

## Ingersoll-Rand To Provide a Live Webcast of its 2005 Analyst Meeting

**Hamilton, Bermuda, May 25, 2005**--Ingersoll-Rand Company Limited (NYSE:IR), a leading diversified industrial firm, today announced that it intends to provide a real-time, listen-only webcast of its 2005 analyst meeting, to be held on Thursday, June 2, from 8:30 am to 1:00 pm Eastern time.

Herbert L. Henkel, chairman, president and chief executive officer, will commence the meeting, followed by presentations by four of the company's senior vice presidents and sector presidents: Randy P. Smith of Climate Control Technologies, Mike Lamach of Security Technologies, Chris Vasiloff of Construction Technologies, and Richard Pedtke, who was appointed president of the recently formed Bobcat and Club Car Sector in April 2005. Other presenters will include Ted Doheny, president of Industrial Technologies and a vice president for the company.

The webcast of the meeting will be broadcast live over the Internet through the company's web site at [www.irco.com](http://www.irco.com). Individuals will be able to view presentation slides and listen to presenters as they describe the company's growth strategies for generating continuing revenue, cash flow and earnings growth. Presenters will also describe how the company is expanding its market leadership in Asia-Pacific and other emerging markets through bolt-on acquisitions and organic growth, and how new product and service innovations are continuing to drive market share gains in established and new markets.

An agenda for the meeting is currently available on the company's web site at <http://www.shareholder.com/ir/medialist.cfm>. After the meeting, an audio replay accompanied by presentation slides will remain available on the company's site.

Ingersoll-Rand is a global provider of products, services, and integrated solutions to industries as diverse as transportation, manufacturing, construction, and agriculture. The company brings to bear a 100-year-old heritage of technological innovation to help companies be more productive, efficient, and innovative. Examples include cryogenic refrigeration that preserves agricultural produce worldwide; biometric security systems for airports, corporations, and government facilities; the efficient harnessing of air to drive tools and factories; and versatile, compact vehicles for construction and efficient movement of people and goods. In every line of business, Ingersoll-Rand enables companies and their customers to turn work into progress. For more information, visit [www.irco.com](http://www.irco.com).
