Mellanox Named to UBM Channel's CRN Data Center 100

SUNNYVALE, Calif. & YOKNEAM, Israel--(BUSINESS WIRE)-- Mellanox® Technologies, Ltd. (NASDAQ: MLNX; TASE: MLNX), a leading supplier of high-performance, end-to-end interconnect solutions for data center servers and storage systems, announced it has been named to [CRN's 2013 Data Center 100 list](#). This annual list recognizes technology vendors for powering, supporting and protecting today's data center services in an environmentally and economically friendly manner, while boosting efficiency and productivity.

Mellanox's InfiniBand and Ethernet data center interconnect solutions provide industry-leading performance for maximizing server and data storage systems across a variety of applications for data center environments, including Big Data, cloud computing and Web 2.0. Through its channel program, Mellanox works side-by-side with top tier OEMs, strategic technology suppliers and ISVs to ensure the best possible solution is available to data center IT managers.

"The 2013 Data Center 100 list recognizes vendors that, over the course of 2012, have shown a dedication to the innovation and advancement of today's data center services," said Kelley Damore, vice president and editorial director for UBM Channel. "The recent upsurge in cloud computing has solution providers searching for new ways to ensure their clients maintain connectivity while mitigating costs and security threats. We congratulate each vendor on the 2013 Data Center 100 list for providing a significant growth opportunity for solution providers to build their business by offering cutting-edge products and services to customers."

"Mellanox's continued recognition on the CRN's Data Center 100 list is a great testimony of our commitment to our channel partners and the business value we provide to our joint data center customers," said Darrin Chen, senior director of worldwide channels at Mellanox Technologies at Mellanox Technologies. "Our FDR 56Gb/s InfiniBand and 10 and 40Gb/s Ethernet interconnect solutions enable higher enterprise, cloud and Web 2.0 application performance while reducing data center costs and power consumption."

Selected by CRN's editorial staff, the 2013 Data Center 100 list is featured in the January issue of CRN Magazine and will be featured online at www.crn.com.
