Normalized net income (loss) available to common stockholders (non-GAAP) (12)	\$ (3,682)	\$ (1,468)	\$ (904)	\$ 758	\$ 732
Weighted average shares outstanding used in per share calculation:					
Basic (GAAP)	49,414	49,586	49,638	49,657	49,944
Participating securities (GAAP) (12)	874	1,203	1,126	1,081	1,193
Diluted (GAAP)	49,414	49,586	49,638	49,657	49,944
Add potentially dilutive securities	-	-	-	54	519
Less dilutive effect of stock-based compensation under the treasury stock method	-	-	-	(54)	(359)
Normalized diluted shares (non-GAAP) (13)	49,414	49,586	49,638	49,657	50,104
Net income (loss) per share (GAAP):					
Basic	\$ (0.13)	\$ (1.22)	\$ (0.04)	\$ (0.01)	\$ (0.01)
Diluted	\$ (0.13)	\$ (1.22)	\$ (0.04)	\$ (0.01)	\$ (0.01)
Normalized net income (loss) per share (non-GAAP) (11):					
Basic	\$ (0.07)	\$ (0.03)	\$ (0.02)	\$ 0.02	\$ 0.01
Diluted	\$ (0.07)	\$ (0.03)	\$ (0.02)	\$ 0.02	\$ 0.01

Notes:

(1) During the three months ended June 30, 2009, we changed how we view and manage our business. As a result, we now report our former CDN services segment within the IP services segment, except for the managed server portion of CDN services, which we now include within the data center services segment. We have reclassified financial information for 2008 to conform to the current period presentation.

(2) Segment profit is defined as segment revenues less direct cost of network, sales and services, exclusive of depreciation and amortization for the segment, as presented in the notes to our financial statements filed with the United States Securities and Exchange Commission in Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K. Segment profit does not include direct costs of customer support, direct costs of amortization of acquired technologies or any other depreciation or amortization associated with direct costs.

(3) Segment margin is defined as segment profit as a percentage of segment revenues.

(4) Adjusted operating expense is defined as operating expense defined by accounting principles generally accepted in the United States of America, or GAAP, less direct cost of network and sales, depreciation and amortization, impairments and restructuring, stock-based compensation expense and executive transition (7).

(5) Depreciation and amortization for the quarters ended September 30, 2008 and June 30, 2009 include additional impairment charges of \$1,850 and \$4,134, respectively, for acquired developed technology, as described in note (6) below.

(6) Impairments and restructuring for the quarters ended September 30, 2008 and June 30, 2009 do not include impairment charges of \$1,850 and \$4,134, respectively, for acquired developed technology. These impairment charges are included herein with the caption "Depreciation and amortization" and in our financial statements with the caption "Direct costs of amortization of acquired technologies."

(7) Executive transition represents costs associated with the succession of our president and chief executive officer during the quarter ended March 31, 2009 and includes \$1,227 in cash compensation and \$200 in professional services. Executive transition as used herein does not include stock-based compensation of \$815 presented with other stock-based compensation on this schedule (included within general and administrative stock-based compensation expense).

(8) Adjusted EBITDA is defined as income (loss) from operations plus stock-based compensation, depreciation and amortization, (gain) loss on disposal of property and equipment, and impairments and restructuring. During the three months ended June 30, 2009 we changed the definition of adjusted EBITDA to exclude other non-operating income (expenses). We have reclassified financial information for prior periods presented to conform to the current period presentation. This change had a minimal impact on our adjusted EBITDA and adjusted EBITDA margin.

(9) Adjusted EBITDA margin is defined as adjusted EBITDA as a percentage of revenues.

(10) Normalized net income (loss) is defined as net income (loss) plus stock-based compensation, impairments and restructuring.

(11) Normalized net income (loss) per share is defined as normalized net income (loss) divided by basic and normalized diluted shares.

(12) Net income and normalized net income available to common stockholders excludes amounts allocated to unvested restricted stock awards, which, by definition, are participating securities. However, participating securities do not share in any net loss or normalized net loss.

(13) Normalized diluted shares is defined as diluted common shares outstanding used in GAAP net income (loss) per share calculation, excluding the effect of stock-based compensation under the treasury stock method.
