LOS ANGELES, Oct 15, 2009 (BUSINESS WIRE) -- KB Home (NYSE:KBH), one of America's premier homebuilders, has introduced a video that takes the viewer inside The Open Series(TM), KB Home's new line of affordable, flexible and energy efficient Built to Order(TM) homes. The video can be seen exclusively at www.kbhome.com, or on YouTube at www.youtube.com/kbhomemedia.

KB Home developed The Open Series following comprehensive research of homebuyers across the country about what they wanted most in their new homes. This research showed that buyers want an affordable, low monthly payment on a home that can reduce their monthly energy costs, plus the ability to customize their home by choosing their own floor plan, structural features and design touches that fit their style and budget. KB Home's Built to Order experience, coupled with the new designs from The Open Series, provides all this and more.

What's more, all homes from The Open Series are ENERGY STAR(R) qualified, which means homeowners can save up to 45% on energy costs compared to homes built as recently as the 1990s.

The Open Series home designs are now available across the country, in all of KB Home's markets. To watch the video and find a community featuring The Open Series near you visit www.kbhome.com. You can also call 888-KB HOMES for information.
