**Notes:**

(1) We provide this information as of March 31, 2015 and make no commitment to subsequently update the information.

You are encouraged to read our most recent reports on Form 10-K and Form 10-Q for a full explanation of our financial data and results.

(2) Core revenues are from our company-controlled colocation, hosting and cloud services and include all revenue from iWeb Technologies Inc., formerly known as iWeb Group Inc., ("iWeb"), which we acquired in November 2013.

(3) Segment Profit and Segment Margin are non-GAAP measures. Segment profit is segment revenues less direct costs of sales and services, exclusive of depreciation and amortization. Segment profit does not include direct costs of customer support, direct costs of amortization of acquired technologies or any other depreciation or amortization associated with direct costs. Segment margin is segment profit as a percentage of segment revenues.

A reconciliation of segment profit and segment margin can be found in the attachment to our earnings press release, which is available on our website and furnished to the Securities and Exchange Commission.

(4) Funded debt includes notes payable, revolving credit agreement and term loan, net of discount.

(5) Customer count excludes standalone flow control platform ("FCP") customers and only counts customers billing in the last month of the quarter.

Starting in 4Q13, we included iWeb customers.

(6) Resoresents total net sellable square foot under roof, including what could be developed in the future.

(7) 2Q14 company-controlled net sellable square footage reflects a reduction of our New York Metro facility that is no longer deemed sellable due to our pending lease expiration.
