Littelfuse Wins Best of Industry Award from Electronics Maker

Receives Best Circuit Protection Award in the Technology & Product Innovation Category

CHICAGO, November 07, 2017 — Littelfuse, Inc., the global leader in circuit protection, today announced it was recognized with a 2017 Best Circuit Protection Components Award in the category of Technology & Product Innovation at the 3rd Annual EM Best of Industry Awards. The award was presented by Indian technical journal *Electronics Maker*, on September 14, 2017 at Pragati Maidan, New Delhi.

"It is an honor to receive the EM Best of Industry Award for circuit protection components," said Gursharan Singh Bhatia, Country Head – India. "All of us at Littelfuse are very proud of this acknowledgement from the design engineering community regarding the value of our circuit protection devices."

Award election criteria are based on the nominees having demonstrated leadership, product innovation, excellence in their field and effectiveness in addressing a need or defining a new market.

This year, *Electronics Maker* received more than 5,300 nominations for the awards. Winners were selected through online voting and expert judging. The voting was open to the public in addition to the *Electronics Maker*'s database of more than 30,000 subscribers.

Electronics Maker is one of the most popular technical journals in India, publishing technical articles, market trends, news, product information and a wide variety of other information relevant to the electronics industry. Well known in the industry for the past 20 years, *Electronics Maker*'s Best of Industry Awards reflect the organization's particular focus and ensure association with the core values of business success and innovation.

About Electronics Maker

Print circulation is 42,000 per month and online subscribers up to 30,000. Segments include test and measurement, electronics components, automotive electronics, consumer electronics, semiconductor, industrial, medical, telecommunication, security and power electronics. Readers include design engineers, researchers, scientists, industry managers, purchasing managers, application engineers, students, professors and distributors.

About Littelfuse

Founded in 1927, Littelfuse is the world leader in circuit protection with growing global platforms in power control and sensing. The company serves customers in the electronics, automotive and industrial markets with technologies including fuses, semiconductors, polymers, ceramics, relays and sensors. Littelfuse has over 10,000 employees in more than 40 locations throughout the Americas, Europe and Asia. For more information, please visit Littelfuse.com.
