Guidance Software Announces Sponsorship of Splunk .conf2016

Will showcase latest digital risk management and forensic security offerings at booth M9

PASADENA, Calif.--(BUSINESS WIRE)-- Guidance Software, the makers of EnCase®, the gold standard in forensic security, and EnForce™, the first automated cyber risk management platform, today announced it is a Mega-level sponsor of .conf2016: The 7th Annual Splunk Conference. Integrating with Splunk® Enterprise, Guidance solutions help incident response teams leverage and validate Splunk software alerts to prioritize incident response work. Guidance will be demonstrating our use of the Splunk platform, as well as our comprehensive suite of forensic security software at booth M9.

"As recognized by Gartner, Splunk is a leader in security information event management (SIEM) and an important partner for Guidance," said Anthony Di Bello, sr. director of product management & marketing at Guidance Software. ".conf2016 is an opportunity for us to engage with peers in the security and business community to showcase how we use Splunk technology and our best-in-breed forensic security solutions. We look forward to sponsoring this year."

.conf2016 will feature more than 175 technical sessions, including more than 80 customer presentations, and is expected to attract IT, security and business professionals who know the value of their data. The conference will be held September 26 - 29, at The Walt Disney World Swan and Dolphin Resorts, Orlando, FL, with three days of optional education classes through Splunk University, September 24 - 26, 2016.

.conf2016 attendees will learn how to gain Operational Intelligence from machine-generated data by improving customer experience and service delivery, enhancing IT performance, shipping better code faster, providing timely business insights or reaching new levels of security in their organization. With more than 50 percent of the Fortune 100 in attendance, it's the best place to learn how leading companies are using Splunk. Attendees will share best practices and discover new features and ways to implement Splunk software to gain insights from their data.

About Guidance Software

Guidance (NASDAQ: GUID) exists to turn chaos and the unknown into order and the known — so that companies and their customers can go about their daily lives as usual without worry or disruption, knowing their most valuable information is safe and secure. The makers of EnCase®, the gold standard in forensic security, and EnForce™, the first automated cyber risk management platform, Guidance provides a mission-critical foundation of market-leading applications that offer deep 360-degree visibility across all endpoints, devices and networks, allowing proactive identification and remediation of threats. From retail to financial institutions, our field-tested and court-proven solutions are deployed on an estimated 33 million endpoints at more than 70 of the Fortune 100 and hundreds of agencies worldwide. From beginning to endpoint.
