LMI Aerospace Receives 2017 Boeing Excellence In Advocacy Award

Boeing previously recognized LMI for its advocacy efforts in 2016 and 2015

ST. LOUIS, April 12, 2018 (GLOBE NEWSWIRE) -- LMI Aerospace has received a Boeing Excellence in Advocacy Award for 2017. The Boeing Company issues the award annually to recognize suppliers who have achieved superior performance in outreach activities to help government policymakers better understand aerospace issues and promote legislation that supports aerospace companies. This is LMI's third consecutive year to receive the award, which Boeing introduced in 2015.

"LMI Aerospace is proud to be part of a coordinated voice for the collective success of the aerospace industry," said Amy Horton, LMI Aerospace director of Corporate Communications. "In sharing LMI's story with key stakeholders, our leaders help raise awareness and shape policy significant to our industry's long-term vitality.

Boeing suppliers are uniquely qualified to speak on behalf of key business issues, which strengthens awareness among community leaders, elected officials and decision-makers.

"With ever-growing global competition, lending our collective voice to advance shared interests is an integral part of our jobs," said Jenette Ramos, senior vice president, Supply Chain & Operations. "Boeing and suppliers like LMI Aerospace have shown — and will continue to demonstrate — that together, we have the ability to shape aerospace policy, and positively impact the economy, employment and communities."

The Boeing Company and its supplier network encourage policy awareness in support of the aerospace industry and manufacturing businesses across the United States.

About LMI Aerospace — A Member of the Sonaca Group

LMI Aerospace is a leading supplier of structural assemblies, kits and components and provider of engineering services to the commercial, business and regional, and military aerospace markets. Manufacturing more than 40,000 products for a variety of platforms and providing turnkey engineering capabilities to support aircraft lifecycles, LMI offers complete, integrated solutions in aerostructures, engineering and program management. Headquartered in St. Louis, LMI has 19 locations across the United States plus Mexico and Sri Lanka. LMI is a member of the Sonaca Group, a global aerostructures company headquartered in Gosselies, Belgium. For more information, visit: www.lmiaerospace.com and www.sonaca.com.
