## Snapshot of 2015 Director Nominees

In addition to the above table, the following highlights the key characteristics our board of directors believes qualifies its current members to serve the interests of our stockholders. Additional details on our director nominees are set forth in their individual biographies.

- **Qualified:** all of our director nominees are highly qualified directors with a diversity of skills and experiences
- **Independent:** of our 11 director nominees, 10 are independent
- **Diverse:** 45% of the director nominees are women or ethnically diverse
- **Experienced:** The average age of our director nominees is approximately 64 years and the average tenure of our director nominees is approximately seven years
- **Fresh:** Five new directors have joined our board of directors in the last five years

The Board recommends that you vote FOR each of the director nominees.

## Auditors

As a matter of good corporate governance, we are asking our stockholders to ratify the appointment of KPMG LLP as our independent registered public accounting firm for fiscal year 2016. Set forth below is summary information with respect to KPMG LLP's fees for services provided in fiscal years 2015 and 2014.

<u>Type of Fees</u>	<u>Fiscal Year 2015</u>	<u>Fiscal Year 2014</u>
Audit fees	\$ 5,450,000	\$ 6,015,000
Audit-related fees	261,000	142,000
Tax fees	814,000	925,000
All other fees	2,000	16,500
<b>Total</b>	<b>\$ 6,527,000</b>	<b>\$ 7,098,500</b>

## Amendment to the 2012 Stock Option and Incentive Plan

We are asking our stockholders to approve an amendment to our 2012 Stock Option and Incentive Plan, as amended (the "2012 Incentive Plan") that would increase the number of shares of Common Stock available for future awards under the 2012 Incentive Plan by 2,000,000 shares. The 2012 Incentive Plan was approved by our stockholders in 2011, and amended by our stockholders in 2013 to increase the number of shares of Common Stock available for future awards and modify certain share counting provisions, and is designed to attract, motivate and retain executives, key employees and non-officer directors. Our competitive compensation programs are designed to reinforce our pay-for-performance culture and rely heavily on equity grants under the 2012 Incentive Plan for our executives and eligible key employees. The Compensation and Option Committee of our Board believes that the increase in the aggregate number of shares available for future grants under the 2012 Incentive Plan is appropriate in order to permit the grant of equity awards at expected levels for the next three years. If the amendment to the 2012 Incentive Plan is not approved by our stockholders, it will be of no effect and the amount of shares available for issuance under the 2012 Incentive Plan will remain unchanged, although we may have insufficient shares available for future awards which may result in the use of cash-settled or cash-based long-term incentives rather than equity. Consequently, the Board recommends that you vote FOR the proposal to approve the amendment to the 2012 Incentive Plan to increase the number of shares of Common Stock available for awards under the 2012 Incentive Plan.

## Executive Compensation Advisory Vote

We are asking our stockholders to approve on an advisory basis our named executive officer compensation. The Board recommends a FOR vote because it believes that our compensation policies and practices are effective in achieving our company's goals of recognizing financial and operating performance and leadership excellence, and aligning our executives' long-term interests with those of our stockholders.

---

**Basis for Compensation Decisions**

Our company achieved record performance in fiscal year 2015. As a result of our organic and inorganic growth strategies, our net sales in fiscal year 2015 were \$6.155 billion, an increase of 15 percent from the prior year, as all of our company's divisions in fiscal year 2015 reported sales increases. This increase in net sales was due to a number of strategic measures implemented by our management team to create sustainable stockholder value, including capitalizing on robust demand for an embedded connected car experience, launching award winning products, and expanding our company's portfolio to strengthen our software capabilities and scale connected services to fully address the opportunities presented at the intersection of cloud, mobility and analytics. In addition, during fiscal year 2015 we continued to return value to our stockholders by increasing our dividend.

Our executive compensation philosophy continues to focus on pay-for-performance. As a result, compensation increases, if any, for our executive officers are generally tied to our company's performance, external benchmark data and each executive's contributions to that performance through their respective responsibilities. At the same time, we balance our annual guaranteed pay with at-risk pay so as to mitigate excessive risk taking to our company.

**2016 Annual Meeting**

- Deadline for stockholder proposals: August 29, 2016, but not earlier than July 30, 2016
- Deadline for stockholder proposals for inclusion in proxy materials: June 30, 2016

**PROXY STATEMENT  
FOR THE 2015 ANNUAL MEETING OF STOCKHOLDERS**

---

This Proxy Statement provides information in connection with the solicitation of proxies by the Board of Directors (the “Board”) of Harman International Industries, Incorporated (sometimes referred to as “we,” “us,” “our,” or “our company”) for use at our 2015 Annual Meeting of Stockholders or any postponement or adjournment thereof (the “Meeting”). This Proxy Statement also provides information you will need in order to consider and to act upon the matters specified in the accompanying Notice of Annual Meeting of Stockholders.

In accordance with rules and regulations adopted by the Securities and Exchange Commission (the “SEC”), instead of mailing a printed copy of our proxy materials to each stockholder of record, we will furnish our proxy materials on the Internet. If you receive a Notice of Internet Availability of Proxy Materials (the “Notice”) by mail, you will not receive a printed copy of the proxy materials other than as described in this Proxy Statement. Instead, the Notice will instruct you as to how you may access and review all of the important information contained in the proxy materials. The Notice will also instruct you as to how you may submit your proxy over the Internet. If you receive a Notice by mail and would like to receive a printed copy of our proxy materials or vote by telephone, you should follow the instructions for requesting proxy materials included in the Notice.

It is anticipated that the Notice will be sent to our stockholders on or about October 28, 2015. The Proxy Statement and the form of proxy relating to the Meeting will be made available to our stockholders on the date that the Notice is first sent.

Holders of record of our common stock, \$0.01 par value per share (“Common Stock”), as of the close of business on October 14, 2015 (the “Record Date”) are entitled to vote at the Meeting. Each stockholder of record as of the Record Date is entitled to one vote for each share of Common Stock held by such stockholder. On October 14, 2015, there were 71,224,154 shares of Common Stock outstanding and entitled to vote.

You cannot vote your shares of Common Stock unless you are present at the Meeting or you have previously given your proxy. You can vote by proxy in one of three convenient ways:

- *by Internet* : visit the website shown on the Notice or the proxy card and follow the instructions;
- *in writing* : if you have requested a printed copy of the proxy materials, sign, date and return the proxy card in the envelope enclosed with the proxy materials; or
- *by telephone* : within the U.S. or Canada, call the toll-free telephone number shown on the proxy card enclosed with the proxy materials and follow the instructions.

You may revoke your proxy at any time prior to the vote at the Meeting by:

- delivering a written notice revoking your proxy to our company’s Corporate Secretary at the address above;
- delivering a new proxy bearing a date after the date of the proxy being revoked; or
- voting in person at the Meeting.

All properly executed proxies, unless revoked as described above, will be voted at the Meeting in accordance with your directions on the proxy. If a properly executed proxy does not provide instructions, the shares of Common Stock represented by your proxy will be voted as follows:

- FOR the election of each of the 11 director nominees to serve until our company’s 2016 Annual Meeting of Stockholders;

- 
- FOR the ratification of our appointment of KPMG LLP as our independent registered public accounting firm for the 2016 fiscal year;
  - FOR the approval of an amendment to our 2012 Stock Option and Incentive Plan, as amended;
  - FOR the approval, by non-binding vote, of the compensation paid to our company's named executive officers; and
  - at the discretion of the proxy holders with regard to any other matter that is properly presented at the Meeting.

A majority of the outstanding shares of Common Stock must be present, in person or by proxy, to constitute a quorum at the Meeting.

Our company's majority voting policy requires any director nominee in an uncontested election who receives a greater number of votes "Withheld" than votes "For" his or her election to tender his or her resignation promptly following the certification of the election results. The Nominating and Governance Committee of the Board will consider all of the relevant facts and circumstances and make a recommendation to the Board with respect to accepting or rejecting the resignation. Within 90 days of the certification of the voting results of the Meeting, the Board is required to take action with respect to the recommendation and to publicly disclose its decision by issuing a press release. The majority voting policy is more fully described below in "The Board, Its Committees and Its Compensation — Corporate Governance — Majority Voting Policy."

Those stockholders who fail to vote over the Internet or by telephone, return a proxy or attend the Meeting will not have their shares of Common Stock count towards determining any required vote or quorum. Abstentions will count towards determining a quorum. Your broker, bank or other nominee is not permitted to vote on your behalf on non-routine matters, which include the election of directors, the approval of the amendment to the 2012 Stock Option and Incentive Plan, as amended, and the advisory vote on executive compensation, unless you provide specific instructions by completing and returning the proxy card or following the instructions provided to you to vote your shares via telephone or the Internet. The proposal to ratify the appointment of our company's independent registered public accounting firm is considered a "routine" matter under the New York Stock Exchange rules, which means that your broker, bank or other nominee will have discretionary authority to vote your shares held in street name on that matter. To ensure your shares are voted in the manner you desire, you should instruct your broker, bank or other nominee before the date of the Meeting on how to vote your shares. In the event that a broker, bank or other nominee does not receive voting instructions for these matters from its customers, such broker, bank or nominee may notify us that it lacks voting authority to vote those shares, which is referred to as a "broker non-vote." These broker non-votes will be included in determining whether a quorum exists.

Each of the approval of the amendment to the 2012 Stock Option and Incentive Plan, as amended, the ratification of the independent registered public accounting firm and the approval of the advisory vote on executive compensation requires the affirmative vote of a majority of the shares present in person or represented by proxy at the Meeting and entitled to vote. Therefore, shares not voted and broker non-votes, if any, will not be treated as votes cast and have no effect on these matters. Abstentions are considered voting power present at the Meeting and will have the same effect as votes cast against each of these matters.

If you own shares through our employee retirement savings and investment plan, and you do not direct the trustee of the 401(k) plan to vote your shares, then the trustee will vote the shares credited to your account in the same proportion as the voting of shares for which the trustee receives direction from other participants.

We are soliciting your proxy and will pay the cost of preparing and mailing proxy materials, including the Notice, this Proxy Statement and the proxy card. Additionally, our employees may solicit proxies personally and by telephone. Our employees will receive no compensation for soliciting proxies other than their regular salaries. We may request banks, brokers and other custodians, nominees and fiduciaries to forward copies of these proxy materials to their principals and to request authority for the execution of proxies. We may reimburse such persons for their expenses in so doing.

Nominees who receive a greater number of "Withhold" votes than "For" votes are required to promptly tender their resignation pursuant to our majority voting policy. The affirmative vote of a majority of the shares that are present at the Meeting in person or by proxy and entitled to vote thereon, is required to: ratify the appointment of our independent registered public accounting firm (Proposal No. 2); approve the amendment to our 2012 Stock Option and Incentive Plan, as amended (Proposal No. 3); and approve, by non-binding vote, our executive compensation (Proposal No. 4). Broker non-votes have no effect on the outcome of Proposal Nos. 1, 2, 3 and 4. Abstentions have the same effect as votes "Against" on Proposals 2, 3 and 4.

**PROPOSAL NO. 1**  
**ELECTION OF DIRECTORS**

Stockholders will elect the directors at the Meeting to serve for one-year terms. This section contains information relating to the 11 director nominees.

The incumbent directors that have been nominated for re-election are Adriane M. Brown, John W. Diercksen, Ann McLaughlin Korologos, Edward H. Meyer, Robert Nail, Dinesh C. Paliwal, Abraham N. Reichental, Kenneth M. Reiss, Hellene S. Runtagh, Frank S. Sklarsky, and Gary G. Steel. Each of the nominees for election at the Meeting was selected by the Board as a nominee in accordance with the recommendation of the Nominating and Governance Committee of the Board (“Nominating Committee”). If elected at the Meeting, each of the nominees have consented to serve on the Board and each of the nominees would so serve until the 2016 Annual Meeting of Stockholders and until his or her successor is elected and has been duly qualified, or until such director’s death, resignation or removal.

The Board expects that the nominees will be available for election at the time of the Meeting. If for any reason a nominee should become unavailable for election, the shares of Common Stock voted “For” that nominee by proxy will be voted for a substitute nominee designated by the Board, unless the Board reduces the number of directors or allows that nominee’s director position to remain vacant until a qualified nominee is identified.

A plurality of the votes cast is required for the election of directors. This means that the director nominee with the most votes for a particular Board position is elected for that position. The election of directors at the Meeting is an uncontested election. Therefore, pursuant to our majority voting policy, nominees who receive a greater number of “Withhold” votes than “For” votes are required to promptly tender their resignation. See “The Board, its Committees and Its Composition—Corporate Governance—Majority Voting Policy.”

**Directors’ Retirement Policy**

On September 11, 2012, our Board approved an amendment to our Corporate Governance Guidelines to implement a retirement policy for our directors. This policy requires directors to retire at the annual meeting immediately following their 75<sup>th</sup> birthday, unless the Board otherwise grants a waiver to such policy. Mr. Edward H. Meyer, the Chairman of the Compensation and Option Committee of the Board (“Compensation Committee”), has been actively involved in the shareholder engagement process and has made other invaluable contributions to the Board in this role. The Board has temporarily waived the retirement policy for Mr. Meyer for at least one more term in order to ensure an orderly transition.

## Corporate Governance

The Board and senior management believe that one of their primary responsibilities is to promote a culture of ethical behavior throughout our company by setting examples and by displaying a sustained commitment to instilling and maintaining deeply ingrained principles of honesty and decency. Consistent with these principles we have, among other things, adopted:

- written charters for our Audit Committee, Compensation Committee and Nominating Committee;
- Corporate Governance Guidelines that describe the principles under which the Board operates;
- a Code of Ethics for Senior Management and the Board, a Code of Ethics and Conflicts of Interest Policy for Members of the Board, and a Code of Business Conduct applicable to all our employees;
- prohibition on hedging — our Insider Trading Policy expressly prohibits directors and employees from engaging in short sales of our Common Stock or buying or selling puts, calls or similar instruments in connection with our Common Stock; and
- a majority voting policy that requires our directors to submit their resignation if they do not receive a majority of votes “For” their election.

The committee charters, corporate governance guidelines, ethics codes and majority voting policy are available on our website ( [www.harman.com](http://www.harman.com) ) in the Corporate Governance section of the Investors page. Copies of these documents are also available upon written or oral request to our Corporate Secretary. We will post information regarding any amendment to, or waiver from, our Code of Ethics for Senior Management and the Board on our website under the Corporate Governance section of the Investors page.

The Board periodically reviews its corporate governance policies and practices. Based on these reviews, the Board expects to adopt changes to policies and practices that are in the best interests of our company and as appropriate to comply with any new requirements of the SEC or the New York Stock Exchange.

---

### ***Director Independence***

As part of our Corporate Governance Guidelines, we have established a policy requiring a majority of the members of the Board to be independent. The Board has also adopted a policy establishing independence standards to assist the Board in determining the independence of the non-management directors. Those standards reflect, among other things, the requirements under the listing standards of the New York Stock Exchange. The independence standards for non-management directors are available on our website under the Corporate Governance section of the Investors page.

In making its independence determinations, the Board considered transactions that occurred in fiscal year 2015 between our company and entities associated with the non-management directors or members of their respective immediate families. All identified transactions that appeared to relate to our company and a family member of, or entity with a known connection to, a non-management director were presented to the Board for consideration. The Board considered the transactions in the context of the New York Stock Exchange objective standards, the special standards established by the SEC for members of audit committees, and the SEC and U.S. Internal Revenue Service standards for compensation committee members. Based on all of the foregoing, as required by the New York Stock Exchange rules, the Board made a determination that no relationships exist that, in the opinion of the Board, would impair any non-management director's independence.

The Board has determined that each of Ms. Brown, Mr. Diercksen, Ms. Korologos, Mr. Meyer, Mr. Nail, Mr. Reichental, Mr. Reiss, Ms. Runtagh, Mr. Sklarsky and Mr. Steel, is independent of our company and our management within the meaning of the New York Stock Exchange listing standards and satisfies our independence standards. Following the Meeting, the Board will consist of 11 members, ten of whom are independent and one of whom is a member of our senior management. There are no family relationships among any directors or executive officers of our company.

### ***Majority Voting Policy***

Under our majority voting policy, in an uncontested election of directors, any nominee who receives a greater number of "Withhold" votes than "For" votes in his or her election will, promptly following the certification of the stockholder vote, tender his or her written resignation to the Board for consideration by the Nominating Committee. The Nominating Committee will consider the resignation and will make a recommendation to the Board concerning whether to accept or reject it.

In determining its recommendation to the Board, the Nominating Committee will consider all factors it deems relevant, which may include:

- the stated reason or reasons why stockholders who cast "Withhold" votes for the director did so;
- the qualifications of the director (including, for example, whether the director serves on the Audit Committee of the Board as an "audit committee financial expert" and whether there are one or more other directors qualified, eligible and available to serve on the Audit Committee in such capacity); and
- whether the director's resignation from the Board would be in our best interests and the best interests of our stockholders.

The Nominating Committee also will consider a range of possible alternatives concerning the director's tendered resignation as it deems appropriate, which may include:

- acceptance of the resignation;
- rejection of the resignation; or
- rejection of the resignation coupled with a commitment to seek to address and cure the underlying reasons reasonably believed by the Nominating Committee to have substantially resulted in the "Withhold" votes.

Under our majority voting policy, the Board will take formal action on the recommendation no later than 90 days following the certification of the results of the stockholders' meeting. In considering the recommendation, the Board will consider the information, factors and alternatives considered by the Nominating Committee and any additional information that the Board deems relevant. We will publicly disclose the Board's decision promptly after the decision is made in a press release. If applicable, the Board will also disclose the reason or reasons for rejecting the tendered resignation.

#### ***Non-Employee Director Stock Ownership***

In fiscal year 2012, we adopted revised Stock Ownership Guidelines for Non-Employee Directors. The guidelines recommend that non-management directors should, upon the later of (a) three years after the date of original adoption of the updated guidelines or (b) three years after becoming a director, own and hold shares of Common Stock equal in value to the lesser of:

- three times the director's annual cash retainer; or
- 7,000 shares.

#### ***Communications with the Board***

Stockholders and other interested parties may communicate with the Board, the non-management directors, any of the committees of the Board or specific directors by mail addressed to: Board of Directors, c/o Harman International Industries, Incorporated, 400 Atlantic Street, Suite 1500, Stamford, Connecticut 06901, Attn: General Counsel. The mailing envelope should also clearly indicate whether the communication is intended for the Board, the non-management directors, any of the committees of the Board or a specific director. The General Counsel or the Head of Internal Audit will review all these communications and will, within a reasonable period of time after receiving the communications, forward all communications to the appropriate director or directors, other than those communications that are merely solicitations for products or services or relate to matters that are of a type that are clearly improper or irrelevant to the functioning of the Board or the business and affairs of our company.

#### ***Board Meetings***

The Board held seven meetings during fiscal year 2015. Each director attended at least 75% of the total number of meetings of the Board and committees on which he or she served during the period he or she was a director in fiscal year 2015. The Board has established a policy that the non-management directors meet in executive session, without members of our management present, at each regularly scheduled meeting of the full Board.

The following table provides a summary of the membership of each of the standing committees of the Board as of June 30, 2015.

During fiscal 2015, the Audit Committee held nine meetings. The Board has determined that each member of the Audit Committee is independent under the New York Stock Exchange listing standards and each is financially literate and experienced in financial matters. The Board has also determined that Messrs. Reiss, Diercksen and Sklarsky are "audit committee financial experts" within the meaning of applicable SEC regulations.

#### ***Compensation Committee Interlocks and Insider Participation***

Edward H. Meyer, Adriane M. Brown, Hellene S. Runtagh, Frank S. Sklarsky and Gary G. Steel served as members of the Compensation Committee in fiscal year 2015. During fiscal year 2015, no member of the Compensation Committee was an employee, officer or former officer of our company. #### ***Nominating and Governance Committee***

During fiscal year 2015, the Nominating Committee held four meetings. Each member of the Nominating Committee is independent under the New York Stock Exchange listing standards.

The Nominating Committee assists the Board in carrying out its oversight responsibilities relating to the composition of the Board and certain corporate governance matters. The Nominating Committee's primary responsibilities include:

- considering and making recommendations to the Board with respect to nominees for election to the Board consistent with criteria approved by the Board or the Nominating Committee, including director candidates submitted by our stockholders;
- periodically reviewing and assessing our policies and practices with regard to corporate responsibility, human health and safety, sustainability and the environment;
- annually reviewing and reassessing the adequacy of our codes of conduct, corporate governance guidelines and committee charters;
- overseeing the process for the annual performance evaluation of the Board, Board committees and CEO; and
- reviewing the independence of each of the directors annually.

The Nominating Committee's responsibilities and key practices are more fully described in its written charter.

#### ***Board Role in Respect of CEO Compensation***

The Compensation Committee approves and makes recommendations to the Board regarding the CEO's compensation level, and the Board makes all final decisions regarding CEO compensation. The Board approves the CEO's goals and objectives for the upcoming fiscal year, assesses the CEO's performance in the current fiscal year against the goals and objectives for such fiscal year and approves the CEO's compensation for the upcoming fiscal year. The CEO is not involved in the approval process for his compensation.

### ***Board Leadership Structure***

The current Board Chairman is also the current CEO of our company. In addition, in May 2008 the non-management directors designated Ann McLaughlin Korologos as Lead Director. In this role, Ms. Korologos is responsible for chairing executive sessions and other meetings of the Board, with and without the participation of the Chairman. Our Lead Director, together with the Chairman, sets the agenda for Board meetings and ensures that all topics proposed by the other directors are considered for debate and discussion. Our Lead Director also conducts the CEO's performance appraisal at the end of each fiscal year and reviews the CEO's performance goals and objectives for the new fiscal year. In preparation for these reviews with the CEO, all non-management directors provide their input to the Lead Director. Following the review sessions with the Lead Director, our CEO holds an in-person performance appraisal presentation and discussion with the Board. The Board designates the Lead Director on an annual basis.

The non-management directors believe that our company's current model of the combined Chairman/CEO role in conjunction with the Lead Director position is the appropriate leadership structure for our company at this time. The non-management directors believe that each of the possible leadership structures for a board has its particular advantages and disadvantages, which must be considered in the context of the specific circumstances, culture and challenges facing a company, and that such consideration is the responsibility of a company's board and requires a diversity of views and experiences. The combined Chairman/CEO model is a leadership model that has served our stockholders well for many years and through a succession of effective leaders.

The non-management directors of the Board believe that the combined Chairman/CEO position, together with the Lead Director, has certain advantages over other board leadership structures and continues to best meet our company's current needs, including:

- efficient communication between management and the Board;
- clear delineation of the Lead Director's and other non-management directors' oversight role from the Chairman/CEO's and other management's day-to-day operations role;
- clarity for our company's key stakeholders on corporate leadership and accountability; and
- the Board Chairman possessing the best knowledge of our company's strategy, operations and financial condition and, in turn, the ability to communicate that to external stakeholders.

The Nominating Committee and the other non-management directors periodically review this structure to ensure it is still appropriate for our company, especially in the context of future succession plans.

### ***Board Oversight of Risk Management***

Management is responsible for day-to-day enterprise risk management. In its oversight role regarding enterprise risk management, the Board reviews and approves our company's long-term strategic plan and annual operating plan. We face risks in many different areas, including business strategy; government regulation; financial condition; credit and liquidity; product innovation; competition for talent; executive development; operational efficiency; quality assurance; environmental, health and safety; supply chain management; information technology and security; intellectual property; and legal compliance, among many others. The Board believes that oversight of risk management is the responsibility of the full Board.

In carrying out this critical responsibility, the Board meets with key members of management with primary responsibility for management of risk in their respective areas of responsibility, including our CEO, Chief Financial Officer, Chief Human Resources Officer, General Counsel, Head of Internal Audit, and the presidents of each of our divisions. Each year, management compiles a comprehensive risk assessment report and reviews that report with the Board during regular Board meetings. The report identifies the material business risks for our company, indicates the senior management owners of such risks, and identifies factors that respond to and mitigate those risks. Throughout the year, the Board dedicates a portion of each meeting to review and discuss specific risk topics in greater detail.

---

### ***Executive Succession Planning***

The Board and our CEO have developed a comprehensive program for emergency and long-term executive succession, which the Board reviews with our CEO annually. Consistent with our culture, our goal is to always be in a position to appoint our most competent senior executives from within our company. Individuals who are identified as having potential for senior executive positions are evaluated by the Board. The careers of such persons are developed to ensure that over time they have appropriate assignments, exposure to the Board and exposure to our diverse global business. These individuals interact with the Board in various ways, including through participation in certain Board meetings and other Board-related activities and meetings with individual directors, both in connection with director visits to our business units around the world and otherwise.

We believe that the Board fully understands our culture and strategic needs and that our succession program should ensure a smooth transition with respect to senior executive appointments.

### ***Director Nominees***

The Nominating Committee utilizes a variety of methods for identifying and evaluating director nominees. The committee may consider candidates recommended by our directors, members of management, professional search firms or stockholders. These candidates may be considered at any point during the year.

### ***Qualifications***

The Board has charged the Nominating Committee to make recommendations regarding an appropriate board composition to support and adjust to our company's strategy and operations over time. The Nominating Committee reviews annually with the Board the size, function and needs of the Board and our company. In evaluating nominees for election as a director, the Nominating Committee considers a number of factors, including the following:

- personal and professional qualities, characteristics, attributes, accomplishments and reputation in the business community and otherwise;
- reputation in a particular field or area of expertise;
- current knowledge and contacts in the markets in which we do business and in our industry and other industries relevant to our business;
- the ability and willingness to participate fully in Board activities, including attendance at, and active participation in, Board and committee meetings;
- the skills and personality of the nominee and how the Nominating Committee perceives the nominee will fit with the existing directors and other nominees in maintaining a board that is collegial and responsive to the needs of our company and our stockholders;
- the willingness to represent the best interests of all of our stockholders and not just one particular constituency;
- age of the nominee; and
- diversity of viewpoints, culture, gender, background and experience, compared to those of existing directors and other nominees.

The Board also seeks men and women that have a wide range of experiences at policy-making levels in business, government, education and technology and in areas that are relevant to our company's global activities. The Nominating Committee also endeavors to ensure that the Board includes a number of financially literate directors and at least one director who qualifies as a financial expert.

The Nominating Committee will also consider other criteria for director candidates included in our Corporate Governance Guidelines or as may be established from time to time by the Board.

---

We believe that our current Board is well-qualified to lead our company's efforts to achieve our long-term strategy. The combined experience of our directors covers all areas of expertise and competency identified by the Nominating Committee.

#### *Stockholder Recommendations*

The Nominating Committee will evaluate director candidates recommended by a stockholder in the same manner as candidates otherwise identified by the Nominating Committee. We have never received any recommendations for director candidates from stockholders. In considering director candidates recommended by our stockholders, the Nominating Committee will also take into account such factors as it considers relevant, including the length of time that the submitting stockholder has been a stockholder of our company and the aggregate amount of the submitting stockholder's investment in our company.

Stockholders may recommend candidates at any time but to be considered by the Nominating Committee for inclusion in our proxy statement for the next annual meeting of stockholders, recommendations must be submitted in writing no later than 120 days before the first anniversary of the date the proxy statement was mailed to stockholders in connection with the previous year's annual meeting. A stockholder's notice must contain, among other information, the following:

- the name of the director candidate, the name of the stockholder recommending the director candidate for consideration, and the written consent of the director candidate and stockholder to be publicly identified;
- a written statement by the director candidate agreeing to be named in our proxy materials and to serve as a member of the Board if nominated and elected;
- a written statement by the director candidate and the recommending stockholder agreeing to make available to the Nominating Committee all information reasonably requested in connection with the Nominating Committee's consideration of the director candidate; and
- the director candidate's name, age, business and residential addresses, principal occupation or employment, number of shares of Common Stock and other securities of our company beneficially owned, a curriculum vitae or similar document detailing personal and professional experiences and accomplishments, and all other information relating to the director candidate that would be required to be disclosed in a proxy statement or other filing made in connection with the solicitation of proxies for the election of directors by SEC regulations and the New York Stock Exchange listing standards.

The stockholder's notice must be signed by the stockholder recommending the director candidate for consideration and sent to the following address: Harman International Industries, Incorporated, 400 Atlantic Street, Suite 1500, Stamford, Connecticut 06901, Attn: Corporate Secretary (Nominating and Governance Committee Communication/Director Candidate Recommendation).

Long-term incentive (“LTI”)

- Goals are set by the Compensation Committee in the first quarter each fiscal year, and are set considering guidance provided to investors, among other factors
- Performance-based restricted share units (“Performance RSUs”): 60% of target LTI
- Can range from 0 to 200% of the target award based on three-year performance:
  - Cumulative EPS against a stated goal (weighted 50%)
  - Relative Total Shareholder Return (“TSR”, weighted 50%)
  - Average Return on Invested Capital (“ROIC”, applied as a negative modifier, rather than a weighted factor, such that the award will be reduced if ROIC is below a specified threshold)
- Time-vested restricted share units (“Time RSUs”): 40% of target LTI
- Align management with stockholders by delivering a significant portion of compensation in equity
- Achieve pay-for-performance and retention objectives through a blend of Performance RSUs and Time RSUs
- The performance metrics, in combination with the annual incentive plan metrics, focus on key drivers of long-term stockholder value; use of TSR aligns payouts directly with stockholder value
- Change vesting for Time RSUs from 3-year cliff to 3-year ratable to better achieve attraction objectives and align with market practice
- Increase for the CEO in target grant value from \$4.97 million to \$7.0 million based on benchmark data, and slight increases in target grant values for certain other NEOs based on benchmark data

## **Process for Determining Compensation**

### ***The Role of the Compensation Committee***

The Compensation Committee meets throughout the year to assess, review, and ultimately approve the compensation program and pay levels for all of our executive committee members, which includes all NEOs. The Compensation Committee makes recommendations to the Board regarding our CEO’s compensation, and the full Board (without the CEO) makes all final decisions regarding CEO compensation. The Compensation Committee retains an independent compensation consultant (described below under “The Role of the Committee’s Independent Consultant”) to provide advice in connection with its assessment of the compensation program.

### ***Consideration of Stockholder Feedback in Light of the Results of the 2014 Annual Meeting Say-on-Pay Vote***

The Compensation Committee highly values stockholder feedback on our company’s compensation program. Each year the Compensation Committee takes into account the result of the prior “say-on-pay” vote cast by our stockholders. At the 2014 Annual Meeting, the advisory vote to approve compensation of the NEOs resulted in approximately 93.8% of the votes cast in favor of our executive compensation program. Considering the strong support from our stockholders, the Compensation Committee did not implement extensive changes to our company’s compensation program for fiscal year 2016.

### ***The Role of the CEO***

Our CEO is included in discussions and makes recommendations to the Compensation Committee on compensation for our executive committee members, including our NEOs (except with respect to his own compensation). The Compensation Committee reviews the recommendations from the CEO and makes all final compensation decisions, except with respect to the CEO’s compensation which is ultimately decided by the Board in executive session without the CEO’s participation. Our CEO also provides his evaluation of each executive officer’s performance, including our NEOs except for himself, against their individual objectives for the Compensation Committee’s consideration and approval as part of his recommendation for appropriate compensation awards under the annual incentive program. Our CEO does not participate in discussions, either with the Compensation Committee or the Board, regarding his own compensation.

### ***The Role of the Committee's Independent Consultant***

In fiscal year 2015, the Compensation Committee retained ClearBridge as its independent compensation consultant. ClearBridge reports directly to the Compensation Committee, and provides advice and recommendations regarding executive compensation design for the CEO and executive committee members, as well as assistance in benchmarking executive compensation levels. ClearBridge does not provide any other services, beyond the services provided to the Compensation Committee, for our company or management.

### ***The Role of Benchmarking***

In assessing and determining total compensation opportunities for the NEOs, the Compensation Committee considers market data as an input to the process. As there is no well-defined group of comparable publicly-traded companies in the United States operating in the same industries as our company, the Compensation Committee considers multiple external perspectives as an input to the process.

Specifically, the Compensation Committee uses a Pay Benchmarking Peer Group that consists of companies in the automotive and technology related sectors, with revenues generally ranging from one-half to two times our company's revenues to reflect companies with comparable industry scope and size. For fiscal year 2015, the Compensation Committee made changes to the Pay Benchmarking Peer Group to reflect the evolution in our company's size and the scope of our business. The Compensation Committee supplements that data with compensation survey data from the Towers Watson Compensation Data Bank<sup>®</sup> Executive Compensation Survey (the "Towers Watson Survey"), which is a published third-party survey. The Compensation Committee has no input in determining the companies in the Towers Watson Survey and does not consider the survey companies to be a peer group. Companies in the Pay Benchmarking Peer Group are shown below:

#### **Companies in the Pay Benchmarking Peer Group (n=20)**

Advanced Micro Devices, Inc.	Autoliv, Inc.	Borgwarner, Inc.	Cooper-Standard Holdings, Inc.
Dana Holding Corp.	Freescale Semiconductor Ltd.	Garmin Ltd.	Harris Corp.
Intuit Inc.	Juniper Networks Inc.	Lexmark International, Inc.	Marvell Technology Group Ltd.
Moog Inc.	Motorola Solutions Inc.	Nvidia Corp.	Rockwell Automation, Inc.
Rockwell Collins Inc.	Sandisk Corp.	Tenneco, Inc.	Visteon Corp.

### ***The Role of Tally Sheets***

The Compensation Committee reviews tally sheets, which include all components of compensation paid to our executive committee members, including all NEOs, in the most recent fiscal year. The tally sheets also provide information on potential payouts to the executive committee members upon various termination scenarios. The Compensation Committee considered the information presented in the tally sheets in determining the compensation program for our executive committee members for fiscal year 2015.

### **Compensation Program Details**

This section sets forth the specific details of the executive compensation program, as previously summarized in the "Compensation Program Summary" above.

### NEO Target Pay Levels for Fiscal Year 2015

The Compensation Committee determines target compensation opportunities for the NEOs in the first quarter of each fiscal year, considering all of the inputs described above under “Process for Determining Compensation.” The table below provides a summary of target compensation opportunities for each of the NEOs, which differs from the disclosure provided in the Summary Compensation Table as described in the footnotes below.

<u>Name</u>	<u>Title</u>	<u>Base Salary(1)</u>	<u>Target Annual Incentive (% of salary)(2)</u>	<u>Target Total Cash Compensation</u>	<u>Target Long-Term Incentive Value(3)</u>	<u>Target Total Direct Compensation</u>

Sandra E. Rowland	EVP & CFO	\$ 560,000	75%	\$ 980,000	\$ 1,106,250	\$ 2,086,250

Todd Suko	EVP & General Counsel	\$ 453,000	75%	\$ 793,000	\$ 800,000	\$ 1,593,000

- (1) Represents salary rate effective as of September 1, 2014 for all NEOs except for Ms. Rowland, whose salary represents rate effective as of January 1, 2015, upon effectiveness of her appointment as our company’s Executive Vice President and Chief Financial Officer. Salary provided in the Summary Compensation Table represents actual earned amount during fiscal year 2015.
- (2) Represents award opportunity earned at target performance. Non-Equity Incentive Plan Compensation provided in the Summary Compensation Table represents the actual annual incentive award paid for fiscal year 2015.
- (3) Represents targeted dollar amount of LTI. Based on this dollar amount, the number of RSUs to be granted is determined based on the ten-trading day average closing stock price of our Common Stock prior to the grant date. The amount reported in the Summary Compensation Table is different from this amount since it is based on the actual stock price of our Common Stock on the date of grant, as well as the required accounting valuation for the Performance RSUs.
- (4) Mr. Mauser’s compensation is paid in Euros and his target cash compensation as of September 1, 2014 has been translated into U.S. Dollars at the exchange rate in effect on June 30, 2015 in the case of bonus payment, and at the average exchange rate for the 12 months ended June 30, 2015 in the case of salary and other compensation amounts.

Base salaries provide executives with competitive level of fixed pay, reflective of their role and performance. For fiscal year 2015, Messrs. Paliwal, Augsburg, Mauser and Suko received 3% salary increases to reflect performance. Ms. Rowland’s salary was increased from \$310,000 to \$560,000 upon her promotion to Executive Vice President and Chief Financial Officer on January 1, 2015 to reflect her new role and responsibilities.

### Annual Incentive Plan Design

#### Fiscal Year 2015 Annual Incentive Plan Design and Payouts

The Compensation Committee reviews and approves all aspects of the annual incentive plan design, as described in this section, in the first quarter of each fiscal year. Annual incentives for fiscal year 2015 were awarded under our key executive officers bonus plan, consistent with prior years.

*Performance Measures.* The Compensation Committee selected the performance measures for fiscal year 2015 in order to emphasize profitable growth, and to measure our ability to generate cash and reinvest in growth initiatives. Bonus payouts for the NEOs are determined primarily based on financial goals: Revenue, EBITDA and Free Cash Flow. If the financial goals are achieved, awards for NEOs other than the CEO can be adjusted downward based on performance against their individual goals. Financial goals for the CEO, CFO and Mr. Suko are based on total company results, and financial goals for the other NEOs are based 50% on the performance of their respective divisions and 50% on the performance of the total company in order to provide balance between division and total company results.

*Performance Goals.* Performance goals for the annual incentive plan are reviewed and approved in the first quarter of each fiscal year, which are set considering our company's financial guidance as of that date. During the third quarter of fiscal year 2015, we updated our guidance by increasing our projected results to reflect our fiscal year forecast. However, the bonus goals remained at the levels at which they were initially set in September 2014, and were not adjusted. As a policy matter, the Compensation Committee has determined not to adjust bonus goals once set in response to any update to our guidance during the fiscal year. Goals are set on a currency-adjusted basis ("constant currency") such that bonuses are not impacted (positively or negatively) by foreign currency fluctuations throughout the course of the fiscal year. The Compensation Committee believes this approach is the most appropriate way to reward management for the annual operating results of the business.

*Non-GAAP measure.* Free Cash Flow is a non-GAAP measure which the Compensation Committee calculates as follows: operating income plus depreciation and amortization plus change in working capital. The change in working capital includes net accounts receivable from third parties plus net inventories less trade accounts payable to third parties.

*Calculation of Payout.* The Compensation Committee set the annual incentive plan goals to provide for a payout commensurate with the performance level. Payout with respect to each measure is calculated separately. If performance falls below the threshold level, no award will be paid with respect to that performance measure. Straight line interpolation is applied for performance that falls between each of the performance levels shown below.

- (1) As previously discussed, all amounts shown are on a “constant currency” basis and do not equal reported results.
- (2) Our CEO’s resulting annual incentive achievement for actual performance of our total company was 147% out of a maximum of 150%.
- (3) Services Division includes the results of our infotainment services business and car audio services business, which were reported within our Infotainment Division and Lifestyle Division, respectively, for fiscal year 2015. Services Division also includes the results of operations of Symphony Teleca Corporation and its subsidiaries (“STC”) since our acquisition of STC on April 8, 2015.

*Individual Goals.* Like the corporate and division objectives, individual performance objectives are intended to challenge executives to achieve stretch goals that contribute to the achievement of the annual operating plan, improve our company’s performance, and ensure that corporate and division financial goals are met or exceeded. Individual performance objectives are also designed to ensure successful execution of ongoing strategic objectives, such as reducing selling, general and administrative expense (“SG&A”), achieving synergies from acquisitions, the growth of our headphone business, and timely delivering critical projects. Potential scores for achievement of individual performance objectives range from 0% to 100%. As approved by the Compensation Committee:

- For the period from July 1, 2014 through December 31, 2014, Ms. Rowland’s individual objectives included goals related to broadening our exposure to non-U.S. investors (25% weight); updating company and division strategy (30% weight); developing an M&A deal pipeline and corporate venture capital plan (40% weight); and increasing analyst coverage (25% weight). Based on her efforts and achievements against these targets, Ms. Rowland received an aggregate individual objective score of 120% out of a maximum of 120%. For the period from January 1, 2015 through June 30, 2015, Ms. Rowland’s individual objectives included goals related to driving cash flow from operations (20% weight); implementing tax efficiency projects (20% weight); reducing SG&A as a percentage of sales (20% weight); and refinancing our existing credit facility and completing a public debt offering (40% weight). Based on her efforts and achievements against these targets, Ms. Rowland received an aggregate individual objective score of 100% out of a maximum of 100%.

### ***Long-Term Incentive Plan Design***

Long-term incentives are granted under our equity incentive plans. Our equity incentive plans are administered by the Compensation Committee and are designed to provide incentive compensation to executive officers and other key employees in the form of equity-based vehicles that align executives with stockholders. Generally, the Compensation Committee approves the annual equity awards under our equity incentive plan in September of each year. When making equity-based incentive awards, the Compensation Committee also takes into consideration the dates on which we expect to make public announcements regarding earnings as well as other events or circumstances that have not been publicly announced that may be deemed material to us, our stockholders and other investors.

The chart below provides a summary of our outstanding equity award cycles, which are discussed further throughout the remainder of this section:

*Achievement of September 2012 Performance RSUs (vested September 10, 2015)*

The Performance RSUs granted on September 10, 2012 were earned at 168.9% of target based on our company's achievement against the 3-Year Cumulative EPS, 3-Year Relative TSR and 3-Year Average ROIC goals established by the Compensation Committee at the time of the grant. The chart below provides the goals and actual performance results:

*Grant of September 2013 Awards (Fiscal Year 2014 Grant)*

In September 2013, we granted equity to our NEOs as follows (the "September 2013 Awards"):

Vehicles, Mix and Vesting.

- 60% Performance RSUs (at target): Vest on the third anniversary of the grant date based on performance goals established by the Compensation Committee (the "2013 Performance RSUs"); and
- 40% Time RSUs (at target): Vest on the third anniversary of the grant date subject to the executive's continued employment with our company.

*Performance Measures.* The payout of the 2013 Performance RSUs will be determined as follows: EPS and Relative TSR will be equally weighted (50% each) to determine the initial payout. The initial payout will then be multiplied by a factor from 66.7% to 100% to determine the final payout. This factor will be determined based on our ROIC performance during the measurement period. The rationale for this change is to encourage management to pursue growth opportunities that are expected to produce returns above our cost of capital and are thus value-creating for stockholders.

*Performance Goals.* The 2013 Performance RSUs are subject to our company's achievement of certain specified levels of performance. The number of 2013 Performance RSUs that will vest with respect to each performance measure will be determined as follows: (i) no 2013 Performance RSUs will be earned for performance below the threshold level for the measure, (ii) 50% of the target 2013 Performance RSUs will be earned upon achievement of the threshold level for the measure, (iii) 200% of the target 2013 Performance RSUs will be earned upon achievement of the maximum level for the measure, and (iv) for performance between threshold and target and target and maximum, the number of 2013 Performance RSUs earned for each measure will be determined by straight-line interpolation.

*Non-GAAP Measures.* EPS is a non-GAAP measure. ROIC is defined as net operating profit after tax divided by invested capital (which is defined as the sum of total debt and shareholder equity). Relative TSR is calculated as stock price appreciation plus reinvested dividends, where the stock price is defined as the 40-trading-day-average closing stock price immediately prior to the grant date and the vesting date.

*Relative TSR Peer Group.* TSR is assessed relative to a group of companies shown below, which is different than the Pay Benchmarking Peer Group described in "The Role of Benchmarking." The Compensation Committee selected this group of companies for the Relative TSR Peer Group for the 2013 Performance RSUs

because of the comparable nature of their business to our company's business. However, many of the companies are significantly larger or are not in the United States; as a result, many of these companies were not considered appropriate for assessing the target pay levels for the NEOs as part of the Pay Benchmarking Peer Group.

***Benefits, Perquisites, and Contracts***

*Employment Agreements and Offer Letters*

Since 2007, we have had an employment agreement in place with Mr. Paliwal. The employment agreement with Mr. Paliwal provides continuity and stability in leadership for the organization. Mr. Mauser has been employed since May 2005 pursuant to an employment agreement with a German subsidiary of our company. Other than Mr. Paliwal and Mr. Mauser, we have not entered into employment agreements with our NEOs, who are employed pursuant to offer letters.

*Severance Agreements and Change in Control Severance Arrangements*

In addition to the employment agreements identified above, we also have entered into separate severance agreements and change in control severance agreements with Mr. Paliwal and each of our other NEOs, which are detailed below under “Executive Compensation — Severance and Change in Control Benefits.” These agreements provide for severance benefits in the event of a termination of employment under specified circumstances, including, with respect to the change in control severance agreements, following a change in control of our company, to provide executives with competitive levels of severance protection. Our key executive officers bonus plan also provides for a pro-rated award amount of the executive’s target award amount for that fiscal year if he or she is employed by us at the time of the change in control or was terminated after commencement of discussions that resulted in a change in control of our company but within 180 days prior to the change in control. The payout amounts under our key executive officers bonus plan, the severance agreements and the change in control severance agreements are as follows:

	Severance Upon Qualifying Termination	
	Not In Connection with a Change in Control	Following a Change in Control
<b>Dinesh Paliwal</b>	Two times the sum of salary plus target bonus and pro rata bonus	Three times the sum of salary plus target bonus and pro rata target bonus
<b>Herbert Parker</b>	One times salary and pro rata bonus	Two times the sum of salary plus target bonus and pro rata target bonus
<b>Michael Mauser</b>	12 months’ salary	One and one-half times salary and pro rata target bonus
<b>Other NEOs</b>	One times salary and pro rata bonus	One and one-half times salary and pro rata target bonus

Severance payments were determined based on competitive levels in the market.

If any severance payments or benefits related to a change in control provided to either Mr. Paliwal or Mr. Parker would be subject to the excise tax imposed on “parachute payments” by the Internal Revenue Code of 1986, we will “gross-up” his compensation for all such excise taxes and any federal, state and local taxes applicable to such gross-up payment. With respect to Mr. Paliwal and Mr. Parker, each will only receive this “gross-up” in the event his employment is terminated upon a change in control of our company. In 2009, the Compensation Committee decided, in the exercise of its judgment, that our company would not provide this benefit to any of our other NEOs or any future executive officers. For the NEOs other than Mr. Paliwal and Mr. Parker, if severance payments and benefits related to a change in control would be subject to the excise tax, then such amounts will be reduced if and to the extent necessary so that no portion thereof will be subject to the excise tax, but if the executive would receive in the aggregate greater payments and benefits on an after-tax basis if the amounts were not subject to such reduction, then no such reduction will be made.

Under the terms of our approved equity incentive plans and the related award agreements, unvested stock options, restricted shares and Time RSU awards become fully vested upon a change in control of our company. We adopted this treatment for our long-term compensation plan for the following reasons:

- to fully align employees with stockholders in the event of a transaction that qualifies as a change in control;
- to ensure that ongoing employees are treated the same as terminated employees with respect to outstanding equity grants; and
- to retain key employees in the face of a potential change in control by providing a benefit if they remain with our company through the date of the change in control.

The Performance RSUs will partially vest upon a change in control of our company. If the change in control event occurs prior to the vesting date, the Performance RSUs will vest as follows:

- 60% vest automatically; and
- a pro rata portion of the remaining 40% will vest based on the number of days lapsed from date of grant to the effective date of the change in control, divided by the three-year vesting period.

The Compensation Committee believes that these benefits are consistent with its objectives and are necessary and appropriate in order to attract and retain qualified senior executives.

*Fiscal Year 2016 Changes to Severance Agreements*

On October 13, 2015, we entered into amended and restated severance agreements with Ms. Rowland and Messrs. Augsburg, Mauser and Suko to combine the change in control severance agreements and severance agreements, to increase severance benefits in the event of a termination of employment under specified circumstances, including following a change in control of our company to provide executives with competitive levels of severance protection, and to broaden the applicability of the confidentiality, non-compete and non-solicit provisions.

On October 13, 2015, we also entered into an amended and restated severance agreement with Mr. Parker to increase severance benefits in the event of termination of employment under specified circumstances, excluding termination in connection with a change in control. Mr. Parker’s change in control severance agreement, which contains the excise tax “gross-up” provision, was not amended.

The payout amounts under these amended and restated severance agreements are as follows:

	Severance Upon Qualifying Termination	
	Not In Connection with a Change in Control	Following a Change in Control
<b>Herbert Parker</b>	One times the sum of salary plus target bonus and pro rata bonus	No change
<b>Other NEOs</b>	One times the sum of salary plus target bonus and pro rata bonus	Two times the sum of salary plus target bonus and pro rata target bonus

*Employee Benefits*

We provide certain executive officers with supplemental retirement, termination and death benefits under our SERP. As of January 2008 we decided to suspend providing this benefit to newly hired or promoted executive officers. Mr. Mauser is entitled to an annual pension that is equal to two percent of eligible salary for every year of service, up to a maximum of 30%. This pension is payable at age 60 and is offset by a pension payable from the Harman/Becker Nokia plan in the amount of 3,396 Euro. The annual benefit will be increased by the cost of living rate, currently assumed to be 5.25% every three years. We provide our executive officers employed in the United States, including our NEOs, with the opportunity to participate in our Deferred Compensation Plan (“DCP”). These plans are described below under the captions “Executive Compensation — Pension Benefits for Fiscal Year 2015” and “Executive Compensation — Nonqualified Deferred Compensation.”

Our NEOs are also eligible to participate in other company-sponsored benefit plans available to employees generally, including medical and life insurance. Employees, including executive officers that are employed in the United States, are eligible to participate in a company-sponsored 401(k) defined contribution plan.

The Compensation Committee believes that these benefits are necessary and appropriate in order to attract and retain qualified executive officers insofar as these benefits are generally made available by similarly situated companies.

*Executive Perquisites*

We provide our NEOs with certain perquisites that have historically been provided. These perquisites include the use of company owned or leased cars and reimbursement of car-related expenses, payment of excess life insurance premiums for our CEO and accident insurance premiums for Mr. Mauser, relocation expenses in the event an executive officer is asked to relocate at our request, reimbursement of spouse travel expenses where spouses are invited to company events, reimbursement of legal fees and rent for temporary housing.

The Compensation Committee has determined it is appropriate to provide these perquisites in order to attract and retain our NEOs by offering compensation opportunities that are competitive with those offered by similarly situated public companies. In determining the total compensation payable to our NEOs, the Compensation Committee considers perquisites in the context of the total compensation which our NEOs are eligible to receive, but is not materially influenced by the availability of these perquisites given the relatively minimal total amount of the perquisites provided. Perquisites are reviewed regularly in order to confirm continued relevance and competitiveness in the market. For a description of the perquisites received by our NEOs during fiscal year 2015, see the information below under the caption “Executive Compensation — Summary Compensation Table — All Other Compensation.”

#### ***Clawback Policy***

Based on the Compensation Committee’s recommendation and authorization, we adopted a new policy in fiscal year 2013 addressing the adjustment or recovery of awards or payments if the relevant performance measures upon which they are based are restated or otherwise adjusted in a manner that would reduce the size of an award or payment. This policy, also known as a “clawback” policy, applies to all of our executive officers, including the NEOs. Under the policy, we may recover any incentive compensation paid to a current or former executive officer of our company in the event of a material negative accounting restatement of our financial statements due to material noncompliance by our company with any financial reporting requirement under the securities laws. If the Board determines that any current or former executive officer has engaged in fraud or intentional misconduct that caused the error that, directly or indirectly, resulted in the financial restatement, the Board may require reimbursement of all compensation granted, earned or paid under annual incentive and long-term incentive compensation plans, including cancellation of outstanding equity awards. We have not required any NEO to return any award or repay any payment received in any fiscal year.

#### ***Insider Trading (Anti-Hedging) Policy***

Our company has an insider trading policy, which includes an anti-hedging policy to ensure the desired stockholder alignment. The policy prohibits our directors and employees from trading in options, puts or similar instruments on our company’s securities or selling our company’s securities “short.”

#### ***Stock Ownership Guidelines and Holding Requirements***

The Board approved and adopted amended executive stock ownership guidelines in fiscal year 2011 and further amended them in fiscal year 2013. These guidelines encourage our executive officers to hold ownership in our company, recognizing that stock ownership directly aligns executive interests to those of our stockholders. The guidelines encourage ownership levels in our Common Stock generally equal to a multiple of each NEO’s annual base salary depending on such executive’s level within our company, and increases with greater responsibility. The executive officer stock ownership guidelines are as follows:

- six times base salary for the CEO (increased from five times base salary in fiscal year 2013); and
- three times base salary for all other executive committee members, including our NEOs.

Our company’s executive officers were expected to comply by December 21, 2013, or within five years of being appointed as an executive committee member of our company (“Ownership Compliance Date”). In the event that an executive officer does not satisfy the ownership guidelines by the Ownership Compliance Date, he or she will be required to retain any and all vested RSU shares, net of shares withheld for taxes, or shares received upon the exercise of stock options, net of shares withheld to cover taxes or the exercise price, until such time as he or she becomes compliant with these guidelines.

#### ***Internal Revenue Code Section 162(m)***

As applicable to our company, Section 162(m) of the Internal Revenue Code of 1986 (the “Code”) provides that compensation in excess of \$1 million paid to the chief executive officer or to any of the other three most highly compensated executive officers (not including the chief financial officer) of a public company is not

deductible for federal income tax purposes. There is an exception to this limitation for “performance-based compensation” under Section 162(m) of the Code. Bonus awards under our key executive officers bonus plan and option grants and certain other awards under our equity incentive plans are intended to qualify as performance-based compensation under Section 162(m) of the Code. The Compensation Committee reviews on an annual basis the potential impact of this deduction limitation on executive compensation and intends to continue to evaluate our company’s potential exposure to this deduction limitation. While we endeavor to use this exception to maximize the deductibility of our compensation, in order to maintain flexibility in compensating executives and to attract necessary leadership in certain circumstances, we have not adopted a policy that all compensation must be deductible. We do not believe that such a policy is in the best interests of our company or our stockholders.

### **Compensation Risk Assessment**

The Compensation Committee does not believe that any risks arising from our compensation policies and practices are reasonably likely to have a material adverse effect on our company. The Compensation Committee considered various factors that have the effect of mitigating risk and, with the assistance of ClearBridge, reviewed our compensation policies and practices for our employees, including the elements of our executive compensation programs, to determine whether any portion of such compensation encourages excessive risk taking. The Compensation Committee concluded that any such risks are mitigated by:

- *Balanced Mix of Pay Components* : Compensation is not overly weighted toward annual incentive awards and represents a balance of cash and long-term equity based compensation vesting over three years.
- *Balanced Approach to Performance-Based Awards* : Performance targets are tied to several financial metrics, including sales growth, operating profit, free cash flow, and return on invested capital.
- *Performance Period and Vesting Schedules* : The performance period and vesting schedules for long-term incentives overlap and, therefore, reduce the motivation to maximize performance in any one period. Performance RSUs vest three years from the grant date.
- *Stock Ownership Guidelines* : Requires our CEO to directly or indirectly own equity in our company having a fair market value of six times his salary and other executive officers, including our NEOs, to own equity having a fair market value of three times their salary.

### **COMPENSATION AND OPTION COMMITTEE REPORT**

The Compensation and Option Committee has reviewed and discussed with management the Compensation Discussion and Analysis. Based on that review and discussion, the Compensation and Option Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and in our Annual Report on Form 10-K for the fiscal year ended June 30, 2015.

This report is submitted by the members of the Compensation and Option Committee.

- (1) For all stock awards (other than the Performance RSUs), we calculated the fair value of such stock awards under FASB ASC Topic 718 by multiplying the closing price of our Common Stock on the date of grant by the number of shares subject to such stock award. We assume zero anticipated forfeitures in connection with valuing such stock awards for purposes of FASB ASC Topic 718. For the Performance RSUs, we estimated fair value based on a model that considers the closing price of our Common Stock on the date of grant, the number of shares subject to such stock award, and the estimated probabilities of vesting outcomes. For a description of the assumptions used in determining the fair value of equity awards under FASB ASC Topic 718, see Note 14, *Shareholders' Equity and Share-Based Compensation*, to our consolidated financial statements in our Form 10-K for the fiscal year ended June 30, 2015. The following amounts represent the maximum potential Performance RSU value by individual for the awards made in fiscal year 2015: Mr. Paliwal — \$5,862,264; Ms. Rowland — \$1,221,805; Mr. Parker — \$1,298,358; Mr. Augsburger — \$1,180,223; Mr. Mauser — \$1,298,358; and Mr. Suko — \$944,178.
- (2) The amount reflected in this column represents an award under the 2014 Key Executive Officers Bonus Plan (the “2014 Key Executive Plan”) for fiscal years 2015 and 2014 and the 2008 Key Executive Officers Bonus Plan for fiscal year 2013.
- (3) For Mr. Paliwal, the amount representing the change in pension and non-qualified deferred compensation is attributable to benefits accrual (due primarily to an increase in pensionable earnings), passage of time (age) and a change in assumptions (primarily the mortality table).
- (4) Includes compensation as described under the caption “— All Other Compensation” below.
- (5) Mr. Parker served as our company’s Executive Vice President and Chief Financial Officer from June 2008 until January 1, 2015.

- (6) Mr. Mauser's compensation was paid in Euros and has been translated into U.S. Dollars at the exchange rate in effect on June 30, 2015 in the case of bonus payment, and at the average exchange rate for the 12 months ended June 30, 2015 in the case of salary and other compensation amounts.

#### ***Employment Agreements and Other Employment Arrangements***

Mr. Paliwal serves as our Chairman, Chief Executive Officer and President pursuant to a letter agreement with our company entered into in May 2007. The letter agreement, as amended, provides for an annual base salary of no less than \$1,125,000, and a target annual incentive award of 200% of his base salary, with a maximum annual incentive award opportunity of 400% of his base salary, which maximum annual incentive award opportunity was decreased to 300% of his base salary as of fiscal year 2013. Mr. Mauser has been employed since May 2005 pursuant to an employment agreement with a German subsidiary of our company. Other than Mr. Paliwal and Mr. Mauser, we have not entered into employment agreements with our NEOs, who are employed pursuant to offer letters. The Compensation Committee sets the base salary, annual incentive opportunity and long-term incentive value for our NEOs annually, except for our CEO whose base salary, annual incentive opportunity and long-term incentive value is set by the Board in executive session without the CEO’s participation.

#### ***Long-Term Incentive Plan Grants***

On September 9, 2014, the Compensation Committee granted equity to our NEOs (the “September 2014 Awards”), under the terms of the 2012 Incentive Plan, 60% of which were Performance RSUs (at target) and 40% Time RSUs (at target). The Performance RSUs vest on the third anniversary of the grant date based on the achievement of performance goals established by the Compensation Committee. The Time RSUs vest on the third anniversary of the grant date subject to the executive’s continued employment with our company.

On August 15, 2014, in connection with her prior position with our company, Ms. Rowland received a one-time equity award valued at \$51,423 in the form of Time RSUs under the terms of the 2012 Incentive Plan, which will vest on the third anniversary of the date of the grant. In addition, on January 1, 2015, in connection with her appointment as Executive Vice President and Chief Financial Officer, Ms. Rowland received a one-time equity award valued at \$1,626,000 in the form of 25% Time RSUs and 75% Performance RSUs under the terms of the 2012 Incentive Plan. Consistent with the September 2014 Awards, the Time RSUs will vest in September 2017 and the Performance RSUs will vest based upon our company’s achievement of the performance goals established for the September 2014 Awards.

### Pension Benefits for Fiscal Year 2015

The following table provides information for our NEOs regarding the present value of benefits as of June 30, 2015 under our SERP and a German pension plan.

Name	Plan Name	Number of Years Credited Service	Present Value of Accumulated Benefit(4)	Payments During Last Fiscal Year
Dinesh C. Paliwal(1)	SERP	29	\$ 16,526,650	\$ 0
Blake Augsburg(2)	SERP	13	1,658,610	0
Michael Mauser(3)	German Pension	10	1,365,942	0

- (1) As of June 30, 2015, Mr. Paliwal had eight years of service with our company. Under his letter agreement, Mr. Paliwal was credited with service, which reflected his tenure at his previous employer. The present value of Mr. Paliwal's pension benefits at June 30, 2015 increased by \$4,300,000 as compared to the previous year.
- (2) Mr. Augsburg is not yet eligible for this benefit because he has 13 years of service and the SERP balance vests after the completion of 15 years of service.
- (3) Mr. Mauser is entitled to an annual pension that is equal to two percent of eligible salary for every year of service, up to a maximum of 30%. The annual benefit will be increased by the cost of living rate, currently assumed to be 5.25% every three years.
- (4) Amounts reported comprise the actuarial present value of the NEO's accumulated benefit under the SERP as of June 30, 2015. See Note 17, *Retirement Benefits*, to our consolidated financial statements in our Form 10-K for the fiscal year ended June 30, 2015, for information regarding the assumptions made in determining these values.

### ***Supplemental Executive Retirement Plan***

The SERP provides supplemental retirement, termination and death benefits to certain executive officers and key employees designated by the Board. Benefits under the SERP payable upon termination or death are described below under the caption “Executive Compensation — Severance and Change in Control Benefits — Supplemental Executive Retirement Plan.” The Compensation Committee administers the SERP. Of the NEOs, only Mr. Paliwal and Mr. Augsburgberger have been designated as participants. All SERP benefits are subject to deductions for social security and federal, state and local taxes.

Retirement benefits are based on the average of the participant’s highest cash compensation (base salary and bonus) during any five consecutive years of employment by our company (“Average Cash Compensation”). Participants retiring at age 65 or older receive an annual retirement benefit equal to either (a)  $3\frac{1}{3}$  % of Average Cash Compensation per year of service up to a maximum of 50%, or (b) 2% of Average Cash Compensation per year of service up to a maximum of 30%, as designated by our company. Mr. Paliwal has been designated as a participant entitled to receive an annual retirement benefit of up to 50% of Average Cash Compensation, and Mr. Augsburgberger has been designated as a participant entitled to receive an annual retirement benefit of up to 30% of Average Cash Compensation. Unless another form of payment is approved by the administrative committee for the SERP, benefits are payable monthly in the form of a life annuity. If the participant dies after benefits have commenced but prior to receiving ten years of benefits, they are paid to the participant’s beneficiary for the remainder of that period.

### ***German Pension Plan***

Mr. Mauser is entitled to an annual pension that is equal to 2% of eligible salary for every year of service, up to a maximum of 30%, accrued pro rata over the total expected service at age 60. This pension is payable at age 60 with a portion becoming payable from the Harman/Becker Nokia plan at age 65. The annual benefit will be increased by the cost of living rate, currently assumed to be 5.25% every three years. In the event of Mr. Mauser’s death after benefits have commenced, but prior to receiving benefits for a period of ten years, benefits will continue to be paid to his surviving widow for the remainder of the ten year period. Benefits payable upon termination or death are described below under the caption “Executive Compensation — Severance and Change in Control Benefits — German Pension Plan.”

### ***Nonqualified Deferred Compensation***

Our DCP provides supplemental retirement benefits for executive officers designated by the Compensation Committee. Prior to the beginning of each fiscal year, each plan participant may elect to defer up to 100% of his or her annual base salary and bonus on a pre-tax basis to a deferral account. These amounts are always fully vested and subject to a 10% penalty on any unscheduled withdrawals. We may decide to make contributions on a pre-tax basis to a plan participant’s account, subject to a vesting schedule. In the event of a change in control of our company, any unvested amounts vest immediately and we indemnify the plan participant for any expense incurred in enforcing his or her rights under the DCP.

Plan participants specify that portion of their accounts to be deemed invested in designated benchmark funds. This may be changed once in any calendar month by the plan participant. We credit earnings to the accounts based on the rate of return of the designated funds. For fiscal year 2015, the designated funds produced returns ranging from -9.08% to 10.98%. Upon retirement or termination of employment other than due to death, plan participants may receive their account balances in the form of a lump-sum payment or in annual installments. In the event of death prior to the commencement of benefits or during payment of installments, the balances in a plan participant’s vested accounts as of the date of death are payable to the plan participant’s beneficiaries.

None of our NEOs made contributions to our DCP in fiscal year 2015, and none of our NEOs have made contributions to such plan in the past.

## Severance and Change in Control Benefits

We provide benefits to each of our NEOs in the event his or her employment is terminated. We provide these benefits through our SERP, the 2014 Key Executive Plan and employment agreements, change in control severance agreements and severance agreements we have entered into with our NEOs.

### *Change in Control Severance Agreements*

We have entered into change in control severance agreements with each of Messrs. Paliwal, Parker, Augsburg, Mauser and Suko and Ms. Rowland (“CIC Agreements”). Mr. Paliwal’s CIC Agreement provides that if, within six months prior to or two years following a change in control, as defined below, of our company, Mr. Paliwal is terminated without cause, as defined below, or under certain circumstances terminates his own employment, he is entitled to receive a severance payment. The CIC Agreements for the other NEOs, as amended, provide that if within two years following a change in control a NEO is terminated without cause or under certain circumstances terminates his or her own employment, he or she is entitled to receive a severance payment. For Mr. Paliwal, the severance payment is equal to three times the sum of Mr. Paliwal’s highest annual base salary during any period prior to his termination plus his highest annual cash incentive pay during the three fiscal years preceding the change in control. For Mr. Parker, the severance payment is equal to two times the sum of Mr. Parker’s highest annual base salary during any period prior to his termination plus his highest annual cash incentive pay during the three fiscal years preceding the change in control. For each of Ms. Rowland and Messrs. Augsburg, Mauser and Suko, the severance payment is equal to one and one-half times his or her highest annual base salary during any period prior to his or her termination.

Mr. Paliwal is deemed to have been terminated without cause if he is terminated by us for any reason other than:

- conviction of a felony; or
- willful gross neglect or willful gross misconduct with respect to employment duties which results in material economic harm to us,

each of which constitutes “cause.”

Each of our other NEOs is deemed to have been terminated without cause if he or she is terminated by us for any reason other than:

- conviction of a criminal violation involving fraud, embezzlement or theft in connection with his or her duties or in the course of his or her employment with us;
- intentional wrongful damage to property of our company or of any subsidiary;
- intentional wrongful disclosure of secret processes or confidential information of our company or of any subsidiary; or
- intentional wrongful engagement in any competitive activity,

and any such act shall have been demonstrably and materially harmful to our company.

Each of our NEOs is entitled to severance compensation if he or she terminates his or her employment within two years following a change in control (and for Mr. Paliwal, six months prior to or two years following a change in control) under the following circumstances:

- failure to maintain his or her position (or one substantially equivalent) with our company;
- significant adverse change in authority, power, function, responsibilities or duties;
- reduction in base salary and bonus;
- termination or reduction in employee benefits;

- a subsequent change in control of our company in which the successor company does not assume all of our duties and obligations under the severance agreement;
- relocation of his or her principal place of work of more than 50 miles or that requires him or her to travel away from his or her office 20% or more than was required in any of the three years immediately prior to the change in control; or
- as to Mr. Paliwal only, for any reason in the thirteenth month following the change in control after a one year transition period.

In addition, Mr. Paliwal is entitled to severance compensation if he terminates his employment within six months prior to the change in control for good reason, which includes the following circumstances:

- reduction in base salary and bonus;
- failure by our stockholders to elect or reelect him as a member of the Board;
- diminution in any titles or a material diminution in duties or responsibilities;
- change in reporting relationship; or
- a material breach of his employment agreement by our company.

A change in control is defined as:

- the acquisition by any person, entity or group of 25% or more of our voting stock, other than an acquisition by us or our subsidiaries or a company benefit plan, other than in a transaction that is not deemed a change in control as defined in the next bullet;
- a reorganization, merger, consolidation, sale or other disposition of all or substantially all of our assets, or any other transaction having a similar effect unless:
  - the holders of our voting stock immediately prior to the transaction beneficially own more than 50% of the combined voting power of the surviving entity;
  - no person, entity or group beneficially owns 25% or more of the combined voting power of the surviving entity;
  - a majority of the directors of the surviving entity were directors of our company prior to the transaction;
  - when a majority of our directors (a) have not been approved by two-thirds of our then directors or (b) were elected or appointed as a result of an actual or threatened election contest; or
- approval by our stockholders of a complete liquidation or dissolution of our company.

Each of the severance agreements for Mr. Paliwal and Mr. Parker also provides that we will pay an additional amount for Section 4999 excise taxes, subject to a limitation based on the overall cost of the severance agreement, including any additional “gross-up” payment for excise taxes, if applicable. For the NEOs other than Mr. Paliwal and Mr. Parker, if severance payments and benefits would be subject to the excise tax, then such amounts will be reduced if and to the extent necessary so that no portion thereof will be subject to the excise tax, but if the executive would receive in the aggregate greater payments and benefits on an after-tax basis if the amounts were not subject to such reduction, then no such reduction will be made.

#### ***Employment Agreements and Severance Agreements***

We have also entered into a letter agreement with Mr. Paliwal (“Paliwal Agreement”), an employment agreement with Mr. Mauser and severance agreements with Ms. Rowland and Messrs. Parker, Augsburg and Suko (“Severance Agreements”). The provisions of the Paliwal Agreement provide for severance compensation

if he is terminated without cause or if he terminates his employment for good reason. Mr. Paliwal is entitled to receive a severance payment equal to (1) two times the sum of his annual base salary plus his target annual bonus at the time of his termination, (2) a pro rata annual bonus based on actual performance for the portion of the fiscal year he was employed and (3) any unpaid bonus for the fiscal year preceding the year of termination. Mr. Mauser's employment agreement provides for 12 months' notice in the event of termination of his employment for any reason by our company, which would effectively result in a severance amount equal to 12 months' salary. The provisions of the Severance Agreements provide for severance compensation if the NEO is terminated without cause, or terminates his or her employment for "good reason." Each NEO is entitled to receive a severance payment equal to (1) one time his or her annual base salary plus (2) a pro rata annual bonus based on actual performance for the portion of the fiscal year he or she was employed. The terms "cause," "good reason" and "change in control" under the Paliwal Agreement and Severance Agreements are defined in the same manner as they are defined in the CIC Agreements. Additionally, the terms of these severance arrangements for each of our NEOs provides that the NEO shall not engage in any competitive activity, as defined in such agreements, without our written consent, during the term of such agreement and for a period of one year after his or her employment is terminated.

#### ***Fiscal Year 2016 Changes to Severance Agreements***

On October 13, 2015, we entered into amended and restated severance agreements with Ms. Rowland and Messrs. Augsburger, Mauser, Parker and Suko to combine the change in control severance agreements and severance agreements (except with respect to Mr. Parker), increase severance benefits in the event of a termination of employment under specified circumstances, including (except with respect to Mr. Parker) following a change in control of our company, and broaden the applicability of the confidentiality, non-compete and non-solicit provisions. For each of Ms. Rowland and Messrs. Augsburger, Mauser, Parker and Suko, the Severance Agreements were amended to increase the severance payment to (1) one time the sum of his or her annual base salary plus target bonus and (2) a pro rata annual bonus based on actual performance for the portion of the fiscal year he or she was employed. For each of Ms. Rowland and Messrs. Augsburger, Mauser and Suko, their CIC Agreements were amended to increase the severance amount to (1) two times the sum of his or her annual base salary plus target bonus and (2) a pro rata target bonus. Mr. Parker's CIC Agreement, which contains the excise tax "gross-up" provision, was not amended. The amended and restated severance agreements also include standard confidentiality, non-compete and non-solicitation provisions applicable during the term of such agreement and for a period of one year after his or her employment is terminated for any reason. Mr. Mauser's employment agreement was also amended to reduce the notice of termination period to the period required under German law, and to provide that any severance payments made to Mr. Mauser pursuant to his amended and restated severance agreement would be reduced by any payments made under his employment agreement as a result of such notice of termination provision.

#### ***Supplemental Executive Retirement Plan***

Mr. Paliwal and Mr. Augsburger are eligible for benefits under the SERP in the event of a change in control of our company or termination of employment under certain circumstances. Benefits payable under the SERP are based on the average of the participant's highest Average Cash Compensation during any five consecutive years of employment by our company.

A participant whose employment is terminated prior to age 65 with at least 15 years of service, and who is not otherwise entitled to retirement benefits under the SERP, is entitled to an annual termination benefit equal to either (a) 30% of Average Cash Compensation, increased by 4% for each year of service over 15 years, up to a maximum of 50%, or (b) 15% of Average Cash Compensation, increased by 3% for each year of service over 15 years, up to a maximum of 30%, as designated by our company. The termination benefit commences upon the later of termination of the participant's employment, other than due to death, or the participant reaching age 55, except that with respect to Mr. Paliwal, the full termination benefit commences upon the later of termination of the participant's employment, other than due to death, or Mr. Paliwal reaching age 65. Mr. Paliwal will be

entitled to receive a partial termination benefit if his employment terminates between the ages of 55 and 65. Mr. Paliwal has been designated as a participant entitled to receive an annual termination benefit of up to 50% of Average Cash Compensation and Mr. Augsburg has been designated as a participant entitled to receive an annual termination benefit of up to 30% of Average Cash Compensation.

Additionally, if a participant's employment is terminated for any reason other than death within three years after a change in control of our company, the participant vests with the maximum designated retirement benefit regardless of age or years of service and we indemnify the participant for any expense incurred in enforcing the participant's rights in the retirement benefit under the SERP. Under the SERP, a change in control is defined in the same manner as under Mr. Paliwal's severance agreement, as described above.

A pre-retirement death benefit equal to two or three times the highest annual cash compensation earned by a participant during his or her employment with our company is paid to the beneficiaries of a participant who dies prior to the commencement of benefits under the SERP. Mr. Paliwal has been designated as a participant entitled to receive a death benefit equal to three times his highest annual cash compensation, and Mr. Augsburg has been designated as a participant entitled to receive a death benefit equal to two times his highest annual cash compensation. The benefit is paid to the participant's designated beneficiary in a single lump sum or, at the request of the beneficiary and with the consent of the SERP's administrative committee, the benefit may be paid in another form providing the actuarial equivalent of the lump-sum payment.

#### ***German Pension Plan***

Mr. Mauser is eligible for a vested pension benefit upon termination of employment under certain circumstances. Upon termination for any reason except death the vested pension benefit is equal to 2% of eligible salary for every year of service, up to a maximum of 30% (accrued pro rata over the total expected service at age 60 unless termination is due to disability). This pension is payable at age 60 with a portion becoming payable from the Harman/Becker Nokia plan at age 65. The annual benefit will be increased by the cost of living rate, currently assumed to be 5.25% every three years. In the event of Mr. Mauser's death after benefits have commenced, but prior to receiving benefits for a period of ten years, benefits will continue to be paid to his surviving widow for the remainder of the ten year period. A pre-retirement death benefit of two times eligible salary is payable plus a small annuity (989 Euros per year) to his widow in the event of termination of Mr. Mauser's employment due to his death.

#### ***2014 Key Executive Officers Bonus Plan***

In the event of a change in control of our company, each participant in the 2014 Key Executive Plan is entitled to the pro-rated award amount of the executive's target award amount for that fiscal year, provided that he or she is employed by us at the time of the change in control or, if the plan participant is no longer employed by us, the participant's employment is terminated after commencement of discussions that resulted in a change in control of our company but within 180 days prior to the change in control. Under this plan, a change in control is defined in the same manner as under Mr. Paliwal's severance agreement, as described above.

#### ***Summary of Benefits***

The following tables quantify potential compensation that would become payable to each NEO under the agreements and our plans and policies discussed above, if his or her employment had terminated on June 30, 2015, given his or her base salary as of that date and, if applicable, the closing price of our Common Stock on June 30, 2015.

Due to the factors that may affect the amount of any benefits provided upon the events described below, any actual amounts paid or payable may be different than those shown in these tables. Factors that could affect these amounts include the date the termination event occurs, the base salary of an executive officer on the date of termination of employment and the price of our Common Stock when the termination event occurs. The amounts

indicated below do not attempt to quantify any reduction that may be required for NEOs other than Mr. Paliwal or Mr. Parker as a result of the excise tax cut back provision included in such NEO's CIC Agreement discussed above; therefore, actual payments to such NEOs may be less than the amounts indicated below.

## CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

### **Company Policies Regarding Related Party Transactions**

The Board has not adopted a formal written policy regarding a transaction or series of transactions involving our company and a related party. A related party is one of our executive officers, a director, a person owning more than five percent of any class of our securities, an entity in which any of such persons is employed or is a partner or principal, or an immediate family member of such a person. The Board may consider the desirability of adopting a formal written policy during fiscal year 2016. However, given our history and past practice, the Board may decide that such action is unnecessary.

While the Board has not adopted a formal written policy, directors are typically made aware of any transaction or transactions involving our company and a related party. On an annual basis, we request that each of our directors and executive officers identify potential related party transactions involving the director or executive officer and his or her family. If such transactions are discovered, they must be approved by either the Audit Committee or the Board. In addition, our Code of Business Conduct provides that employees are to avoid situations or activities where their personal interests are, or may appear to be, in competition with or in opposition to our interests.

## AUDIT COMMITTEE REPORT

The Audit Committee is currently composed of four directors who are neither officers nor employees of Harman International Industries, Incorporated (“Harman”). All members of the Audit Committee are “independent” as that term is defined by the New York Stock Exchange listing standards. The committee operates under a written charter approved by the Board of Directors of Harman.

In connection with its review of the audited financial statements appearing in Harman’s Annual Report on Form 10-K for the fiscal year ended June 30, 2015, the Audit Committee:

- discussed these financial statements with Harman’s management and KPMG LLP, its independent registered public accounting firm;
- discussed with KPMG LLP those matters related to the conduct of the audit that are required to be communicated by the independent registered public accounting firm to the Audit Committee under the Rules adopted by the Public Company Accounting Oversight Board (“PCAOB”), including KPMG LLP’s judgments as to the quality, not just the acceptability of Harman’s accounting principles; and
- received and reviewed the written disclosures and the letter from KPMG LLP regarding its independence from Harman, as set forth in the applicable requirements of the PCAOB, and has discussed with KPMG LLP their independence.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board that the audited financial statements be included in Harman’s Annual Report on Form 10-K for the fiscal year ended June 30, 2015, as filed with the SEC.

This report is submitted by the members of the Audit Committee.

**PROPOSAL NO. 3**  
**APPROVAL OF THE AMENDMENT TO OUR 2012 STOCK OPTION AND INCENTIVE PLAN**

*The Board of Directors recommends that stockholders vote FOR approval of the amendment to the Harman International Industries, Incorporated 2012 Stock Option and Incentive Plan*

On September 15, 2015, the Compensation Committee adopted, subject to stockholder approval, an amendment to the Harman International Industries, Incorporated 2012 Stock Option and Incentive Plan, as amended (the “2012 Incentive Plan”). The proposed amendment would increase the total number of shares of Common Stock available for issuance under the 2012 Incentive Plan by 2,000,000 shares from 7,269,821 to 9,269,821 (the “2012 Incentive Plan Amendment”).

The 2012 Incentive Plan initially authorized the issuance of 4,400,000 shares of Common Stock. At our 2013 Annual Meeting of Stockholders, the stockholders approved an amendment to the 2012 Incentive Plan which (i) increased the total number of shares of Common Stock available for issuance under the 2012 Incentive Plan by 2,869,821 shares from 4,400,000 to 7,269,821; and (b) modified certain share counting provisions. The 2012 Incentive Plan provides that delivery of shares pursuant to certain types of awards will reduce the remaining available shares by a ratio of 1.5 to one. As a result, up to 2,043,222 shares may be issued pursuant to these types of awards based on 3,064,833 shares remaining available for issuance under the 2012 Incentive Plan as of September 30, 2015. The Compensation Committee believes that the increase in the aggregate number of shares available for future grants under the 2012 Incentive Plan is appropriate to permit the grant of equity awards at expected levels for the next three years. If the 2012 Incentive Plan Amendment is not approved by the stockholders, it will be of no effect and the amount of shares available for issuance under the 2012 Incentive Plan will remain unchanged, although we may have insufficient shares available for future awards which may result in the use of cash-settled or cash-based long-term incentives rather than equity.

	<b>Total Shares Remaining Available for Issuance under the 2012 Incentive Plan as of September 30, 2015</b>
Prior to Amendment	3,064,833
Upon Amendment (Existing Shares Plus New Request)	5,064,833

Under all of our company’s equity-based incentive plans, including the Amended and Restated 2002 Stock Option and Incentive Plan, as amended (the “2002 Incentive Plan”), 786,042 shares of Common Stock are issuable under outstanding stock options and 1,534,667 shares are issuable under non-option awards, specifically RSUs and stock appreciation rights, each as of September 30, 2015. Of the 1,534,667 non-option awards, 1,517,869 are stock-settled RSUs, 6,392 are cash-settled RSUs and 10,406 are cash-settled stock appreciation rights. As of September 30, 2015, the outstanding stock options had a weighted average exercise price of \$71.44 and a weighted average remaining life of 5.38 years. As of September 30, 2015, 3,064,833 shares of Common Stock were available for grant under the 2012 Incentive Plan and no shares are available for grant under the 2002 Incentive Plan.

The Compensation Committee believes that equity-based compensation programs are an important element of our company’s continued financial and operational success. In approving the 2012 Incentive Plan Amendment, the Compensation Committee considered the recent history of our company’s discretionary equity award grants and grants made under contractual obligations with our officers under the 2012 Incentive Plan, the intended purpose of the 2012 Incentive Plan, which is to attract and retain officers, employees, and non-employee directors, and the total remaining number of shares that would be available for issuance under the 2012 Incentive Plan (representing approximately 4.3% of the outstanding shares of Common Stock as of October 14, 2015). We believe this amendment reflects best practices in our industry and allows the establishment of a stronger pay-for-performance culture.

You are being asked to approve the 2012 Incentive Plan Amendment. You should read and understand the terms of the 2012 Incentive Plan Amendment and 2012 Incentive Plan before you vote. Other than with respect to the increase in the number of shares available under the 2012 Incentive Plan, the amendment will not affect the terms of the plan, which will remain unchanged from those initially approved by our stockholders at our 2011 Annual Meeting of Stockholders and amended by our stockholders at our 2013 Annual Meeting of Stockholders. A summary of the 2012 Incentive Plan, as it is proposed to be amended, appears below and the full text of the 2012 Incentive Plan Amendment is attached to this Proxy Statement as Appendix A. The affirmative vote of the holders of a majority of the outstanding shares of Common Stock present in person or by proxy at the Meeting will be required to approve the 2012 Incentive Plan Amendment.

### Historical Equity Award Data

Burn rate is a measure of the annual share usage of our equity plans and annual stockholder dilution. Burn rate is calculated as (i) the number of stock options granted, plus the number of Time RSUs granted, plus the number of Performance RSUs earned, divided by (ii) the weighted average basic shares of Common Stock outstanding, for each of the fiscal years indicated.

Fiscal Year	(a) Stock Options Granted (1)	(b) Time RSUs Granted (2)	(c) Performance RSUs Earned	(d) = (a) + (b) + (c) Total Granted/ Earned	(e) Weighted Average Basic Shares of Common Stock Outstanding	(f) = (d) ÷ (e) Burn Rate
2015	6,459	308,600	258,986	574,045	70,147,000	0.82%
2014	455,626	197,883	245,737	899,246	69,073,000	1.30%
2013	533,724	273,654	134,396	941,774	68,990,000	1.37%
<b>3-Year Average</b>						<b>1.16%</b>

- (1) Number of stock options granted shown in the table above reflects stock-settled awards; in addition, 1,486, 5,515, and 7,281 cash-settled SARs were granted in fiscal year 2015, 2014, and 2013, respectively.
- (2) Number of Time RSUs granted shown in the table above reflects stock-settled awards; in addition, 856, 613, and 970 cash-settled RSUs were granted in fiscal year 2015, 2014 and 2013, respectively.

### Plan Summary

A summary of the material features of the 2012 Incentive Plan, which would also apply to the shares that are the subject of the 2012 Incentive Plan Amendment, appears below. This summary does not purport to be exhaustive and is expressly qualified in its entirety by reference to the full text of the 2012 Incentive Plan, which was filed as Appendix A to the definitive proxy statement filed with the SEC on October 28, 2011, Amendment No. 1 to the 2012 Incentive Plan which was filed as Appendix A to the definitive proxy statement filed with the SEC on October 21, 2013 and the 2012 Incentive Plan Amendment, which is attached to this Proxy Statement as Appendix A.

### Administration

The Compensation Committee of our Board generally administers the 2012 Incentive Plan, although our Board may exercise that authority itself or delegate administrative powers under the 2012 Incentive Plan to another committee of the Board. In addition, the Compensation Committee generally may delegate its authority to one or more committees and/or to senior managers, to the extent permitted by law, except for matters affecting any executive officers. All such delegations must be made in accordance with Delaware law. All determinations involving awards that are intended to be exempt from the deduction limitations of Section 162(m) of the Internal Revenue Code of 1986 (the "Code") must be made by the Compensation Committee or another committee of outside directors meeting the requirements for the performance-based compensation exception. Determinations of the Compensation Committee or its delegates concerning any matter arising in connection with the 2012 Incentive Plan are final, binding and conclusive on all interested parties. Such determinations include such matters as determining the awards that will be made under the 2012 Incentive Plan, interpretation of plan provisions, and decisions to accelerate vesting or waive forfeiture of any award.

The Compensation Committee has delegated to a committee composed of senior management, all of its powers to administer the 2012 Incentive Plan, except those powers relating to matters affecting any executive officers.

#### ***Number of Authorized Shares Submitted to Our Stockholders***

We are asking our stockholders to approve an amendment to the 2012 Incentive Plan that would increase the number of shares available for grants of awards under the 2012 Incentive Plan to a total of 9,269,821. Delivery of shares pursuant to certain types of awards will reduce the remaining available shares by a ratio of 1.5 to one. Under all of our company's existing equity-based incentive plans, including the 2002 Incentive Plan, as of September 30, 2015, 786,042 shares of Common Stock are issuable pursuant to outstanding stock options, and there are 1,534,667 RSUs and stock appreciation rights outstanding. Of the 1,534,667 non-option awards, 1,517,869 are stock-settled RSUs, 6,392 are cash-settled RSUs and 10,406 are cash-settled stock appreciation rights. As of September 30, 2015, the outstanding stock options had a weighted average exercise price of \$71.44 and a weighted average remaining life of 5.38 years. No further awards may be granted under our prior equity plans, although awards granted under such plans prior to the effective date of the 2012 Incentive Plan will continue to remain outstanding under their terms and may be settled with shares that are in addition to the 3,064,833 shares that were available as of September 30, 2015 for future grants under the 2012 Incentive Plan. The closing market price of our Common Stock on September 30, 2015 was \$95.99.

#### ***Term of Plan***

The 2012 Incentive Plan became effective as of December 7, 2011 (the "Effective Date") and provides that no grants may be made under the plan after the tenth anniversary of the Effective Date.

#### ***Individual Limitations on Awards***

The 2012 Incentive Plan provides that in any calendar year, no participant shall be granted (1) nonqualified stock options ("NQSOs") and stock appreciation rights ("SARs"), in the aggregate, for more than 750,000 shares, and (2) qualified performance based awards other than NQSOs and SARs representing more than 750,000 shares in the aggregate.

#### ***Share Counting Rules***

Delivery of shares pursuant to an award that is not a NQSO or a SAR granted after the effective date of Amendment No. 1 to the 2012 Incentive Plan reduce the number of shares available for delivery by 1.5 times the number of shares delivered pursuant to the award (delivery of shares pursuant to such an award granted prior to the date of such amendment reduce the number of shares available for delivery under the 2012 Incentive Plan by 1.71 times the number of shares delivered pursuant to the award). Shares delivered pursuant to a NQSO or a SAR shall reduce the number of shares available under the 2012 Incentive Plan by one share for each share that is delivered.

Shares subject to awards granted under the 2012 Incentive Plan are not counted as used unless and until they are actually issued and delivered to a participant. Upon payment in cash of the benefit provided by any award, shares that were covered by such award will be available for issue or transfer under the 2012 Incentive Plan. Shares tendered or withheld in payment of the exercise price of a NQSO or SAR and shares tendered or withheld by our company to satisfy tax withholding obligations are not added to the aggregate limit under the 2012 Incentive Plan. Shares that are repurchased by our company with NQSO and SAR proceeds are not added to the aggregate limit under the 2012 Incentive Plan. Shares covered by a SAR, to the extent the award is exercised and settled in shares, and regardless of whether all shares covered by the award are actually issued to the participant upon exercise, are considered issued or transferred pursuant to the 2012 Incentive Plan. The 2012 Incentive Plan also provides that shares that are delivered in settlement of an award issued in connection with the assumption or

---

replacement of outstanding awards under a plan or arrangement of an entity acquired in a merger or other acquisition, or as a post-transaction grant under such a plan or arrangement of an acquired entity, will not be counted against the maximum number of shares available for delivery under the plan, to the extent that the exemption from the stockholder approval requirements of the listing standards of the New York Stock Exchange relating to mergers and acquisitions is available.

#### ***Persons Eligible for Grants***

The Compensation Committee or its permitted delegate may grant awards under the 2012 Incentive Plan to any of our directors and to any employees of our company or any subsidiary of our company who are eligible to participate. Approximately 900 people currently participate in the 2012 Incentive Plan.

#### ***Awards In General***

The Compensation Committee has broad authority to establish the terms and conditions of the awards granted under the 2012 Incentive Plan, including the ability to specify the employees and directors who will be granted awards and the types of awards they will receive.

#### ***Types of Awards***

In addition to cash awards (described below), the 2012 Incentive Plan authorizes the grant of several types of stock-based awards, including NQSOs, SARs, restricted stock awards, RSUs, unrestricted shares, qualified performance-based awards under Section 162(m) of the Code, interest equivalent awards, and, in the case of awards other than NQSOs, SARs and unvested performance awards, dividend equivalents.

#### ***NQSOs***

NQSOs are stock options allowing the recipient to purchase a fixed number of shares of our Common Stock for a fixed price which are not tax-qualified under the Code. Under the 2012 Incentive Plan, the exercise price of any option must be no less than the fair market value, as defined in the 2012 Incentive Plan, of our Common Stock on the grant date. The 2012 Incentive Plan permits the Compensation Committee to include various terms in the options in order to enhance the linkage between stockholder and management interests. These include permitting participants to deliver shares of our Common Stock in payment of the exercise price and making the exercise or vesting of options contingent upon the satisfaction of performance criteria. The 2012 Incentive Plan provides that the term of any option granted may not exceed 10 years and that each option may be exercised for such period as may be specified by the Compensation Committee in the grant of the option.

#### ***Stock Appreciation Rights***

SARs constitute the right to receive stock or cash, or a combination of stock and cash, equal in value to the difference between the exercise price of the SAR and the market price of our Common Stock on the exercise date. The exercise price of a SAR must be no less than the fair market value of our Common Stock on the grant date. SARs may be granted alone or in tandem with options. SARs granted in tandem with options must have an exercise price equal to the exercise price per share of the related options. The exercise of all or a portion of a SAR granted with a related option results in the forfeiture of all or a corresponding portion of the related option, and vice versa. The Compensation Committee determines the form (whether in cash, shares or a combination thereof) and timing of payments made upon exercise of a SAR, whether interest or dividend equivalent rights will be paid with respect to such payments.

#### ***Restricted Stock Awards***

Recipients of restricted stock awards generally receive dividends and have all the customary voting and other rights of a stockholder during the restricted period, but may not sell, transfer, or otherwise dispose of the

restricted stock. Dividends may be paid currently, or held subject to the same restrictions as the underlying shares during the restricted period. The Compensation Committee may set the terms and conditions of restricted stock awards, including restrictions against sale, transfer or other disposition, may make the lapse of such restrictions contingent on the achievement of performance goals and may grant an award of dividend equivalent units in connection with a restricted stock award.

#### ***Restricted Share Unit Awards***

RSUs represent the right to receive a specified number of shares of our Common Stock at such times, and subject to such conditions, as the Compensation Committee determines. A participant to whom RSUs are awarded has no rights as a stockholder with respect to the shares represented by the RSUs unless and until shares are actually delivered to the participant in settlement of the award. However, RSUs may have dividend equivalent rights if so determined by the Compensation Committee.

#### ***Dividend and Interest Equivalent Awards***

Cash dividends are not paid on shares underlying grants that have been awarded under the 2012 Incentive Plan but not yet been delivered. However, as described above, the Compensation Committee may provide for the payment of dividend equivalents in respect of any award, other than awards of NQSOs or SARs, pursuant to which shares of our Common Stock are or may become deliverable in the future, equal in value to the cash dividends that would have been paid with respect to each share subject to the award if it had been outstanding from the date of grant. Dividend equivalents may be payable in cash or shares of our Common Stock, either from time to time before shares are delivered pursuant to the award (including upon payment of the underlying dividends), or at the time the shares are delivered. Dividend equivalents may also be converted into contingently credited shares of our Common Stock deliverable at such time or times as the Compensation Committee may determine. Our Compensation Committee may also provide for payment of interest equivalents on any portion of any award payable at a future time in cash, and on dividend equivalents that are payable at a future time in cash.

#### ***Cash Awards***

In addition to the various types of equity-based awards described above, the 2012 Incentive Plan permits the Compensation Committee to grant cash awards, subject to such terms and conditions, if any, as it determines, such as requiring continued employment or continued service and/or performance conditions. These awards may be designated as qualified performance-based awards as described below. The aggregate maximum payment value in any calendar year that any one participant may receive under performance-based cash awards that are so designated is \$5 million.

#### ***Qualified Performance-Based Awards***

Section 162(m) of the Code generally places a \$1 million annual limit on a company's tax deduction for compensation paid to a "covered employee." A "covered employee" is an employee who is, on the last day of the company's taxable year in which the deduction would otherwise be claimed, the company's chief executive officer or one of the other three highest paid officers named in its proxy statement (excluding its chief financial officer). This limit does not apply to compensation that satisfies the applicable requirements for a performance-based compensation exception, one of which is that stockholders approve the material terms of the compensation.

The 2012 Incentive Plan incorporates the requirements for the performance-based compensation exception applicable to NQSOs and SARs so that all such awards should qualify for the exception. In addition, the Compensation Committee may grant other awards designed to qualify for this exception. These other awards are referred to as qualified performance-based awards. These qualified performance-based awards must be made subject to the achievement of objective performance goals, established by the Compensation Committee in accordance with Section 162(m) and the applicable regulations, based upon the attainment of specified levels of

one or more of the following management objectives as applied to our company as a whole, to any subsidiary, division or other unit of our company, or the individual participant: cash flow/net assets ratio; return on capital or assets; return on consolidated equity; revenue; cash flow; stock price or total return to stockholders; operating income or earnings before interest and taxes; earnings before interest, taxes, depreciation and amortization; enterprise value; cost initiatives, including relative growth and geographic or strategic targets involving one or more of the following — capital expenditures, cost of purchased material and full-time and part-time payroll; and economic value added or economic profit earnings per share. The achievement of these goals may be determined without regard to the effect of specified unusual events, such as restructuring charges and the cumulative effect of accounting changes required under generally accepted accounting principles, as determined by the Compensation Committee in connection with the establishment of the goals.

The Compensation Committee may impose other conditions, such as continued employment, for qualified performance-based awards to be earned, vested and/or payable. It may also reserve the right, in connection with the grant of a qualified performance-based award, to exercise negative discretion to reduce the amount of the award that is earned, vested or payable to the participant below the amount determined in accordance with the applicable goals, but it may not increase the amount so earned, vested or payable above the amount determined in accordance with the applicable goals. Achievement of the performance goals applicable to a qualified performance-based award may be waived by the Compensation Committee only in the event of the death or disability of the participant. In addition, qualified performance-based awards may, to the extent provided in the applicable award agreements for such awards, be subject to accelerated vesting upon a change of control.

#### ***Transferability of Options***

Options granted under the 2012 Incentive Plan are not transferable except by will, the laws of descent and distribution, or upon the holder's death pursuant to a beneficiary designation, and they may be exercised during the holder's lifetime only by the holder or the holder's guardian or legal representative. The 2012 Incentive Plan gives the Compensation Committee the discretion to make NQSOs transferable. It is not expected that the Compensation Committee will exercise this discretion on a regular basis.

#### ***Anti-dilution***

In the event of any change in our capitalization as the result of a merger, consolidation, acquisition of property or shares, stock rights offering, liquidation, disposition for consideration of our ownership of an affiliate, or other similar transaction, the Compensation Committee or our Board may, and in the event of a stock dividend, stock split, reverse stock split, reorganization, share combination, or recapitalization, or another event similar to any of the foregoing, affecting our capital structure, or a separation or spin-off of an affiliate without consideration or other extraordinary dividend of cash or other property to our stockholders, the Compensation Committee or our Board shall make substitutions or adjustments in the aggregate number and kind of shares reserved for delivery under the 2012 Incentive Plan, in the limitation on individual awards described below, in the number and kind of shares subject to outstanding awards, in the exercise price of outstanding options and stock appreciation rights, and/or such other equitable substitution or adjustments as it may determine to be appropriate. However, the Compensation Committee cannot make any adjustments that would cause certain awards to fail to be tax deductible pursuant to the Section 162(m) exemption described above.

#### ***Amendment or Termination***

The Compensation Committee may amend or terminate the 2012 Incentive Plan or any outstanding awards at any time, provided that no grants previously made under the 2012 Incentive Plan are adversely affected without the consent of the affected participants, except as a result of changes in law or other developments and, provided further, that no amendments to the 2012 Incentive Plan will, without the approval of our stockholders, permit our company to reprice any outstanding option or SAR. Amendments to change the number of shares authorized for use under the 2012 Incentive Plan must be approved by our Board and our stockholders.

---

### ***Non-U.S. Participants***

To accommodate differences in local law, tax policy or custom, awards granted to employees who are not U.S. nationals or who are employed outside the United States may be subject to special terms, conditions and documentation as provided by the Compensation Committee. The Compensation Committee may also grant substitutes for awards to non-U.S. employees.

### ***Registration and Compliance with Applicable Law***

If the Compensation Committee determines under U.S. federal, state or local or foreign law or practice, that government approval or the registration, qualification, or listing of shares of our Common Stock is necessary or desirable in connection with the granting of awards or their exercise, or the purchase or receipt of shares pursuant to awards, no shares pursuant to an affected award may be purchased or received before the Compensation Committee is satisfied that the desired actions have been completed. The Compensation Committee will not be required to issue any shares of our Common Stock pursuant to an award before it has received all required information and determined that such issuance is in compliance with all applicable laws and securities exchange rules.

### ***2012 Incentive Plan Awards***

During the fiscal year ended June 30, 2015, options to purchase 6,459 shares of our Common Stock, 516,392 stock-settled RSUs, 856 cash-settled RSUs and 1,486 cash-settled SARs were granted under the 2012 Incentive Plan. As of September 30, 2015, there were 3,064,833 shares remaining available for grant under the 2012 Incentive Plan.

### ***Federal Income Tax Considerations***

The discussion below summarizes the expected federal income tax treatment of awards under the 2012 Incentive Plan, under currently applicable laws and regulations.

#### ***NQSOs***

A recipient generally does not recognize taxable income on the grant of NQSOs, but does recognize ordinary income on the exercise date. The amount of income in the case of an NQSO exercise is the amount by which the fair market value of the shares received on the date of exercise exceeds the option price. Our company will ordinarily be entitled to a deduction on the exercise date equal to the ordinary income recognized by the recipient from the exercise of NQSOs, subject to the limitations of Section 162(m) of the Code.

#### ***SARs***

A recipient generally does not recognize taxable income on the grant of SARs, but does recognize ordinary income on the exercise date. The amount of income in the case of a SAR exercise is the amount by which the fair market value of the shares or cash received on the date of exercise exceeds the exercise price. Our company will ordinarily be entitled to a deduction on the exercise date equal to the ordinary income recognized by the recipient from the exercise of SARs, subject to the limitations of Section 162(m) of the Code.

#### ***Restricted Stock Awards***

A recipient generally does not recognize taxable income on the grant of restricted stock, but does recognize ordinary income on the vesting date, or the date the recipient's interest in the stock is freely transferable or is no longer subject to a substantial risk of forfeiture, in an amount equal to the fair market value of the shares on that date. Any dividends paid on the restricted stock before the vesting date are also taxable as compensation income upon receipt.

However, a recipient may elect to recognize income upon the grant of restricted stock, rather than when the recipient's interest is freely transferable and no longer subject to a substantial risk of forfeiture, equal to the fair market value of the shares on the date of the award. If the recipient makes this election, dividends paid with respect to the restricted shares that are paid currently (rather than held subject to forfeiture) will not be treated as compensation, but rather as dividend income, and the recipient will not recognize additional income when the restrictions applicable to the restricted stock lapse. The recipient will not be entitled to any deduction if, after making this election, he or she forfeits any of the restricted stock. If restricted stock is forfeited after this election is made, the recipient will not be entitled to a refund of the ordinary income tax paid on the restricted stock. The recipient may, however, be entitled to receive a capital loss deduction upon forfeiture. Our company will ordinarily be entitled to a deduction at the same time and in the same amounts as the compensation income recognized by the recipient of a grant of restricted stock, subject to the limitations of Section 162(m) of the Code.

#### ***Restricted Share Units***

A recipient does not recognize taxable income on the grant of RSUs, but does recognize ordinary income when they vest, unless settlement of the RSUs (whether in shares and/or cash) is deferred in accordance with the requirements of federal tax law. If these requirements are met, the recipient will recognize taxable income when the shares and/or cash are delivered. The amount of this ordinary income will be the fair market value of the shares on the date of vesting or delivery, as applicable, plus the amount of cash payable or paid, as applicable. Any dividends paid on the RSUs are also taxable as compensation income upon vesting or payment, as applicable.

Our company will ordinarily be entitled to a deduction at the same time and in the same amounts as the compensation income recognized by the recipient of a grant of RSUs, subject to the limitations of Section 162(m) of the Code.

#### ***Dividend and Interest Equivalent Awards***

A recipient recognizes ordinary income when the right to receive unrestricted shares and/or cash pursuant to a dividend or interest equivalent award vests or, if delivery of those shares or cash is deferred in accordance with the requirements of federal tax law, upon delivery. The amount of this ordinary income will be the fair market value of the shares on that date of any shares delivered, plus the amount of cash paid. If restricted shares are delivered pursuant to such an award, they will be taxed as described above under "Restricted Stock Awards."

#### ***Withholding***

Our company will ordinarily be entitled to a deduction at the same time and in the same amounts as the compensation income recognized by the recipient of a dividend or interest equivalent award, subject to the limitations of Section 162(m) of the Code. Our company may take such action as it deems appropriate for the withholding of any taxes that we are required by law to withhold in connection with the grant or (as applicable) exercise of any award, including, without limitation, withholding cash or shares that would be paid or delivered pursuant to the exercise or grant of any award, canceling any portion of the award (or any other award under the plan), or selling any property contingently credited by our company for the purpose of paying such award (or any other award under the plan), in each case in order to withhold or reimburse our company for the minimum amount required to be withheld.

#### ***Section 162(m) Limitations***

As explained in more detail above under "Plan Summary — Qualified Performance-Based Awards," Section 162(m) of the Code generally places a \$1 million annual limit on a company's tax deduction for compensation paid to certain senior executives, other than compensation that satisfies the applicable requirements for a performance-based compensation exception.

---

The 2012 Incentive Plan is designed so that NQSOs and SARs qualify for this exemption, and it also permits the Compensation Committee to grant other awards designed to qualify for this exception. However, the Compensation Committee reserves the right to grant awards that do not qualify for this exception, and, in some cases, the exception may cease to be available for some or all awards that otherwise so qualify. Thus, it is possible that Section 162(m) may disallow compensation deductions that would otherwise be available to our company.

**PROPOSAL NO. 4**  
**STOCKHOLDER ADVISORY VOTE ON EXECUTIVE COMPENSATION**

*The Board of Directors recommends that stockholders vote FOR approval of the compensation paid to the named executive officers.*

As required by Section 14A of the Securities Exchange Act of 1934, we are submitting to stockholders an advisory vote to approve the compensation of our named executive officers as disclosed pursuant to the compensation disclosure rules of the SEC in the “Compensation Discussion and Analysis” section beginning on page 19 of this Proxy Statement, and the related compensation tables and narratives. The Compensation Committee values the opinions of our stockholders and will consider the outcome of the vote when making future compensation decisions.

As discussed in the CD&A, our Compensation Committee is guided by its philosophy that our compensation programs must achieve the following objectives: (i) paying for performance, (ii) attracting, retaining and motivating top talent, (iii) achieving alignment with stockholders and creating sustainable long-term stockholder value and (iv) driving achievement of our strategic plan. The Compensation Committee believes that the program is competitive in the marketplace, highly incentive-based to align interests of executives with those of our stockholders, and balanced across incentives to appropriately mitigate risk.

To achieve our philosophy, the Compensation Committee has continued to strengthen pay-for-performance principles by incorporating strong governance practices over time, including (i) reducing the mix of Time RSUs versus Performance RSUs as components of our long-term equity incentive program, (ii) modifying the metrics for the vesting of the Performance RSUs to link them to stockholder return and (iii) reducing our CEO’s maximum bonus potential as of fiscal year 2013 down from four times to three times his annual base salary.

The Compensation Committee and the Board believe that our executive compensation program is designed appropriately and is working to ensure that management’s interests are aligned with our stockholders’ interests to maximize long-term stockholder returns.

Because your vote is advisory, it will not be binding on the Board; however, the Board values stockholder opinion, and the Compensation Committee will take into account the outcome of the vote when considering future executive compensation arrangements.
