Segment profit does not include direct costs of customer support or depreciation and amortization associated with direct costs. Segment margin is segment profit as a percentage of segment revenues. A reconciliation of segment profit and segment margin can be found in the attachment to our earnings press release, which is available on our website and furnished to the Securities and Exchange Commission.

(3) Funded debt includes notes payable, revolving credit agreement and term loan, net of discount and prepaid costs.

(4) Adjusted EBITDA is a non-GAAP measure. Adjusted EBITDA is loss from operations plus depreciation and amortization, loss (gain) on disposals of property and equipment, exit activities, restructuring and impairments, stock-based compensation, strategic alternatives and related costs, organizational realignment costs and acquisition costs.

(5) Free cash flow is a non-GAAP measure and is net cash flows provided by operating activities minus capital expenditures.

(6) Unlevered free cash flow is a non-GAAP measure and is free cash flow plus cash interest expense.

(8) During 4Q15, we reclassified one of our Montreal company-controlled data centers to held for sale and migrated most of our customers to one of our other Montreal company-controlled locations.

(9) Net sellable capacity (under contract) is total net sellable square foot under roof, including what could be developed in the future.
