Lam Research Announces Termination of Proposed Combination With KLA-Tencor

FREMONT, CA -- (Marketwired) -- 10/05/16 -- Lam Research Corp. (NASDAQ: LRCX) and KLA-Tencor (NASDAQ: KLAC) today announced that they have mutually agreed to terminate their proposed merger agreement. After careful review of recent antitrust agency feedback and evaluation of their options, both companies have decided that it is not in the best interest of their respective stakeholders to continue pursuing the merger. In accordance with terms set forth in the merger agreement, no termination fees will be payable by either company.

"We believe that this proposed combination would have resulted in compelling benefits for our customers, employees and stockholders, as well as accelerate innovation in the broader semiconductor industry, so we are disappointed with the outcome. However, together with our customers, we have affirmed the value of closer cooperation between process and process control for new enabling solutions, for that reason, we plan to explore collaboration opportunities with KLA-Tencor around programs identified as beneficial to our customers," said Martin Anstice, president and chief executive officer.

Anstice continued: "Lam's growth trajectory as a standalone company remains firmly in place. We are more committed than ever to moving forward with the company's mission of creating and delivering increased value to all stakeholders. The need for leading-edge wafer processing capability, particularly those enabling the key technology inflections, continues to become even more critical to our customers as they seek to deliver more powerful and capable semiconductor products that make possible the disruptive innovations of our future. We look forward to updating our vision and strategy for delivering continued industry outperformance and profitable growth at our Analyst Day event in November."

Conference Call and Webcast Details

Lam Research will hold a conference call on Thursday, October 6, 2016 at 9:00 a.m. EDT (6:00 a.m. PDT) to discuss this news. The conference call can be joined by dialing 1-800-967-7187, Conference ID 9322807, within the U.S. and 1-719-325-2289, Conference ID 9322807, for all other locations. A webcast replay will be available on the Lam Research website approximately three hours after the conference call concludes.

About Lam Research

Lam Research Corp. (NASDAQ: LRCX) is a trusted global supplier of innovative wafer fabrication equipment and services to the semiconductor industry. Lam's broad portfolio of market-leading deposition, etch, and clean solutions helps customers achieve success on the wafer by enabling device features that are 1,000 times smaller than a grain of sand, resulting in smaller, faster, more powerful, and more power-efficient chips. Through collaboration, continuous innovation, and delivering on commitments, Lam is transforming atomic-scale engineering and enabling its customers to shape the future of technology. Based in Fremont, Calif., Lam Research is a Nasdaq-100 Index® and S&P 500® company whose common stock trades on the Nasdaq Global Select Market(SM) under the symbol LRCX.
