LAM RESEARCH CORPORATION

PROXY STATEMENT FOR 1996 ANNUAL MEETING OF STOCKHOLDERS

INFORMATION CONCERNING SOLICITATION AND VOTING

GENERAL

The enclosed proxy is solicited on behalf of Lam Research Corporation (the "Company") for use at the Annual Meeting of Stockholders (the "Annual Meeting") to be held Thursday, October 31, 1996 at 10:00 a.m., local time, or at any adjournment thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Stockholders. The Annual Meeting will be held at the principal executive offices of the Company at 4650 Cushing Parkway, Fremont, California 94538. The Company's telephone number at that location is (510) 659-0200.

These proxy solicitation materials will be mailed on or about September 30, 1996 to all stockholders entitled to vote at the meeting. A copy of the Company's 1996 Annual Report to Stockholders accompanies this Proxy Statement.

RECORD DATE AND PRINCIPAL SHARE OWNERSHIP

Stockholders of record at the close of business on September 2, 1996 are entitled to receive notice of and to vote at the Annual Meeting. At the record date 30,298,633 shares of the Company's Common Stock were issued and outstanding.

REVOCABILITY OF PROXIES

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before its use by delivering to the Company a written notice of revocation or a duly executed proxy bearing a later date or by attending the Annual Meeting and voting in person. Attending the Annual Meeting in and of itself may not constitute a revocation of a proxy.

VOTING AND SOLICITATION

Every stockholder voting in the election of directors may cumulate such stockholder's votes and give one candidate a number of votes equal to the number of directors to be elected (five at this meeting) multiplied by the number of shares held by such stockholder, or distribute the stockholder's votes on the same principle among as many candidates as the stockholder deems appropriate, provided that votes cannot be cast for more than five candidates. However, no stockholder shall be entitled to cumulate votes unless the candidate's name has been placed in nomination prior to the voting. On all other matters, each share has one vote.

Votes cast by proxy or in person at the Annual Meeting will be tabulated by the Inspector of Elections (the "Inspector") with the assistance of the Company's transfer agent. The Inspector will also determine whether or not a quorum is present. Except with respect to the election of directors where cumulative voting is involved and except in certain other specific circumstances, the affirmative vote of a majority of shares present in person or represented by proxy at a duly held meeting at which a quorum is present is required under Delaware law for approval of proposals presented to stockholders. In general, Delaware law also provides that a quorum consists of a majority of the shares entitled to vote and present or represented by proxy at the meeting. The Inspector will treat abstentions as shares that are present and

entitled to vote for purposes of determining the presence of a quorum but will not treat abstentions as votes in favor of approving any matter submitted to the stockholders for a vote. Any proxy which is returned using the form of proxy enclosed and which is not marked as to a particular item will be voted for the election of directors, for approval of the amendments of the 1984 Purchase Plan, for ratification of the appointment of the designated independent auditors and, as the case may be with respect to any items not marked, as the proxy holders deem advisable, on other matters that may come before the meeting. If a broker indicates on the enclosed proxy or its substitute that it does not have discretionary authority as to certain shares to vote on a particular matter ("broker non-votes"), those shares will not be considered as present with respect to that matter. The Company believes that the tabulation procedures to be followed by the Inspector are consistent with the general statutory requirements in Delaware concerning voting of shares and determination of a quorum.

The cost of soliciting proxies will be borne by the Company. The Company has retained the services of Beacon Hill Partners, Inc. to aid in the solicitation of proxies from bankers, bank nominees and other institutional owners. The Company estimates that it will pay Beacon Hill a fee not to exceed \$5,000 for its services and will reimburse Beacon Hill for certain out-of-pocket expenses. The Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation material to such beneficial owners. Proxies may also be solicited by certain of the Company's directors, officers and regular employees, without additional compensation, personally or by telephone or telegram.

DEADLINE FOR RECEIPT OF STOCKHOLDER PROPOSALS FOR 1997 ANNUAL MEETING

Proposals of stockholders of the Company which are intended to be presented by such stockholders at the 1997 Annual Meeting of Stockholders must be received by the Company no later than May 26, 1997 in order to have them included in the proxy statement and form of proxy relating to that meeting.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

NOMINEES

A board of five directors is to be elected at the Annual Meeting. The bylaws of the Company provide that the number of directors shall be fixed at five. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the Company's five nominees named below, all of whom are presently directors of the Company. In the event that any nominee of the Company is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who shall be designated by the present Board of Directors to fill the vacancy. In the event that additional persons are nominated for election as directors, the proxy holders intend to vote all proxies received by them in such a manner in accordance with cumulative voting as will assure the election of as many of the nominees listed below as possible, and in such event, the specific nominees to be voted for will be determined by the proxy holders. The Company is not aware of any nominee who will be unable or will decline to serve as a director. STOCK PLANS

The Company's Amended 1984 Incentive Stock Option Plan (the "1984 Option Plan") and the Amended 1991 Incentive Stock Option Plan (the "1991 Option Plan") (the 1984 Option Plan, and the 1991 Option Plan are collectively referred to as the "Option Plans"), permit the grant of both "incentive stock options" within the meaning of Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"), as well as nonstatutory stock options. Only employees (including employees of any company in which the Company owns directly or indirectly at least 50 percent of the voting shares) may receive incentive stock options, while employees, paid consultants and, in certain limited instances, outside directors may receive nonstatutory options.

The Company repriced stock options on January 15, 1996 to \$33.625 per share. All employees, including executives, holding options with an exercise price higher than \$33.625 were permitted to cancel such options and have new options issued at the lower price. All repriced options are subject to a new four-year vesting period, beginning on the date of reissue.

A total of 7,147,781 shares of Common Stock have been reserved for issuance under the Option Plans. As of September 2, 1996, options to purchase 3,435,040 shares had been exercised (of which 4,240 shares were subsequently repurchased), options to purchase 2,869,245 shares were outstanding at an average exercise price of \$28.02 per share, and 819,419 shares remained available for future grant under the Option Plans. During fiscal 1996 the Company granted options to purchase 316,000 shares (140,000 of which were reissued pursuant to the January 15, 1996 repricing) to all current executive officers as a group (eleven persons) at an average exercise price of \$33.90 (\$56.17 prior to the repricing), options to purchase 24,000 shares to all current directors who are not executive officers as a group (four persons) at an average exercise price of \$45.00, and options to purchase 1,655,448 shares (791,488 of which were reissued pursuant to the January 15, 1996 repricing) to all current employees as a group (excluding executive officers and directors) at an average exercise price of \$34.72 (\$53.79 prior to the repricing).

In 1984 the Company adopted the 1984 Purchase Plan. The 1984 Purchase Plan is implemented by periodic six-month offerings. As of September 2, 1996, approximately 965,427 shares have been issued

under the 1984 Purchase Plan. The 1984 Purchase Plan is administered by the Board of Directors of the Company or by a committee appointed by the Board. Employees of the Company or any majority owned subsidiary, including officers, are eligible to participate if they are customarily employed by the Company for at least 20 hours per week and more than five months per calendar year. The 1984 Purchase Plan currently permits eligible employees to purchase Common Stock through payroll deductions (which may not exceed ten percent of an employee's base compensation) at 85 percent of the fair market value at the beginning or at the end of each offering period, whichever is lower. Employees may end their participation in an offering at any time during the offering period and participation ends automatically on termination of employment with the Company.

In 1995 the Company adopted a Performance-Based Restricted Stock Plan (the "Restricted Stock Plan"). The Restricted Stock Plan was implemented on January 1, 1996. As of September 2, 1996, approximately 39,624 shares (of the 150,000 shares reserved for issuance) had been issued under the Restricted Stock Plan. The Restricted Stock Plan is administered by the Board of Directors or by a committee appointed by the Board. The Restricted Stock Plan is designed to reward executives based on achievement of certain predetermined goals, which include overall corporate results, business unit performance, and certain qualitative factors such as organization and management development. These goals are formula-based so that 80% of the award is made on performance against financial objectives. Once performance has been measured against objectives, a stock award is granted based on the fair market value of the Company's stock at the close of the quarter. The award vests 100% at the end of five years. If an executive leaves the Company during the five year period following the date of award, any unvested shares are forfeited.

See Proposal No. 2--"Amendment of the 1984 Employee Stock Purchase Plan."

(1) Includes options to purchase shares which were repriced on January 15, 1996, replacing options priced higher than \$33.625 (See Summary Compensation Table, footnotes 6 and 7). The repricing was offered to all option holders who were not outside directors.

(2) The "potential realizable value" shown represents the potential gains based on annual compound stock price appreciation of 5 percent and 10 percent from the date of grant through the full 10-year option term, net of exercise price, but before taxes associated with exercise. The amounts represent certain assumed rates of appreciation only, based on the Securities and Exchange Commission rules. Actual gains, if any, on stock option exercises are dependent on the future performance of the Common Stock, overall market conditions and the option holders' continued employment through the vesting period. The amounts reflected in this table may not necessarily be achieved and do not reflect the Company's estimate of future stock price growth.

The following table provides certain information concerning the exercise of options to purchase the Company's Common Stock in the fiscal year ended June 30, 1996 and the unexercised options held as of June 30, 1996 by the persons named in the Summary Compensation Table:

EMPLOYMENT CONTRACTS AND RETIREMENT BENEFITS

In July 1996, the Company signed an employment agreement with Roger D. Emerick, Chairman of the Board and Chief Executive Officer. The agreement, which became effective as of July 1, 1996, provides for Mr. Emerick to serve as Chief Executive Officer of the Company for a period of two (2) years, which period extends automatically (but not beyond June 30, 2002) unless terminated by the Company or Mr. Emerick with at least 180 days advance notice. In the event Mr. Emerick ceases to serve as Chief Executive Officer of the Company, Mr. Emerick will serve as a consultant to the Company through June 30, 2002. The agreement provides for an initial annual base salary of \$621,857, which will be reviewed at least annually. The agreement also provides for an annual performance bonus of up to 50% of base salary based on attainment of certain performance targets established by the Company's Board of Directors. For services as a consultant, the Company will pay Mr. Emerick a monthly consulting fee of \$33,333. Mr. Emerick also participates in all of the incentive compensation plans and programs generally available to the senior management of the Company as well as any employee benefit plan maintained by the Company for its employees. In the event Mr. Emerick's employment is involuntarily terminated without cause, he will be entitled to receive a lump sum payment equal to his base pay through June 30, 1998 (if the termination occurs prior to that date), his targeted bonus amount, plus an amount equal to the consulting fee for the period beginning on the date of termination and ending June 30, 2002, subject to a

maximum of 48 months, as well as certain other benefits. In addition, upon involuntary termination without cause or a change in control of the Company, the unvested portion of Mr. Emerick's stock options and restricted stock will automatically be accelerated in full so as to become fully vested. For a period of 24 months following Mr. Emerick's termination with the Company, Mr. Emerick may not perform services for any direct competitor of the Company and may not solicit any of the Company's employees to become employed by any other business enterprise.

The Board of Directors also approved a plan in July 1996, allowing executives who retire from the Company to continue to participate in the Company's group medical and dental plans after retirement.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

In March 1994 the Board of Directors approved a fully secured loan in the amount of \$100,000 plus applicable interest to Alexander Voshchenkov, Vice President and Chief Technical Officer. In November 1994, Dr. Voshchenkov borrowed \$100,000 from the Company pursuant to a promissory note bearing interest at 6.34% per annum. As of November 1995, \$100,000 plus accrued interest was paid in full.

In April 1996, Roger D. Emerick, Chairman of the Board and Chief Executive Officer, borrowed \$600,000 from the Company pursuant to a promissory note bearing interest at 5.05% per annum. As of June 30, 1996, \$600,000 plus accrued interest remains outstanding.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

Osamu Kano, Director of the Company since 1987, was a member of the Compensation Committee in fiscal 1993 and 1994. Mr. Kano is currently the Chairman of Lam Research Co., Ltd. in Japan, a subsidiary of the Company, and served as the Company's Senior Vice President of Japan Operations from 1987 to June 1991. As of August 18, 1994, Mr. Kano became a member of the Audit Committee and no longer serves on the Compensation Committee.

Jack R. Harris, Director of the Company since 1982, is a member of the Compensation Committee. Mr. Harris is the Chairman, Chief Executive Officer, President and Chief Financial Officer of Optical Specialties, Inc. ("OSI"). The Company has invested a total of \$500,000 to purchase Series A Preferred Stock and Series E Preferred Stock of OSI in two transactions. Other outside investors also participated in the transactions. The latter of the transactions took place on December 14, 1994.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee (the "Committee") of the Board of Directors, comprised of three non-employee directors, determines and administers the Company's executive compensation policies and programs.

COMPENSATION POLICIES

One of the Committee's primary goals in setting compensation policies is to maintain competitive, progressive programs to attract, retain and motivate high caliber executives, foster teamwork and maximize the long-term success of the Company by appropriately rewarding such individuals for their achievements. Another goal is to provide an incentive to executives to focus efforts on long-term strategic goals for the Company by closely aligning their financial interests with stockholder interests. To attain these goals, the Committee has designed the Company's executive compensation program to include base salary, annual incentives and long-term incentives.

In formulating and administering the individual elements of the Company's executive compensation program, the Committee emphasizes planning, implementing and achieving long-term objectives and strives to use prudent judgment in establishing performance objectives, evaluating performance and determining actual incentive awards.

The Committee believes that the Company's executive compensation programs have met these objectives. The Company has been able to attract and retain the executive talent necessary to support a corporation which has increased its revenues by more than 381% percent over the last four years, while providing higher than average stockholder returns (see the Performance Graph on page 15).

COMPENSATION COMPONENTS

BASE SALARY

The Committee establishes the base salaries of executive officers after review of relevant data of other executives with similar responsibilities from published industry reports and surveys of similarly situated companies. Accordingly, the Committee strives to maintain the Company's annual executive salaries at levels competitive with the market average base salary of executive officers in similar positions. The market is comprised of similarly sized high technology companies within and outside the Company's industry. In addition, a large portion of each executive officer's compensation will be annual incentives in the form of a cash bonus, provided certain target performance objectives are met.

ANNUAL INCENTIVES

The more aggressive incentive bonus levels for executives are intended to provide the appropriate elements of variability and risk. Bonus payments are tied specifically to targeted corporate performance. The Committee will establish a base bonus amount, determined through review of a competitive market survey for executives at similar levels, which will be incrementally reduced if the Company does not meet its targeted performance or increased if the Company exceeds its targeted performance. There is no minimum or maximum percentage by which the bonus can be reduced or increased.

LONG-TERM INCENTIVES

STOCK OPTIONS

The Committee grants stock options to focus the executive's attention on the long-term performance of the Company and on maximizing stockholder value. The grant of stock options is closely tied to individual executive performance. The Committee grants such stock options after a review of various factors, including the executive's potential contributions to the Company, current equity ownership in the Company and vesting rates of existing stock options, if any. Stock options are granted with an exercise price equal to the current fair market value of the Company's stock and utilize vesting periods to encourage retention of executive officers. Because of the direct benefit executive officers receive through improved stock performance, the Committee believes stock options serve to align the interests of executive officers closely with those of other stockholders.

RESTRICTED STOCK

Restricted stock awards are granted to executives under the Restricted Stock Plan, which was approved by the Company's stockholders in 1995. The award of restricted stock is based upon the Company's performance against quarterly targets. Because the restricted stock does not vest until five years after the date of the award, the Restricted Stock Plan is expected to serve as a retention tool, as well as a means of aligning executive and stockholder interests.

DEFERRED COMPENSATION PLAN

Another component of the Company's executive compensation program is the Executive Deferred Compensation Plan (the "Deferred Plan"), a voluntary, non-tax-qualified, deferred compensation plan that encourages officers to save for retirement. Under the Deferred Plan, participants are entitled to defer compensation until retirement, death, other termination of employment, or until specified dates. Participants receive a fixed rate yield based on the average annual interest rate of ten-year United States Treasury

Notes for the previous ten years. An enhanced yield of up to 115 percent of the fixed rate yield will be payable in the event of death, retirement under certain circumstances, and termination of employment after plan participation for a specified number of years. Because the benefits of the Deferred Plan increase with each year of participation, offering the Deferred Plan to executives encourages them to stay with the Company.

STOCK OPTION REPRICING

In January 1996, the Compensation Committee authorized the reduction of the exercise price under options granted to employees, including executives, which had an exercise price higher than the current market price of the Company's Common Stock at the time of the repricing (\$33.625). The options granted to employees were designed to provide incentive to the employees to work to achieve long term success for the Company. The decline in the market price of the Company's Common Stock since the date the options were granted frustrated the purpose of the options and the Committee deemed it to be in the best interests of the Company to allow the reissue of the options to reduce the exercise price to the market price at the time of the reissue. All repriced options are subject to a new four-year vesting period, beginning on the date of reissue.

COMPENSATION OF CHIEF EXECUTIVE OFFICER

The Committee bases compensation of the Chief Executive Officer, Mr. Roger D. Emerick, on the policies and procedures described above. In determining Mr. Emerick's base salary and bonus, the Committee examined compensation levels for other chief executive officers in high technology firms within and outside the industry. The Committee compared this information to the relevant performance of such firms relative to the Company's performance. Mr. Emerick's fiscal 1996 compensation arrangement, which included the grant of 60,000 stock options (30,000 of which were reissued stock options pursuant to the January 15, 1996 repricing), reflects the Company's strong performance in the 1996 fiscal year, in which the Company's earnings increased to \$141.1 million from \$89.2 million and revenue grew to \$1276.9 million from \$810.6 million in the prior year. The Committee recognizes that the Company's growth was the result of strategic planning adopted and implemented by Mr. Emerick and his management staff over a number of years. Mr. Emerick's current employment agreement and compensation arrangement with the Company also reflects the Company's desire to retain and motivate him with long-term incentives. In addition to the grant of 60,000 stock options and participation in the Deferred Plan, Mr. Emerick received 3,318 shares of restricted stock under the Restricted Stock Plan. Mr. Emerick also has a ten-year deferred compensation arrangement with the Company, which provides for an increasing portion of compensation to be paid to Mr. Emerick each year in which the Company is profitable. (See Summary Compensation Table, footnote 7.)

EFFECT OF SECTION 162(m) OF THE INTERNAL REVENUE CODE

Section 162(m) of the Code generally limits the corporate deduction for compensation paid to certain executive officers to \$1 million, unless the compensation is performance based. The Committee has carefully considered the potential impact of this tax code provision on the Company and has concluded in general that the best interests of the Company and the stockholders will be served if certain of the Company's stock-based long-term incentives qualify as performance-based compensation within the meaning of the Code. It is the Committee's intention that, so long as it is consistent with its overall compensation objectives, virtually all executive compensation will be deductible for federal income tax purposes.

PROPOSAL NO. 2
AMENDMENT OF THE 1984 EMPLOYEE STOCK PURCHASE PLAN

In July 1996, the Board of Directors approved an amendment to the 1984 Employee Stock Purchase Plan (the "1984 Purchase Plan") increasing the number of shares reserved thereunder from 1,337,500 to 1,687,500. The stockholders are being asked to approve this amendment at the Annual Meeting.

In 1984 the Company adopted the 1984 Purchase Plan and reserved 112,500 shares for issuance under said plan. In November 1987, the Board of Directors amended the 1984 Purchase Plan to increase the number of shares reserved thereunder to 262,500, which amendment was approved by stockholders in February 1988. In September 1989, the Board of Directors amended the 1984 Purchase Plan to increase the number of shares authorized thereunder to 487,500 which amendment was approved by stockholders in November 1989. In July 1991, the Board of Directors amended the 1984 Purchase Plan to increase the number of shares authorized thereunder to 862,500 which amendment was approved by stockholders in November 1991. In July 1993, the Board of Directors amended the 1984 Purchase Plan to increase the number of shares authorized thereunder to 1,087,500, which amendment was approved by stockholders in October 1993. In August 1994, the Board of Directors amended the 1984 Purchase Plan to increase the number of shares authorized thereunder to 1,187,500, which amendment was approved by the stockholders in October 1994. In August 1995, the Board of Directors amended the 1984 Employee Stock Purchase Plan to increase the number of shares authorized thereunder to 1,337,500, which amendment was approved by the stockholders in October 1995.

PURPOSE

The purpose of the 1984 Purchase Plan is to provide employees (including officers) of the Company who participate in the 1984 Purchase Plan with an opportunity to purchase Common Stock of the Company through payroll deductions.

ADMINISTRATION

The 1984 Purchase Plan may be administered by the Board of Directors or a committee appointed by the Board, and is currently being administered by the Board of Directors. All questions of interpretation or application of the 1984 Purchase Plan are determined in the sole discretion of the Board of Directors or its committee, and its decisions are final and binding upon all participants. Members of the Board of Directors who are eligible employees are permitted to participate in the 1984 Purchase Plan, provided that such members may not vote on any matter affecting administration of the 1984 Purchase Plan or serve on a committee formed to administer the 1984 Purchase Plan. No charges for operations or other costs may be made against the payroll deductions of a participant in the 1984 Purchase Plan. Members of the Board of Directors receive no additional compensation for their services in connection with the administration of the 1984 Purchase Plan.

ELIGIBILITY

Any regular employee (including an officer) who is employed by the Company (or by any of its majority-owned subsidiaries) for at least 20 hours per week and more than five months in a calendar year is eligible to participate in the 1984 Purchase Plan, provided that such employee is employed on the commencement date of the offering period and subject to certain limitations imposed by Section 423(b) of the Code. As of September 2, 1996, approximately 4,500 employees were eligible to participate in the 1984 Purchase Plan; 2,456 employees are participating in the offering period ending September 22, 1996.

Notwithstanding the foregoing, no employee shall be permitted to subscribe for shares under the plan if, immediately after the grant of the option, the employee would own five percent or more of the voting stock or value of all classes of stock of the Company or its majority-owned subsidiaries (including stock which may be purchased through subscriptions under the plan or pursuant to any other options), nor shall any employee be granted an option which would permit his or her rights to purchase stock under all employee stock purchase plans of the Company to accrue at a rate which exceeds \$25,000 of fair market value of such stock (determined at the fair market value of the shares at the time the option is granted) for each calendar year in which such option is outstanding at any time.

OFFERING DATES

The 1984 Purchase Plan is implemented by one offering during each six-month period of the plan. Since its adoption in 1984, there have been 20 six-month offering periods. The twenty-first offering period will begin on September 25, 1996. The Board of Directors has the power to alter the duration of the offering periods without stockholder approval.

PARTICIPATION IN THE PLAN

Eligible employees become participants in the 1984 Purchase Plan by delivering to the Company a subscription agreement authorizing payroll deductions prior to the applicable offering date, or at such other time as may be determined by the Board of Directors for all eligible employees with respect to a given offering. An employee who becomes eligible to participate in the 1984 Purchase Plan after the commencement of an offering may not participate in the plan until the commencement of the next offering.

PURCHASE PRICE

The purchase price per share at which shares are sold under the 1984 Purchase Plan is the lower of 85 percent of the fair market value of a share of Common Stock on the date of commencement of the offering period or 85 percent of the fair market value of a share of Common Stock on the last day of the six-month offering period. For so long as the Company's Common Stock is listed on the Nasdaq National Market, the fair market value of the Common Stock on a given date shall be based upon the mean of the bid and asked price as of such date.

PAYMENT OF PURCHASE PRICE; PAYROLL DEDUCTIONS

The purchase price of the shares is accumulated by payroll deductions during the offering period. The deductions may not exceed ten percent of a participant's eligible compensation, which is defined in the 1984 Purchase Plan to include all regular straight time salary, exclusive of any payments for overtime, bonuses, commissions or incentive compensation. A participant may discontinue his or her participation in the 1984 Purchase Plan or may decrease, but not increase, the rate of payroll deductions at any time during the offering period. Payroll deductions shall commence on the first payday following the commencement date of the offering and shall continue at the same rate until the end of the offering period unless sooner terminated as provided in the 1984 Purchase Plan.

All payroll deductions are credited to the participant's account under the 1984 Purchase Plan and are deposited with the general funds of the Company. To the extent that an employee's payroll deductions exceed the amount required to purchase the shares subject to option, such excess is refunded to the employee without interest. All payroll deductions received or held by the Company may be used by the Company for any corporate purpose.

PURCHASE OF STOCK; EXERCISE OF OPTION

By executing a subscription agreement to participate in the 1984 Purchase Plan, each employee is in effect granted an option to purchase shares of Common Stock. The maximum number of shares placed under option to a participant in an offering shall not be allowed to accrue at a rate which exceeds \$25,000 of the fair market value of such stock (determined at the time such option is granted) for each calendar year in which the option is outstanding. See "Payment of Purchase Price; Payroll Deductions" for limitations on payroll deductions. If the number of shares which would otherwise be placed under option at the beginning of an offering period exceeds the number of shares then available under the 1984 Purchase Plan, a pro rata allocation of the shares remaining shall be made in as equitable a manner as is practicable. Unless an employee withdraws from participation in the plan (See "Withdrawal") or his or her participation is otherwise discontinued (See "Termination of Employment"), the employee's option for the purchase of shares will be exercised automatically at the end of the offering period for the maximum number of shares at the applicable price.

WITHDRAWAL

While each participant in the 1984 Purchase Plan is required to sign a subscription agreement authorizing payroll deductions, the participant's interest in a given offering may be terminated in whole, but not in part, by signing and delivering to the Company a notice of withdrawal from the 1984 Purchase Plan. Such withdrawal may be elected at any time prior to the end of the applicable six-month offering period. Any withdrawal by the employee of accumulated payroll deductions for a given offering automatically terminates the employee's interest in that offering. A participant's withdrawal from an offering does not have any effect upon such participant's eligibility to participate in subsequent offerings under the 1984 Purchase Plan except for officers subject to Section 16 of the Securities Exchange Act of 1934, as amended ("Securities Exchange Act").

In effect, therefore, the employee is given an option which he or she may or may not exercise at the end of the six-month offering period. By executing the subscription agreement to choose to participate in the 1984 Purchase Plan, the employee does not become obligated to make the stock purchase; rather, the subscription agreement is merely an election by the employee to have shares placed under option to him or her. Unless the employee's participation is discontinued or his or her payroll deductions withdrawn, however, the option for the purchase of shares will be exercised automatically at the end of the offering period, and the maximum number of full shares subject to option which are purchasable with the employee's accumulated payroll deductions will be purchased for the employee at the applicable price.

TERMINATION OF EMPLOYMENT

Termination of a participant's continuous status as an employee for any reason, including retirement or death, cancels his or her participation in the 1984 Purchase Plan immediately. In such event, the payroll deductions credited to the participant's account will be returned to such participant or, in the case of death, to the person or persons entitled thereto as specified by the employee in the subscription agreement. Failure to remain in the continuous employ of the Company for at least 20 hours per week during the offering period will be deemed to be a withdrawal from the 1984 Purchase Plan.

CAPITAL CHANGES

In the event any change is made in the capitalization of the Company, such as stock splits or stock dividends, which results in an increase or decrease in the number of shares of Common Stock outstanding without receipt of consideration by the Company, appropriate adjustments will be made by the Company in the shares subject to purchase and in the purchase price per share, subject to any required action by the stockholders of the Company.

In the event of the liquidation or dissolution of the Company, the offering period shall terminate automatically unless otherwise provided by the Board. In the event of the merger of the Company with another corporation or the sale of substantially all of the assets of the Company, the 1984 Purchase Plan provides that each outstanding option shall be assumed or an equivalent option shall be substituted by the successor corporation. If the successor corporation does not agree to assume the option or to substitute an equivalent option, the Board shall provide for the optionee to have the right to exercise the option as to all the optioned stock, including the shares as to which the option would not otherwise be exercisable.

NONASSIGNABILITY

No rights or accumulated payroll deductions of an employee under the 1984 Purchase Plan may be pledged, assigned or transferred for any reason, and any such attempt may be treated by the Company as an election to withdraw from the 1984 Purchase Plan.

REPORTS

Individual accounts will be maintained for each participant in the 1984 Purchase Plan. Each participant shall receive as promptly as practicable after the end of the six-month offering period a report of his or her account setting forth the total amount of payroll deductions accumulated, the per share purchase price, the number of shares purchased and the remaining cash balance, if any.

AMENDMENT AND TERMINATION OF THE PLAN

The Board of Directors may at any time amend or terminate the 1984 Purchase Plan, except that such termination shall not affect options previously granted nor may any amendment make any change in an option granted prior thereto which adversely affects the rights of any participant. No amendment may be made to the 1984 Purchase Plan without prior approval of the stockholders of the Company if such amendment would increase the number of shares reserved under the 1984 Purchase Plan, materially

modify the eligibility requirements under the 1984 Purchase Plan or materially increase the benefits which may accrue to participants under the 1984 Purchase Plan. In addition, to the extent necessary to comply with Rule 16b-3 under the Securities Exchange Act, or with Section 422 of the Code, (or any other applicable law or regulation), the Company shall obtain stockholder approval of any amendment of the 1984 Purchase Plan in such a manner and to such a degree as required. In any event the 1984 Purchase Plan will terminate in 2004.

CERTAIN UNITED STATES FEDERAL INCOME TAX INFORMATION

The 1984 Purchase Plan, and the right of participants to make purchases thereunder, is intended to qualify under the provisions of Sections 421 and 423 of the Code. Under these provisions, no income will be taxable to a participant at the time of grant of the option or purchase of shares. Upon disposition of the shares, the participant will generally be subject to tax. If the shares have been held by the participant for more than two years after the first day of the offering period and more than one year after the purchase date of the shares, the lesser of (a) the excess of the fair market value of the shares at the time of such disposition over the purchase price of the shares, or (b) 15% of the fair market value of the shares on the first day of the offering period, will be treated as ordinary income, and any further gain upon such disposition will be treated as long-term capital gain. If the shares are disposed of before the expiration of the holding periods described above, the excess of the fair market value of the shares on the last day of the offering period over the purchase price will be treated as ordinary income, and any further gain or any loss on such disposition will be capital gain or loss. Different rules may apply with respect to optionees subject to Section 16(b) of the Securities Exchange Act. The Company is not entitled to a deduction for amounts taxable to a participant, except to the extent of ordinary income reported by participants upon disposition of shares prior to the expiration of the holding periods described above.

THE FOREGOING IS ONLY A SUMMARY OF THE UNITED STATES FEDERAL INCOME TAX CONSEQUENCES OF THE 1984 PURCHASE PLAN TO PARTICIPANTS AND THE COMPANY AND DOES NOT PURPORT TO BE COMPLETE. REFERENCE SHOULD BE MADE TO THE APPLICABLE PROVISIONS OF THE CODE. IN ADDITION, THE SUMMARY DOES NOT DISCUSS THE INCOME TAX CONSEQUENCES OF A PARTICIPANT'S DEATH OR THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH THE PARTICIPANT MAY RESIDE. EACH PARTICIPANT SHOULD CONSULT HIS OR HER OWN TAX ADVISOR CONCERNING APPLICABILITY OF THESE TAX LAWS.

RESTRICTION ON RESALE

Certain officers and directors of the Company may be deemed to be "affiliates" of the Company as that term is defined under the Securities Act of 1933, as amended (the "Securities Act"). Common Stock acquired under the 1984 Purchase Plan by an affiliate may only be reoffered or resold pursuant to an effective registration statement or pursuant to Rule 144 under the Securities Act or another exemption from the registration requirements of the Securities Act.

VOTE REQUIRED

Approval of the amendment increasing shares under the 1984 Purchase Plan will require the affirmative vote of a majority of the outstanding shares of Common Stock present or represented at the meeting.

PROPOSAL NO. 3

Unless marked to the contrary, proxies received will be voted "FOR" the ratification of the appointment of Ernst & Young LLP as the independent auditors for the Company for the current year. Ernst & Young LLP has been the Company's independent auditors since fiscal year 1981.

Audit services of Ernst & Young LLP during the 1996 fiscal year included the examination of the consolidated financial statements of the Company and services related to filings with the Securities and Exchange Commission ("SEC") and other regulatory bodies.

The Audit Committee of the Company meets with Ernst & Young LLP on an annual or more frequent basis. At such time the Audit Committee reviews both audit and non-audit services performed by Ernst & Young LLP for the preceding year, as well as the fees charged for such services. Among other things, the effect that the performance of non-audit services may have upon the independence of the auditors is examined.

A representative of Ernst & Young LLP is expected to be present at the Annual Meeting and will have an opportunity to make a statement if he or she so desires. Moreover, the representative will be available to respond to appropriate questions from the stockholders.

**THE BOARD OF DIRECTORS OF THE COMPANY RECOMMENDS A VOTE "FOR" THE

COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT

Section 16(a) of the Securities Exchange Act requires the Company's executive officers and directors and persons who own more than ten percent of a registered class of the Company's equity securities to file an initial report of ownership on Form 3 and changes in ownership on Form 4 or 5 with the SEC. Executive officers, directors and greater than ten percent stockholders are also required by SEC rules to furnish the Company with copies of all Section 16(a) forms they file. Based solely on its review of the copies of such forms received by it, or written representations from certain reporting persons, the Company believes that during the last fiscal year, it complied with all filing requirements applicable to its officers, directors and ten percent stockholders.
