

FLIR Systems Announces \$7.2 Million Order for the Indian Air Force

PORTLAND, OR, Aug 05, 2009 (MARKETWIRE via COMTEX News Network) -- FLIR Systems, Inc. (NASDAQ: FLIR) announced today that it has received a \$7.2 million U.S. Government Foreign Military Sale (FMS) order for the Indian Air Force. The order includes FLIR System's Star SAFIRE(R) III infrared multi-sensor surveillance systems, training and related services. The units delivered under this award will be installed on C-130J Fixed Wing Surveillance Platforms in support of Indian Ministry of Defense airborne missions.

This FMS order represents the first fixed-wing sale of FLIR's multi-sensor systems to the Indian Ministry of Defense. Work on this order will be performed at FLIR's facility in Wilsonville, Oregon and deliveries are expected to be completed by 2011.

"This order, the result of FLIR's world-class products and significant investment in regional support and training, demonstrates our ability to penetrate new international markets," said Earl R. Lewis, President and CEO of FLIR Systems. "We are pleased the Indian Ministry of Defense has chosen FLIR products for their critical homeland security and national defense missions and look forward to collaborating with them in the future."

Forward-Looking Statements

The statements in this release by Earl R. Lewis, and the other statements in this release about the order described above, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements are based on current expectations, estimates and projections about the Company's business based, in part, on assumptions made by management. These statements are not guarantees of future performance and involve risks and uncertainties that are difficult to predict. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including the following: the ability to manufacture and deliver the systems referenced in this release, changes in demand for the Company's products, product mix, the timing of deliveries under the order discussed above, the impact of competitive products and pricing, constraints on supplies of critical components, excess or shortage of production capacity, the ability of the Company to manufacture and ship products in the time period required, actual purchases under agreements, the Company's continuing compliance with US export control laws and regulations, the timely receipt of export licenses for international shipments, the continuing eligibility of the Company to act as a federal contractor, and other risks discussed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic and international economic conditions. Such forward-looking statements speak only as of the date on which they are made and the Company does not undertake any obligation to update any forward-looking statement to reflect events or circumstances after the date of this release, or for changes made to this document by wire services or Internet service providers.
