^[A]Consumer Tax segment revenue includes TurboTax for Online Banking revenue for all periods presented.

^[B]These are non-GAAP financial measures. See tables B1, B2, E1 and E2 of the accompanying sections for reconciliations of these non-GAAP financial measures to the most directly comparable GAAP measures and the reasons management uses each measure.

^[C]The annual effective tax rates used to calculate non-GAAP EPS were 37% for Q1 and Q2 FY10, 34% for Q3 FY10, 35% for Q4 FY10, 36% for Q1 FY11, 35% for Q2 FY11, 34% for Q3 FY11 and 34% for Q4 FY11.

^[D]All of the numbers provided in the table entitled "Guidance," are forward-looking statements. Please see the accompanying section entitled "Cautions About Forward-Looking Statements" for important information to assess when evaluating these statements. Actual future results may differ materially due to a number of risks and uncertainties.

^[E]Our GAAP effective tax rate for the second quarter of fiscal year 2011 was affected by one-time tax benefits related to the retroactive reinstatement of the research and experimentation credit. Excluding those discrete benefits, our GAAP effective tax rate for that period was approximately 36%.

See accompanying Notes.

INTUIT INC.
NOTES TO TABLE A1

[A] During the fourth quarter of fiscal 2011 we performed our annual goodwill impairment test. During step one of the test we determined that the estimated fair value of our Intuit Health reporting unit fell below its carrying value of \$75 million and during step two of the test we determined that the goodwill and acquired intangible assets for that reporting unit were impaired. Consequently, we recorded a goodwill and intangible asset impairment charge of approximately \$30 million for our Intuit Health reporting unit in the fourth quarter of fiscal 2011. This consisted of a goodwill impairment charge of approximately \$24 million and an acquired intangible asset impairment charge of approximately \$6 million. All of the goodwill and acquired intangible assets associated with our Intuit Health reporting unit were derived from our fiscal 2010 acquisition of Medfusion, Inc.

[B] The following table summarizes the total share-based compensation expense from continuing operations that we recorded for the periods shown.

<i>(in millions)</i>	Three Months Ended		Twelve Months Ended	
	July 31, 2011	July 31, 2010	July 31, 2011	July 31, 2010
Cost of product revenue	\$ 1	\$ -	\$ 1	\$ 1
Cost of service and other revenue	1	1	6	7
Selling and marketing	13	11	46	41
Research and development	13	11	51	41
General and administrative	13	13	49	44
Total share-based compensation expense	\$ 41	\$ 36	\$ 153	\$ 134

[C] We compute our provision for or benefit from income taxes by applying the estimated annual effective tax rate to income or loss from recurring operations and adding the effects of any discrete income tax items specific to the period. Our effective tax rates did not differ significantly from the federal statutory rate of 35% for the annual periods presented. The income tax benefit rate for the three months ended July 31, 2011 was 26% and differed from the federal statutory rate primarily because the goodwill impairment charge recorded in that period was not tax deductible. The income tax benefit rate for the three months ended July 31, 2010 was 39% and differed from the federal statutory rate primarily due to the impact of finalizing the annual effective tax rate in connection with the preparation of the annual tax provision for that period.

[D] On January 15, 2010 we sold our Intuit Real Estate Solutions (IRES) business for approximately \$128 million in cash and recorded a net gain on disposal of \$35 million. IRES was part of our Other Businesses segment. We determined that IRES became a discontinued operation in the second quarter of fiscal 2010 and we have therefore segregated the operating results of IRES from continuing operations in our statements of operations for all periods prior to the sale. For the twelve months ended July 31, 2010, net revenue from IRES was \$33 million and net income from IRES was less than \$1 million, excluding the net gain on disposal. Because IRES operating cash flows were not material for any period presented, we have not segregated them from continuing operations on our statements of cash flows.

See "About Non-GAAP Financial Measures" immediately following Table E2 for more information on these non-GAAP adjustments.

[a] Adjustments to exclude share-based compensation expense from non-GAAP financial measures.

[b] Adjustments to exclude amortization of acquired technology and amortization of other acquired intangible assets from non-GAAP financial measures.

[c] Adjustment to exclude professional fees for business combinations of approximately \$7 million from non-GAAP financial measures.

[d] Adjustment to exclude goodwill and intangible asset impairment charge from non-GAAP financial measures.

[e] Adjustment to exclude net gains on debt securities and other investments from non-GAAP financial measures.

[f] Adjustment to reflect the tax effects of items [a] through [e].

[g] Adjustment to exclude net income from discontinued operations from non-GAAP financial measures.

INTUIT INC.
ABOUT NON-GAAP FINANCIAL MEASURES

The accompanying financial information dated August 18, 2011 contains non-GAAP financial measures. Table B1, Table B2, Table E1 and Table E2 reconcile the non-GAAP financial measures in that financial information to the most directly comparable financial measures prepared in accordance with Generally Accepted Accounting Principles (GAAP). These non-GAAP financial measures include non-GAAP operating income (loss), non-GAAP net income (loss) and non-GAAP net income (loss) per share.

Non-GAAP financial measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. These non-GAAP financial measures do not reflect a comprehensive system of accounting, differ from GAAP measures with the same names and may differ from non-GAAP financial measures with the same or similar names that are used by other companies.

We compute non-GAAP financial measures using the same consistent method from quarter to quarter and year to year. We may consider whether other significant items that arise in the future should be excluded from our non-GAAP financial measures.

We exclude the following items from all of our non-GAAP financial measures:

- Share-based compensation expense
- Amortization of acquired technology
- Amortization of other acquired intangible assets
- Goodwill and intangible asset impairment charges
- Charges for historical use of technology licensing rights
- Professional fees for business combinations

We also exclude the following items from non-GAAP net income (loss) and diluted net income (loss) per share:

- Gains and losses on debt securities and other investments
- Income tax effects of excluded items and discrete tax items
- Discontinued operations

We believe that these non-GAAP financial measures provide meaningful supplemental information regarding Intuit's operating results primarily because they exclude amounts that we do not consider part of ongoing operating results when planning and forecasting and when assessing the performance of the organization, our individual operating segments or our senior management. Segment managers are not held accountable for share-based compensation expenses, acquisition-related charges, or the other excluded items and, accordingly, we exclude these amounts from our measures of segment performance. We believe that our non-GAAP financial measures also facilitate the comparison by management and investors of results for current periods and guidance for future periods with results for past periods.

The following are descriptions of the items we exclude from our non-GAAP financial measures.

Share-based compensation expenses. These consist of non-cash expenses for stock options, restricted stock units and our Employee Stock Purchase Plan. When considering the impact of equity awards, we place greater emphasis on overall shareholder dilution rather than the accounting charges associated with those awards.

Amortization of acquired technology and amortization of other acquired intangible assets. When we acquire an entity, we are required by GAAP to record the fair values of the intangible assets of the entity and amortize them over their useful lives. Amortization of acquired technology in cost of revenue includes amortization of software and other technology assets of acquired entities. Amortization of other acquired intangible assets in operating expenses includes amortization of assets such as customer lists, covenants not to compete and trade names.

Goodwill and intangible asset impairment charges. We exclude from our non-GAAP financial measures non-cash charges to adjust the carrying values of goodwill and other acquired intangible assets to their estimated fair values.

Professional fees for business combinations. We exclude from our non-GAAP financial measures the professional fees we incur to complete business combinations. These include investment banking, legal and accounting fees.

Gains and losses on debt securities and other investments. We exclude from our non-GAAP financial measures gains and losses that we record when we sell or impair available-for-sale debt securities and other investments.

Income tax effects of excluded items and discrete tax items. We exclude from our non-GAAP financial measures the income tax effects of the items described above. In addition, the effects of one-time income tax adjustments recorded in a specific quarter for GAAP purposes are reflected on a forecasted basis in our non-GAAP financial measures. This is consistent with how we plan, forecast and evaluate our operating results.

Operating results and gains and losses on the sale of discontinued operations. From time to time, we sell or otherwise dispose of selected operations as we adjust our portfolio of businesses to meet our strategic goals. In accordance with GAAP, we segregate the operating results of discontinued operations as well as gains and losses on the sale of these discontinued operations from continuing operations on our GAAP statements of operations but continue to include them in GAAP net income or loss and net income or loss per share. We exclude these amounts from our non-GAAP financial measures.

The reconciliations of the forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures in Table E1 include all information reasonably available to Intuit at the date of this financial information. These tables include adjustments that we can reasonably predict. Events that could cause the reconciliation to change include acquisitions and divestitures of businesses, goodwill and other asset impairments, and sales of available-for-sale debt securities and other investments.

INTUIT INC.
CAUTIONS ABOUT FORWARD-LOOKING STATEMENTS

This financial information contains forward-looking statements, including forecasts of Intuit's future expected financial results. Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause our actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, without limitation, the following: inherent difficulty in predicting consumer behavior; difficulties in receiving, processing, or filing customer tax submissions; consumers may not respond as we expected to our advertising and promotional activities; product introductions and price competition from our competitors can have unpredictable negative effects on our revenue, profitability and market position; governmental encroachment in our tax businesses or other governmental activities or public policy affecting the preparation and filing of tax returns could negatively affect our operating results and market position; we may not be able to successfully innovate and introduce new offerings and business models to meet our growth and profitability objectives, and current and future offerings may not adequately address customer needs and may not achieve broad market acceptance, which could harm our operating results and financial condition; business interruption or failure of our information technology and communication systems may impair the availability of our products and services, which may damage our reputation and harm our future financial results; as we upgrade and consolidate our customer facing applications and supporting information technology infrastructure, any problems with these implementations could interfere with our ability to deliver our offerings; any failure to properly use and protect personal customer information and data could harm our revenue, earnings and reputation; if we are unable to develop, manage and maintain critical third party business relationships, our business may be adversely affected; increased government regulation of our businesses may harm our operating results; if we fail to process transactions effectively or fail to adequately protect against potential fraudulent activities, our revenue and earnings may be harmed; any significant offering quality problems or delays in our offerings could harm our revenue, earnings and reputation; our participation in the Free File Alliance may result in lost revenue opportunities and cannibalization of our traditional paid franchise; the continuing global economic downturn may continue to impact consumer and small business spending, financial institutions and tax filings, which could negatively affect our revenue and profitability; year-over-year changes in the total number of tax filings that are submitted to government agencies due to economic conditions or otherwise may result in lost revenue opportunities; our revenue and earnings are highly seasonal and the timing of our revenue between quarters is difficult to predict, which may cause significant quarterly fluctuations in our financial results; our financial position may not make repurchasing shares advisable or we may issue additional shares in an acquisition causing our number of outstanding shares to grow; our inability to adequately protect our intellectual property rights may weaken our competitive position and reduce our revenue and earnings; our acquisition and divestiture activities may disrupt our ongoing business, may involve increased expenses and may present risks not contemplated at the time of the transactions; our use of significant amounts of debt to finance acquisitions or other activities could harm our financial condition and results of operation; and litigation involving intellectual property, antitrust, shareholder and other matters may increase our costs. More details about these and other risks that may impact our business are included in our Form 10-K for fiscal 2010 and in our other SEC filings. You can locate these reports through our website at <http://investors.intuit.com>. Forward-looking statements are based on information as of August 18, 2011, and we do not undertake any duty to update any forward-looking statement or other information in these materials.
