

Hercules Technology to Present at the Fall 2008 FBR Capital Markets Investor Conference in New York

PALO ALTO, Calif., Nov 24, 2008 (BUSINESS WIRE) --

Hercules Technology Growth Capital, Inc. (NASDAQ:HTGC), the leading specialty finance company providing venture debt and equity to venture capital and private equity backed technology and life science companies at all stages of development, today announced that Manuel Henriquez, chief executive officer, and David Lund, chief financial officer are scheduled to present at FBR's 2008 Fall Investor Conference at the Grand Hyatt Hotel in New York on December 2, 2008. The investor presentation will begin at 2:20 p.m. EST and will be followed by a question and answer session. A live webcast of the presentation can be heard by clicking on the following link at <http://www.wsw.com/webcast/fbr22/htgc/>.

The Investor Conference is FBR's largest annual event, typically drawing 3,000-5,000 investors from across the nation. More than 150 public and a select group of private companies in sectors including diversified industrials, energy and natural resources, financial services and real estate will present at the conference.

About Hercules Technology Growth Capital, Inc.:

Hercules Technology Growth Capital, Inc. is a NASDAQ traded specialty finance company providing debt and equity growth capital to technology and life science companies at all stages of development. Founded in December 2003, the company primarily finances privately held companies backed by leading venture capital and private equity firms. Hercules invests in a broad range of ventures active in technology and life science industries and offers a full suite of growth capital products at all levels of the capital structure. The company is headquartered in Palo Alto, Calif. and has additional offices in the Boston, Boulder, San Diego and Chicago areas. Providing capital to publicly-traded or privately-held companies backed by leading venture capital and private equity firms involves a high degree of credit risk and may result in potential losses of capital.
