**Notes to Consolidated Financial Statements of FutureFuel Corp.**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

1) Nature of operations and basis of presentation

*FutureFuel Corp.*

Viceroy Acquisition Corporation (“Viceroy”) was incorporated under the laws of the state of Delaware on August 12, 2005 to serve as a vehicle for the acquisition by way of asset acquisition, merger, capital stock exchange, share purchase or similar transaction of one or more operating businesses in the oil and gas industry. On July 12, 2006 Viceroy completed an equity offering.

On July 21, 2006, Viceroy entered into an acquisition agreement with Eastman Chemical Company (“Eastman Chemical”) to purchase all of the issued and outstanding stock of Eastman SE, Inc. (“Eastman SE”). On October 27, 2006, a special meeting of the shareholders of Viceroy was held and the acquisition of Eastman SE was approved by the shareholders. On October 31, 2006, Viceroy acquired all of the issued and outstanding shares of Eastman SE from Eastman Chemical. Immediately subsequent to the acquisition, Viceroy changed its name to FutureFuel Corp. (“FutureFuel”) and Eastman SE changed its name to FutureFuel Chemical Company (“FutureFuel Chemical”).

*Eastman SE, Inc.*

Eastman SE was incorporated under the laws of the state of Delaware on September 1, 2005 and subsequent thereto operated as a wholly-owned subsidiary of Eastman Chemical through October 31, 2006. Eastman SE was incorporated for purposes of effecting a sale of Eastman Chemical’s manufacturing facility in Batesville, Arkansas (the “Batesville Plant”). Commencing January 1, 2006, Eastman Chemical began transferring the assets associated with the business of the Batesville Plant to Eastman SE.

The Batesville Plant was constructed to produce proprietary photographic chemicals for Eastman Kodak Company (“Eastman Kodak”). Over the years, Eastman Kodak shifted the plant’s focus away from the photographic imaging business to the custom synthesis of fine chemicals and organic chemical intermediates used in a variety of end markets, including paints and coatings, plastics and polymers, pharmaceuticals, food supplements, household detergents and agricultural products.

In 2005, the Batesville Plant began the implementation of a biobased products platform. This includes the production of biofuels (biodiesel, bioethanol and lignin/biomass solid fuels) and biobased specialty chemical products (biobased solvents, chemicals and intermediates). In addition to biobased products, the Batesville Plant continues to manufacture fine chemicals and other organic chemicals.

The accompanying consolidated financial statements have been prepared by FutureFuel in accordance and consistent with the accounting policies stated in FutureFuel’s 2008 audited consolidated financial statements and should be read in conjunction with the 2008 audited consolidated financial statements of FutureFuel. Certain prior year balances have been reclassified to conform with the current year presentation.

In the opinion of FutureFuel, all normal recurring adjustments necessary for a fair presentation have been included in the unaudited consolidated financial statements. The unaudited consolidated financial statements are presented in conformity with generally accepted accounting principles in the United States and, of necessity, include some amounts that are based upon management estimates and judgments. Future actual results could differ from such current estimates. The unaudited consolidated financial statements include assets, liabilities, revenues and expenses of FutureFuel and its wholly owned subsidiary, FutureFuel Chemical. Intercompany transactions and balances have been eliminated in consolidation.

**Notes to Consolidated Financial Statements of FutureFuel Corp.**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

2) Inventories

The carrying values of inventory were as follows as of:

	<b>June 30, 2009</b>	<b>December 31, 2008</b>
At first-in, first-out or average cost (approximates current cost)		
Finished goods	\$ 8,677	\$ 15,634
Work in process	3,937	1,800
Raw materials and supplies	15,766	14,833
	<u>28,380</u>	<u>32,267</u>
LIFO reserve	(3,041)	(4,682)
Total inventories	<u>\$ 25,339</u>	<u>\$ 27,585</u>

3) Derivative instruments

FutureFuel is exposed to certain risks relating to its ongoing business operations. The primary risk managed by using derivative instruments is commodity price risk. Regulated fixed price futures and option contracts are utilized to manage the price risk associated with future purchases of feedstock used in FutureFuel's biodiesel production along with physical feedstock and finished product inventories attributed to this process.

FutureFuel recognizes all derivative instruments as either assets or liabilities at fair value in its consolidated balance sheet. FutureFuel's derivative instruments do not qualify for hedge accounting under the specific guidelines of Statement of Financial Accounting Standards No. 133, *Accounting for Derivative Instruments and Hedging Activities*, as amended. While management believes each of these instruments are entered into in order to effectively manage various risks, none of the derivative instruments are designated and accounted for as hedges primarily as a result of the extensive record keeping requirements.

The fair value of FutureFuel's derivative instruments is determined based on the closing prices of the derivative instruments on relevant commodity exchanges at the end of an accounting period. Changes in fair value of the derivative instruments are recorded in the statement of operations as a component of cost of good sold, and amounted to a loss of \$1,101 and a gain of \$372 for the three and six months ended June 30, 2009, respectively.

The volumes and carrying values of FutureFuel's derivative instruments were as follows at:

	<b>Asset/(Liability)</b>			
	<b>June 30, 2009</b>		<b>December 31, 2008</b>	
	<b>Quantity (Contracts) Long/ (Short)</b>	<b>Fair Market Value</b>	<b>Quantity (Contracts) Long/ (Short)</b>	<b>Fair Market Value</b>
Regulated fixed price future commitments, included in other current assets	(215)	\$ 129	-	\$ -
Regulated options, included in other current assets	(400)	\$ (1,223)	(875)	\$ (3,175)

The margin account maintained with a broker to collateralize these derivative instruments carried an account balance of \$5,151 and \$7,826 at June 30, 2009 and December 31, 2008, respectively, and is classified as other current assets in the consolidated balance sheet. The carrying values of the margin account and of the derivative instruments are included, net, in other current assets.

**Notes to Consolidated Financial Statements of FutureFuel Corp.**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

4) **Marketable debt securities**

As of December 31, 2008, FutureFuel had made investments in certain U.S. treasury bills and notes. As of December 31, 2008, these marketable debt securities had maturities ranging from January 2009 to March 2009. FutureFuel anticipated these securities being sold or maturing within one year and therefore classified all marketable debt securities as current assets in the accompanying consolidated balance sheet. FutureFuel designated these securities as being available-for-sale. Accordingly, these securities were carried at fair value, with the unrealized gains and losses, net of taxes, reported as a component of stockholders' equity. At June 30, 2009 no such securities were held.

The fair market value of these marketable debt securities, including accrued interest, totaled \$15,999 at December 31, 2008.

Additionally, FutureFuel has made investments in certain auction rate securities. As of June 30, 2009, these securities had maturities ranging from July 2031 to July 2042. FutureFuel classified these instruments as current assets in the accompanying consolidated balance sheets as the issuers of these instruments have either exercised their right to repurchase or a liquid market still exists for these securities, which allows FutureFuel to exit its positions within a short period of time. FutureFuel anticipates these securities either being sold or repurchased within the next year. FutureFuel has designated these securities as being available-for-sale. Accordingly, these securities are carried at fair value, with unrealized gains and losses, net of taxes, reported as a component of stockholders' equity. No realized gains or losses have been incurred related to these securities through June 30, 2009.

The fair market value of these auction rate securities approximated their par value and, including accrued interest, totaled \$11,837 and \$14,990 at June 30, 2009 and December 31, 2008, respectively.

At December 31, 2008, FutureFuel had investments in certain commercial paper. These investments had maturity dates ranging from January 2009 to March 2009 and have been classified as current assets in the accompanying consolidated balance sheet. FutureFuel had designated these securities as being available for sale. Accordingly, they were recorded at fair value, with the unrealized gains and losses, net of taxes, reported as a component of stockholders' equity. At June 30, 2009 no such investments were held.

The fair value of these investments, including accrued interest, totaled \$15,424 at December 31, 2008.

5) **Accrued expenses and other current liabilities**

Accrued expenses and other current liabilities, including those associated with related parties, consisted of the following at:

	<b>June 30, 2009</b>	<b>December 31, 2008</b>
Accrued employee liabilities	\$ 1,942	\$ 1,248
Accrued property, use and franchise taxes	1,505	975
Other	124	48
<b>Total</b>	<b>\$ 3,571</b>	<b>\$ 2,271</b>

6) **Borrowings**

In March 2007 FutureFuel Chemical entered into a \$50 million credit agreement with a commercial bank. The loan is a revolving facility the proceeds of which may be used for working capital, capital expenditures and the general corporate purposes of FutureFuel Chemical. The facility terminates in March 2010. Advances are made pursuant to a borrowing base comprised of 85% of eligible accounts plus 60% of eligible direct inventory plus 50% of eligible indirect inventory. Advances are secured by a perfected first priority security interest in accounts receivable and inventory. The interest rate floats at certain margins over the London Interbank Offered Rate ("LIBOR") or base rate based upon the leverage ratio from time to time as set forth in the following table.

**Notes to Consolidated Financial Statements of FutureFuel Corp.**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

<b>Leverage Ratio</b>	<b>Base Rate Margin</b>	<b>LIBOR Margin</b>
> 3	-0.55%	1.70%
≥ 2 < 3	-0.70%	1.55%
≥ 1 < 2	-0.85%	1.40%
< 1	-1.00%	1.25%

There is an unused commitment fee of 0.25% per annum. The ratio of EBITDA to fixed charges may not be less than 3:1. FutureFuel has guaranteed FutureFuel Chemical's obligations under this credit agreement.

At June 30, 2009, no borrowings were outstanding under this credit facility.

7) Provision for income taxes

	<b>For the three months ended June 30,</b>		<b>For the six months ended June 30,</b>	
	<b>2009</b>	<b>2008</b>	<b>2009</b>	<b>2008</b>
Provision for income taxes	\$ 825	\$ 760	\$ 2,510	\$ 4,086
Effective tax rate	22.4%	20.7%	30.7%	31.1%

The effective tax rates for the three and six months ended June 30, 2009 and 2008 reflect FutureFuel's expected tax rate on reported operating earnings before income tax.

FutureFuel's unrecognized tax benefits, recorded as an element of other noncurrent liabilities, totaled \$559 at June 30, 2009 and December 31, 2008, respectively, the total amount of which, if recognized, would reduce FutureFuel's effective tax rate.

FutureFuel does not expect its unrecognized tax benefits to change significantly over the next 12 months.

FutureFuel records interest and penalties net as a component of income tax expense. FutureFuel had accrued a balance of \$117 and \$96 at June 30, 2009 and December 31, 2008, respectively, for interest or tax penalties.

FutureFuel and its subsidiary, FutureFuel Chemical, file tax returns in the U.S. federal jurisdiction and with various state jurisdictions. FutureFuel was incorporated in 2005 and is subject to U.S., state and local examinations by tax authorities from 2005 forward. FutureFuel Chemical is subject to the effects of tax examinations that may impact the carry-over basis of its assets and liabilities.

**Notes to Consolidated Financial Statements of FutureFuel Corp.**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

8) Earnings per share

The computation of basic and diluted earnings per common share was as follows:

	For the three months ended		For the six months ended	
	June 30,		June 30,	
	2009	2008	2009	2008
Net income available to common stockholders	\$ 2,850	\$ 2,913	\$ 5,671	\$ 9,073
Weighted average number of common shares outstanding	28,190,300	26,700,000	28,190,300	26,700,000
Effect of warrants	-	-	-	-
Effect of stock options	9,248	35,387	7,966	17,693
Weighted average diluted number of common shares outstanding	28,199,548	26,735,387	28,198,266	26,717,693
Basic earnings per share	\$ 0.10	\$ 0.11	\$ 0.20	\$ 0.34
Diluted earnings per share	\$ 0.10	\$ 0.11	\$ 0.20	\$ 0.34

Warrants to purchase 21,317,500 and 22,500,000 shares of FutureFuel's common stock were not included in the computation of diluted earnings per share at June 30, 2009 and 2008, respectively, as they were anti-dilutive in both periods presented. Additionally, options to purchase 105,000 shares of FutureFuel's common stock were not included in the computation of diluted earnings per share at June 30, 2009. No options were excluded from the computation of diluted earnings per share at June 30, 2008.

9) Segment information

FutureFuel has determined that it has two reportable segments organized along product lines – chemicals and biofuels.

*Chemicals*

FutureFuel's chemicals segment manufactures diversified chemical products that are sold externally to third party customers. This segment comprises two components: "custom manufacturing" (manufacturing chemicals for specific customers); and "performance chemicals" (multi-customer specialty chemicals).

*Biofuels*

FutureFuel's biofuels business segment manufactures and markets biodiesel. Revenues are generated through the production and sale of biodiesel to customers through FutureFuel's distribution network from the Batesville Plant and through distribution facilities available at leased oil storage facilities at negotiated prices.

*Summary of long-lived assets and revenues by geographic area*

All of FutureFuel's long-lived assets are located in the U.S.

Most of FutureFuel's sales are transacted with title passing at the time of shipment from the Batesville Plant, although some sales are transacted based on title passing at the delivery point. While many of FutureFuel's chemicals are utilized to manufacture products that are shipped, further processed and/or consumed throughout the world, the chemical products, with limited exceptions, generally leave the United States only after ownership has transferred from FutureFuel to the customer. Rarely is FutureFuel the exporter of record, never is FutureFuel the importer of record into foreign countries and FutureFuel is not always aware of the exact quantities of its products that are moved into foreign markets by its customers. FutureFuel does track the addresses of its customers for invoicing purposes and uses this address to

**Notes to Consolidated Financial Statements of FutureFuel Corp.**  
**(Dollars in thousands, except per share amounts)**  
**(Unaudited)**

determine whether a particular sale is within or without the United States. FutureFuel's revenues attributable to the United States and foreign countries (based upon the billing addresses of its customers) were as follows:

<u>Three Months Ended</u>	<u>United States</u>	<u>All Foreign Countries</u>	<u>Total</u>
June 30, 2009	\$ 36,776	\$ 5,055	\$ 41,831
June 30, 2008	\$ 42,260	\$ 7,636	\$ 49,896

FutureFuel's revenues for the six months ended June 30, 2009 and 2008 attributable to the United States and foreign countries (based upon the billing addresses of its customers) were as follows:

<u>Six Months Ended</u>	<u>United States</u>	<u>All Foreign Countries</u>	<u>Total</u>
June 30, 2009	\$ 72,629	\$ 8,939	\$ 81,568
June 30, 2008	\$ 78,665	\$ 14,451	\$ 93,116

In both the three months ended June 30, 2009 and 2008, revenues from Mexico accounted for 11% of total revenues. In the six months ended June 30, 2009 and 2008, revenues from Mexico accounted for 10% and 11%, respectively, of total revenues. In both the three and six months ended June 30, 2009 and 2008, revenues from Canada accounted for 0% and 4%, respectively, of total revenues. Other than Mexico and Canada, revenues from a single foreign country during the three months ended June 30, 2009 and 2008 did not exceed 2% of total revenues.

*Summary of business by segment*

	<u>For the three months ended</u>		<u>For the six months ended</u>	
	<u>June 30,</u>	<u>2008</u>	<u>June 30,</u>	<u>2008</u>
	<u>2009</u>	<u>2008</u>	<u>2009</u>	<u>2008</u>
Revenues				
Chemicals	\$ 27,856	\$ 33,980	\$ 63,716	\$ 72,696
Biofuels	13,975	15,916	17,852	20,420
Revenues	<u>\$ 41,831</u>	<u>\$ 49,896</u>	<u>\$ 81,568</u>	<u>\$ 93,116</u>
Segment gross margins				
Chemicals	\$ 6,331	\$ 6,997	\$ 13,706	\$ 15,437

Interest and other income	67	1,440	289	2,086
Interest and other expense	(28)	(5)	(36)	(11)
Provision for income taxes	(825)	(760)	(2,510)	(4,086)
Net income	<u>\$ 2,850</u>	<u>\$ 2,913</u>	<u>\$ 5,671</u>	<u>\$ 9,073</u>

Depreciation is allocated to segment costs of goods sold based on plant usage. The total assets and capital expenditures of FutureFuel have not been allocated to individual segments as large portions of these assets are shared to varying degrees by each segment, causing such an allocation to be of little value.

Gross margin for the biodiesel segment for the six months ended June 30, 2008 was favorably impacted by the receipt of \$2,000 from the State of Arkansas resulting from our biodiesel operating cost grant application under the Arkansas Alternative Fuels Development Program. This funding was attributable to our biodiesel production between January 1, 2007 and June 30, 2008 and was calculated as \$0.20 per gallon of biodiesel produced, capped at \$2,000. Based on the characteristics of the Arkansas Alternative Fuels Development Program and the State funding behind this program, we recognize income in the period

funding is received. The next period for funding under this program opened on July 1, 2008 and closed on June 30, 2009. FutureFuel applied for and received maximum funding under this program for biodiesel production during this period. However, such funding was not received until July 2009 and, per the previously stated accounting policy, will be recognized in the third quarter of 2009.

10) Fair value measurements

FutureFuel adopted Statement of Financial Accounting Standards (“SFAS”) No. 157, *Fair Value Measurements*, effective January 1, 2008. Under SFAS No. 157, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. SFAS No. 157 also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs that market participants would use in valuing the asset or liability based on market data obtained from sources independent of FutureFuel. Unobservable inputs are inputs that reflect FutureFuel’s assumptions about the factors market participants would use in valuing the asset or liability based upon the best information available in the circumstances. The hierarchy is broken down into three levels. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and inputs (other than quoted prices) that are observable for the asset or liability, either directly or indirectly. Level 3 inputs are unobservable inputs for the asset or liability. Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The following table provides information by level for assets and liabilities that are measured at fair value, as defined by SFAS No. 157, on a recurring basis.

Description	Asset/(Liability)			
	Fair Value at June 30, 2009	Fair Value Measurements Using Inputs Considered as		
		Level 1	Level 2	Level 3
Available for sale:				
Auction rate securities	\$ 11,837	\$ -	\$ 11,837	\$ -
Derivative instruments	\$ (1,094)	\$ (1,094)	\$ -	\$ -

11) Recently issued accounting standards

In June 2009, the Financial Accounting Standards Board (“FASB”) issued Statement of Financial Accounting Standards (“SFAS”) No. 166, “Accounting for Transfers of Financial Assets, an amendment of FASB Statement No. 140” (“SFAS No. 166”). This statement addresses the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial reports about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor’s continuing involvement in transferred financial assets. This statement is effective as of the beginning of each reporting entity’s first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. FutureFuel is currently evaluating the effect SFAS No. 166 will have on its consolidated financial position, liquidity, or results of operations.

In June 2009, the FASB issued SFAS No. 167, “Amendments to FASB Interpretation No. 46(R)” (“SFAS No. 167”). This statement amends certain requirements of FASB Interpretation No. 46 (revised December 2003), “Consolidation of Variable Interest Entities”, to improve financial reporting by enterprises involved with variable interest entities and to provide more relevant and reliable information to users of financial statements. This statement is effective as of the beginning of each reporting entity’s first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period, and for interim and annual reporting periods thereafter. FutureFuel is currently evaluating the effect SFAS No. 167 will have on its consolidated financial position, liquidity, or results of operations.

12) Subsequent events

FutureFuel has evaluated events and transactions subsequent to June 30, 2009 through August 10, 2009, the date the financial statements were filed with the SEC as part of Form 10-Q. No events require recognition in the consolidated financial statements or disclosures of FutureFuel per the definitions and requirements of SFAS No. 165, *Subsequent Events*.
