Guidance Software Presents Session on "Insider? Hacker? Accident? Forensic security reveals all" at the Gartner Security & Risk Management Summit 2017

Company to showcase completely redesigned and enhanced EDR solution at booth 832

NATIONAL HARBOR, Md.--(BUSINESS WIRE)-- **GARTNER Security & Risk Management Summit 2016** - Guidance Software, makers of EnCase®, the gold standard in forensic security, will demonstrate the new EnCase® Endpoint Security Version 6, EnCase® Mobile Investigator, and EnForce™ Risk Manager at the Gartner Security and Risk Management Summit 2017. Just announced in May, these offerings are part of the latest forensic security solutions from Guidance.

Anthony Di Bello, senior director of products at Guidance, will present, "Insider? Hacker? Accident? Forensic security reveals all" on Tuesday, June 13 at 1:55PM in Theater C. In this session, attendees will learn how forensic security enables confidence in detection for both internal and external threats. Anthony will discuss how such a framework delivers the visibility required to assess risk to sensitive data, prioritize response, and bring systems back to a trusted state.

Visitors to Booth 832 will have the opportunity to receive demonstrations of the forensic security suite by Guidance that is designed to help customers manage sensitive data, detect and respond to security incidents, and perform deep investigations of endpoint devices. Company representatives will be on hand to discuss the completely redesigned [EnCase Endpoint Security](#) version 6, EnCase Mobile Investigator, [EnForce™ Risk Manager](#).

[EnCase Endpoint Security](#) - the leading Endpoint Detection and Response (EDR) solution by market share - combines a new interface and user experience (UI/UX) with enhanced threat detection capabilities and new incident response workflows. The new release also creates more operational efficiencies to improve integrations and ROI on security investments.

With [EnCase Mobile Investigator](#), corporate and law enforcement investigators can now leverage the unmatched visibility of EnCase to collect and analyze data from all major smartphones, tablets, and many other mobile device types.

[EnForce Risk Manager](#) proactively identifies, classifies, and remediates private or sensitive data across the enterprise. It provides automated remediation capabilities and is system-agnostic, offering the deepest level of insight and control of electronic data across all endpoints and data stores, no matter where they are located.

EnCase Endpoint Security Version 6 and EnCase Mobile Investigator are anticipated to be available for general availability in late June. EnForce Risk Manager is available now. For more information, please contact sales@guid.com or visit www.guidancesoftware.com.

About the Gartner Security & Risk Management Summit

The premier gathering of security, risk management, and business continuity management leaders, the [Gartner Security & Risk Management Summit](#) delivers the insight organizations need to secure a digital business future. The comprehensive agenda addresses the latest threats, flexible new security architectures, governance strategies, the chief information security officer role, and more. The summit offers a unique opportunity to reinvent security and risk for the digital age, based on Gartner's trusted independent research and practical recommendations.

About Guidance Software

Guidance (NASDAQ: GUID) exists to turn chaos and the unknown into order and the known-so that companies and their customers can go about their daily lives as usual without worry or disruption, knowing their most valuable information is safe and secure. The makers of EnCase®, the gold standard in forensic security, Guidance provides a mission-critical foundation of market-leading applications that offer deep 360-degree visibility across all endpoints, devices and networks, allowing proactive identification and remediation of threats. From retail to financial institutions, our field-tested and court-proven solutions are deployed on an estimated 35 million endpoints at more than 70 of the Fortune 100 and hundreds of agencies worldwide, from beginning to endpoint.
