or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____
Commission file number **001-33608**

lululemon athletica inc.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

1818 Cornwall Avenue
Vancouver, British Columbia
(Address of principal executive offices)

20-3842867
(I.R.S. Employer
Identification No.)

V6J 1C7
(Zip Code)

Registrant's telephone number, including area code:
604-732-6124

Former name, former address and former fiscal year, if changed since last report:
N/A

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input checked="" type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

At December 1, 2017, there were 125,599,066 shares of the registrant's common stock, par value \$0.005 per share, outstanding.

Exchangeable and Special Voting Shares:

At December 1, 2017, there were outstanding 9,780,927 exchangeable shares of Lulu Canadian Holding, Inc., a wholly-owned subsidiary of the registrant. Exchangeable shares are exchangeable for an equal number of shares of the registrant's common stock.

In addition, at December 1, 2017, the registrant had outstanding 9,780,927 shares of special voting stock, through which the holders of exchangeable shares of Lulu Canadian Holding, Inc. may exercise their voting rights with respect to the registrant. The special voting stock and the registrant's common stock generally vote together as a single class on all matters on which the common stock is entitled to vote.

lululemon athletica inc.
NOTES TO THE UNAUDITED INTERIM CONSOLIDATED FINANCIAL
STATEMENTS

NOTE 1. NATURE OF OPERATIONS AND BASIS OF PRESENTATION

Nature of operations

lululemon athletica inc., a Delaware corporation ("lululemon" and, together with its subsidiaries unless the context otherwise requires, the "Company") is engaged in the design, distribution, and retail of healthy lifestyle inspired athletic apparel, which is sold through a chain of company-operated stores, direct to consumer through e-commerce, outlets, showrooms, temporary locations, sales to wholesale accounts, license and supply arrangements, and through warehouse sales. Its apparel is marketed under the lululemon and ivivva brand names. The Company operates stores in the United States, Canada, Australia, the United Kingdom, China, New Zealand, Hong Kong, Singapore, South Korea, Germany, Ireland, Japan, Puerto Rico, Switzerland, and Taiwan. There were a total of 388 and 406 company-operated stores in operation as of October 29, 2017 and January 29, 2017, respectively.

On June 1, 2017, the Company announced a plan to restructure its ivivva operations. On August 20, 2017, as part of this plan, the Company closed 48 of its 55 ivivva branded company-operated stores. The seven remaining ivivva branded stores remain in operation and are not expected to close. All of the Company's ivivva branded showrooms and other temporary locations have been closed. The Company continues to offer ivivva branded products on its e-commerce websites. Please refer to Note 6 of these unaudited interim consolidated financial statements for further details regarding the ivivva restructuring.

Basis of presentation

The unaudited interim consolidated financial statements as of October 29, 2017 and for the quarters and three quarters ended October 29, 2017 and October 30, 2016 are presented in United States dollars and have been prepared by the Company under the rules and regulations of the Securities and Exchange Commission ("SEC"). The financial information is presented in accordance with United States generally accepted accounting principles ("GAAP") for interim financial information and, accordingly, does not include all of the information and footnotes required by GAAP for complete financial statements. The financial information as of January 29, 2017 is derived from the Company's audited consolidated financial statements and related notes for the fiscal year ended January 29, 2017, which are included in Item 8 in the Company's fiscal 2016 Annual Report on Form 10-K filed with the SEC on March 29, 2017. These unaudited interim consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to a fair statement of the results for the interim periods presented. These unaudited interim consolidated financial statements should be read in conjunction with the Company's consolidated financial statements and related notes included in Item 8 in the Company's fiscal 2016 Annual Report on Form 10-K.

The Company's fiscal year ends on the Sunday closest to January 31 of the following year, typically resulting in a 52-week year, but occasionally giving rise to an additional week, resulting in a 53-week year. Fiscal 2017 will end on January 28, 2018 and will be a 52-week year.

The Company's business is affected by the pattern of seasonality common to most retail apparel businesses. Historically, the Company has recognized a significant portion of its operating profit in the fourth fiscal quarter of each year as a result of increased net revenue during the holiday season.

Certain comparative figures have been reclassified to conform to the financial presentation adopted for the current year.

NOTE 2. RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers* ("ASC 606"). This ASU supersedes the revenue recognition requirements in ASC Topic 605 *Revenue Recognition*, including most industry-specific revenue recognition guidance. ASU 2014-09 requires that an entity recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services, and expands the related disclosure requirements. In 2015, the FASB deferred the effective date for this guidance, and in 2016, the FASB issued several updates that clarify the guidance in this topic. ASC 606 may be adopted either on a full retrospective basis or using a modified retrospective method with a cumulative adjustment to equity. This guidance will be adopted by the Company beginning in its first quarter of fiscal 2018. The Company continues to evaluate the impact that this new guidance may have on its consolidated financial statements, and the method of retrospective adoption that it will elect, but does not expect ASC 606 to materially

impact the amount, or timing, of its revenue recognition. Under the new requirements, the Company expects to recognize its provision for sales returns on a gross basis, rather than a net basis on the consolidated balance sheets.

In July 2015, the FASB amended ASC Topic 330, *Inventory* to simplify the measurement of inventory. The amendments require that an entity measure inventory at the lower of cost and net realizable value instead of the lower of cost and market. This guidance became effective for the Company the first quarter of fiscal 2017 and the adoption did not impact its consolidated financial statements.

In February 2016, the FASB issued ASC Topic 842, *Leases* ("ASC 842") to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Under the new guidance, lessees are required to recognize a lease liability, which represents the discounted obligation to make future minimum lease payments, and a corresponding right-of-use asset on the balance sheet for most leases. This guidance will be effective for the Company beginning in its first quarter of fiscal 2019, with early application permitted. The Company will adopt ASC 842 in its first quarter of fiscal 2019. While the Company is currently evaluating the impact that this new guidance will have on its consolidated financial statements, it is expected that the primary impact upon adoption will be the recognition, on a discounted basis, of the Company's minimum commitments under noncancelable operating leases as right of use assets and obligations on the consolidated balance sheets. It is expected that this will result in a significant increase in assets and liabilities on the consolidated balance sheets.

In March 2016, the FASB amended ASC Topic 718, *Stock Compensation* simplifying the accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, and classification on the statement of cash flows. The new guidance also allows an entity to account for forfeitures when they occur. The Company adopted this amendment in the first quarter of fiscal 2017 and elected to continue to estimate expected forfeitures. The Company is now required to include excess tax benefits and deficiencies as a component of income tax expense, rather than a component of stockholders' equity. Additionally, the Company retrospectively adjusted its consolidated statement of cash flows for the three quarters ended October 30, 2016 to reclassify excess tax benefits of \$1.3 million from financing activities to operating activities.

In August 2017, the FASB amended ASC 815, *Derivatives and Hedging* to more closely align hedge accounting with companies' risk management strategies, simplify the application of hedge accounting, and increase transparency as to the scope and results of hedging programs. It will make more financial and nonfinancial hedging strategies eligible for hedge accounting. It also amends the presentation and disclosure requirements and changes how companies assess effectiveness. This guidance will be effective for the Company beginning in its first quarter of fiscal 2019, with early application permitted. The Company is currently evaluating the impact that this new guidance may have on its consolidated financial statements.

NOTE 3. STOCK-BASED COMPENSATION AND BENEFIT PLANS

Stock-based compensation plans

The Company's eligible employees participate in various stock-based compensation plans, which are provided by the Company directly.

Stock-based compensation expense charged to income for the plans was \$13.0 million and \$12.9 million for the three quarters ended October 29, 2017 and October 30, 2016, respectively. Total unrecognized compensation cost for all stock-based compensation plans was \$40.2 million at October 29, 2017, which is expected to be recognized over a weighted-average period of 2.3 years.

Company stock options, performance-based restricted stock units, restricted shares, and restricted stock units

A summary of the Company's stock option, performance-based restricted stock unit, restricted share, and restricted stock unit activity as of October 29, 2017, and changes during the first three quarters then ended, is presented below:

	Stock Options		Performance-Based Restricted Stock Units		Restricted Shares		Restricted Stock Units	
	Number	Weighted-Average Exercise Price	Number	Weighted-Average Grant Date Fair Value	Number	Weighted-Average Grant Date Fair Value	Number	Weighted-Average Grant Date Fair Value
<i>(In thousands, except per share amounts)</i>								
Balance at January 29, 2017	918	\$ 59.20	390	\$ 61.05	14	\$ 70.54	360	\$ 62.99
Granted	614	52.16	191	52.21	24	52.38	332	52.65
Exercised/released	40	40.70	—	—	14	70.29	131	60.74
Forfeited	247	58.18	224	54.72	3	51.72	111	57.18
Balance at October 29, 2017	1,245	\$ 56.53	357	\$ 60.30	21	\$ 52.45	450	\$ 57.46
Exercisable at October 29, 2017	350	\$ 56.14						

The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes model. The assumptions used to calculate the fair value of the options granted are evaluated and revised, as necessary, to reflect market conditions and the Company's historical experience. The expected term of the options is based upon the historical experience of similar awards, giving consideration to expectations of future employee behavior. Expected volatility is based upon the historical volatility of the Company's common stock for the period corresponding with the expected term of the options. The risk-free interest rate is based on the U.S. Treasury yield curve for the period corresponding with the expected term of the options. The following assumptions were used in calculating the fair value of stock options granted in the first three quarters of fiscal 2017 :

	Three Quarters Ended October 29, 2017
Expected term	4.00 years
Expected volatility	38.28%
Risk-free interest rate	1.72%
Dividend yield	—%

The Company's performance-based restricted stock units are awarded to eligible employees and entitle the grantee to receive a maximum of two shares of common stock per performance-based restricted stock unit if the Company achieves specified performance goals and the grantee remains employed during the vesting period. The fair value of performance-based restricted stock units is based on the closing price of the Company's common stock on the award date. Expense for performance-based restricted stock units is recognized when it is probable that the performance goal will be achieved.

The fair value of the restricted shares and restricted stock units is based on the closing price of the Company's common stock on the award date.

Employee share purchase plan

The Company's board of directors and stockholders approved the Company's Employee Share Purchase Plan ("ESPP") in September 2007. Contributions are made by eligible employees, subject to certain limits defined in the ESPP, and the Company matches one-third of the contribution. The maximum number of shares authorized to be purchased under the ESPP is 6.0 million shares. All shares purchased under the ESPP are purchased in the open market. During the quarter ended October 29, 2017, there were 34.2 thousand shares purchased.

Defined contribution pension plans

During the second quarter of fiscal 2016, the Company began offering defined contribution pension plans to its eligible employees in Canada and the United States. Participating employees may elect to defer and contribute a portion of their eligible

compensation to a plan up to limits stated in the plan documents, not to exceed the dollar amounts set by applicable laws. The Company matches 50% to 75% of the contribution depending on the participant's length of service, and the contribution is subject to a two year vesting period. The Company's net expense for the defined contribution plans was \$3.9 million and \$1.6 million in the first three quarters of fiscal 2017 and fiscal 2016, respectively.

NOTE 4. FAIR VALUE MEASUREMENT

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are made using a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value:

- Level 1 - defined as observable inputs such as quoted prices in active markets;
- Level 2 - defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and
- Level 3 - defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The fair value measurement is categorized in its entirety by reference to its lowest level of significant input. As of October 29, 2017, the Company held certain assets and liabilities that are required to be measured at fair value on a recurring basis:

	October 29, 2017	Level 1	Level 2	Level 3
		<i>(In thousands)</i>		
Net forward currency contract (liabilities) assets	\$ (583)	\$ —	\$ (583)	\$ —

The Company records cash and cash equivalents, accounts receivable, accounts payable, and accrued liabilities at cost. The carrying values of these instruments approximate their fair value due to their short-term maturities.

In addition to assets and liabilities that are recorded at fair value on a recurring basis, the Company has impaired certain long-lived assets and recorded them at their estimated fair value on a non-recurring basis. The fair value of these long-lived assets was determined using Level 3 inputs, principally the present value of the estimated future cash flows expected from their use and eventual disposition.

As a result of the ivivva restructuring, the Company recorded lease termination liabilities of \$12.2 million, determined using Level 3 inputs based on remaining lease rentals and reduced by estimated sublease income.

NOTE 5. DERIVATIVE FINANCIAL INSTRUMENTS

Foreign exchange risk

The Company is exposed to risks associated with changes in foreign currency exchange rates and uses derivative financial instruments to manage its exposure to certain of these foreign currency exchange rate risks. The Company does not enter into derivative contracts for speculative or trading purposes.

The Company currently hedges against changes in the Canadian dollar to U.S. dollar exchange rate using forward currency contracts.

Net investment hedges

The Company is exposed to foreign exchange gains and losses which arise on translation of its foreign subsidiaries' balance sheets into U.S. dollars. These gains and losses are recorded as a foreign currency translation adjustment in accumulated other comprehensive income or loss within stockholders' equity.

The Company holds a significant portion of its assets in Canada and during the three quarters ended October 29, 2017, it entered into forward currency contracts designed to hedge a portion of the foreign currency exposure that arises on translation of a Canadian subsidiary into U.S. dollars. These forward currency contracts are designated as net investment hedges. The effective portions of the hedges are reported in accumulated other comprehensive income or loss and will subsequently be reclassified to net earnings in the period in which the hedged investment is either sold or substantially liquidated. The Company assesses hedge effectiveness based on changes in forward rates. The Company recorded no ineffectiveness from net investment hedges for the three quarters ended October 29, 2017.

The Company classifies the cash flows at settlement of its net investment hedges within investing activities in the consolidated statements of cash flows.

Derivatives not designated as hedging instruments

The Company is exposed to gains and losses arising from changes in foreign exchange rates associated with transactions which are undertaken by its subsidiaries in currencies other than their functional currency. Such transactions include intercompany transactions and inventory purchases. These transactions result in the recognition of certain foreign currency denominated monetary assets and liabilities which are remeasured to the quarter-end or settlement date exchange rate. The resulting foreign currency gains and losses are recorded in selling, general and administrative expenses.

During the three quarters ended October 29, 2017 the Company entered into certain forward currency contracts designed to economically hedge the foreign exchange revaluation gains and losses that are recognized by its Canadian subsidiaries on U.S. dollar denominated monetary assets and liabilities. The Company has not applied hedge accounting to these instruments and the change in fair value of these derivatives is recorded within selling, general and administrative expenses.

The Company classifies the cash flows at settlement of its forward currency contracts which are not designated in hedging relationships within operating activities in the consolidated statements of cash flows.

Outstanding notional amounts

The Company had foreign exchange forward contracts outstanding with the following notional amounts:

	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>	
Derivatives designated as net investment hedges	\$ 50,000	\$ —
Derivatives not designated in a hedging relationship	40,000	—

The forward currency contracts designated as net investment hedges mature in January 2018.

The forward currency contracts not designated in a hedging relationship mature on different dates between November 2017 and December 2017.

Quantitative disclosures about derivative financial instruments

The Company presents its derivative assets and derivative liabilities at their gross fair values within other prepaid expenses and other current assets and other current liabilities on the consolidated balance sheets. However, the Company's Master International Swap Dealers Association, Inc., Agreements and other similar arrangements allow net settlements under certain conditions. As of October 29, 2017, there were derivative assets of \$1.2 million and derivative liabilities of \$1.5 million subject to enforceable netting arrangements.

The fair values of forward currency contracts were as follows:

	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>	
Derivatives designated as net investment hedges, recognized within:		
Other current liabilities	\$ 2,902	\$ —
Derivatives not designated in a hedging relationship, recognized within:		
Other prepaid expenses and other current assets	2,319	—

The pre-tax gains and losses on foreign exchange forward contracts recorded in accumulated other comprehensive income and in the consolidated statement of operations, are as follows:

	Quarter Ended		Three Quarters Ended	
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
<i>(In thousands)</i>				
Derivatives designated as net investment hedges:				
Gain (loss) recognized in other comprehensive income	\$ 1,424	\$ —	\$ (7,501)	\$ —
Derivatives not designated in a hedging relationship:				
(Loss) gain recognized in selling, general and administrative expenses	(1,137)	—	6,497	—

No gains or losses have been reclassified from accumulated other comprehensive income into net income for derivative financial instruments in a net investment hedging relationship, as the Company has not sold or liquidated (or substantially liquidated) its hedged subsidiary.

Credit risk

The Company is exposed to credit-related losses in the event of nonperformance by the counterparties to the forward currency contracts. The credit risk amount is the Company's unrealized gains on its derivative instruments, based on foreign currency rates at the time of nonperformance.

The Company's forward currency contracts are entered into with large, reputable financial institutions that are monitored by the Company for counterparty risk.

The Company's derivative contracts contain certain credit risk-related contingent features. Under certain circumstances, including an event of default, bankruptcy, termination, and cross default under the Company's revolving credit facility, the Company may be required to make immediate payment for outstanding liabilities under its derivative contracts.

NOTE 6. ASSET IMPAIRMENT AND RESTRUCTURING

On June 1, 2017, the Company announced a plan to restructure its ivivva operations. On August 20, 2017, as part of this plan, the Company closed 48 of its 55 ivivva branded company-operated stores. The seven remaining ivivva branded stores remain in operation and are not expected to close. All of the Company's ivivva branded showrooms and other temporary locations have been closed. The Company continues to offer ivivva branded products on its e-commerce websites.

As a result of the closures, the Company recognized aggregate pre-tax charges of \$45.4 million during the three quarters ended October 29, 2017. The restructuring was substantially completed during the third quarter of fiscal 2017.

A summary of the pre-tax charges recognized during the third quarter and the first three quarters of fiscal 2017 in connection with the Company's restructuring of its ivivva operations is as follows:

	Quarter Ended October 29, 2017	Three Quarters Ended October 29, 2017
<i>(In thousands)</i>		
Costs recorded in cost of goods sold:		
Provision to reduce inventories to net realizable value	\$ 1,934	\$ 4,838
Loss (reversal of loss) on committed inventory purchases	(2,286)	250
Accelerated depreciation	1,530	3,753
	<u>1,178</u>	<u>8,841</u>
Costs recorded in operating expenses:		
Lease termination costs	19,441	19,884
Impairment of property and equipment	—	11,593
Employee related costs	804	4,000
Other restructuring costs	762	1,047
Asset impairment and restructuring costs	<u>21,007</u>	<u>36,524</u>
Restructuring and related costs	<u>\$ 22,185</u>	<u>\$ 45,365</u>

Income tax recoveries of \$5.8 million and \$11.9 million were recorded on the above items in the third quarter and the first three quarters of fiscal 2017, respectively. These income tax recoveries are based on the expected annual tax rate of the applicable tax jurisdictions.

Costs recorded in cost of goods sold

During the first three quarters of fiscal 2017, the Company recognized expenses of \$8.8 million in cost of goods sold as a result of the restructuring of its ivivva operations. This included \$4.8 million to reduce inventories to their estimated net realizable value, and \$0.3 million for the losses the Company expects to incur on certain firm inventory and fabric purchase commitments. The liability for the expected losses is included within accrued inventory liabilities on the consolidated balance sheets.

During the second and third quarters of fiscal 2017, the Company took delivery of inventory that it had previously committed to purchase. As a result, there was a reduction in the Company's liability for expected losses on committed inventory purchases and a corresponding increase in its provision to reduce inventories to net realizable value.

The Company also recorded accelerated depreciation charges of \$3.8 million during the first three quarters of fiscal 2017, primarily related to leasehold improvements and furniture and fixtures for stores that closed during the third quarter of fiscal 2017.

Costs recorded in operating expenses

The Company recognized asset impairment and restructuring costs of \$36.5 million during the first three quarters of fiscal 2017 as a result of the restructuring of its ivivva operations.

As a result of the plan to close the majority of the ivivva branded locations, the long-lived assets of each ivivva branded location were tested for impairment as of April 30, 2017. For impaired locations, a loss was recognized representing the difference between the net book value of the long-lived assets and their estimated fair value. Impairment losses totaling \$11.6 million were recognized during the first quarter of fiscal 2017. These losses primarily relate to leasehold improvements and furniture and fixtures of the company-operated stores segment. These assets were retired during the third quarter of fiscal 2017 in conjunction with the closures of the company-operated stores.

The fair value of the long-lived assets for each store was determined using Level 3 inputs, principally the present value of the estimated future cash flows expected from their use and eventual disposition.

During the first three quarters of fiscal 2017, the Company recognized employee related expenses as a result of the restructuring of \$4.0 million.

The Company recognized lease termination costs of \$19.9 million during the first three quarters of fiscal 2017 . As of October 29, 2017 , the Company had lease termination liabilities of \$12.2 million . During the first three quarters of fiscal 2017 , the Company also recognized other restructuring costs of \$1.0 million .

NOTE 7. INCOME TAXES

As disclosed in Note 15 to the audited consolidated financial statements included in Item 8 of the Company's fiscal 2016 Annual Report on Form 10-K filed with the SEC on March 29, 2017 , the Company finalized a bilateral Advance Pricing Arrangement ("APA") with the Internal Revenue Service ("IRS") and the Canada Revenue Agency ("CRA") during fiscal 2016.

The results for the quarter and three quarters ended October 29, 2017 did not include any discrete items or adjustments related to the APA.

The results for the quarter and three quarters ended October 30, 2016 included net interest expenses of \$0.2 million and \$1.7 million , respectively, that were recorded in other income (expense), net, and net income tax recoveries of \$4.0 million and \$11.6 million , respectively, related to the expected outcome of the APA and taxes associated with the anticipated repatriation of foreign earnings.

NOTE 8. EARNINGS PER SHARE

The details of the computation of basic and diluted earnings per share are as follows:

	Quarter Ended		Three Quarters Ended	
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
	<i>(In thousands, except per share amounts)</i>			
Net income	\$ 58,944	\$ 68,285	\$ 138,901	\$ 167,246
Basic weighted-average number of shares outstanding	135,364	137,033	136,191	137,095
Assumed conversion of dilutive stock options and awards	214	204	166	226
Diluted weighted-average number of shares outstanding	135,578	137,237	136,357	137,321
Basic earnings per share	\$ 0.44	\$ 0.50	\$ 1.02	\$ 1.22
Diluted earnings per share	\$ 0.43	\$ 0.50	\$ 1.02	\$ 1.22

The Company's calculation of weighted-average shares includes the common stock of the Company as well as the exchangeable shares. Exchangeable shares are the equivalent of common shares in all material respects. All classes of stock have, in effect, the same rights and share equally in undistributed net income. For the three quarters ended October 29, 2017 and October 30, 2016 , 0.2 million and 0.1 million stock options and awards, respectively, were anti-dilutive to earnings per share and therefore have been excluded from the computation of diluted earnings per share.

On June 11, 2014, the Company's board of directors approved a program to repurchase shares of the Company's common stock up to an aggregate value of \$450.0 million . This stock repurchase program was completed during the second quarter of fiscal 2016.

On December 1, 2016, the Company's board of directors approved a program to repurchase shares of the Company's common stock up to an aggregate value of \$100.0 million . The common stock was repurchased in the open market at prevailing market prices, including under plans complying with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934, with the timing and actual number of shares repurchased depending upon market conditions, eligibility to trade, and other factors. This stock repurchase program was completed during the third quarter of fiscal 2017.

During the three quarters ended October 29, 2017 and October 30, 2016 , 1.8 million and 0.4 million shares, respectively, were repurchased under the program at a total cost of \$99.3 million and \$28.6 million , respectively.

NOTE 9. SUPPLEMENTARY FINANCIAL INFORMATION

For the quarters ended October 29, 2017 and October 30, 2016 , there were net foreign exchange and derivative revaluation gains of \$2.7 million and \$4.3 million , respectively, included within selling, general and administrative expenses.

For the three quarters ended October 29, 2017 and October 30, 2016 , there were net foreign exchange and derivative revaluation gains of \$6.9 million and losses of \$4.1 million , respectively, included within selling, general and administrative expenses.

A summary of certain consolidated balance sheet accounts is as follows:

	October 29, 2017	January 29, 2017
<i>(In thousands)</i>		
Inventories:		
Finished goods	\$ 412,648	\$ 306,087

Tenant inducements	26,199	21,668
Other	5,634	—
	<u>\$ 58,596</u>	<u>\$ 48,316</u>

As of October 29, 2017, as a result of the restructuring of its ivivva operations, the Company had a provision of \$4.8 million to reduce the carrying value of certain ivivva branded finished goods inventories to their estimated net realizable value. In addition, the Company had a liability for the losses it expects to incur on certain firm inventory and fabric purchase commitments of \$0.3 million. This liability is included within accrued inventory liabilities on the consolidated balance sheets.

Please refer to Note 6 of these unaudited interim consolidated financial statements for further details regarding the ivivva restructuring plans, including impairment of property and equipment, net which was recorded during the first quarter of fiscal 2017 .

NOTE 10. SEGMENT REPORTING

The Company applies ASC Topic 280, *Segment Reporting* ("ASC 280"), in determining reportable segments for its financial statement disclosure. The Company reports segments based on the financial information it uses in managing its business. The Company's reportable segments are comprised of company-operated stores and direct to consumer. Direct to consumer represents sales from the Company's e-commerce websites. Outlets, showrooms, temporary locations, sales to wholesale accounts, license and supply arrangements, and warehouse sale net revenue have been combined into other. Information for these segments is detailed in the table below:

	Quarter Ended		Three Quarters Ended	
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
<i>(In thousands)</i>

	<u>\$ 28,560</u>	<u>\$ 23,959</u>	<u>\$ 80,129</u>	<u>\$ 63,641</u>

The accelerated depreciation related to the restructuring of the ivivva operations is included in corporate and other in the above breakdown of depreciation and amortization.

NOTE 11. LEGAL PROCEEDINGS

In addition to the legal matter described below, the Company is, from time to time, involved in routine legal matters incidental to the conduct of its business, including legal matters such as initiation and defense of proceedings to protect intellectual property rights, personal injury claims, product liability claims, employment claims, and similar matters. The Company believes the ultimate resolution of any such current proceeding will not have a material adverse effect on its consolidated balance sheets, results of operations or cash flows.

On October 9, 2015, certain current and former hourly employees of the Company filed a class action lawsuit in the Supreme Court of New York entitled *Rebecca Gathmann-Landini et al v. lululemon USA inc.* On December 2, 2015, the case was moved to the United States District Court for the Eastern District of New York. The lawsuit alleges that the Company violated various New York labor codes by failing to pay all earned wages, including overtime compensation. The plaintiffs are seeking an unspecified amount of damages. The Company intends to vigorously defend this matter.

NOTE 12. SUBSEQUENT EVENT

The Company evaluates events or transactions that occur after the balance sheet date through to the date which the financial statements are issued, for potential recognition or disclosure in its unaudited interim consolidated financial statements in accordance with ASC Topic 855, *Subsequent Events* ("ASC 855").

On November 29, 2017, the Company's board of directors approved a stock repurchase program for up to \$200 million of its common shares in the open market at prevailing market prices, including under plans complying with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934. The timing and actual number of common shares to be repurchased will depend upon market conditions, eligibility to trade, and other factors, in accordance with Securities and Exchange Commission requirements, and the repurchase program is expected to be completed in two years. Shares may be repurchased from time to time on the open market, through block trades or otherwise. Purchases may be started or stopped at any time without prior notice depending on market conditions and other factors.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Some of the statements contained in this Form 10-Q and any documents incorporated herein by reference constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, included or incorporated in this Form 10-Q are forward-looking statements, particularly statements which relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts, such as statements regarding our future financial condition or results of operations, our prospects and strategies for future growth, the development and introduction of new products, and the implementation of our marketing and branding strategies. In many cases, you can identify forward-looking statements by terms such as "may," "will," "should," "expects," "plans," "anticipates," "believes," "estimates," "intends," "predicts," "potential" or the negative of these terms or other comparable terminology.

The forward-looking statements contained in this Form 10-Q and any documents incorporated herein by reference reflect our current views about future events and are subject to risks, uncertainties, assumptions and changes in circumstances that may cause events or our actual activities or results to differ significantly from those expressed in any forward-looking statement. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future events, results, actions, levels of activity, performance or achievements. Readers are cautioned not to place undue reliance on these forward-looking statements. A number of important factors could cause actual results to differ materially from those indicated by the forward-looking statements, including, but not limited to, those factors described in "Risk Factors" and elsewhere in this report.

The forward-looking statements contained in this Form 10-Q reflect our views and assumptions only as of the date of this Form 10-Q and are expressly qualified in their entirety by the cautionary statements included in this Form 10-Q. Except as required by applicable securities law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events.

This information should be read in conjunction with the unaudited interim consolidated financial statements and the notes included in Item 1 of Part I of this Quarterly Report on Form 10-Q and the audited consolidated financial statements and notes, and Management's Discussion and Analysis of Financial Condition and Results of Operations, contained in our fiscal 2016 Annual Report on Form 10-K filed with the SEC on March 29, 2017 .

We disclose material non-public information through one or more of the following channels: our investor relations website (<http://investor.lululemon.com/>), the social media channels identified on our investor relations website, press releases, SEC filings, public conference calls, and webcasts.

Overview

lululemon is a designer, distributor, and retailer of healthy lifestyle inspired athletic apparel. Since our inception, we have developed a distinctive corporate culture, and we have a mission to produce products which create transformational experiences for people to live happy, healthy, fun lives. We promote a set of core values in our business which include taking personal responsibility, nurturing entrepreneurial spirit, acting with honesty and courage, valuing connection, and choosing to have fun. These core values attract passionate and motivated employees who are driven to succeed and share our purpose of "elevating the world from mediocrity to greatness."

We offer a comprehensive line of apparel and accessories for women and men. We also offer activewear for girls under our ivivva brand name. Our apparel assortment includes items such as pants, shorts, tops, and jackets designed for healthy lifestyle and athletic activities such as yoga, running, training, and most other sweaty pursuits. We also offer fitness-related accessories, including an array of items such as bags, socks, underwear, yoga mats, and water bottles.

On June 1, 2017, we announced a plan to restructure our ivivva operations to a primarily e-commerce focused business, with a select number of stores remaining in key communities across North America. The restructuring was substantially completed during the third quarter of fiscal 2017. On August 20, 2017, as a part of the restructuring plan, we closed 48 of our 55 ivivva branded company-operated stores. The seven remaining ivivva branded stores remain in operation and are not expected to close. All of our ivivva branded showrooms and other temporary locations have been closed. We continue to offer ivivva branded products on our e-commerce websites.

Financial Highlights

The summary below provides both GAAP and adjusted non-GAAP financial measures. In connection with the restructuring of our ivivva operations, we recognized pre-tax costs totaling \$22.2 million in the third quarter of fiscal 2017. The adjusted financial measures exclude these charges and their related tax effects, and also exclude certain discrete items related to our transfer pricing arrangements and taxes on repatriation of foreign earnings which were recognized during the third quarter of fiscal 2016.

For the third quarter of fiscal 2017, compared to the third quarter of fiscal 2016:

- Net revenue increased 14% to \$619.0 million. On a constant dollar basis, net revenue increased 12%.
- Total comparable sales, which includes comparable store sales and direct to consumer, increased 8%. On a constant dollar basis, total comparable sales increased 7%.
 - Comparable store sales increased 2%, or increased 1% on a constant dollar basis.
 - Direct to consumer net revenue increased 26%, or increased 25% on a constant dollar basis.
- Gross profit increased 16% to \$322.0 million. Adjusted gross profit increased 16% to \$323.1 million.
- Gross margin increased 90 basis points to 52.0%. Adjusted gross margin increased 110 basis points to 52.2%.
- Income from operations decreased 8% to \$85.6 million. Adjusted income from operations increased 16% to \$107.8 million.
- Operating margin decreased 330 basis points to 13.8%. Adjusted operating margin increased 30 basis points to 17.4%.
- Income tax expense increased 9% to \$27.7 million. Our effective tax rate for the third quarter of fiscal 2017 was 32.0% compared to 27.0% for the third quarter of fiscal 2016. The adjusted effective tax rate was 30.8% in the third quarter of fiscal 2017 compared to 31.3% in the third quarter of fiscal 2016.
- Diluted earnings per share were \$0.43 compared to \$0.50 in the third quarter of fiscal 2016. Adjusted diluted earnings per share were \$0.56 for the third quarter of fiscal 2017 compared to \$0.47 for the third quarter of fiscal 2016.

Refer to the non-GAAP reconciliation tables contained in the "Results of Operations" section of this "Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations" for reconciliations between constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue, and adjusted

gross profit, gross margin, income from operations, operating margin, effective tax rates, and diluted earnings per share, and the most directly comparable measures calculated in accordance with GAAP.

Results of Operations

Third Quarter Results

The following table summarizes key components of our results of operations for the quarters ended October 29, 2017 and October 30, 2016. The percentages are presented as a percentage of net revenue.

	Quarter Ended			
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>		<i>(Percentages)</i>	
Net revenue	\$ 619,018	\$ 544,416	100.0%	100.0%

Income from operations	85,588	92,975	13.8	17.1
Other income (expense), net	1,052	628	0.2	0.1
Income before income tax expense	86,640	93,603	14.0	17.2
Income tax expense	27,696	25,318	4.5	4.7
Net income	\$ 58,944	\$ 68,285	9.5%	12.5%

Net Revenue

Net revenue increased \$74.6 million, or 14%, to \$619.0 million for the third quarter of fiscal 2017 from \$544.4 million for the third quarter of fiscal 2016. On a constant dollar basis, assuming the average exchange rates for the third quarter of fiscal 2017 remained constant with the average exchange rates for the third quarter of fiscal 2016, net revenue increased \$67.8 million, or 12%.

The increase in net revenue was primarily due to net revenue generated by new company-operated stores as well as increased direct to consumer net revenue. Total comparable sales, which includes comparable store sales and direct to consumer, increased 8% in the third quarter of fiscal 2017 compared to the third quarter of fiscal 2016. Total comparable sales increased 7% on a constant dollar basis.

Net revenue on a segment basis for the quarters ended October 29, 2017 and October 30, 2016 is summarized below. The percentages are presented as a percentage of total net revenue.

	Quarter Ended			
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>		<i>(Percentages)</i>	
Company-operated stores	\$ 425,084	\$ 393,506	68.7%	72.3%
Direct to consumer	131,181	104,013	21.2	19.1
Other	62,753	46,897	10.1	8.6
Net revenue	\$ 619,018	\$ 544,416	100.0%	100.0%

Company-Operated Stores. Net revenue from our company-operated stores segment increased \$31.6 million, or 8%, to \$425.1 million in the third quarter of fiscal 2017 from \$393.5 million in the third quarter of fiscal 2016. The following contributed to the increase in net revenue from our company-operated stores segment:

- Net revenue from company-operated stores we opened or significantly expanded subsequent to October 30, 2016, and therefore not included in comparable store sales, contributed \$33.7 million to the increase. We opened 46 net new lululemon branded company-operated stores since the third quarter of fiscal 2016, including 30 stores in North America, 13 stores in Asia Pacific, and three stores in Europe.

- A comparable store sales increase of 2% in the third quarter of fiscal 2017 compared to the third quarter of fiscal 2016 resulted in a \$6.6 million increase to net revenue. Comparable store sales increased 1% , or \$3.0 million on a constant dollar basis. The increase in comparable store sales was primarily a result of improved conversion rates and increased dollar value per transaction. This was partially offset by a decrease in store traffic, due in part to shifting retail traffic trends from in-store to online.

The closure of 48 of our ivivva branded company-operated stores as part of the restructuring of our ivivva operations in the third quarter of fiscal 2017 reduced our net revenue from company-operated stores by \$8.8 million compared to the third quarter of fiscal 2016 .

Direct to Consumer. Net revenue from our direct to consumer segment increased \$27.2 million , or 26% , to \$131.2 million in the third quarter of fiscal 2017 from \$104.0 million in the third quarter of fiscal 2016 . Direct to consumer net revenue increased 25% on a constant dollar basis. This was primarily a result of increased website traffic, increased dollar value per transaction, and improved conversion rates.

Other. Net revenue from our other segment increase d \$15.9 million , or 34% , to \$62.7 million in the third quarter of fiscal 2017 from \$46.9 million in the third quarter of fiscal 2016 . This increase was primarily the result of an increased number of outlets and increased net revenue at existing outlets during the third quarter of fiscal 2017 compared to the third quarter of fiscal 2016 . There was also an increase in net revenue from warehouse sales and temporary locations. The increase in net revenue from our other segment was partially offset by lower net revenue from showrooms, primarily due to a decreased number of showrooms open during the third quarter of fiscal 2017 compared to the third quarter of fiscal 2016 .

Gross Profit

Gross profit increase d \$43.5 million , or 16% , to \$322.0 million for the third quarter of fiscal 2017 from \$278.4 million for the third quarter of fiscal 2016 .

Gross profit as a percentage of net revenue, or gross margin, increase d 90 basis points to 52.0% in the third quarter of fiscal 2017 from 51.1% in the third quarter of fiscal 2016 . The increase in gross margin was primarily the result of:

- an increase in product margin of 70 basis points which was primarily due to a favorable mix of higher margin product and lower product costs, partially offset by higher markdowns;
- a decrease in fixed costs, including occupancy and depreciation costs and costs related to our product and supply chain departments, of 20 basis points; and
- a favorable impact of foreign exchange rates of 20 basis points.

This was partially offset by accelerated depreciation charges related to the restructuring of our ivivva operations of 20 basis points.

During the third quarter of fiscal 2017 , as a result of the restructuring of our ivivva operations, we recognized costs totaling \$1.2 million within costs of goods sold, as outlined in Note 6 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report. These costs primarily related to accelerated depreciation on leasehold improvements and furniture and fittings for stores which were closed during the third quarter of fiscal 2017. Excluding these charges, adjusted gross profit increased 16% to \$323.1 million , and adjusted gross margin increase d 110 basis points to 52.2% compared to the third quarter of fiscal 2016 .

Selling, General and Administrative Expenses

Selling, general and administrative expenses increase d \$29.9 million , or 16% , to \$215.4 million in the third quarter of fiscal 2017 from \$185.5 million in the third quarter of fiscal 2016 . The increase in selling, general and administrative expenses was primarily due to:

- an increase in costs related to our operating channels of \$25.3 million , comprised of:
 - an increase in employee costs of \$7.7 million primarily from a growth in labor hours and benefits, mainly associated with new company-operated stores and other new operating locations;
 - an increase in variable costs of \$3.7 million primarily due to an increase in credit card fees and packaging costs as a result of increased net revenue; and
 - an increase in other costs of \$13.9 million primarily due to an increase in digital marketing expenses, website related costs including photography costs, brand and community costs, and other costs associated with our operating locations;

- an increase in head office costs of \$3.1 million , comprised of:
 - an increase in employee costs of \$2.1 million primarily due to additional employees to support the growth in our business; and
 - an increase in other costs of \$1.0 million primarily due to increases in information technology related costs, an increase in brand and community costs, partially offset by a decrease in professional fees; and
- a decrease in net foreign exchange and derivative revaluation gains of \$1.6 million . There were net foreign exchange and derivative revaluation gains of \$2.7 million in the third quarter of fiscal 2017 compared to net foreign exchange revaluation gains of \$4.3 million in the third quarter of fiscal 2016 . The net foreign exchange gains and losses primarily relate to the revaluation of U.S. dollar denominated monetary assets and liabilities held by Canadian subsidiaries, and the derivatives are designed to economically hedge these gains and losses.

As a percentage of net revenue, selling, general and administrative expenses increased 70 basis points, to 34.8% in the third quarter of fiscal 2017 from 34.1% in the third quarter of fiscal 2016 .

Asset Impairment and Restructuring Costs

As a result of the restructuring of our ivivva operations, we recognized restructuring costs of \$21.0 million in the third quarter of fiscal 2017 . This included lease termination costs of \$19.4 million , employee related costs of \$0.8 million , and other restructuring costs of \$0.8 million . We did not have any asset impairment and restructuring costs in the third quarter of fiscal 2016 . Please refer to Note 6 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report.

Income from Operations

Income from operations decreased \$7.4 million , or 8% , to \$85.6 million in the third quarter of fiscal 2017 from \$93.0 million in the third quarter of fiscal 2016 . Operating margin decreased 330 basis points to 13.8% compared to 17.1% in the third quarter of fiscal 2016 .

In connection with the restructuring of our ivivva operations, we recognized pre-tax costs totaling \$22.2 million in the third quarter of fiscal 2017 . This includes restructuring costs of \$21.0 million and costs recognized in cost of goods sold totaling \$1.2 million . Excluding these charges, adjusted income from operations increased 16% to \$107.8 million and adjusted operating margin increased 30 basis points to 17.4% .

On a segment basis, we determine income from operations without taking into account our general corporate expenses and the costs we incur in connection with the restructuring of our ivivva operations.

Segmented income from operations for the quarters ended October 29, 2017 and October 30, 2016 is summarized below. The percentages are presented as a percentage of net revenue of the respective operating segments.

	Quarter Ended			
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>		<i>(Percentages)</i>	
Company-operated stores	\$ 97,015	\$ 91,497	22.8%	23.3%
Direct to consumer	52,201	43,588	39.8	41.9
Other	9,319	5,709	14.9	12.2
Segmented income from operations	158,535	140,794		
General corporate expense	50,762	47,819		
Restructuring and related costs	22,185	—		
Income from operations	\$ 85,588	\$ 92,975		

Company-Operated Stores . Income from operations from our company-operated stores segment increased \$5.5 million , or 6% , to \$97.0 million for the third quarter of fiscal 2017 from \$91.5 million for the third quarter of fiscal 2016 . The increase was primarily the result of increased gross profit of \$14.5 million which was primarily due to increased net revenue. This was partially offset by an increase in selling, general and administrative expenses, including increased store employee costs, increased brand and community costs, and increased store operating expenses. Income from operations as a percentage of company-operated stores net revenue decreased 50 basis points primarily due to deleverage of selling, general and administrative expenses.

Direct to Consumer. Income from operations from our direct to consumer segment increased \$8.6 million, or 20%, to \$52.2 million for the third quarter of fiscal 2017 from \$43.6 million for the third quarter of fiscal 2016. The increase was primarily the result of increased gross profit of \$21.3 million which was primarily due to increased net revenue and higher gross margin. This was partially offset by an increase in selling, general and administrative expenses including higher digital marketing expenses and website related costs, and higher variable costs such as packaging, distribution and credit card fees as a result of higher net revenue. Income from operations as a percentage of direct to consumer net revenue decreased 210 basis points primarily due to deleverage of selling, general and administrative expenses, partially offset by increased gross margin.

Other. Other income from operations increased \$3.6 million, or 63%, to \$9.3 million for the third quarter of fiscal 2017 from \$5.7 million for the third quarter of fiscal 2016. The increase was primarily the result of increased gross profit of \$8.8 million which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses, including increased employee costs, increased brand and community costs, and increased other operating costs. Income from operations as a percentage of other net revenue increased 270 basis points primarily due to an increase in gross margin.

General Corporate Expense. General corporate expense increased \$2.9 million, or 6%, to \$50.8 million for the third quarter of fiscal 2017 from \$47.8 million for the third quarter of fiscal 2016. This increase was primarily due to increases in information technology costs, head office employee costs, and other brand and community costs, partially offset by decreased professional fees. There was also a decrease in net foreign exchange and derivative revaluation gains of \$1.6 million. There were net foreign exchange and derivative revaluation gains of \$2.7 million in the third quarter of fiscal 2017 compared to net foreign exchange revaluation gains of \$4.3 million in the third quarter of fiscal 2016. The net foreign exchange gains and losses primarily relate to the revaluation of U.S. dollar denominated monetary assets and liabilities held by Canadian subsidiaries, and the derivatives are designed to economically hedge these gains and losses.

Other Income (Expense), Net

Other income, net increased \$0.4 million, or 68%, to \$1.1 million for the third quarter of fiscal 2017 from income of \$0.6 million for the third quarter of fiscal 2016. The third quarter of fiscal 2016 included a net interest expense of \$0.2 million in relation to certain tax adjustments that are outlined in Note 7 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report.

Income Tax Expense

Income tax expense increased \$2.4 million, or 9%, to \$27.7 million for the third quarter of fiscal 2017 from \$25.3 million for the third quarter of fiscal 2016.

The third quarters of fiscal 2017 and fiscal 2016 included certain adjustments which resulted in net income tax recoveries of \$5.8 million and \$4.0 million, respectively. As outlined in Notes 6 and 7 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report, the tax recovery recognized in the third quarter of fiscal 2017 relates to the tax effect of the costs recognized in connection with the ivivva restructuring, and the tax recovery recognized in the third quarter of fiscal 2016 relates to our transfer pricing arrangements and taxes on repatriation of foreign earnings.

The effective tax rate for the third quarter of fiscal 2017 was 32.0% compared to 27.0% for the third quarter of fiscal 2016. The adjusted effective tax rate was 30.8% for the third quarter of fiscal 2017 compared to 31.3% for the third quarter of fiscal 2016. The decrease in the adjusted effective tax rate compared to the third quarter of fiscal 2016 is primarily due to certain adjustments which were recorded during the third quarter of fiscal 2017 following the finalization of our U.S. tax return.

Net Income

Net income decreased \$9.3 million, or 14%, to \$58.9 million for the third quarter of fiscal 2017 from \$68.3 million for the third quarter of fiscal 2016. This was primarily due to an increase in selling, general and administrative expenses of \$29.9 million, asset impairment and restructuring costs of \$21.0 million, an increase in income tax expense of \$2.4 million, partially offset by an increase in gross profit of \$43.5 million and an increase in other income (expense), net of \$0.4 million.

First Three Quarters Results

The following table summarizes key components of our results of operations for the first three quarters ended October 29, 2017 and October 30, 2016 . The percentages are presented as a percentage of net revenue.

	Three Quarters Ended			
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>		<i>(Percentages)</i>	
Net revenue	\$ 1,720,379	\$ 1,554,452	100.0%	100.0%
Cost of goods sold	844,100	782,734	49.1	50.4
Gross profit	876,279	771,718	50.9	49.6
Selling, general and administrative expenses	640,032	547,195	37.2	35.2
Asset impairment and restructuring costs	36,524	—	2.1	—
Income from operations	199,723	224,523	11.6	14.4
Other income (expense), net	2,771	720	0.2	0.1
Income before income tax expense	202,494	225,243	11.8	14.5
Income tax expense	63,593	57,997	3.7	3.7
Net income	\$ 138,901	\$ 167,246	8.1%	10.8%

Net Revenue

Net revenue increased \$165.9 million , or 11% , to \$1.720 billion for the first three quarters of fiscal 2017 from \$1.554 billion for the first three quarters of fiscal 2016 . On a constant dollar basis, assuming the average exchange rates for the first three quarters of fiscal 2017 remained constant with the average exchange rates for the first three quarters of fiscal 2016 , net revenue increased \$162.9 million , or 10% .

The increase in net revenue was primarily due to net revenue generated by new company-operated stores as well as increased direct to consumer net revenue. Total comparable sales, which includes comparable store sales and direct to consumer, increased 5% in the first three quarters of fiscal 2017 compared to the first three quarters of fiscal 2016 . Total comparable sales increased 4% on a constant dollar basis.

Net revenue on a segment basis for the first three quarters ended October 29, 2017 and October 30, 2016 is summarized below. The percentages are presented as a percentage of total net revenue.

	Three Quarters Ended			
	October 29, 2017	October 30, 2016	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>		<i>(Percentages)</i>	
Company-operated stores	\$ 1,218,127	\$ 1,133,599	70.8%	72.9%
Direct to consumer	341,453	288,978	19.8	18.6
Other	160,799	131,875	9.4	8.5
Net revenue	\$ 1,720,379	\$ 1,554,452	100.0%	100.0%

Company-Operated Stores . Net revenue from our company-operated stores segment increased \$84.5 million , or 7% , to \$1.218 billion in the first three quarters of fiscal 2017 from \$1.134 billion in the first three quarters of fiscal 2016 . The following contributed to the increase in net revenue from our company-operated stores segment:

- Net revenue from company-operated stores we opened or significantly expanded subsequent to October 30, 2016 , and therefore not included in comparable store sales, contributed \$89.0 million to the increase. We opened 46 net new lululemon branded company-operated stores since the third quarter of fiscal 2016 , including 30 stores in North America, 13 stores in Asia Pacific, and three stores in Europe.
- A comparable store sales increase of 1% in the first three quarters of fiscal 2017 compared to the first three quarters of fiscal 2016 which resulted in a \$4.3 million increase to net revenue. Comparable store sales increased 1% , or \$2.3 million on a constant dollar basis. The increase in comparable store sales was primarily a result of increased dollar value per transaction and improved conversion rates. This was partially offset by a decrease in store traffic, due in part to shifting retail traffic trends from in-store to online.

The closure of 48 of our ivivva branded company-operated stores as part of the restructuring of our ivivva operations in the third quarter of fiscal 2017 reduced our net revenue from company-operated stores by \$8.8 million compared to the first three quarters of fiscal 2016 .

Direct to Consumer. Net revenue from our direct to consumer segment increased \$52.5 million , or 18% , to \$341.5 million in the first three quarters of fiscal 2017 from \$289.0 million in the first three quarters of fiscal 2016 . Direct to consumer net revenue increased 18% on a constant dollar basis. This was primarily a result of increased website traffic and increased dollar value per transaction, partially offset by lower conversion rates. During the second quarter of fiscal 2017, we held online warehouse sales in the United States and Canada which generated net revenue of \$12.3 million . We did not hold any online warehouse sales during the first three quarters of fiscal 2016 . Excluding the impact of the online warehouse sales, direct to consumer net revenue increased 14% .

Other. Net revenue from our other segment increased \$28.9 million , or 22% , to \$160.8 million in the first three quarters of fiscal 2017 from \$131.9 million in the first three quarters of fiscal 2016 . This increase was primarily the result of increased net revenue at existing outlets, and an increased number of outlets and temporary locations open during the first three quarters of fiscal 2017 compared to the first three quarters of fiscal 2016 . The increase in net revenue from our other segment was partially offset by lower net revenue from showrooms, primarily due a decreased number of showrooms open during the first three quarters of fiscal 2017 compared to the first three quarters of fiscal 2016 .

Gross Profit

Gross profit increased \$104.6 million , or 14% , to \$876.3 million for the first three quarters of fiscal 2017 from \$771.7 million for the first three quarters of fiscal 2016 .

Gross profit as a percentage of net revenue, or gross margin, increased 130 basis points, to 50.9% in the first three quarters of fiscal 2017 from 49.6% in the first three quarters of fiscal 2016 . The increase in gross margin was primarily the result of:

- an increase in product margin of 230 basis points which was primarily due to a favorable mix of higher margin product and lower product costs, partially offset by higher markdowns; and
- a favorable impact of foreign exchange rates of 10 basis points.

This was partially offset by an increase in fixed costs, including occupancy and depreciation costs, and costs related to our product and supply chain departments, of 60 basis points and costs incurred in connection with the restructuring of our ivivva operations of 50 basis points.

During the first three quarters of fiscal 2017 , as a result of the restructuring of our ivivva operations, we recognized costs totaling \$8.8 million within costs of goods sold, as outlined in Note 6 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report. Excluding these charges, adjusted gross profit increased 15% to \$885.1 million and adjusted gross margin increased 180 basis points to 51.4% compared to the first three quarters of fiscal 2016 .

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$92.8 million , or 17% , to \$640.0 million in the first three quarters of fiscal 2017 from \$547.2 million in the first three quarters of fiscal 2016 . The increase in selling, general and administrative expenses was primarily due to:

- an increase in costs related to our operating channels of \$63.3 million , comprised of:
 - an increase in employee costs of \$26.8 million , primarily from a growth in labor hours and benefits, mainly associated with new company-operated stores and other new operating locations;
 - an increase in variable costs of \$6.8 million , primarily due to an increase in credit card fees and distribution costs as a result of increased net revenue; and
 - an increase in other costs of \$29.7 million , primarily due to an increase in digital marketing expenses, website related costs, brand and community costs, and other costs associated with our operating locations; and
- an increase in head office costs of \$40.6 million , comprised of:
 - an increase in employee costs of \$13.4 million primarily due to additional employees to support the growth in our business; and

- an increase in other costs of \$27.2 million primarily due to a global brand campaign, increases in other brand and community costs, professional fees, depreciation, and information technology related costs.

The increase in selling, general and administrative expenses was partially offset by an increase in net foreign exchange and derivative revaluation gains of \$11.0 million. There were net foreign exchange and derivative revaluation gains of \$6.9 million in the first three quarters of fiscal 2017 compared to net foreign exchange revaluation losses of \$4.1 million in the first three quarters of fiscal 2016. The net foreign exchange gains and losses primarily relate to the revaluation of U.S. dollar denominated monetary assets and liabilities held by Canadian subsidiaries, and the derivatives are designed to economically hedge these gains and losses.

As a percentage of net revenue, selling, general and administrative expenses increased 200 basis points, to 37.2% in the first three quarters of fiscal 2017 from 35.2% in the first three quarters of fiscal 2016.

Asset Impairment and Restructuring Costs

As a result of the restructuring of our ivivva operations, we recognized asset impairment and restructuring costs of \$36.5 million in the first three quarters of fiscal 2017. This includes lease termination costs of \$19.9 million, long-lived asset impairment charges of \$11.6 million, employee related costs of \$4.0 million, and other restructuring costs of \$1.0 million. We did not have any asset impairment and restructuring costs in the first three quarters of fiscal 2016. Please refer to Note 6 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report.

Income from Operations

Income from operations decreased \$24.8 million, or 11%, to \$199.7 million in the first three quarters of fiscal 2017 from \$224.5 million in the first three quarters of fiscal 2016. Operating margin decreased 280 basis points to 11.6% compared to 14.4% in the first three quarters of fiscal 2016.

In connection with the restructuring of our ivivva operations, we recognized pre-tax costs totaling \$45.4 million in the first three quarters of fiscal 2017. This includes asset impairment and restructuring costs of \$36.5 million and costs recognized in cost of goods sold totaling \$8.8 million. Excluding these charges, adjusted income from operations increased 9% to \$245.1 million and adjusted operating margin decreased 20 basis points to 14.2%.

On a segment basis, we determine income from operations without taking into account our general corporate expenses and the costs we incur in connection with the restructuring of our ivivva operations.

Segmented income from operations for the first three quarters ended October 29, 2017 and October 30, 2016 is summarized below. The percentages are presented as a percentage of net revenue of the respective operating segments.

	Three Quarters Ended			
	October 29, 2017		October 30, 2016	
	<i>(In thousands)</i>		<i>(Percentages)</i>	
Company-operated stores	\$ 267,178	\$ 245,056	21.9%	21.6%
Direct to consumer	127,746	114,744	37.4	39.7
Other	19,076	12,430	11.9	9.4
Segmented income from operations	414,000	372,230		
General corporate expense	168,912	147,707		
Restructuring and related costs	45,365	—		
Income from operations	\$ 199,723	\$ 224,523		

Company-Operated Stores. Income from operations from our company-operated stores segment increased \$22.1 million, or 9%, to \$267.2 million for the first three quarters of fiscal 2017 from \$245.1 million for the first three quarters of fiscal 2016. The increase was primarily the result of increased gross profit of \$55.4 million which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses, including increased store employee costs, increased brand and community costs, and increased operating expenses associated with higher net revenues and new stores. Income from operations as a percentage of company-operated stores net revenue increased by 30 basis points, primarily due to an increase in gross margin, partially offset by deleverage of selling, general and administrative expenses.

Direct to Consumer. Income from operations from our direct to consumer segment increased \$13.0 million, or 11%, to \$127.7 million for the first three quarters of fiscal 2017 from \$114.7 million for the first three quarters of fiscal 2016. The increase was primarily the result of increased gross profit of \$40.6 million which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses including higher digital marketing expenses, website related costs, and higher variable costs such as packaging and distribution and credit card fees as a result of higher net revenue. Income from operations as a percentage of direct to consumer net revenue decreased 230 basis points primarily due to deleverage of selling, general and administrative expenses, partially offset by increased gross margin.

Other. Other income from operations increased \$6.6 million, or 53%, to \$19.1 million for the first three quarters of fiscal 2017 from \$12.4 million for the first three quarters of fiscal 2016. The increase was primarily the result of increased gross profit of \$17.4 million which was primarily due to increased net revenue and higher gross margin. The increase in gross profit was partially offset by an increase in selling, general and administrative expenses, including increased employee costs, increased brand and community costs, and increased operating expenses associated with new locations and higher net revenues. Income from operations as a percentage of other net revenue increased 250 basis points primarily due to an increase in gross margin partially offset by deleverage of selling, general and administrative expenses as a percentage of other net revenue.

General Corporate Expense. General corporate expense increased \$21.2 million, or 14%, to \$168.9 million for the first three quarters of fiscal 2017 from \$147.7 million for the first three quarters of fiscal 2016. This increase was primarily due to increased head office employee costs, a global brand campaign, increases in other brand and community costs, professional fees, depreciation, and information technology related costs. These increases were partially offset by an increase in net foreign exchange and derivative revaluation gains of \$11.0 million. There were net foreign exchange and derivative revaluation gains of \$6.9 million in the first three quarters of fiscal 2017 compared to net foreign exchange losses of \$4.1 million in the first three quarters of fiscal 2016. The net foreign exchange gains and losses primarily relate to the revaluation of U.S. dollar denominated monetary assets and liabilities held by Canadian subsidiaries, and the derivatives are designed to economically hedge these gains and losses.

Other Income (Expense), Net

Other income, net increased \$2.1 million, or 285%, to \$2.8 million for the first three quarters of fiscal 2017 from income of \$0.7 million for the first three quarters of fiscal 2016. The increase was primarily due to net interest expense of \$1.7 million which was recorded in the first three quarters of fiscal 2016 in relation to certain tax adjustments that are outlined in Note 7 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report.

Income Tax Expense

Income tax expense increased \$5.6 million, or 10%, to \$63.6 million for the first three quarters of fiscal 2017 from \$58.0 million for the first three quarters of fiscal 2016.

The first three quarters of fiscal 2017 and fiscal 2016 included certain tax adjustments which resulted in net income tax recoveries of \$11.9 million and \$11.6 million, respectively. As outlined in Notes 6 and 7 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report, the tax recovery recognized in the first three quarters of fiscal 2017 relates to the tax effect of the costs recognized in connection with the ivivva restructuring, and the tax recovery recognized in the first three quarters of fiscal 2016 relates to our transfer pricing arrangements and taxes on repatriation of foreign earnings.

The effective tax rate for the first three quarters of fiscal 2017 was 31.4% compared to 25.7% for the first three quarters of fiscal 2016. The adjusted effective tax rate was 30.5% for the first three quarters of fiscal 2017 compared to 30.7% for the first three quarters of fiscal 2016. The decrease in the adjusted effective tax rate compared to first three quarters of fiscal 2016 is primarily due to certain adjustments which were recorded during the first three quarters of fiscal 2017 following the finalization of our U.S. and Canadian tax returns.

Net Income

Net income decreased \$28.3 million, or 17%, to \$138.9 million for the first three quarters of fiscal 2017 from \$167.2 million for the first three quarters of fiscal 2016. This was primarily due to an increase in selling, general and administrative expenses of \$92.8 million, long-lived asset impairment and restructuring costs of \$36.5 million, and an increase in income tax expense of \$5.6 million, partially offset by an increase in gross profit of \$104.6 million, and an increase in other income (expense), net of \$2.1 million.

Comparable Store Sales and Total Comparable Sales

We separately track comparable store sales, which reflect net revenue from company-operated stores that have been open for at least 12 months, or open for at least 12 months after being significantly expanded. Net revenue from a store is included in comparable store sales beginning with the first month for which the store has a full month of sales in the prior year. Comparable store sales exclude sales from new stores that have not been open for at least 12 months, from stores which have not been in their significantly expanded space for at least 12 months, and from stores which have been temporarily relocated for renovations. Comparable store sales also exclude sales from direct to consumer, outlets, showrooms, temporary locations, wholesale accounts, license and supply arrangements, warehouse sales, and sales from company-operated stores that we have closed.

Total comparable sales combines comparable store sales and direct to consumer sales.

The comparable sales measures we report may not be equivalent to similarly titled measures reported by other companies.

Non-GAAP Financial Measures

Constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue, and the adjusted financial results are non-GAAP financial measures.

A constant dollar basis assumes the average foreign exchange rates for the period remained constant with the average foreign exchange rates for the same period of the prior year. We provide constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue because we use these measures to understand the underlying growth rate of net revenue excluding the impact of changes in foreign exchange rates. We believe that disclosing these measures on a constant dollar basis is useful to investors because it enables them to better understand the level of growth of our business.

Adjusted gross profit, gross margin, income from operations, operating margin, effective tax rates, and diluted earnings per share exclude the costs recognized in connection with the restructuring of our ivivva operations, its related tax effects, and certain discrete items related to our transfer pricing arrangements and taxes on repatriation of foreign earnings. We believe these adjusted financial measures are useful to investors as the adjustments do not directly relate to our ongoing business operations and therefore do not contribute to a meaningful evaluation of the trend in our operating performance. Furthermore, we do not believe the adjustments are reflective of our expectations of our future operating performance and believe these non-GAAP measures are useful to investors because of their comparability to our historical information.

The presentation of this financial information is not intended to be considered in isolation or as a substitute for, or with greater prominence to, the financial information prepared and presented in accordance with GAAP. A reconciliation of the non-GAAP financial measures follows, which includes more detail on the GAAP financial measure that is most directly comparable to each non-GAAP financial measure, and the related reconciliations between these financial measures.

The below changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue show the change compared to the corresponding period in the prior year.

Constant dollar changes in net revenue, total comparable sales, comparable store sales, and direct to consumer net revenue

	Quarter Ended October 29, 2017		Three Quarters Ended October 29, 2017

¹ During the quarter and three quarters ended October 29, 2017, we recognized costs totaling \$1.2 million and \$8.8 million, respectively, within cost of goods sold related to the restructuring of our ivivva operations.

² During the quarter and three quarters ended October 29, 2017, we recognized asset impairment and restructuring costs related to the restructuring of our ivivva operations totaling \$21.0 million and \$36.5 million, respectively.

³ The adjustments in the quarter and three quarters ended October 30, 2016 relate to our transfer pricing arrangements and the associated repatriation of foreign earnings and were recorded in other income (expense), net and income tax expense.

⁴ The adjustment to income tax expense for the quarter and three quarters ended October 29, 2017 represents the tax effect of the ivivva related restructuring adjustments, calculated based on the expected annual tax rate of the applicable tax jurisdictions.

Please refer to Notes 6 and 7 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report for further information on these adjustments.

Seasonality

Our business is affected by the general seasonal trends common to the retail apparel industry. Our annual net revenue is weighted more heavily toward our fourth fiscal quarter, reflecting our historical strength in sales during the holiday season, while our operating expenses are more equally distributed throughout the year. As a result, a substantial portion of our operating profits are generated in the fourth quarter of our fiscal year. For example, we generated approximately 47%, 45%, and 42% of our full year operating profit during the fourth quarters of fiscal 2016, fiscal 2015, and fiscal 2014, respectively.

Liquidity and Capital Resources

Our primary sources of liquidity are our current balances of cash and cash equivalents, cash flows from operations, and capacity under our revolving credit facility. Our primary cash needs are capital expenditures for opening new stores and remodeling or relocating existing stores, making information technology system enhancements, funding working capital requirements, and making other strategic capital investments both in North America and internationally. We may also use cash to repurchase shares of our common stock. Cash and cash equivalents in excess of our needs are held in interest bearing accounts with financial institutions.

As of October 29, 2017, our working capital (excluding cash and cash equivalents) was \$297.7 million, our cash and cash equivalents were \$650.1 million and our capacity under our revolving facility was \$148.9 million.

The following table summarizes our net cash flows provided by and used in operating, investing and financing activities for the periods indicated:

	Three Quarters Ended	
	October 29, 2017	October 30, 2016
	<i>(In thousands)</i>	
Total cash provided by (used in):		
Operating activities	\$ 131,309	\$ 98,659
Investing activities	(120,051)	(106,168)
Financing activities	(100,707)	(25,288)
Effect of exchange rate changes on cash	4,657	11,701
(Decrease) increase in cash and cash equivalents	\$ (84,792)	\$ (21,096)

Operating Activities

Cash flows provided by operating activities consist primarily of net income adjusted for certain items including depreciation and amortization, stock-based compensation expense, and the effect of changes in operating assets and liabilities.

Cash provided by operating activities increased \$32.7 million, to \$131.3 million for the first three quarters of fiscal 2017 compared to \$98.7 million for the first three quarters of fiscal 2016. This increase was primarily the result of a decrease in net cash outflows from changes in operating assets and liabilities of \$47.0 million, an increase in depreciation and amortization of \$16.5 million, and asset impairment related to our ivivva restructuring of \$11.6 million. This was partially offset by a decrease in net income of \$28.3 million and a change in deferred income taxes of \$18.4 million.

Investing Activities

Cash flows used in investing activities relate to capital expenditures, the settlement of net investment hedges, and other investing activities. The capital expenditures were primarily for opening new company-operated stores, remodeling or relocating certain stores, and ongoing store refurbishment. We also had capital expenditures related to information technology and business systems, related to corporate buildings, and for opening retail locations other than company-operated stores.

Cash used in investing activities increased \$13.9 million to \$120.1 million for the first three quarters of fiscal 2017 from \$106.2 million for the first three quarters of fiscal 2016. This increase was primarily the result of an increase in capital expenditures for our direct to consumer and company-operated stores segments, primarily related to our new website and an increased number of stores opened during the first three quarters of fiscal 2017 compared to the first three quarters of fiscal 2016. The increase in cash used in investing activities was partially offset by a decrease in capital expenditures at our corporate level. In the second quarter of fiscal 2016, we purchased a land parcel in Vancouver, BC for \$19.7 million for general corporate purposes.

Financing Activities

Cash flows used in or provided by financing activities consist primarily of cash used to repurchase shares of our common stock and certain cash flows related to stock-based compensation.

Cash used in financing activities increased \$75.4 million, to \$100.7 million for the first three quarters of fiscal 2017 compared to \$25.3 million for the first three quarters of fiscal 2016.

On June 11, 2014, our board of directors approved a program to repurchase shares of our common stock up to an aggregate value of \$450.0 million. This stock repurchase program was completed during the second quarter of fiscal 2016. On December 1, 2016, our board of directors approved a program to repurchase shares of our common stock up to an aggregate value of \$100.0 million. This stock repurchase program was completed during the third quarter of fiscal 2017.

Our cash used in financing activities for the first three quarters of fiscal 2017 included \$99.3 million to repurchase 1.8 million shares of our common stock compared to \$28.6 million to repurchase 0.4 million shares for the first three quarters of fiscal 2016. The common stock was repurchased in the open market at prevailing market prices, including under plans complying with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934, with the timing and actual number of shares repurchased depending upon market conditions, eligibility to trade, and other factors.

We believe that our cash and cash equivalent balances, cash generated from operations, and borrowings available to us under our revolving credit facility will be adequate to meet our liquidity needs and capital expenditure requirements for at least the next 12 months. Our cash from operations may be negatively impacted by a decrease in demand for our products as well as the other factors described in Item 1 of Part II of this Quarterly Report on Form 10-Q. In addition, we may make discretionary capital improvements with respect to our stores, distribution facilities, headquarters, or systems, or we may repurchase shares under an approved stock repurchase program, which we would expect to fund through the use of cash, issuance of debt or equity securities or other external financing sources to the extent we were unable to fund such capital expenditures out of our cash and cash equivalents and cash generated from operations.

Revolving Credit Facility

On December 15, 2016, we entered into a credit agreement for \$150.0 million under an unsecured five-year revolving credit facility. Bank of America, N.A., is administrative agent and HSBC Bank Canada is the syndication agent and letter of credit issuer, and the lenders party thereto. Borrowings under the revolving credit facility may be made, in U.S. Dollars, Euros, Canadian Dollars, and in other currencies, subject to the approval of the administrative agent and the lenders. Up to \$35.0 million of the revolving credit facility is available for the issuance of letters of credit and up to \$25.0 million is available for the issuance of swing line loans. Commitments under the revolving credit facility may be increased by up to \$200.0 million, subject to certain conditions, including the approval of the lenders. Borrowings under the agreement may be prepaid and commitments may be reduced or terminated without premium or penalty (other than customary breakage costs). The principal amount outstanding under the credit agreement will be due and payable in full on December 15, 2021, subject to provisions that permit us to request a limited number of one year extensions annually.

Borrowings made under the revolving credit facility bear interest at a rate per annum equal to, at our option, either (a) a rate based on the rates applicable for deposits on the interbank market for U.S. Dollars or the applicable currency in which the borrowings are made ("LIBOR") or (b) an alternate base rate, plus, in each case, an applicable margin. The applicable margin is determined by reference to a pricing grid, based on the ratio of indebtedness to earnings before interest, tax depreciation, amortization and rent ("EBITDAR") and ranges between 1.00%-1.75% for LIBOR loans and 0.00%-0.75% for alternate base rate loans. Additionally, a commitment fee of between 0.125%-0.200%, also determined by reference to the pricing grid, is payable on the average daily unused amounts under the revolving credit facility.

The credit agreement contains negative covenants that, among other things and subject to certain exceptions, limit the ability of our subsidiaries to incur indebtedness, incur liens, undergo fundamental changes, make dispositions of all or substantially all of their assets, alter their businesses and enter into agreements limiting subsidiary dividends and distributions.

We are also required to maintain a consolidated rent-adjusted leverage ratio of not greater than 3.50:1.00 and we are not permitted to allow the ratio of consolidated EBITDAR to consolidated interest charges (plus rent) to be less than 2.00:1.00. The credit agreement also contains certain customary representations, warranties, affirmative covenants, and events of default (including, among others, an event of default upon the occurrence of a change of control). If an event of default occurs, the credit agreement may be terminated and the maturity of any outstanding amounts may be accelerated.

As of October 29, 2017, aside from letters of credit of \$1.1 million, we had no other borrowings outstanding under this credit facility.

Off-Balance Sheet Arrangements

We enter into standby letters of credit to secure certain of our obligations, including leases, taxes and duties. As of October 29, 2017, letters of credit and letters of guarantee totaling \$1.1 million had been issued.

We have not entered into any transactions, agreements or other contractual arrangements to which an entity unconsolidated with us is a party and under which we have (i) any obligation under a guarantee, (ii) any retained or contingent

interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity, (iii) any obligation under derivative instruments that are indexed to our shares and classified as equity in our consolidated balance sheets, or (iv) any obligation arising out of a variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions. Predicting future events is inherently an imprecise activity and, as such, requires the use of judgment. Actual results may vary from our estimates in amounts that may be material to the financial statements. An accounting policy is deemed to be critical if it requires an accounting estimate to be made based on assumptions about matters that are highly uncertain at the time the estimate is made, and if different estimates that reasonably could have been used or changes in the accounting estimates that are reasonably likely to occur periodically, could materially impact our consolidated financial statements. Our critical accounting policies and estimates are discussed in our fiscal 2016 Annual Report on Form 10-K filed with the SEC on March 29, 2017, and in Notes 2, 4, and 5 included in Item 1 of Part I of this Quarterly Report on Form 10-Q.

Operating Locations

Our company-operated stores by brand and by country as of October 29, 2017 and January 29, 2017, are summarized in the table below.

	October 29, 2017	January 29, 2017
lululemon		
United States	263	245
Canada	54	51
Australia	27	27
United Kingdom	9	9
China	6	3
New Zealand	6	5
Hong Kong	3	3
Singapore	3	3
South Korea	3	2
Germany	2	1
Ireland	1	—
Japan	1	—
Puerto Rico	1	1
Switzerland	1	1
Taiwan	1	—
	381	351
ivivva		
United States	4	42
Canada	3	13
	7	55
Total	388	406

Retail locations operated by third parties under license and supply arrangements are not included in the above table. As of October 29, 2017, there were five licensed stores, including three in the United Arab Emirates, one in Mexico, and one in Qatar.

On August 20, 2017, as part of the restructuring of our ivivva operations, we closed 48 of our 55 ivivva branded company-operated stores. The seven remaining ivivva branded stores remain in operation and are not expected to close.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency Exchange Risk . The functional currency of our foreign subsidiaries is generally the applicable local currency. Our consolidated financial statements are presented in U.S. dollars. Therefore, the net revenue, expenses, assets, and liabilities of our foreign subsidiaries are translated from their functional currencies into U.S. dollars. Fluctuations in the value of the U.S. dollar affect the reported amounts of net revenue, expenses, assets, and liabilities. Foreign exchange differences which arise on translation of our foreign subsidiaries' balance sheets into U.S. dollars are recorded as a foreign currency translation adjustment in accumulated other comprehensive income or loss within stockholders' equity.

We also have exposure to changes in foreign exchange rates associated with transactions which are undertaken by our subsidiaries in currencies other than their functional currency. Such transactions include intercompany transactions and inventory purchases denominated in currencies other than the functional currency of the purchasing entity. As a result, we have been impacted by changes in exchange rates and may be impacted for the foreseeable future. The potential impact of currency fluctuation increases as our international expansion increases.

As of October 29, 2017 we had certain forward currency contracts outstanding in order to hedge a portion of the foreign currency exposure that arises on translation of a Canadian subsidiary into U.S. dollars. We also had certain forward currency contracts outstanding in an effort to reduce our exposure to the foreign exchange revaluation gains and losses that are recognized by our Canadian subsidiaries on U.S. dollar denominated monetary assets and liabilities. Please refer to Note 5 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report for further information, including details of the notional amounts outstanding.

In the future, in an effort to reduce foreign exchange risks, we may enter into further derivative financial instruments including hedging additional currency pairs. We do not, and do not intend to, engage in the practice of trading derivative securities for profit.

We currently generate a significant portion of our net revenue and incur a significant portion of our expenses in Canada. We also hold a significant portion of our net assets in Canada. The reporting currency for our consolidated financial statements is the U.S. dollar. A weakening of the U.S. dollar against the Canadian dollar results in:

- the following impacts to the consolidated statements of operations:
 - an increase in our net revenue upon translation of the sales made by our Canadian operations into U.S. dollars for the purposes of consolidation;
 - an increase in our selling, general and administrative expenses incurred by our Canadian operations upon translation into U.S. dollars for the purposes of consolidation;
 - foreign exchange revaluation losses by our Canadian subsidiaries on U.S. dollar denominated monetary assets and liabilities; and
 - derivative valuation gains on forward currency contracts not designated in a hedging relationship;
- the following impacts to the consolidated balance sheets:
 - an increase in the foreign currency translation adjustment which arises on the translation of our Canadian subsidiaries' balance sheets into U.S. dollars; and
 - a decrease in the foreign currency translation adjustment from derivative valuation losses on forward currency contracts, entered into as net investment hedges of a Canadian subsidiary.

During the first three quarters of fiscal 2017 , the change in the relative value of the U.S. dollar against the Canadian dollar resulted in a \$30.4 million increase in accumulated other comprehensive loss within stockholders' equity. During the first three quarters of fiscal 2016 , the change in the relative value of the U.S. dollar against the Canadian dollar resulted in a \$25.3 million reduction in accumulated other comprehensive loss within stockholders' equity.

A 10% depreciation in the relative value of the U.S. dollar against the Canadian dollar compared to the exchange rates in effect for the first three quarters of fiscal 2017 would have resulted in lower income from operations of approximately \$4.4 million in the first three quarters of fiscal 2017 . This assumes a consistent 10% appreciation in the U.S. dollar against the Canadian dollar throughout the first three quarters of fiscal 2017 . The timing of changes in the relative value of the U.S. dollar combined with the seasonal nature of our business, can affect the magnitude of the impact that fluctuations in foreign exchange rates have on our income from operations.

Interest Rate Risk . Our revolving credit facility provides us with available borrowings in an amount up to \$150.0 million in the aggregate. Because our revolving credit facility bears interest at a variable rate, we will be exposed to market risks

relating to changes in interest rates, if we have a meaningful outstanding balance. As of October 29, 2017, aside from letters of credit of \$1.1 million, we had no other borrowings outstanding under this credit facility. We currently do not engage in any interest rate hedging activity and currently have no intention to do so. However, in the future, if we have a meaningful outstanding balance under our revolving facility, in an effort to mitigate losses associated with these risks, we may at times enter into derivative financial instruments, although we have not historically done so. These may take the form of forward contracts, option contracts, or interest rate swaps. We do not, and do not intend to, engage in the practice of trading derivative securities for profit.

Credit Risk. We are primarily exposed to credit-related losses in the event of nonperformance by the counterparties to the forward currency contracts. The credit risk amount is our unrealized gains on our derivative instruments, based on foreign currency rates at the time of nonperformance. Our forward currency contracts are entered into with large, reputable financial institutions that are monitored for counterparty risk.

Inflation

Inflationary factors such as increases in the cost of our product and overhead costs may adversely affect our operating results. Although we do not believe that inflation has had a material impact on our financial position or results of operations to date, a high rate of inflation in the future may have an adverse effect on our ability to maintain current levels of gross margin and selling, general and administrative expenses as a percentage of net revenue if the selling prices of our products do not increase with these increased costs.

ITEM 4. CONTROLS AND PROCEDURES

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934, or the Exchange Act, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer (principal executive officer) and Chief Financial Officer (principal financial officer and principal accounting officer), to allow timely decisions to be made regarding required disclosure. We have established a Disclosure Committee, consisting of certain members of management, to assist in this evaluation. The Disclosure Committee meets on a quarterly basis, and as needed.

Our management, including our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) promulgated under the Exchange Act) at October 29, 2017. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, at October 29, 2017, our disclosure controls and procedures were effective.

There were no changes in our internal control over financial reporting during the quarter ended October 29, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

In addition to the legal matters described in Note 11 to the unaudited interim consolidated financial statements included in Item 1 of Part I of this report and in our fiscal 2016 Annual Report on Form 10-K, we are, from time to time, involved in routine legal matters incidental to the conduct of our business, including legal matters such as initiation and defense of proceedings to protect intellectual property rights, personal injury claims, product liability claims, employment claims, and similar matters. We believe the ultimate resolution of any such current proceeding will not have a material adverse effect on our continued financial position, results of operations or cash flows.

ITEM 1A. RISK FACTORS

In addition to the other information contained in this Form 10-Q and in our Annual Report on Form 10-K for our 2016 fiscal year, the following risk factors should be considered carefully in evaluating our business. Our business, financial condition or results of operations could be materially adversely affected by any of these risks. Please note that additional risks not presently known to us or that we currently deem immaterial could also impair our business and operations.

Our success depends on our ability to maintain the value and reputation of our brand.

Our success depends on the value and reputation of the lululemon brand. The lululemon name is integral to our business as well as to the implementation of our strategies for expanding our business. Maintaining, promoting, and positioning our brand will depend largely on the success of our marketing and merchandising efforts and our ability to provide a consistent, high quality product, and guest experience. We rely on social media, as one of our marketing strategies, to have a positive impact on both our brand value and reputation. Our brand and reputation could be adversely affected if we fail to achieve these objectives, if our public image was to be tarnished by negative publicity, if we fail to deliver innovative and high quality products acceptable to our guests, or if we face a product recall. Negative publicity regarding the production methods of any of our suppliers or manufacturers could adversely affect our reputation and sales and force us to locate alternative suppliers or manufacturing sources. Additionally, while we devote considerable efforts and resources to protecting our intellectual property, if these efforts are not successful the value of our brand may be harmed. Any harm to our brand and reputation could have a material adverse effect on our financial condition.

If any of our products are unacceptable to us or our guests, our business could be harmed.

We have occasionally received, and may in the future continue to receive, shipments of products that fail to comply with our technical specifications or that fail to conform to our quality control standards. We have also received, and may in the future continue to receive, products that are otherwise unacceptable to us or our guests. Under these circumstances, unless we are able to obtain replacement products in a timely manner, we risk the loss of net revenue resulting from the inability to sell those products and related increased administrative and shipping costs. Additionally, if the unacceptability of our products is not discovered until after such products are purchased by our guests, our guests could lose confidence in our products or we could face a product recall and our results of operations could suffer and our business, reputation, and brand could be harmed.

We operate in a highly competitive market and the size and resources of some of our competitors may allow them to compete more effectively than we can, resulting in a loss of our market share and a decrease in our net revenue and profitability.

The market for technical athletic apparel is highly competitive. Competition may result in pricing pressures, reduced profit margins or lost market share, or a failure to grow or maintain our market share, any of which could substantially harm our business and results of operations. We compete directly against wholesalers and direct retailers of athletic apparel, including large, diversified apparel companies with substantial market share and established companies expanding their production and marketing of technical athletic apparel, as well as against retailers specifically focused on women's athletic apparel. We also face competition from wholesalers and direct retailers of traditional commodity athletic apparel, such as cotton T-shirts and sweatshirts. Many of our competitors are large apparel and sporting goods companies with strong worldwide brand recognition. Because of the fragmented nature of the industry, we also compete with other apparel sellers, including those specializing in yoga apparel and other activewear. Many of our competitors have significant competitive advantages, including longer operating histories, larger and broader customer bases, more established relationships with a broader set of suppliers, greater brand recognition and greater financial, research and development, store development, marketing, distribution, and other resources than we do.

Our competitors may be able to achieve and maintain brand awareness and market share more quickly and effectively than we can. In contrast to our "grassroots" marketing approach, many of our competitors promote their brands through traditional forms of advertising, such as print media and television commercials, and through celebrity endorsements, and have substantial resources to devote to such efforts. Our competitors may also create and maintain brand awareness using traditional forms of advertising more quickly than we can. Our competitors may also be able to increase sales in their new and existing markets faster than we do by emphasizing different distribution channels than we do, such as catalog sales or an extensive franchise network.

In addition, because we hold limited patents and exclusive intellectual property rights in the technology, fabrics or processes underlying our products, our current and future competitors are able to manufacture and sell products with performance characteristics, fabrication techniques, and styling similar to our products.

Our reliance on suppliers to provide fabrics for and to produce our products could cause problems in our supply chain.

We do not manufacture our products or the raw materials for them and rely instead on suppliers. Many of the specialty fabrics used in our products are technically advanced textile products developed and manufactured by third parties and may be available, in the short-term, from only one or a very limited number of sources. In fiscal 2016, approximately 63% of our products were produced by our top five manufacturing suppliers, and 40% of raw materials were produced by a single manufacturer. We have no long-term contracts with any of our suppliers or manufacturing sources for the production and supply of our fabrics and garments, and we compete with other companies for fabrics, raw materials, and production.

We have experienced, and may in the future continue to experience, a significant disruption in the supply of fabrics or raw materials from current sources and we may be unable to locate alternative materials suppliers of comparable quality at an acceptable price, or at all. In addition, if we experience significant increased demand, or if we need to replace an existing supplier or manufacturer, we may be unable to locate additional supplies of fabrics or raw materials or additional manufacturing capacity on terms that are acceptable to us, or at all, or we may be unable to locate any supplier or manufacturer with sufficient capacity to meet our requirements or to fill our orders in a timely manner. Identifying a suitable supplier is an involved process that requires us to become satisfied with its quality control, responsiveness and service, financial stability, and labor and other ethical practices. Even if we are able to expand existing or find new manufacturing or fabric sources, we may encounter delays in production and added costs as a result of the time it takes to train our suppliers and manufacturers in our methods, products, and quality control standards. Delays related to supplier changes could also arise due to an increase in shipping times if new suppliers are located farther away from our markets or from other participants in our supply chain. Any delays, interruption or increased costs in the supply of fabric or manufacture of our products could have an adverse effect on our ability to meet guest demand for our products and result in lower net revenue and income from operations both in the short and long term.

An economic downturn or economic uncertainty in our key markets may adversely affect consumer discretionary spending and demand for our products.

Many of our products may be considered discretionary items for consumers. Factors affecting the level of consumer spending for such discretionary items include general economic conditions, particularly those in North America, and other factors such as consumer confidence in future economic conditions, fears of recession, the availability and cost of consumer credit, levels of unemployment, and tax rates. As global economic conditions continue to be volatile or economic uncertainty remains, trends in consumer discretionary spending also remain unpredictable and subject to reductions due to credit constraints and uncertainties about the future. Unfavorable economic conditions may lead consumers to delay or reduce purchases of our products. Consumer demand for our products may not reach our targets, or may decline, when there is an economic downturn or economic uncertainty in our key markets, particularly in North America. Our sensitivity to economic cycles and any related fluctuation in consumer demand may have a material adverse effect on our financial condition.

Our sales and profitability may decline as a result of increasing product costs and decreasing selling prices.

Our business is subject to significant pressure on costs and pricing caused by many factors, including intense competition, constrained sourcing capacity and related inflationary pressure, pressure from consumers to reduce the prices we charge for our products, and changes in consumer demand. These factors may cause us to experience increased costs, reduce our prices to consumers or experience reduced sales in response to increased prices, any of which could cause our operating margin to decline if we are unable to offset these factors with reductions in operating costs and could have a material adverse effect on our financial conditions, operating results and cash flows.

If we are unable to anticipate consumer preferences and successfully develop and introduce new, innovative and updated products, we may not be able to maintain or increase our sales and profitability.

Our success depends on our ability to identify and originate product trends as well as to anticipate and react to changing consumer demands in a timely manner. All of our products are subject to changing consumer preferences that cannot be predicted with certainty. If we are unable to introduce new products or novel technologies in a timely manner or our new products or technologies are not accepted by our guests, our competitors may introduce similar products in a more timely fashion, which could hurt our goal to be viewed as a leader in technical athletic apparel innovation. Our new products may not receive consumer acceptance as consumer preferences could shift rapidly to different types of athletic apparel or away from these types of products altogether, and our future success depends in part on our ability to anticipate and respond to these changes. Our failure to anticipate and respond in a timely manner to changing consumer preferences could lead to, among other things, lower sales and excess inventory levels. Even if we are successful in anticipating consumer preferences, our ability to adequately react to and address those preferences will in part depend upon our continued ability to develop and introduce innovative, high-quality products. Our failure to effectively introduce new products that are accepted by consumers could result in a decrease in net revenue and excess inventory levels, which could have a material adverse effect on our financial condition.

Our results of operations could be materially harmed if we are unable to accurately forecast guest demand for our products.

To ensure adequate inventory supply, we must forecast inventory needs and place orders with our manufacturers based on our estimates of future demand for particular products. Our ability to accurately forecast demand for our products could be affected by many factors, including an increase or decrease in guest demand for our products or for products of our competitors, our failure to accurately forecast guest acceptance of new products, product introductions by competitors, unanticipated changes in general market conditions, and weakening of economic conditions or consumer confidence in future economic conditions. If we fail to accurately forecast guest demand we may experience excess inventory levels or a shortage of products available for sale in our stores or for delivery to guests.

Inventory levels in excess of guest demand may result in inventory write-downs or write-offs and the sale of excess inventory at discounted prices, which would cause our gross margin to suffer and could impair the strength and exclusivity of our brand. Conversely, if we underestimate guest demand for our products, our manufacturers may not be able to deliver products to meet our requirements, and this could result in damage to our reputation and guest relationships.

Our inability to safeguard against security breaches with respect to our information technology systems could disrupt our operations.

Our business employs systems and websites that allow for the storage and transmission of proprietary or confidential information regarding our business, guests and employees including credit card information. Security breaches could expose us to a risk of loss or misuse of this information and potential liability. We may not have the resources or technical sophistication to be able to anticipate or prevent rapidly evolving types of cyber-attacks. Actual or anticipated attacks may cause us to incur increasing costs including costs to deploy additional personnel and protection technologies, train employees and engage third party experts and consultants. Advances in computer capabilities, new technological discoveries or other developments may result in the technology used by us to protect transaction or other data being breached or compromised. Data and security breaches can also occur as a result of non-technical issues including intentional or inadvertent breach by employees or persons with whom we have commercial relationships that result in the unauthorized release of personal or confidential information. Any compromise or breach of our security could result in a violation of applicable privacy and other laws, significant litigation and potential liability and damage to our brand and reputation or other harm to our business.

Any material disruption of our information technology systems or unexpected network interruption could disrupt our business and reduce our sales.

We are increasingly dependent on information technology systems and third-parties to operate our e-commerce websites, process transactions, respond to guest inquiries, manage inventory, purchase, sell and ship goods on a timely basis, and maintain cost-efficient operations. The failure of our information technology systems to operate properly or effectively, problems with transitioning to upgraded or replacement systems, or difficulty in integrating new systems, could adversely affect our business. In addition, we have e-commerce websites in the United States, Canada, and internationally. Our information technology systems, websites, and operations of third parties on whom we rely, may encounter damage or disruption or slowdown caused by a failure to successfully upgrade systems, system failures, viruses, computer "hackers" or other causes, could cause information, including data related to guest orders, to be lost or delayed which could, especially if the disruption or slowdown occurred during the holiday season, result in delays in the delivery of products to our stores and guests or lost sales, which could reduce demand for our products and cause our sales to decline. In addition, if changes in technology cause our information systems to become obsolete, or if our information systems are inadequate to handle our growth, we could

lose guests. We have limited back-up systems and redundancies, and our information technology systems and websites have experienced system failures and electrical outages in the past which have disrupted our operations. Any significant disruption in our information technology systems or websites could harm our reputation and credibility, and could have a material adverse effect on our business, financial condition and results of operations.

If the technology-based systems that give our customers the ability to shop with us online do not function effectively, our operating results, as well as our ability to grow our e-commerce business globally, could be materially adversely affected.

Many of our customers shop with us through our e-commerce website and mobile commerce applications. Increasingly, customers are using tablets and smart phones to shop online with us and with our competitors and to do comparison shopping. We are increasingly using social media and proprietary mobile applications to interact with our customers and as a means to enhance their shopping experience. Any failure on our part to provide attractive, effective, reliable, user-friendly e-commerce platforms that offer a wide assortment of merchandise with rapid delivery options and that continually meet the changing expectations of online shoppers could place us at a competitive disadvantage, result in the loss of e-commerce and other sales, harm our reputation with customers, have a material adverse impact on the growth of our e-commerce business globally and could have a material adverse impact on our business and results of operations.

Risks specific to our e-commerce business also include diversion of sales from our company-operated stores, difficulty in recreating the in-store experience through direct channels and liability for online content. Our failure to successfully respond to these risks might adversely affect sales in our e-commerce business, as well as damage our reputation and brands.

The fluctuating cost of raw materials could increase our cost of goods sold and cause our results of operations and financial condition to suffer.

The fabrics used by our suppliers and manufacturers include synthetic fabrics whose raw materials include petroleum-based products. Our products also include silver and natural fibers, including cotton. Our costs for raw materials are affected by, among other things, weather, consumer demand, speculation on the commodities market, the relative valuations and fluctuations of the currencies of producer versus consumer countries, and other factors that are generally unpredictable and beyond our control. Increases in the cost of raw materials, including petroleum or the prices we pay for silver and our cotton yarn and cotton-based textiles, could have a material adverse effect on our cost of goods sold, results of operations, financial condition, and cash flows.

Our limited operating experience and limited brand recognition in new international markets may limit our expansion and cause our business and growth to suffer.

Our future growth depends in part on our expansion efforts outside of North America. We have limited experience with regulatory environments and market practices internationally, and we may not be able to penetrate or successfully operate in any new market. In connection with our expansion efforts we may encounter obstacles we did not face in North America, including cultural and linguistic differences, differences in regulatory environments, labor practices and market practices, difficulties in keeping abreast of market, business and technical developments, and foreign guests' tastes and preferences. We may also encounter difficulty expanding into new international markets because of limited brand recognition leading to delayed acceptance of our technical athletic apparel by guests in these new international markets. Our failure to develop our business in new international markets or experiencing disappointing growth outside of existing markets could harm our business and results of operations.

If we encounter problems with our distribution system, our ability to deliver our products to the market and to meet guest expectations could be harmed.

We rely on our distribution facilities for substantially all of our product distribution. Our distribution facilities include computer controlled and automated equipment, which means their operations may be subject to a number of risks related to security or computer viruses, the proper operation of software and hardware, electronic or power interruptions, or other system failures. In addition, because substantially all of our products are distributed from four locations, our operations could also be interrupted by labor difficulties, extreme or severe weather conditions or by floods, fires or other natural disasters near our distribution centers. If we encounter problems with our distribution system, our ability to meet guest expectations, manage inventory, complete sales, and achieve objectives for operating efficiencies could be harmed.

Our fabrics and manufacturing technology generally are not patented and can be imitated by our competitors.

The intellectual property rights in the technology, fabrics, and processes used to manufacture our products generally are owned or controlled by our suppliers and are generally not unique to us. Our ability to obtain intellectual property protection for our products is therefore limited and we do not generally own patents or hold exclusive intellectual property rights in the

technology, fabrics or processes underlying our products. As a result, our current and future competitors are able to manufacture and sell products with performance characteristics, fabrics and styling similar to our products. Because many of our competitors have significantly greater financial, distribution, marketing, and other resources than we do, they may be able to manufacture and sell products based on our fabrics and manufacturing technology at lower prices than we can. If our competitors do sell similar products to ours at lower prices, our net revenue and profitability could suffer.

Our failure or inability to protect our intellectual property rights could diminish the value of our brand and weaken our competitive position.

We currently rely on a combination of copyright, trademark, trade dress, and unfair competition laws, as well as confidentiality procedures and licensing arrangements, to establish and protect our intellectual property rights. The steps we take to protect our intellectual property rights may not be adequate to prevent infringement of these rights by others, including imitation of our products and misappropriation of our brand. In addition, intellectual property protection may be unavailable or limited in some foreign countries where laws or law enforcement practices may not protect our intellectual property rights as fully as in the United States or Canada, and it may be more difficult for us to successfully challenge the use of our intellectual property rights by other parties in these countries. If we fail to protect and maintain our intellectual property rights, the value of our brand could be diminished and our competitive position may suffer.

Changes in tax laws or unanticipated tax liabilities could adversely affect our effective income tax rate and profitability.

We are subject to the income tax laws of the United States, Canada, and several other international jurisdictions. Our effective income tax rates could be unfavorably impacted by a number of factors, including changes in the mix of earnings amongst countries with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities, changes in tax laws, the outcome of income tax audits in various jurisdictions around the world, and any repatriation of unremitted earnings for which we have not previously accrued U.S. taxes.

We and our subsidiaries engage in a number of intercompany transactions across multiple tax jurisdictions. Although we believe that these transactions reflect the accurate economic allocation of profit and that proper transfer pricing documentation is in place, the profit allocation and transfer pricing terms and conditions may be scrutinized by local tax authorities during an audit and any resulting changes may impact our mix of earnings in countries with differing statutory tax rates.

Current economic and political conditions make tax rules in any jurisdiction, including the United States and Canada, subject to significant change. Proposals to reform U.S. and foreign tax laws have included, among other things, changes to the U.S. federal tax rate, imposing limitations on the deductibility of interest, the transition from a "worldwide" system of taxation to a territorial system, a one-time tax on accumulated foreign earnings, significant taxes on foreign earnings and payments to foreign related parties, and certain other base erosion prevention measures. There is substantial uncertainty regarding both the timing and the details of any such tax reform. The impact of any potential tax reform on our business is uncertain and could be adverse.

If we continue to grow at a rapid pace, we may not be able to effectively manage our growth and the increased complexity of our business and as a result our brand image and financial performance may suffer.

We have expanded our operations rapidly since our inception in 1998 and our net revenue has increased from \$40.7 million in fiscal 2004 to \$2.3 billion in fiscal 2016. If our operations continue to grow at a rapid pace, we may experience difficulties in obtaining sufficient raw materials and manufacturing capacity to produce our products, as well as delays in production and shipments, as our products are subject to risks associated with overseas sourcing and manufacturing. We could be required to continue to expand our sales and marketing, product development and distribution functions, to upgrade our management information systems and other processes and technology, and to obtain more space for our expanding workforce. This expansion could increase the strain on our resources, and we could experience operating difficulties, including difficulties in hiring, training and managing an increasing number of employees. These difficulties could result in the erosion of our brand image which could have a material adverse effect on our financial condition.

We are subject to risks associated with leasing retail and distribution space subject to long-term and non-cancelable leases.

We lease the majority of our stores under operating leases and our inability to secure appropriate real estate or lease terms could impact our ability to grow. Our leases generally have initial terms of between five and ten years, and generally can be extended only in five-year increments if at all. We generally cannot cancel these leases at our option. If an existing or new store is not profitable, and we decide to close it, as we have done in the past and may do in the future, we may nonetheless be committed to perform our obligations under the applicable lease including, among other things, paying the base rent for the balance of the lease term. Similarly, we may be committed to perform our obligations under the applicable leases even if

current locations of our stores become unattractive as demographic patterns change. In addition, as each of our leases expire, we may fail to negotiate renewals, either on commercially acceptable terms or at all, which could require us to close stores in desirable locations.

We also lease the majority of our distribution centers and our inability to secure appropriate real estate or lease terms could impact our ability to deliver our products to the market.

Our ability to source our merchandise profitably or at all could be hurt if new trade restrictions are imposed or existing trade restrictions become more burdensome.

The United States and the countries in which our products are produced or sold internationally have imposed and may impose additional quotas, duties, tariffs, or other restrictions or regulations, or may adversely adjust prevailing quota, duty or tariff levels. We have expanded our relationships with suppliers outside of China, which among other things has resulted in increased costs and shipping times for some products. Countries impose, modify and remove tariffs and other trade restrictions in response to a diverse array of factors, including global and national economic and political conditions, which make it impossible for us to predict future developments regarding tariffs and other trade restrictions. Trade restrictions, including tariffs, quotas, embargoes, safeguards, and customs restrictions, could increase the cost or reduce the supply of products available to us or may require us to modify our supply chain organization or other current business practices, any of which could harm our business, financial condition and results of operations.

We are dependent on international trade agreements and regulations. If the United States were to withdraw from or materially modify certain international trade agreements, our business could be adversely affected.

Increasing labor costs and other factors associated with the production of our products in South and South East Asia could increase the costs to produce our products.

A significant portion of our products are produced in South and South East Asia and increases in the costs of labor and other costs of doing business in the countries in this area could significantly increase our costs to produce our products and could have a negative impact on our operations, net revenue, and earnings. Factors that could negatively affect our business include a potential significant revaluation of the currencies used in these countries, which may result in an increase in the cost of producing products, labor shortage and increases in labor costs, and difficulties in moving products manufactured out of the countries in which they are manufactured and through the ports on the western coast of North America, whether due to port congestion, labor disputes, product regulations and/or inspections or other factors, and natural disasters or health pandemics. A labor strike or other transportation disruption affecting these ports could significantly disrupt our business. Also, the imposition of trade sanctions or other regulations against products imported by us from, or the loss of "normal trade relations" status with any country in which our products are manufactured, could significantly increase our cost of products imported into North America and/or Australia and harm our business.

The operations of many of our suppliers are subject to additional risks that are beyond our control and that could harm our business, financial condition, and results of operations.

Almost all of our suppliers are located outside of North America. During fiscal 2016, approximately 47% of our products were produced in South East Asia, approximately 28% in South Asia, approximately 15% in China, approximately 1% in North America, and the remainder in other regions. As a result of our international suppliers, we are subject to risks associated with doing business abroad, including:

- political unrest, terrorism, labor disputes, and economic instability resulting in the disruption of trade from foreign countries in which our products are manufactured;
- the imposition of new laws and regulations, including those relating to labor conditions, quality and safety standards, imports, duties, taxes and other charges on imports, as well as trade restrictions and restrictions on currency exchange or the transfer of funds;
- reduced protection for intellectual property rights, including trademark protection, in some countries, particularly China;
- disruptions or delays in shipments; and
- changes in local economic conditions in countries where our manufacturers, suppliers, or guests are located.

These and other factors beyond our control could interrupt our suppliers' production in offshore facilities, influence the ability of our suppliers to export our products cost-effectively or at all and inhibit our suppliers' ability to procure certain materials, any of which could harm our business, financial condition, and results of operations.

We may not be able to successfully open new store locations in a timely manner, if at all, which could harm our results of operations.

Our growth will largely depend on our ability to successfully open and operate new stores, which depends on many factors, including, among others, our ability to:

- identify suitable store locations, the availability of which is outside of our control;
- negotiate acceptable lease terms, including desired tenant improvement allowances;
- hire, train and retain store personnel and field management;
- immerse new store personnel and field management into our corporate culture;
- source sufficient inventory levels; and
- successfully integrate new stores into our existing operations and information technology systems.

Successful new store openings may also be affected by our ability to initiate our grassroots marketing efforts in advance of opening our first store in a new market. We typically rely on our grassroots marketing efforts to build awareness of our brand and demand for our products. Our grassroots marketing efforts are often lengthy and must be tailored to each new market based on our emerging understanding of the market. We may not be able to successfully implement our grassroots marketing efforts in a particular market in a timely manner, if at all. Additionally, we may be unsuccessful in identifying new markets where our technical athletic apparel and other products and brand image will be accepted or the performance of our stores will be considered successful.

Our failure to comply with trade and other regulations could lead to investigations or actions by government regulators and negative publicity.

The labeling, distribution, importation, marketing, and sale of our products are subject to extensive regulation by various federal agencies, including the Federal Trade Commission, Consumer Product Safety Commission and state attorneys general in the United States, the Competition Bureau and Health Canada in Canada, as well as by various other federal, state, provincial, local and international regulatory authorities in the countries in which our products are distributed or sold. If we fail to comply with any of these regulations, we could become subject to enforcement actions or the imposition of significant penalties or claims, which could harm our results of operations or our ability to conduct our business. In addition, the adoption of new regulations or changes in the interpretation of existing regulations may result in significant compliance costs or discontinuation of product sales and could impair the marketing of our products, resulting in significant loss of net revenue.

Our international operations are also subject to compliance with the U.S. Foreign Corrupt Practices Act, or FCPA, and other anti-bribery laws applicable to our operations. In many foreign countries, particularly in those with developing economies, it may be a local custom that businesses operating in such countries engage in business practices that are prohibited by the FCPA or other U.S. and foreign laws and regulations applicable to us. Although we have implemented procedures designed to ensure compliance with the FCPA and similar laws, some of our employees, agents, or other channel partners, as well as those companies to which we outsource certain of our business operations, could take actions in violation of our policies. Any such violation could have a material and adverse effect on our business.

Our future success is substantially dependent on the continued service of our senior management.

Our future success is substantially dependent on the continued service of our senior management and other key employees. In the last several years, several members of our senior management team have left us and we have focused time and resources on recruiting the new members of our current management team. The continued turnover of senior management and the loss of key members of our executive team could have a negative impact on our ability to manage and grow our business effectively. In addition, if we're not effective with our succession planning, it may have a negative impact on our ability to fill senior management roles in a timely manner.

We do not maintain a key person life insurance policy on any of the members of our senior management team. As a result, we would have no way to cover the financial loss if we were to lose the services of members of our senior management team.

Our business is affected by seasonality.

Our business is affected by the general seasonal trends common to the retail apparel industry. This seasonality may adversely affect our business and cause our results of operations to fluctuate, and, as a result, we believe that comparisons of

our operating results between different quarters within a single fiscal year are not necessarily meaningful and that results of operations in any period should not be considered indicative of the results to be expected for any future period.

Because a significant portion of our net revenue and expenses are generated in countries other than the United States, fluctuations in foreign currency exchange rates have affected our results of operations and may continue to do so in the future.

The functional currency of our foreign subsidiaries is generally the applicable local currency. Our consolidated financial statements are presented in U.S. dollars. Therefore, the net revenue, expenses, assets, and liabilities of our foreign subsidiaries are translated from their functional currencies into U.S. dollars. Fluctuations in the value of the U.S. dollar affect the reported amounts of net revenue, expenses, assets, and liabilities. Foreign exchange differences which arise on translation of our foreign subsidiaries' balance sheets into U.S. dollars are recorded as a foreign currency translation adjustment in accumulated other comprehensive income or loss within stockholders' equity.

We also have exposure to changes in foreign exchange rates associated with transactions which are undertaken by our subsidiaries in currencies other than their functional currency. Such transactions include intercompany transactions and inventory purchases denominated in currencies other than the functional currency of the purchasing entity. As a result, we have been impacted by changes in exchange rates and may be impacted for the foreseeable future. The potential impact of currency fluctuation increases as our international expansion increases.

From time to time, we may enter into forward currency contracts, or other derivative instruments, in an effort to mitigate the foreign exchange risks which we are exposed to. This may include entering into forward currency contracts to hedge against the foreign exchange gains and losses which arise on translation of our foreign subsidiaries' balance sheets into U.S. dollars, or entering into forward currency contracts in an effort to reduce our exposure to foreign exchange revaluation gains and losses that arise on monetary assets and liabilities held by our subsidiaries in a currency other than their functional currency.

Although we use financial instruments to hedge certain foreign currency risks, these measures may not succeed in fully offsetting the negative impact of foreign currency rate movements.

We are exposed to credit-related losses in the event of nonperformance by the counterparties to the forward currency contracts.

We may see higher than anticipated costs associated with, or not realize the benefits of, our efforts to restructure our ivivva business.

In June 2017, we announced a plan to restructure our ivivva operations to a primarily e-commerce focused business. In August 2017, as part of this effort, we closed 48 of our 55 ivivva branded company-operated stores. The estimated costs and benefits associated with our restructuring efforts may vary materially based on various factors, including the timing of our execution of the programs, the outcome of negotiations with landlords and other third parties, the accuracy of our sales forecasts, inventory levels, the diversion of management attention from ongoing business activities or a decrease in employee morale, potential employment or other claims and litigation, and changes in management's assumptions and projections. As a result of these events and circumstances, delays and unexpected costs may occur, which could result in higher costs than we anticipate or our not realizing all, or any, of the anticipated benefits of these restructuring efforts.

Our trademarks and other proprietary rights could potentially conflict with the rights of others and we may be prevented from selling some of our products.

Our success depends in large part on our brand image. We believe that our trademarks and other proprietary rights have significant value and are important to identifying and differentiating our products from those of our competitors and creating and sustaining demand for our products. We have obtained and applied for some United States and foreign trademark registrations, and will continue to evaluate the registration of additional trademarks as appropriate. However, some or all of these pending trademark applications may not be approved by the applicable governmental authorities. Moreover, even if the applications are approved, third parties may seek to oppose or otherwise challenge these registrations. Additionally, we may face obstacles as we expand our product line and the geographic scope of our sales and marketing. Third parties may assert intellectual property claims against us, particularly as we expand our business and the number of products we offer. Our defense of any claim, regardless of its merit, could be expensive and time consuming and could divert management resources. Successful infringement claims against us could result in significant monetary liability or prevent us from selling some of our products. In addition, resolution of claims may require us to redesign our products, license rights from third parties, or cease using those rights altogether. Any of these events could harm our business and cause our results of operations, liquidity, and financial condition to suffer.

We are subject to periodic claims and litigation that could result in unexpected expenses and could ultimately be resolved against us.

From time to time, we are involved in litigation and other proceedings, including matters related to product liability claims, stockholder class action and derivative claims, commercial disputes and intellectual property, as well as trade, regulatory, employment, and other claims related to our business. Any of these proceedings could result in significant settlement amounts, damages, fines or other penalties, divert financial and management resources, and result in significant legal fees. An unfavorable outcome of any particular proceeding could exceed the limits of our insurance policies or the carriers may decline to fund such final settlements and/or judgments and could have an adverse impact on our business, financial condition, and results of operations. In addition, any proceeding could negatively impact our reputation among our guests and our brand image.

Our business could be negatively affected as a result of actions of activist stockholders, and such activism could impact the trading value of our securities.

Responding to actions by activist stockholders can be costly and time-consuming, disrupting our operations and diverting the attention of management and our employees. Such activities could interfere with our ability to execute our strategic plan. In addition, a proxy contest for the election of directors at our annual meeting would require us to incur significant legal fees and proxy solicitation expenses and require significant time and attention by management and our board of directors. The perceived uncertainties as to our future direction also could affect the market price and volatility of our securities.

Anti-takeover provisions of Delaware law and our certificate of incorporation and bylaws could delay and discourage takeover attempts that stockholders may consider to be favorable.

Certain provisions of our certificate of incorporation and bylaws and applicable provisions of the Delaware General Corporation Law may make it more difficult or impossible for a third-party to acquire control of us or effect a change in our board of directors and management. These provisions include:

- the classification of our board of directors into three classes, with one class elected each year;
- prohibiting cumulative voting in the election of directors;
- the ability of our board of directors to issue preferred stock without stockholder approval;
- the ability to remove a director only for cause and only with the vote of the holders of at least 66 2/3% of our voting stock;
- a special meeting of stockholders may only be called by our chairman or Chief Executive Officer, or upon a resolution adopted by an affirmative vote of a majority of the board of directors, and not by our stockholders;
- prohibiting stockholder action by written consent; and
- our stockholders must comply with advance notice procedures in order to nominate candidates for election to our board of directors or to place stockholder proposals on the agenda for consideration at any meeting of our stockholders.

In addition, we are governed by Section 203 of the Delaware General Corporation Law which, subject to some specified exceptions, prohibits "business combinations" between a Delaware corporation and an "interested stockholder," which is generally defined as a stockholder who becomes a beneficial owner of 15% or more of a Delaware corporation's voting stock, for a three-year period following the date that the stockholder became an interested stockholder. Section 203 could have the effect of delaying, deferring or preventing a change in control that our stockholders might consider to be in their best interests.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

The following table provides information regarding our purchases of shares of our common stock during the quarter ended October 29, 2017 related to our stock repurchase program:

Period ⁽¹⁾	Total Number of Shares Purchased ⁽²⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
July 31, 2017 - August 27, 2017	92,188	\$ 60.64	92,188	\$ 2,873,628
August 28, 2017 - October 1, 2017	48,236	59.57	48,236	45
October 2, 2017 - October 29, 2017	—	—	—	45
Total	140,424		140,424	

⁽¹⁾ Monthly information is presented by reference to our fiscal periods during our third quarter of fiscal 2017 .

⁽²⁾ Our stock repurchase program was approved by our board of directors in December 2016. Common shares were repurchased in the open market at prevailing market prices, including under plans complying with the provisions of Rule 10b5-1 and Rule 10b-18 of the Securities Exchange Act of 1934, with the timing and actual number of common shares repurchased depending upon market conditions, eligibility to trade, and other factors. The maximum dollar value of shares to be repurchased was \$100.0 million and the program was completed in the third quarter of fiscal 2017.

The following table provides information regarding our purchases of shares of our common stock during the quarter ended October 29, 2017 related to our Employee Share Purchase Plan:

Period ⁽¹⁾	Total Number of Shares Purchased ⁽²⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs ⁽²⁾
July 31, 2017 - August 27, 2017	11,514	\$ 60.44	11,514	4,951,449
August 28, 2017 - October 1, 2017	11,943	60.20	11,943	4,939,506
October 2, 2017 - October 29, 2017	10,749	60.59	10,749	4,928,757
Total	34,206		34,206	

⁽¹⁾ Monthly information is presented by reference to our fiscal periods during our third quarter of fiscal 2017 .

⁽²⁾ Our Employee Share Purchase Plan (ESPP) was approved by our board of directors and stockholders in September 2007. All shares purchased under the ESPP are purchased on the Nasdaq Global Select Market (or such other stock exchange as we may designate from time to time). Unless our board of directors terminates the ESPP earlier, the ESPP will continue until all shares authorized for purchase under the ESPP have been purchased. The maximum number of shares authorized to be purchased under the ESPP is 6,000,000.

Excluded from this disclosure are shares withheld to settle statutory employee tax withholding related to the vesting of stock-based compensation awards.

* Furnished herewith

I, Stuart Haselden, certify that:

1. I have reviewed this quarterly report on Form 10-Q of lululemon athletica inc.;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350,
AS ADOPTED PURSUANT TO SECTION 906 OF
THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report of lululemon athletica inc. (the "Company") on Form 10-Q for the third quarter of fiscal 2017, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), each of the undersigned officers of the Company certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that, to such officer's knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
