Compensation Discussion and Analysis

The Compensation Discussion and Analysis discusses our 2016 executive compensation program, as it relates to the following executive officers:

Manuel A. Henriquez	Chairman of the Board of Directors and Chief Executive Officer (“CEO”)
Mark R. Harris	Chief Financial Officer (“CFO”) and Chief Accounting Officer
Scott Bluestein	Chief Investment Officer
Melanie Grace	General Counsel, Chief Compliance Officer and Secretary
Andrew Olson	Vice President of Finance and Senior Controller

We refer to Messrs. Henriquez, Harris, Bluestein and Olson and Ms. Grace as our “named executive officers,” or “NEOs”.

Executive Summary

Under the oversight of our Compensation Committee, the Company’s executive compensation program is designed to attract, incent and retain talented individuals who are critical to our continued success and our corporate growth and who will deliver sustained strong performance over the longer term. Our executive compensation program is designed to motivate the Company’s executive officers to maintain the financial strength of the Company while avoiding any inappropriate focus on short-term profits that would impede the Company’s long-term growth and encourage excessive risk-taking.

In 2016, the Company continued to review and enhance our compensation practices in accordance with our executive compensation philosophy. The review considered both compensation levels and company performance over a one-, three-, and five-year period from 2012 to 2016 (the “Performance Periods”). (See “*Compensation Philosophy and Objectives*” below). The Company believes that compensation paid to our NEOs for 2016 was commensurate with the Company’s overall absolute performance as well as our performance relative to peers during the relevant Performance Periods. The 2016 compensation decisions made by the Compensation Committee considered the fact that our performance relative to a peer group of companies was above the median, and in most cases above the 75th percentile, measured using Return on Average Assets (“ROAA”), Return on Equity (“ROE”), Return on Investment Capital (“ROIC”), and Total Shareholder Return (“TSR”) during the trailing one-, three-, and five-years.

The Company’s incentive compensation practices are significantly limited by the requirements imposed on us as an internally managed business development company (“BDC”) pursuant to the 1940 Act. (See “*Limitations Imposed by the 1940 Act Relating to Implementation of Non-Equity Incentive Plans*” below). These are regulatory limitations related to our corporate structure that are relatively unique and do not apply to most other publicly-traded companies. As discussed further below, our NEOs were compensated to reflect the Company’s performance during the relevant Performance Periods (See “*Performance Highlights and Assessment of Company Performance*” below) as well as individual performance.

In addition to key factors involved in the 2016 decisions made by the Compensation Committee, we continue to maintain the enhancements to our executive officer compensation program that we adopted in 2016, such as our clawback policy for all Section 16 officers and consideration of a mix of corporate and individual performance factors for our NEOs. In addition, the Compensation Committee did not grant restricted stock awards in 2017. Rather, the Compensation Committee granted restricted stock units with an additional one-year deferral period following the last vesting date. We believe these restricted stock unit awards assist the Company in retaining NEOs.

Compensation Philosophy and Objectives

As an internally managed BDC, the Company's compensation program is designed to encourage the NEOs to think and act like stockholders. The structure of the NEOs' compensation program is designed to encourage and reward the following factors, among other things:

- sourcing and pursuing attractively priced investment opportunities to venture-backed companies;
- achieving the Company's dividend objectives (which focus on stability and potential growth);
- maintaining credit quality, monitoring financial performance and ultimately managing a successful exit of the Company's investment portfolio;
- providing compensation and incentives necessary to attract, motivate and retain key executives critical to our continued success and growth;
- focusing management behavior and decision-making on goals that are consistent with the overall strategy of the business;
- ensuring a linkage between NEO compensation and individual contributions to our performance; and
- risk management.

We believe that our continued success during 2016, despite strong competition for top-quality executive talent in the venture debt industry, was attributable to our ability to attract, motivate and retain the Company's outstanding executive team through the use of both short- and long-term incentive compensation programs.

The Company's compensation objectives are achieved through its executive compensation program, which for 2016 consisted of the following:

- **Annual Base Salary:** Cash paid on a regular basis throughout the year. This provides a level of fixed income that is competitive to allow the Company to retain and attract executive talent.
- **Annual Cash Bonus Awards:** Cash awards paid on an annual basis following year-end. This rewards NEOs who contribute to our financial performance and strategic success during the year, and rewards individual achievements.
- **Long-Term Equity Incentive Awards:** Equity incentive awards vest 1/3 on a one-year cliff with remaining 2/3 vesting quarterly over two years based on continued employment with the Company. This rewards NEOs who contribute to our success through the creation of shareholder value, provides meaningful retention incentives, and rewards individual achievements.

The compensation program is designed to reflect best practices in executive compensation:

- No employment agreements for NEOs.
- No guaranteed retirement benefits.
- No cash severance payments.
- No change in control benefits.
- No tax gross ups for NEOs.
- No pension.
- No executive perquisite allowances beyond the benefit programs offered to all employees.

-
- No repricing of stock options without stockholder approval, as required under applicable NYSE rules (and subject to other requirements under the 1940 Act).
 - Routine engagement of an independent compensation consultant to review NEO compensation.
 - Maintenance of stock ownership guidelines for NEOs to own at least two times his or her salary.
 - Clawback policy for all Section 16 officers.

Executive Compensation Governance

The Company's executive compensation program is supported by strong corporate governance and Board-level oversight. The Compensation Committee provides primary oversight of our compensation programs, including the design and administration of executive compensation plans, assessment and setting of corporate performance goals, as well as individual performance metrics, and the approval of executive compensation. In addition, the Compensation Committee retains an independent compensation consultant, and where appropriate, discusses compensation-related matters with our CEO, as it relates to the other NEOs. The Compensation Committee developed our 2016 compensation program, and the compensation paid to our NEOs during and in respect of 2016 was approved by the Compensation Committee as well as all of our independent directors.

- ***Role of Compensation Committee:*** The Compensation Committee is comprised entirely of independent directors who are also non-employee directors as defined in Rule 16b-3 under the Exchange Act, independent directors as defined by the NYSE rules, and are not "interested persons" of the Company, as defined by Section 2(a)(19) of the 1940 Act. Ms. Lyons, Ms. Woo Ho and Mr. Woodward comprise the Compensation Committee. Ms. Lyons chairs the Compensation Committee.

The Compensation Committee operates pursuant to a charter that sets forth its mission, specific goals and responsibilities. A key component of the Compensation Committee's goals and responsibilities is to evaluate, approve and/or make recommendations to our Board regarding the compensation of our NEOs, and to review their performance relative to their compensation to assure that they are compensated in a manner consistent with the compensation philosophy discussed above. In addition, the Compensation Committee evaluates and makes recommendations to our Board regarding the compensation of the directors for their services. Annually, the Compensation Committee:

- evaluates our CEO's performance,
- reviews our CEO's evaluation of the other NEOs' performance,
- determines and approves the compensation paid to our CEO, and
- with input from our CEO, reviews and approves the compensation of the other NEOs.

The Compensation Committee periodically reviews our compensation programs and equity incentive plans to ensure that such programs and plans are consistent with our corporate objectives and appropriately align our NEOs' interests with those of our stockholders. The Compensation Committee also administers our stock incentive program. The Compensation Committee may not delegate its responsibilities discussed above.

- ***Role of Compensation Consultant:*** The Compensation Committee has engaged Frederic W. Cook & Co., Inc., or F.W. Cook, as an independent outside compensation consultant to assist the Compensation Committee and provide advice on a variety of compensation matters relating to CEO compensation, compensation paid to our other NEOs, peer group selection, compensation program design, market and industry compensation trends, director compensation levels and regulatory developments. F.W. Cook was hired by and reports directly to the Compensation

Committee. Our compensation consultant does not provide any other services to the Company. The Compensation Committee has assessed the independence of F.W. Cook pursuant to the NYSE rules, and it has been concluded that the consultant's work for the Compensation Committee does not raise any conflict of interest.

- **Role of Chief Executive Officer:** From time to time and at the Compensation Committee's request, our CEO will attend the Compensation Committee's meetings to discuss the Company's performance and compensation-related matters. Our CEO does not attend executive sessions of the Compensation Committee, unless invited by the Compensation Committee. While our CEO does not participate in any deliberations relating to his own compensation, our CEO reviews on at least an annual basis the performance of each of the other NEOs and other executive officers. Based on these performance reviews and the Company's overall absolute and relative performance, our CEO makes recommendations to the Compensation Committee on any changes to base salaries, annual bonuses and equity awards. The Compensation Committee considers the recommendations submitted by our CEO, as well as data and analysis provided by management and F.W. Cook, but retains full discretion to approve and/or recommend for Board approval all executive and director compensation.

Competitive Benchmarking Against Peers

To determine the competitiveness of executive compensation levels, the Compensation Committee analyzes a group of internally managed BDCs, financial services companies and real estate investment trusts ("REITs") as set forth below (the "Peer Group"). The Peer Group is viewed as reflecting the labor market for our officer and employee talent, has a similar investor base, and, like the Company, the BDCs and REITs in the Peer Group are pass-through entities with the majority of earnings required to be distributed to shareholders as a dividend. The Compensation Committee does not specifically benchmark the compensation of our NEOs against that paid by other companies. During 2016, the Compensation Committee, based on the advice of F.W. Cook, reviewed the peer group used in connection with prior compensation decisions. Based on this review, and the advice of F.W. Cook, the Compensation Committee updated our Peer Group to better align it to our business. Our Peer Group was used as a factor in determining the annual cash bonus awards made with respect to 2016 (but paid in 2017), along with the various performance metrics outlined below under "*Performance Highlights and Assessment of Company Performance*," as well as the further considerations further described below under "*Annual Cash Bonus Awards*."

Our current Peer Group includes:

Internally Managed BDCs : American Capital, KCAP Financial, Main Street Capital and Triangle Capital

Financial Services : Alliance Bernstein, BGC Partners, Cowen Group, Evercore Partners, Fortress Investment Group, Greenhill & Co., Houlihan Lokey, LPL Financial Holdings, On Deck Capital and WisdomTree Investments

Real Estate Investment Trusts : Capstead Mortgage, CYS Investments, Hannon Armstrong, iStar Inc., Ladder Capital, MFA Financial, Redwood Trust, Sabra Health Care and Seritage Growth.

As of October 31 2016, which is the period the Compensation Committee reviewed our Peer Group, the Company outperformed most of its Peer Group over the one-, three- and five-years as follows*:

Performance Period	Return on Average Assets (excl. cash)		Return on Equity		Return on Invested Capital		Total Shareholder Returns	
	HTGC	% Rank of Peer Group	HTGC	% Rank of Peer Group	HTGC	% Rank of Peer Group	HTGC	% Rank of Peer Group
1-year	6.1%	100%	10.5%	93%	6.2%	93%	36.2%	100%
3-year	6.2%	99%	10.2%	89%	6.3%	89%	5.3%	64%
5-year	6.3%	96%	10.3%	86%	6.4%	87%	17.2%	88%

* The data are from S&P Capital IQ. Data reflects most recent four quarters and TSR available as of 10/31/16.

The Company believes that compensation paid to our NEOs for 2016 was commensurate with the Company's overall absolute performance as well as our performance relative to the Peer Group during the relevant Performance Periods. The 2016 compensation decisions made by the Compensation Committee considered the fact that our performance relative to the Peer Group was above the median, and in most cases above the 75th percentile, measured using ROAA, ROE, ROIC and TSR during the trailing one-, three-, and five-years as indicated in the chart above.

Limitations Imposed by the 1940 Act Relating to Implementation of Non-Equity Incentive Plans

We are an internally-managed, non-diversified, closed-end investment company that has elected to be regulated as a BDC under the 1940 Act. As a BDC, we are required to comply with certain regulatory requirements, including the 1940 Act, rules promulgated under the 1940 Act, and exemptive orders issued to us by the SEC. We refer to these requirements, rules, and exemptive orders as the "1940 Act Requirements." The 1940 Act Requirements provide that the Company may maintain either an equity incentive plan or a "profit sharing plan." A "profit sharing plan" as defined under the 1940 Act is any written or oral plan, contract, authorization or arrangement, or any practice, understanding or undertaking whereby amounts payable under the compensation plan are dependent upon or related to the profits of the company. The SEC has stated that compensation plans possess profit-sharing characteristics if an investment company is obligated to make payments under such a plan based on the level of income, realized gains or loss on investments or unrealized appreciation or depreciation of assets of such investment company.

The Company believes that equity incentives strongly align the interests of our stockholders with our NEOs, and, accordingly, an equity incentive plan was adopted in 2004. Since the Company has adopted the Equity Plan, the 1940 Act Requirements prohibit us from also implementing a "profit sharing plan."

Why is this important to the Company's executive compensation? The 1940 Act Requirements that restrict the Company to sponsoring either an equity incentive plan or a "profit sharing plan" limit the Company's use of formulas or non-discretionary objective performance goals or criteria in its incentive plans. This means that the Compensation Committee is not permitted to use a nondiscretionary formulaic application of any performance criteria for corporate and individual goals to determine compensation. Rather, the Compensation Committee must take into consideration all factors and use its discretion to determine the appropriate amount of compensation for our NEOs. The Compensation Committee's objective is to work within this regulatory framework to maintain and motivate pay-for-performance alignment, to establish appropriate compensation levels relative to our Peer Group and to implement compensation best practices.

2016 Advisory Vote on Executive Compensation

At our 2016 annual meeting of stockholders, our advisory vote on say-on-pay received support from our stockholders (89.4% of votes cast). The Company believes that the continuing dialogue with our stockholders on company performance, compensation and other governance matters is important. In advance of our 2016 annual meeting of stockholders, management engaged in numerous direct dialogues with our largest institutional shareholders, as well as a number of other institutional shareholders, to gain broad-based and/or specific insights into the Company's overall performance, operating expenses, including executive compensation and corporate governance practices. In addition, we invited each of our institutional stockholders holding more than 1% of the Company's stock to speak directly with management specifically on executive compensation and corporate governance practices.

The Company anticipates continuing our stockholder engagement efforts following the 2017 annual meeting and in advance of our future annual meetings.

Performance Highlights and Assessment of Company Performance

In determining the compensation for our NEOs, the Compensation Committee evaluates our performance relative to our Peer Group (See "Competitive Benchmarking Against Peers" above), as well as Company-specific absolute performance factors over the relevant Performance Periods. In 2016, relative and company-specific factors included:

Key Performance Indicators

Metric	Performance Period Outcomes				
	2016	2015	2014	2013	2012
Total of New Fundings (in \$ millions)	680.7	712.3	621.3	500.7	554.9
Total Investments at Cost (in \$ millions)	1,511.5	1,252.3	1,035.3	906.3	914.3
Net Interest Margin (in \$ million)	138.0	120.2	108.1	104.6	73.8

- *Total New Fundings*: Debt and equity fundings grew from \$554.9 million in 2012 to \$680.7 million in 2016 or a CAGR of 5.2%, as we continue to expand our origination team, increase our market share and organically grow our business via a record funding year for Hercules.
- *Total Investments*: Total investments at cost increased to \$1,511.5 billion in 2016 from \$914.3 million in 2012, a CAGR of 13.4% due to record new fundings, combined with the monetization of our warrants and equity positions.
- *Net Interest Margin*: We continue to grow our net interest margin due to strong portfolio growth and effectively managing our weighted average cost of debt.

Execution Across Performance Metrics

Metric	Performance Period Outcomes				
	2016	2015	2014	2013	2012
Liquidity Levels (in \$ millions)	203.0	195.2	377.1	373.4	288.0
Available Unfunded Commitments (in \$ millions)	59.7	75.4	147.7	69.1	19.3
Cumulative Net Realized Losses (in \$ millions)	2.3	6.9	12.0	32.1	47.0
Dividend Yield (%) [*]	8.8	10.2	8.3	6.8	8.5

^{*} *Dividend Yield*: Dividend Yield is a financial ratio that indicates the amount of dividends paid by the Company relative to its share price and is calculated as annual dividends per share divided by price per share as of measurement date.

- *Liquidity Levels*: The use of our credit facilities has been an integral component of our treasury management as we minimize our cash drag on our assets via the use of our warehouse facilities. These facilities have a low interest cost and allow us to build up our asset base for future offerings at competitive rates.

-
- *Available Unfunded Commitments* : We have done an outstanding job on managing our Available Unfunded Commitments. Our Available Unfunded Commitments was 4.5% of our loan portfolio at the end of 2016, where as in 2015, it was 6.8%.
 - *Cumulative Net Realized Losses* : We continue to demonstrate strong credit management and nothing shows this more than our cumulative net losses, where we finished in 2016 at \$2.3 million on commitments of \$6.5 billion. In 2012, our cumulative net realized losses were \$47 million since inception, demonstrating our ability to manage our portfolio effectively over the last 5 years.
 - *Dividend Yield* : We saw our Dividend Yield decline to 8.8% at the end of 2016. We believe that our continued strong performance will be recognized and our Dividend Yields will reduce further to the range we believe is representative of our stock price.

Assessment of Company Performance

In determining annual compensation for our NEOs, the Compensation Committee analyzes and evaluates the individual achievements and performance of our NEOs as well as the overall relative and absolute operating performance and achievements of the Company. We believe that the alignment of (i) our business plan, (ii) stockholder expectations and (iii) our employee compensation is essential to long-term business success and the interests of our stockholders and employees and to our ability to attract and retain executive talent, especially in a competitive environment for top-quality executive talent in the venture debt industry.

Our business plan involves taking on credit risk over an extended period of time, and a premium is placed on our ability to maintain stability and growth of net asset values as well as continuity of earnings growth to pass through to stockholders in the form of recurring dividends over the long term. Our strategy is to generate income and capital gains from our investments in the debt with warrant securities, and to a lesser extent direct equity, of our portfolio companies. This income supports the anticipated payment of dividends to our stockholders. Therefore, a key element of our return to stockholders is current income through the payment of dividends. This recurring payout requires a methodical asset acquisition analyses as well as highly active monitoring and management of our investment portfolio over time. To accomplish these functions, our business requires implementation and oversight by management and key employees with highly specialized skills and experience in the venture debt industry. A substantial part of our employee base is dedicated to the generation of new investment opportunities to allow us to sustain dividends and to the maintenance of asset values in our portfolio. In addition to the performance factors above, the Company considered the following Company-specific performance factors over the relevant Performance Periods: overall credit performance, performance against annual gross funding goals, overall yields, efficiency ratios, total and net investment income and realized and unrealized gains and losses.

Elements of Executive Compensation and 2016 Compensation Determinations

Base Salary

We believe that base salaries are a fundamental element of our compensation program. The Compensation Committee establishes base salaries for each NEO to reflect (i) the scope of the NEO's industry experience, knowledge and qualifications, (ii) the NEO's position and responsibilities and contributions to our business growth and (iii) salary levels and pay practices of those companies with whom we compete for executive talent.

The Compensation Committee considers base salary levels at least annually as part of its review of the performance of NEOs and from time to time upon a promotion or other change in job responsibilities. During its review of base salaries for our executives, the Compensation Committee primarily considers: individual performance of the executive, including leadership and execution of strategic initiatives and the accomplishment of business results for our company; market data provided by our compensation consultant; our NEOs total compensation, both individually and relative to our other NEOs; and for NEOs other than the CEO, the base salary recommendations of our CEO.

NEO	2016 Base Salary
Manuel Henriquez	\$ 803,154
Mark Harris	\$ 412,000
Scott Bluestein	\$ 432,600
Melanie Grace	\$ 283,250
Andrew Olson	\$ 211,150

Annual Cash Bonus Awards

The Compensation Committee, together with input from our CEO, developed a specific bonus pool for the 2016 operating year to be available for our annual cash bonus program. The amount determined to be available for our annual cash program was dependent upon many factors, including those outlined previously under “*Performance Highlights and Assessment of Company Performance*.”

The Compensation Committee designs our annual cash bonuses to motivate our NEOs to achieve financial and non-financial objectives consistent with our operating plan. The Compensation Committee generally targets cash bonuses to 50% to 100% of an NEO’s base salary; however, such bonus amounts may exceed these targets in the event of exceptional company and individual performance.

Bonuses are not formulaic to comply with the 1940 Act regulations that govern our business. As a result, the Compensation Committee considers overall business performance factors and individual factors, including CEO feedback, when determining the size of individual NEO bonuses. Accordingly, should actual company and NEO performance exceed expectations, the Compensation Committee may adjust individual cash bonuses to take such superior performance into account. Conversely, if company and NEO performance is below expectations, the Compensation Committee will consider such performance in determining the NEO’s actual cash bonus.

In evaluating the performance of our NEOs to arrive at their 2016 cash bonus awards, the Compensation Committee considered the performance factor achievements discussed above under “*Performance Highlights and Assessment of Company Performance*,” and the Compensation Committee specifically compared our performance and the returns of our stockholders against the performance and shareholder returns of other BDCs. In particular, the Committee considered our high relative total shareholder return and return on invested capital relative to peer group benchmarks, which was above the 75th percentile over the last year, as this shows the success for shareholders and of the core business mission of allocating equity and debt capital efficiently for a high risk-adjusted return.

When sizing our cash bonus pool and allocating bonus awards, the total compensation paid to our NEOs and other employees is evaluated against the expense ratios of other BDCs. With respect to 2016, company-wide compensation expense as a percentage of average assets among the peers in the Peer Group was considered. For the fiscal year ended December 31, 2016, the ratio of our compensation expense divided by total revenue was below the median of the Peer Group.

Based on the foregoing considerations and analysis, and after due deliberation, the Compensation Committee awarded our current NEOs the following annual cash bonuses with respect to 2016.

NEO	2016 Cash Bonus Award
Manuel Henriquez	\$ 1,200,000
Mark Harris	\$ 400,000
Scott Bluestein	\$ 650,000
Melanie Grace	\$ 145,000
Andrew Olson	\$ 150,000

Long-Term Equity Incentive Compensation

2004 Equity Incentive Plan

Our long-term equity incentive compensation is designed to develop a strong linkage between pay and our strategic goals and performance, as well as to align the interests of our NEOs, and other executives and key employees, with those of our stockholders by awarding long-term equity incentives in the form of stock options, restricted stock and/or restricted stock units. These awards are made pursuant to our Equity Plan, which permits options, restricted stock and restricted stock unit awards.

We believe that annual equity grants, in the form of restricted stock awards or restricted stock units, to our NEOs are a critical part of our compensation program as they allow us to:

- align our business plan, stockholder interests and employee concerns,
- manage dilution associated with equity-based compensation,
- match the return expectations of the business more closely with our equity-based compensation plan, and
- retain key management talent.

We believe that these annual equity grants motivate performance that is more consistent with the type of return expectations that we have established for our stockholders. Accordingly, the Company awards restricted stock award grants to our NEOs. These grants typically vest over three years.

Grant Practices for Executive Officers

Annual equity compensation grants to executive officers have typically been granted in the first quarter of the year. The Company does not grant stock options to executive officers. As a result, there were no option grants to our NEOs in 2016.

Restricted Stock Units

In 2017, the Compensation Committee did not grant restricted stock awards to NEOs. Rather, in January 2017, the Compensation Committee granted restricted stock units to the NEOs. With respect to the restricted stock units, the Compensation Committee assessed each current NEO's individual performance for 2016, our overall company performance in 2016 (including the performance factors detailed above under "*Performance Highlights and Assessment of Company Performance*" and "*Annual Cash Bonus Awards*") and the levels of equity compensation paid by other companies with whom we compete for executive talent. Based on this assessment, the Compensation Committee determined that the following restricted stock units be granted to our current NEOs with respect to 2016, in the amounts and on the dates set forth below to reward them for services performed in 2016. These restricted stock units vest as to one-third of the shares underlying the awards on the first anniversary of the grant date, and they vest as to the remaining shares in equal quarterly installments over the next two years. Settlement

of the restricted stock units is deferred following vesting and the restricted stock units will not be settled until the earliest to occur of (1) January 24, 2021, (2) the death or disability of the NEO, (3) the separation from service of the NEO, or (4) a change in control of the Company. Each restricted stock unit will entitle the holder to dividend equivalents in the form of the Company's common stock, which dividend equivalent payments will be settled on the date the related restricted stock unit is settled. We believe these restricted stock unit awards assist the Company in retaining NEOs.

NEO	Grant Date	Restricted Stock Units	Fair Value of Restricted Stock Awards ⁽¹⁾
Manuel Henriquez	1/24/2017	351,865	\$ 5,000,000
Scott Bluestein	1/24/2017	123,153	\$ 1,750,000
Mark Harris	1/24/2017	35,187	\$ 500,000
Melanie Grace	1/24/2017	21,112	\$ 300,000
Andrew Olson	1/24/2017	17,593	\$ 250,000

(1) Based on the closing price per share of our common stock of \$14.21 on January 24, 2017.

Other Elements of Compensation

- *Severance* : No NEO or employee of the Company has a written severance agreement or other arrangement providing for payments or benefits upon a termination of employment.
- *Benefits and Perquisites*: Our NEOs receive the same benefits and perquisites as other full-time employees. Our benefits program is designed to provide competitive benefits and is not based on performance. Our NEOs and other full-time employees receive health and welfare benefits, which consist of life, long-term and short-term disability, health, dental, vision insurance benefits and the opportunity to participate in our defined contribution 401(k) plan. During 2016, our 401(k) plan provided for a match of contributions by the company for up to \$18,000 per full-time employee. Other than the benefits set forth immediately above, our NEOs are not entitled to any other benefits or perquisites.
- *Potential Payments Upon Termination or Change of Control*: No NEO or employee of the Company has a written employment agreement, or other agreement, providing for payments or other benefits in connection with a change of control of the Company. Further, no NEO or any other employee is entitled to any tax gross-up payments.

Corporate Goals

For 2016, the Compensation Committee developed corporate goals that were required to be achieved for executive officers to receive up to 50% of their incentive compensation. These goals included operational performance as well as performance relative to the Peer Group. While the criteria may not be weighted, the Compensation Committee took into consideration each of these factors to determine whether the executive officers are eligible for up to 50% of the proposed incentive compensation. The Compensation Committee believes that the corporate goals applicable to all executive officers create an alignment not only with shareholders but also to the Company's business strategy and performance goals.

Defined Individual Goals

For 2016, the Compensation Committee developed individual goals for the CEO. In addition, the CEO and each NEO developed individual goals for the NEOs and such goals were approved by the Compensation Committee. Each set of individual goals are unique to the executive officer's responsibilities and position within the Company. While each of the factors may not be weighted, the Compensation Committee took into consideration each of these factors to determine whether the executive officers are eligible for up to 50% of the executive officer's incentive compensation.

Pay-for-Performance Alignment

The Company believes that there exists an alignment between the compensation of our NEOs and our performance over the relevant Performance Periods. As noted above, a broad range of individual performance factors and company performance factors are analyzed each year, including total shareholder return relative to our Peer Group, and, in 2016, analysis of relative ROAA, ROE, and ROIC versus the compensation peers over one-, three-, and five-years to measure short-, medium-, and long-term performance. The objective in analyzing these key performance factors is to align NEO compensation to our performance relative to our Peer Group and our absolute corporate performance.

The Company's annual bonus and equity awards constitute an effective mix of short- and long-term compensation components and reflect key measures of our performance and the returns enjoyed by our stockholders. Consistent with our pay-for-performance philosophy, the Compensation Committee will make future compensation decisions taking into account our absolute and relative performance, and, if our future performance were to fall significantly below our peers, the Compensation Committee would consider adjusting NEO compensation prospectively.

Total Compensation Expense Relative to other Internally Managed BDCs

In determining annual bonus awards, the total compensation paid to our NEOs and other employees against the expense ratios of other internally managed BDCs was considered.

Internal Pay Equity Analysis

Our compensation program is designed with the goal of providing compensation to our NEOs that is fair, reasonable, and competitive. To achieve this goal, the Company believes it is important to compare compensation paid to each NEO not only with compensation in our comparative group companies, as discussed above, but also with compensation paid to each of our other NEOs. Such an internal comparison is important to ensure that compensation is equitable among our NEOs.

As part of the Compensation Committee's review, we made a comparison of our CEO's total compensation paid for the period ending October 31, 2016 against that paid to our other NEOs during the same year. Upon review, the Compensation Committee determined that our CEO's compensation relative to that of our other NEOs was appropriate because of his level and scope of responsibilities, expertise and performance history, and other factors deemed relevant by the Compensation Committee. The Compensation Committee also reviewed the mix of the individual elements of compensation paid to our NEOs for this period, the individual performance of each NEO and any changes in responsibilities of the NEO.

Stock Ownership Guidelines

The Company maintains stock ownership guidelines, which are outlined in our corporate governance guidelines, because we believe that material stock ownership by our executives plays a role in effectively aligning the interests of these employees with those of our stockholders and strongly motivates our executives to build long-term shareholder value. Pursuant to our stock ownership guidelines, each member of senior management is required to beneficially own at least two times the individual's annual salary in Company common stock, based on market value, within three years of joining the Company. Our Board may make exceptions to this requirement based on particular circumstances; however, no exceptions have been made for our current NEOs. Messrs. Henriquez, Bluestein and Harris have met their minimum guidelines.

The Compensation Committee's review of the CEO's stock ownership in the fourth quarter of 2016 showed that he owns shares worth more than 20x his annual base salary.

Tax and Accounting Matters

Stock-Based Compensation. We account for stock-based compensation, including options and shares of restricted stock granted pursuant to our Equity Plan and 2006 Non-Employee Director Plan in accordance with the requirements of Financial Accounting Standards Board Accounting Standards Codification (“FASB ASC”) Topic 718. Under the FASB ASC Topic 718, we estimate the fair value of our option awards at the date of grant using the Black-Scholes-Merton option-pricing model, which requires the use of certain subjective assumptions. The most significant of these assumptions are our estimates on the expected term, volatility and forfeiture rates of the awards. Forfeitures are not estimated due to our limited history but are reversed in the period in which forfeiture occurs. As required under the accounting rules, we review our valuation assumptions at each grant date and, as a result, are likely to change our valuation assumptions used to value stock-based awards granted in future periods. We estimate the fair value of our restricted stock awards based on the grant date market closing price.

Deductibility of Executive Compensation. When analyzing both total compensation and individual elements of compensation paid to our NEOs, the Company considers the income tax consequences to the Company of its compensation policies and procedures. In particular, the Company considers Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”), which limits the deductibility of non-performance-based compensation paid to certain of the NEOs to \$1,000,000 per affected NEO. The Compensation Committee intends to balance its objective of providing compensation to our NEOs that is fair, reasonable, and competitive with the Company’s ability to claim compensation expense deductions. Our Board believes that the best interests of the Company and our stockholders are served by executive compensation programs that encourage and promote our principal compensation philosophy, enhancement of shareholder value, and permit the Compensation Committee to exercise discretion in the design and implementation of compensation packages. Accordingly, we may from time to time pay compensation to our NEOs that may not be fully tax deductible, including certain bonuses and restricted stock. Stock options granted under our stock plan are intended to qualify as performance-based compensation under Section 162(m) of the Code. The Company will continue to review its executive compensation plans periodically to determine what changes, if any, should be made as a result of any deduction limitations.

Clawback Policy for Section 16 Officers

In 2016, the Board adopted a clawback policy for all Section 16 officers. This was an enhancement to the Company’s then-existing clawback policy for the CEO and CFO pursuant to Section 304 of the Sarbanes-Oxley Act of 2002. With respect to the Company’s clawback policy, the Company has

- broadened its clawback policy to apply to all Section 16 officers; and
- broadened the scope of its clawback policy beyond financial restatements.

Pursuant to our clawback policy, for payments that are predicated on financial results augmented by fraud, embezzlement, gross negligence or deliberate disregard of applicable rules resulting in significant monetary loss, damage or injury to the Company (“Excess Compensation”), the Compensation Committee has the authority to seek repayment of any Excess Compensation, including (1) cancellation of unvested, unexercised or unreleased equity incentive awards; and (2) repayment of any compensation earned on previously exercised or released equity incentive awards whether or not such activity resulted in a financial restatement.

The Compensation Committee will have sole discretion under this policy, consistent with any applicable statutory requirements, to seek reimbursement of any Excess Compensation paid or received by the Section 16 officer for up to a 12-month period prior to the date of the Compensation Committee action to require reimbursement of the Excess Compensation. Any clawback of Excess Compensation

must be based upon fraud adjudicated by a court of competent jurisdiction or a financial restatement. Further, following a restatement of our financial statements, we will recover any compensation received by the CEO and CFO that is required to be recovered by Section 304 of the Sarbanes-Oxley Act of 2002.

For purposes of this policy, Excess Compensation will be measured as the positive difference, if any, between the compensation earned by a Section 16 officer and the compensation that would have been earned by the Section 16 officer had the fraud, embezzlement, gross negligence or deliberate disregard of applicable rules resulting from significant monetary loss, damage or injury to the Company not occurred.

Risk Assessment of the Compensation Programs

Our Board believe that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the Company. The Company has designed our compensation programs, including our incentive compensation plans, with specific features to address potential risks while rewarding employees for achieving long-term financial and strategic objectives through prudent business judgment and appropriate risk taking. We use common variable compensation designs, with a significant focus on individual contributions to our performance and the achievement of absolute and relative corporate objectives, as generally described in this Compensation Discussion and Analysis.

The Compensation Committee and the Board reviewed our compensation programs to assess whether any aspect of the programs would encourage any of our employees to take any unnecessary or inappropriate risks that could threaten the value of the Company. The Company has designed our compensation programs to reward our employees for achieving annual profitability and long-terms increase shareholder value.

Our Board recognizes that the pursuit of corporate objectives possibly leads to behaviors that could weaken the link between pay and performance, and, therefore, the correlation between the compensation delivered to employees and the long-term return realized by stockholders. Accordingly, our executive compensation program is designed to mitigate these possibilities and to ensure that our compensation practices are consistent with our risk profile. These features include the following:

- bonus payouts and equity incentive awards that are not based solely on corporate performance objectives, but are also based on individual performance levels,
- the financial opportunity in our long-term equity incentive program that is best realized through long-term appreciation of our stock price, which mitigates excessive short-term risk-taking,
- annual cash bonuses that are paid after the end of the fiscal year to which the bonus payout relates,
- the engagement and use of a compensation consultant,
- the institution of stock ownership guidelines applicable to our executive officers, and
- final decision making by our Compensation Committee and our Board of directors on all awards.

Additionally, the Company performed an assessment of compensation-related risks for all of our employees. Based on this assessment, we concluded that our compensation programs do not create risks that are reasonably likely to have a material adverse effect on the Company. In making this evaluation, the Company reviewed the key design elements of our compensation programs in relation to industry “best practices,” as well as the means by which any potential risks may be mitigated. In addition, management completed an inventory of incentive programs below the executive level and reviewed the design of these incentives and concluded that such incentive programs do not encourage excessive risk-taking.

Compensation Committee Report

We have reviewed and discussed the foregoing Compensation Discussion and Analysis with management. Based on our review and discussions with management, we recommend to the Board that the Compensation Discussion and Analysis be included in the Annual Report on Form 10-K/A for the year ended December 31, 2016.

During 2016, the compensation for serving on our Board as an independent director included the following:

Annual Director Retainer Fee	\$100,000
Annual Chairperson Fee	\$25,000, Audit Committee
	\$25,000, Compensation Committee
	\$15,000, NCG Committee
Annual Lead Director Fee	\$25,000

In 2016, we granted each independent director an additional retainer of \$50,000, which was distributed as shares of common stock in lieu of cash. In addition, upon re-election to the Board, each independent director is granted an option to purchase 15,000 shares and an additional award of 5,000 shares of restricted stock. Employee directors do not receive compensation for serving on our Board. In addition, we reimburse our directors for their reasonable out-of-pocket expenses incurred in attending Board meetings.

Under current SEC rules and regulations applicable to BDCs, a BDC may not grant options or restricted stock to non-employee directors unless it receives exemptive relief from the SEC. We filed an exemptive relief request with the SEC to allow options and restricted stock to be issued to our non-employee directors, which was approved on October 10, 2007. On June 22, 2010, we received approval from the SEC regarding our exemptive relief request permitting its employees to exercise their stock options and restricted stock and pay any related income taxes using a cashless exercise program.

On June 21, 2007, our stockholders approved amendments to the 2004 Equity Incentive Plan (the “Equity Plan”) and the 2006 Non-Employee Director Plan allowing for the grant of restricted stock. The Equity Plan and 2006 Non-Employee Director Plan limit the combined maximum amount of restricted stock that may be issued under both of the Equity Plan and 2006 Non-Employee Director Plan to 10% of the outstanding shares of our common stock on the effective date of the Equity Plan and 2006 Non-Employee Director Plan plus 10% of the number of shares of common stock issued or delivered by us during the terms of the Equity Plan and 2006 Non-Employee Director Plan.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth, as of April 24, 2017, the beneficial ownership of each current director, each nominee for director, our NEOs, each person known to us to beneficially own 5% or more of the outstanding shares of our common stock, and our executive officers and directors as a group.

Beneficial ownership is determined in accordance with the rules of the SEC. Common stock subject to options or warrants that are currently exercisable or exercisable within 60 days of April 24, 2017 are deemed to be outstanding and beneficially owned by the person holding such options or warrants. Such shares, however, are not deemed outstanding for the purposes of computing the percentage ownership of any other person. Percentage of ownership is based on 82,787,162 shares of common stock outstanding as of April 24, 2017.

Unless otherwise indicated, to our knowledge, each stockholder listed below has sole voting and investment power with respect to the shares beneficially owned by the stockholder, except to the extent authority is shared by their spouses under applicable law. Certain Relationships and Related Transactions

We have established a written policy to govern the review, approval and monitoring of transactions involving the Company and certain persons related to Hercules. As a BDC, the 1940 Act restricts us from participating in transactions with any persons affiliated with Hercules, including our officers, directors, and employees and any person controlling or under common control with us.

In order to ensure that we do not engage in any prohibited transactions with any persons affiliated with Hercules, our officers screen each of our transactions for any possible affiliations, close or remote, between the proposed portfolio investment, Hercules, companies controlled by us and our employees and directors.

We will not enter into any agreements unless and until we are satisfied that no affiliations prohibited by the 1940 Act exist or, if such affiliations exist, we have taken appropriate actions to seek Board review and approval or exemptive relief from the SEC for such transaction.

Director Independence

The NYSE's listing standards and Section 2(a)(19) of the 1940 Act require that a majority of our Board and every member of our Audit, Compensation, and NCG Committees are "independent." Under the NYSE's listing standards and our corporate governance guidelines, no director will be considered to be independent unless and until our Board affirmatively determines that such director has no direct or indirect material relationship with our company or our management. Our Board reviews the independence of its members annually.

In determining that Ms. Lyons and Ms. Woo Ho and Messrs. Badavas, Woodward, Fallon, and Hoffman are independent, our Board, through the NCG Committee, considered the financial services, commercial, family and other relationships between each director and his or her immediate family members or affiliated entities, on the one hand, and Hercules and its subsidiaries, on the other hand.

Item 14. Principal Accountant Fees and Services**Principal Accountant Fees and Services**

The following aggregate fees by PricewaterhouseCoopers LLP (“PwC”), our independent public accounting firm, were billed to us for work attributable to 2016 and 2015 audit, tax and other services.

	Fiscal Year Ended (in millions)	
	2016	2015
Audit Fees	\$ 1.4	\$ 1.2
Audit-Related Fees	—	—
Tax Fees	\$ 0.1	\$ 0.1
All Other Fees	—	—
Total Fees:	\$ 1.5	\$ 1.3

Audit Fees. Audit fees include fees for services that normally would be provided by the accountant in connection with statutory and regulatory filings or engagements and that generally only the independent accountant can provide. In addition to fees for the audit of our annual financial statements, the audit of the effectiveness of our internal control over financial reporting and the review of our quarterly financial statements in accordance with generally accepted auditing standards, this category contains fees for comfort letters, statutory audits, consents, and assistance with and review of documents filed with the SEC.

Audit-Related Fees. Audit related fees are assurance related services that traditionally are performed by the independent accountant, such as attest services that are not required by statute or regulation.

Tax Fees. Tax fees in fiscal years 2016 and 2015 include professional fees for tax compliance and tax advice.

All Other Fees. Fees for other services would include fees for products and services other than the services reported above. Other fees billed in fiscal years 2016 and 2015 relate to on-line technical accounting software service. Our Audit Committee has considered the compatibility of non-audit services with the auditor’s independence.

Pre-Approval Policy

All services rendered by PwC were permissible under applicable laws and regulations, and were pre-approved by the Audit Committee for 2016 and 2015, as applicable, in accordance with its pre-approval policy. The Audit Committee has established a policy regarding the pre-approval of all audit and permissible non-audit services provided by our independent auditors. The policy requires the Audit Committee to approve each audit or non-audit engagement or accounting project involving the independent auditors and the related fees, prior to the commencement of the engagement or project to make certain that the provision of such services does not adversely affect the firm’s independence. Approval of such engagement is provided at regularly scheduled meetings of the Audit Committee. However, the Audit Committee may delegate pre-approval authority to the Audit Committee chairman or any of the Audit Committee members who is an independent director, so long as the estimated fee for the particular service for which pre-approval is sought does not exceed \$100,000. Our Audit Committee does not delegate its responsibilities to pre-approve services performed by the independent public accounting firm to management.
