IDT Appoints Andy Lai as Vice President of Sales, Greater China and South Asia Pacific, and Country Manager for China

With More than 25 Years in the Semiconductor Industry, Andy Lai is a Leading Sales Executive in the Greater China & South Asia Pacific

SAN JOSE, CALIFORNIA--(Marketwired - June 27, 2017) - Integrated Device Technology, Inc. (IDT) (NASDAQ:IDTI) today announced the appointment of Andy Lai as its new Vice President of Sales of Greater China and South Asia Pacific, and Country Manager for China. A sales veteran with more than 25 years in the semiconductor industry, Mr. Lai's experience covers a wide range of products and markets, including cloud & networking, automotive, mobile, consumer electronics, telecom infrastructure, and industrial.

"Mr. Lai has established himself as one of the leading sales executives in the Greater China market, and he is a welcome addition to our sales leadership team," said Chris Allexandre, Senior Vice President, Global Sales & Marketing at IDT. "Mr. Lai will help extend our leadership position in telecom infrastructure, cloud, networking communication, and mobile wireless power in this region; and will also lead our expansion into the fast-growing automotive and industrial market segments."

"IDT has built a strong brand reputation through its focus on innovation and customer satisfaction, and I look forward to working with my new team to expand it," said Mr. Lai. "IDT is well-positioned in key growth markets, and I'm confident the Greater China and South Asia Pacific market will be receptive to our advanced solutions and the design challenges they are able to help solve."

Prior to joining IDT, Mr. Lai served in a variety of leadership roles across multiple companies, including Analog Devices, National Semiconductor, Texas Instruments, Fairchild Semiconductor, and others. Mr. Lai has been managing the Greater China & South Asia Pacific regions in multiple companies for the last 7 years.

Mr. Lai holds an EMBA from Shanghai Jiao Tong University, and a Bachelor of Science degree in Engineering from North China Electric Power University.
