Do you agree or disagree with the following statements? (% = Strongly/Somewhat agree)

"Millennials" defined as age 25-34, "Gen X" defined as age 35-54, "Baby Boomers" defined as age 55+.

Retirement investing among Millennials, Gen X, and Baby Boomers

Despite their reliance on retirement accounts, more than two in five Millennial investors have already taken out money from an IRA or 401(k)

Percentage who have taken out money from an IRA or 401(k) before the age of 59½.

For what did you make the early withdrawal(s)? (Select all that apply)

Majority of Millennial and Gen X investors later regret the decision to take early withdrawals

Did you regret the early withdrawal?

"Millennials" defined as age 25-34, "Gen X" defined as age 35-54, "Baby Boomers" defined as age 55+.

Retirement investing among Millennials, Gen X, and Baby Boomers

Many recommend to start early, get the employer match, and pay down debt

If you could offer a younger investor advice, what would it be? (Select all that apply.)

Health care is a retirement saving roadblock for all ages, while millennials also skew more likely to be bogged down by rent, day-to-day expenses, and more

When it comes to saving what you want for retirement, how much of a barrier is each of the following? (% = Significant/Somewhat of a barrier)

"Millennials" defined as age 25-34, "Gen X" defined as age 35-54, "Baby Boomers" defined as age 55+.

Past performance is no guarantee of future returns. The performance of an index is not an exact representation of any particular investment, as you cannot invest directly in an index.

Dow Jones Industrial Average: Computed by summing the prices of the stocks of 30 companies and then dividing that total by an adjusted value—one which has been adjusted over the years to account for the effects of stock splits on the prices of the 30 companies. Dividends are reinvested to reflect the actual performance of the underlying securities.

S&P 500® Index is a market capitalization-weighted index of 500 widely held stocks often used as a proxy for the US stock market.

All components of the S&P 500 are assigned to at least one of eleven S&P Select Sector Indexes, which track major economic segments and are highly liquid benchmarks. Stock classifications are based on the Global Industry Classification Standard. The Select Sector Indexes are: Consumer Discretionary Select Sector; Consumer Staples Select Sector; Energy Select Sector; Financials Select Sector; Health Care Select Sector; Industrials Select Sector; Technology Select Sector; Materials Select Sector; Telecommunication Services; and Utilities Select Sector.

VIX® is the ticker symbol for Chicago Board Options Exchange (CBOE) Volatility Index®. The index, also called the fear index, is calculated by CBOE and generally measures expected volatility of the U.S. market in the next 30 days. The higher the number, the more bearish the market is in general. The VIX is used to calculate the put/call ratio.
