Please connect to the web site at least 15 minutes prior to the call to allow for any software download that may be necessary.

### About Genomic Health

Genomic Health, Inc. (Nasdaq: GHDX) is a life science company focused on the development and commercialization of genomic-based clinical laboratory services for cancer that allow physicians and patients to make individualized treatment decisions. In 2004, Genomic Health launched its first test, the Oncotype DX(R) breast cancer assay, which has been shown to predict the likelihood of chemotherapy benefit as well as the likelihood of disease recurrence in a large portion of early-stage breast cancer patients. The company was founded in 2000 and is located in Redwood City, California. For more information, please visit <http://www.genomichealth.com>.
