Mr. Potdevin added: "The acceleration that we have seen across the business in the second quarter enables us to take another positive step on our path towards achieving \$4 billion in revenue by 2020. Finally, I would also like to express my gratitude for the constant energy and determination of our teams and ambassadors, who powerfully bring our brand to life."

## **Updated Outlook**

In connection with the restructuring of the ivivva operations, we expect to recognize total pre-tax costs of between \$50.0 million and \$60.0 million in fiscal 2017, inclusive of \$23.2 million recognized during the first two quarters of fiscal 2017. This primarily relates to long-lived asset impairment and lease termination costs.

For the third quarter of fiscal 2017, we expect net revenue to be in the range of \$605 million to \$615 million based on a total comparable sales increase in the mid-single digits on a constant dollar basis. Diluted earnings per share are expected to be in the range of \$0.33 to \$0.35 for the quarter. Excluding the impact of the ivivva restructuring, we expect adjusted diluted earnings per share to be in the range of \$0.50 to \$0.52 for the quarter. This guidance assumes 136.3 million diluted weighted-average shares outstanding and a 32.2% tax rate, or 30.4% excluding the tax effect of the ivivva restructuring. The guidance does not reflect potential future repurchases of the Company's shares.

For the full fiscal 2017, we now expect net revenue to be in the range of \$2.545 billion to \$2.595 billion based on a total comparable sales increase in the low-single digits on a constant dollar basis. Diluted earnings per share are expected to be in the range of \$2.04 to \$2.11 for the full year. Excluding the impact of the ivivva restructuring, we expect adjusted diluted earnings per share to be in the range of \$2.35 to \$2.42 for the year. This guidance assumes 136.3 million diluted weighted-average shares outstanding and a 30.8% tax rate, or 30.3% excluding the tax effect of the ivivva restructuring. The guidance does not reflect potential future repurchases of the Company's shares.

The guidance and outlook forward-looking statements made in this press release are based on management's expectations as of the date of this press release and the Company undertakes no duty to update or to continue to provide information with respect to any forward-looking statements or risk factors, whether as a result of new information or future events or circumstances or otherwise. Actual results and the timing of events could differ materially from those anticipated in these forward-looking statements as a result of risks and uncertainties, including those stated below.

## **Non-GAAP Financial Measures**

Constant dollar changes in net revenue, total comparable sales, comparable store sales, direct to consumer net revenue, and direct to consumer net revenue excluding the online warehouse sale, and the adjusted financial results, are non-GAAP financial measures.

A constant dollar basis assumes the average foreign exchange rates for the period remained constant with the average foreign exchange rates for the same period of the prior year. We provide constant dollar changes in net revenue, total comparable sales, comparable store sales, direct to consumer net revenue, and direct to consumer net revenue excluding the online warehouse sale because we use these measures to understand the underlying growth rate of net revenue excluding the impact of changes in foreign exchange rates. We believe that disclosing these measures on a constant dollar basis is useful to investors because it enables them to better understand the level of growth of our business.

Adjusted gross profit, gross margin, income from operations, operating margin, effective tax rates, and diluted earnings per share exclude the costs recognized in connection with the restructuring of our ivivva operations, its related tax effects, and certain discrete items related to our transfer pricing arrangements and taxes on repatriation of foreign earnings. We believe these adjusted financial measures are useful to investors as the adjustments do not directly relate to our ongoing business operations and therefore do not contribute to a meaningful evaluation of the trend in our operating performance. Furthermore, we do not believe the adjustments are reflective of our expectations of our future operating performance and believe these non-GAAP measures are useful to investors because of their comparability to our historical information.

The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or with greater prominence to, the financial information prepared and presented in accordance with GAAP. For more information on these non-GAAP financial measures, please see the section captioned "Reconciliation of Non-GAAP Financial Measures" included in the accompanying financial tables, which includes more detail on the GAAP financial measure that is most directly comparable to each non-GAAP financial measure, and the related reconciliations between these financial measures.
