U.S. GAAP to non-GAAP reconciling items provided include only those items that are known and can be estimated as of the date of this release. ## Use of Non-GAAP Financial Results

In addition to U.S. GAAP results, this press release also contains non-GAAP financial results. The Company's non-GAAP results for both the March 2017 and December 2016 quarters exclude amortization related to intangible assets acquired in the Novellus transaction, the amortization of note discounts, and tax benefit of non-GAAP items. Additionally, the March 2017 quarter non-GAAP results exclude costs associated with business process reengineering, and income tax benefit on the conclusion of tax matters related to a prior business combination; and the December 2016 quarter non-GAAP results exclude costs associated with campus consolidation, product rationalization charges, litigation settlement, KLA-Tencor acquisition funding net interest expense, and costs related to the early termination of the KLA-Tencor acquisition funding.

Management uses non-GAAP gross margin, operating expense, operating income, operating margin, net income, and net income per diluted share to evaluate the Company's operating and financial results. The Company believes the presentation of non-GAAP results is useful to investors for analyzing business trends and comparing performance to prior periods, along with enhancing investors' ability to view the Company's results from management's perspective. Tables presenting reconciliations of non-GAAP results to U.S. GAAP results are included at the end of this press release and on the Company's website at <http://investor.lamresearch.com>.
