TG Therapeutics, Inc. Announces Clinical Data Presentations at the Upcoming 22nd European Hematology Association Annual Congress

Presentations highlight triple combination therapies with the combination of TG-1101 and TGR-1202 as the backbone

NEW YORK, May 18, 2017 (GLOBE NEWSWIRE) -- TG Therapeutics, Inc. (NASDAQ:TGTX), today announced that clinical abstracts featuring TG-1101 and TGR-1202 have been selected for presentation at the upcoming 22nd European Hematology Association (EHA) annual congress, to be held June 22 - 25, 2017 in Madrid, Spain.

Details of the data presentations are outlined below.

Oral Presentation:

- Title: Chemo-free triplet combination of TGR-1202, ublituximab, and ibrutinib is well tolerated and highly active in patients with advanced CLL and NHL

- | Abstract Number: S772
- | Presentation Date & Time: Sunday, June 25, 2017 8:45 - 9:00 CEST
- | Session Title: Targeted therapies in relapsed chronic lymphocytic leukemia
- | Location: Hall A
- | Presenter: Loretta J. Nastoupil, MD, MD Anderson Cancer Center

Poster Presentation:

- Title: Combination of TGR-1202, Ublituximab, and bendamustine is safe and highly active in patients with advanced DLBCL and follicular lymphoma

- | Abstract Number: P563
- | Presentation Date & Time: Saturday, June 24, 2017 17:30 - 19:00 CEST
- | Session Title: Aggressive Non-Hodgkin Lymphoma- Relapsed/Refractory
- | Location: Poster Area Hall 7
- | Presenter: Matthew Lunning, DO, University of Nebraska Medical Center

The EHA abstracts were made available today May 18, 2017 through the EHA meeting website at www.ehaweb.org. Following each presentation, the data presented will be available on the Publications page, located within the Pipeline section, of the Company's website at www.tgtherapeutics.com.

ABOUT TG THERAPEUTICS, INC.

TG Therapeutics is a biopharmaceutical company focused on the acquisition, development and commercialization of novel treatments for B-cell malignancies and autoimmune diseases. Currently, the company is developing two therapies targeting hematological malignancies and autoimmune diseases. TG-1101 (ublituximab) is a novel, glycoengineered monoclonal antibody that targets a specific and unique epitope on the CD20 antigen found on mature B-lymphocytes. TG Therapeutics is also developing TGR-1202, an orally available PI3K delta inhibitor. The delta isoform of PI3K is strongly expressed in cells of hematopoietic origin and is believed to be important in the proliferation and survival of B-lymphocytes. Both TG-1101 and TGR-1202 are in clinical development for patients with hematologic malignancies, with TG-1101 also in clinical development for autoimmune disorders. The Company also has pre-clinical programs to develop IRAK4 inhibitors, BET inhibitors, and anti-PD-L1 and anti-GITR antibodies. TG Therapeutics is headquartered in New York City.

Cautionary Statement

Some of the statements included in this press release may be forward-looking statements that involve a number of risks and

uncertainties. For those statements, we claim the protection of the safe harbor for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995. In addition to the risk factors identified from time to time in our reports filed with the Securities and Exchange Commission, factors that could cause our actual results to differ materially are the following: our ability to successfully and cost effectively complete preclinical and clinical trials; the risk that early clinical trial results, that may have supported the acceptance of our data for presentation or influenced our decision to proceed with additional clinical trials, will not be reproduced in future studies or in the final presentations; the risk that the combination of TG-1101 and TGR-1202, referred to as TG-1303 and being studied in the UNITY clinical trials, will not prove to be a safe and efficacious combination or backbone for triple and/or quad therapies; the risk that any interim analyses from ongoing clinical trials will not produce the desired or predicted result. Any forward-looking statements set forth in this press release speak only as of the date of this press release. We do not undertake to update any of these forward-looking statements to reflect events or circumstances that occur after the date hereof. This press release and prior releases are available at www.tgtherapeutics.com. The information found on our website is not incorporated by reference into this press release and is included for reference purposes only.
