This document contains forward-looking statements within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. When used in this press release, the words "believes," "expects," "plans," "may," "will," "would," "could," "should," "anticipates," "estimates," "project," "intend" or "outlook" or other variations of these words or other similar expressions are intended to identify forward-looking statements and information. In addition, Loral Space & Communications Inc. or its representatives have made or may make forward-looking statements, orally or in writing, which may be included in, but are not limited to, various filings made from time to time with the Securities and Exchange Commission, and press releases or oral statements made with the approval of an authorized executive officer of the company. Actual results may differ materially from anticipated results as a result of certain risks and uncertainties which are described as "Risk Factors" and in the "Commitments and Contingencies" note to our financial statements in the current Form 10-Q, filed today, and in Loral's most recent annual report on Form 10 K. The reader is specifically referred to these documents, as well as the company's other filings with the Securities and Exchange Commission. Risks and uncertainties include but are not limited to (1) risks associated with financial factors and our investment in Telesat Canada, including the global economic downturn, our history of losses, financial covenants in SS/L's credit agreement, the structure of our investment in Telesat, Telesat's leverage and volatility in Canadian/U.S. exchange rates; (2) risks associated with satellite manufacturing, including competition, contractual risks, creditworthiness of customers, performance of suppliers and management of our factory and personnel; (3) risks associated with satellite services, including dependence on large customers, launch delays and failures, in-orbit failures and competition; (4) regulatory risks, such as the effect of U.S. export control and economic sanction laws and U.S., Canadian and foreign government regulation of satellite services; and (5) other risks, including possible conflicts of interest with our significant shareholder, litigation and market risks. The foregoing list of important factors is not exclusive. Furthermore, Loral operates in an industry sector where securities values may be volatile and may be influenced by economic and other factors beyond Loral's control.
