

FIRST DATA CORPORATION
RECONCILIATION OF NON-GAAP MEASURES
(Unaudited)
(in millions, except per share amounts)

Management believes the following non-GAAP measures provide meaningful supplemental information to assist investors and analysts in understanding our financial results and to better analyze trends in our underlying business. Management uses these measures to evaluate the operating performance of the Company and its segments. Since management finds these measures useful, we believe that our investors will benefit from seeing the Company's results through the eyes of management in addition to seeing our GAAP results.

The Company's non-GAAP EPS measure excludes certain items that represent fluctuations that may not be indicative of the Company's future operating performance and may obscure underlying trends in the business, such as changes in derivative values related to the previously announced SFAS 133 restatement, transaction costs related to the pending merger with an affiliate of Kohlberg Kravis Roberts & Co., litigation, restructuring, and other items. Non-GAAP measures for the Company's domestic segments exclude revenue earned from reimbursements of pass-through costs such as debit network fees and postage. Non-GAAP measures for the Company's international segment exclude acquisitions less than a year old, divestitures and foreign exchange impact from revenue. Management believes that these non-GAAP measures provide insight into the Company's core performance.

These non-GAAP financial measures should not be considered in isolation or as a substitute for the most comparable GAAP financial measures. The non-GAAP financial measures reflect an additional way of viewing aspects of our operations that, when viewed with our GAAP results and the reconciliation to the corresponding GAAP financial measures, provide a more complete understanding of our business. Investors are strongly encouraged to review our financial statements and publicly-filed reports in their entirety and not to rely on any single financial measure. A reconciliation of the non-GAAP measures to the most directly comparable GAAP financial measures is included below.

	Three Months Ended June 30,		
	2007	2006	Change
Earnings per share from continuing operations	\$ 0.30	\$ 0.33	
Changes in derivative values related to SFAS 133 (non-cash)	-	(0.06)
