

## Maine & Maritimes Corporation Announces 2009 Second Quarter Earnings Results

PRESQUE ISLE, ME, Aug 13, 2009 (MARKETWIRE via COMTEX News Network) -- Maine & Maritimes Corporation (NYSE Amex: MAM) reported a consolidated second quarter 2009 basic and diluted net loss of \$0.25 per share, or \$411,000, compared to second quarter 2008 net loss of \$0.04 per share, or \$68,000.

According to Brent M. Boyles, President and CEO of Maine & Maritimes Corporation, "Revenue at the utility was lower than the second quarter of 2008, reflecting the downturn in the economy, primarily within the struggling wood and lumber industry. In addition, MAM Utility Services Group has fewer projects than it did last year. However, MAM USG has several outstanding bids on projects and MPS continues to pursue opportunities for a jointly-owned transmission project that has the potential of connecting northern Maine to the New England electrical network. As part of this effort, we continue discussions with our partner, Central Maine Power, as well as generation developers, state and federal regulators, and state and federal political representatives."
