

ABN AMRO Mortgage Group, Inc. Selects RealEC's iSelect Decisioning Platform For Settlement Services Fulfillment

RealEC Exchange(TM) and iSelect(SM) Streamline ABN AMRO Mortgage Group Inc.'s OneFee Flood, Appraisal, Title and Closing Costs and Ordering Process

SANTA ANA, Calif., Jul 1, 2003 /PRNewswire-FirstCall via COMTEX/ --

RealEC Technologies(TM), the industry's leading secure B2B eCommerce exchange for mortgage fulfillment transactions, and majority-owned subsidiary of FNIS (Nasdaq: FNIS), and ABN AMRO Mortgage Group Inc. (AAMG), the nation's fifth largest loan originator and seventh largest loan servicer, today announced the implementation of RealEC's eCommerce Exchange to efficiently fulfill AAMG's mortgage loans, and enhance the productivity and effectiveness of their vendor relationships.

Utilizing RealEC's iSelect(TM) tool to manage the settlement services process, AAMG's One-Fee Services (OFS) intelligently bundles and delivers product requests to an extensive network of providers based on AAMG business rules.

"In this solutions-oriented relationship, the RealEC Exchange manages AAMG's network of service providers through a one-stop electronic exchange and integrated vendor management system," said Jeff Sanderson, President of RealEC Technologies. "Together, RealEC and AAMG created efficiencies in the mortgage fulfillment process through intelligent product ordering, automated vendor selection and robust service level management," Sanderson said.

"RealEC's iSelect and RealEC Exchange enable us to significantly reduce expenses, improve capacity management, and deliver our solutions to a broader audience," said Bob Sullivan, Vice President of AAMG's One-Fee Services. "RealEC Exchange provides AAMG with an electronic appraisal, AVM, flood, title and closing request interface to our National Lending Center, as well as to our title agency and appraisal management companies, and all vendor management providers. Now our order management, connectivity and full integration functionality are much more user friendly," Sullivan concluded.

AAMG's OFS division provides a low-cost, efficient internal fulfillment process to its vendors at a single 'packaged' price that effectively bundles a variety of services and guarantees the price for the package early in the negotiation process. AAMG will integrate OFS into all of its divisions, including InterFirst Wholesale Mortgage Lending, LaSalle Home Mortgage and Standard Federal Bank, and other ABN-financial institutions in the coming months.

The AAMG and RealEC relationship began in 2001, when AAMG selected the RealEC Exchange as its solution for order management, connectivity and full integration functionality.

RealEC Technologies is a majority-owned subsidiary of Fidelity National Information Solutions (Nasdaq: FNIS) with significant equity ownership by Stewart Title Company (NYSE: STC) and LandAmerica Financial Group (NYSE: LFG). FNIS is a majority-owned subsidiary of Fidelity National Financial (NYSE: FNF).

About RealEC Technologies

Founded in 1998, RealEC Technologies provides an intelligent, electronic exchange for mortgage loan originators, realtors, and settlement service providers. The company's products are designed to facilitate the origination, servicing, statusing and closing of real estate transactions and enable real estate practitioners to significantly enhance their business by increasing operational efficiencies, improving customer service and generating new sources of revenue.

RealEC provides integration services, installation resources, sales management, and customer/help desk support designed to ensure successful implementation of this robust B2B exchange. Through one connection, the RealEC Exchange enables mortgage originators to conduct e-business with thousands of service providers while offering more direct connections to providers than any other network in the industry. RealEC's iSelect(TM) intelligent ordering tool personalizes and automates the lender's choice of products and providers. For more information visit: www.realec.com.
