FOR IMMEDIATE RELEASE

LMI AEROSPACE REPORTS EARNINGS FOR THE FOURTH QUARTER AND YEAR

ENDED DECEMBER 31, 2004

ST. LOUIS - March 31, 2005 - LMI Aerospace, Inc. (NASDAQ: LMIA), a leading

provider of assemblies, kits and detail sheet metal and machined components to the aerospace,

defense and technology industries, announced today that it earned net income of \$669,000 in

the fourth quarter of 2004 on a 21 percent increase in sales.

Sales for the sheet metal segment in the fourth quarter of 2004 were \$18.0 million, an

increase of 26 percent from the \$14.3 million reported in the fourth quarter of 2003. The

increase is due to higher sales of business jet components, with sales in the fourth quarter of

2004 to Gulfstream, Cessna and Bombardier of \$8.5 million, compared to \$2.0 million in 2003.

For the full year 2004, regional and business jet sales increased to \$31.3 million from \$18.5

million in 2003, because of new work awarded by Gulfstream and Bombardier, as well as

increased production rates on Gulfstream aircraft.

For the machining and technology segment, sales in the fourth quarter of 2004 were

\$4.5 million, up from \$4.2 million in the fourth quarter of 2003. For the full year 2004, sales

increased to \$16.3 million, compared to \$13.9 million in 2003. This sales increase was

attributable to higher sales of components for the Apache helicopter.

- more -

LMI reported net income in the fourth quarter of 2004 of \$669,000 or \$0.08 per diluted share, compared to a net loss of (\$1.6) million or (\$0.20) per diluted share in 2003. The fourth quarter of 2004 results included pre-tax charges of \$280,000 for prior year worker's compensation losses at two sheet metal plants and accounts receivable write-offs of \$167,000 at a California sheet metal plant. The fourth quarter of 2003 results included a pre-tax charge of \$1.9 million for obsolete or slow moving inventory, primarily in the sheet metal segment, to recognize the impact of reduced production rates of aircraft produced by aerospace customers.

Gross profit for the fourth quarter of 2004 was \$4.6 million or 20 percent of sales, an increase from \$1.0 million or 5.3 percent of sales in the fourth quarter 2003. Selling, general and administrative expenses were \$3.4 million in the fourth quarter of 2004, down from \$3.5 million in the fourth quarter of 2003. Other expenses in the fourth quarter 2004 included a \$100,000 loss on sales of assets, compared to a \$300,000 gain on the sale of securities in the 2003 quarter.

For the full year 2004, sales were \$85.9 million, up 13 percent from \$75.9 million in 2003. Gross profit was \$16.4 million or 19 percent of sales, compared to \$8.4 million or 11 percent of sales in 2003. Selling, general and administrative expenses increased from \$13.4 million in 2003 to \$13.9 million in 2004, the difference represented by an increase in restructuring costs of \$400,000.

LMI reported net income for the full year of 2004 of \$430,000, or \$0.05 per diluted share compared to a net loss of (\$4.0) million or (\$0.49) per diluted share for 2003. Results for 2004 and 2003 were negatively impacted by restructuring and moving costs of \$1.1 million and \$670,000 respectively. In addition, the 2003 loss included \$2.2 million of charges for obsolete

or slow moving inventory and professional fees as well as a \$300,000 gain on sales of securities.

Backlog at December 31, 2004, was approximately \$94.1 million, up from \$53.9 million at the end of the fourth quarter 2003. Approximately \$77.3 million of the December 31, 2004 backlog is deliverable within twelve months.

As previously announced in November 2004, LMI entered into a new lending agreement with Wells Fargo Business Credit, Inc. The agreement provides for an \$18.0 million revolving line of credit, subject to a borrowing base, plus equipment and real estate term loans of \$8.3 million. As of December 31, 2004, the Company had \$10.6 million outstanding on the revolving line of credit with \$3.3 million of additional availability. The Company believes that the new credit agreement provides sufficient flexibility to fund the working capital needs resulting from organic growth as well as the ability to make capital expenditures as needed.

"Our operating results in the fourth quarter of 2004 confirmed the improving trend which began in the second quarter of this year," said Ronald Saks, President and CEO of LMI Aerospace. "Increasing revenue from our business jet and commercial airplane markets together with a stabilization of demand for military products provides a firm foundation for increased revenues in 2005."

"Based on planned production rate increases for certain business jets and commercial airplane models, our current forecast for 2005 is for sales of \$98 million to \$105 million, gross margins of 21 to 24 percent, selling, general and administrative expense of \$14.5 million, interest expense of approximately \$1.8 million and a tax rate of 37-38 percent," Saks said.

"We expect that revenues and gross margins will expand as 2005 progresses, with results in the

first quarter of 2005 at the lower ends of forecasted ranges. Based on existing contracts with our customers and anticipated production rates in 2006, we expect sales for current products in 2006 to increase by an additional 5-10 percent. Further guidance for 2006 will be provided in July, 2005."

LMI also announced that in the first quarter of 2005, it was awarded a long term contract with Sikorksy Aircraft, a subsidiary of United Technologies, Inc., for a new work package through 2009. LMI will supply Sikorsky with structural sheet metal components for its BLACK HAWKTMhelicopter variants. At current production rates, this agreement should add substantially to LMI's sales of helicopter components. Revenues will be earned for a portion of 2005, but the full year impact will be in 2006.

As we look forward to the balance of 2005 and 2006, we are optimistic that LMI will continue to be recognized by our customers for the high quality of its products and services and its ability to provide a wide range of complex products and distribution services. Our business jet and commercial airplane markets continue to improve, and military product demand is expected to increase as well. Current business risks include the increasing cost of raw materials not under long term contract, the possible lack of availability of aluminum and steel, and increasing competition from suppliers in low labor cost countries. Our supply chain management group continues to expand, and will be responsible to balance our production between domestic and foreign sources.

LMI Aerospace, Inc. is a leading supplier of quality components to the aerospace and technology industries. The Company operates eleven facilities that fabricate, machine, finish and integrate formed, close tolerance aluminum and specialty alloy components for commercial,

corporate, regional and military aircraft, laser equipment used in the semiconductor and medical industries, and for commercial sheet metal industries.

This press release includes forward-looking statements related to LMI Aerospace's outlook for 2005 and future periods, which are based on current management expectations. Such forward-looking statements are subject to various risks and uncertainties, many of which are beyond the control of LMI Aerospace, Inc. Actual results could differ materially from the forward-looking statements as a result, among other things, of the factors detailed from time to time in LMI Aerospace's filings with the Securities and Exchange Commission. Please refer to the Risk Factors contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2004, for more details.
