

Hercules Technology Growth Capital Announces Quarterly Dividend of \$0.22 per Share; Its Twenty-Fourth Consecutive Quarterly Dividend Distribution

Twenty-Fourth Consecutive Quarterly Dividend Bringing Cumulative Distributions to \$6.47 per Share since IPO in June 2005

PALO ALTO, Calif.--(BUSINESS WIRE)-- Hercules Technology Growth Capital, Inc. (NASDAQ:HTGC), the leading specialty finance company devoted to addressing the capital needs of venture capital and private equity-backed technology-related companies, including clean technology, life sciences and select lower middle market technology companies at all stages of development, announced today that its Board of Directors has declared a second quarter cash dividend of \$0.22 per share. The dividend will be payable on September 15, 2011, to shareholders of record as of August 15, 2011.

The determination of the tax attributes of the Company's distributions is made annually as of the end of the Company's fiscal year based upon its taxable income for the full year and distributions paid for the full year. Therefore, a determination made on a quarterly basis may not be representative of the actual tax attributes of its distributions for a full year. If the Company had determined the tax attributes of its distributions year-to-date as of June 30, 2011, approximately 99% would be from ordinary income and spill-over earnings from 2010, and approximately 1% would be a return of capital. However there can be no certainty to shareholders that this determination is representative of what the tax attributes of its 2011 distributions to shareholders will actually be.
