Meituan.com Selects Mellanox Interconnect Solutions to Accelerate its Artificial Intelligence, Big Data and Cloud Data Centers

Mellanox Ethernet Switches, Adapters and Cables to Connect Multi-Thousand Server Platforms, Delivering [Meituan.com](#) with Best Return on Investment

SUNNYVALE, Calif. & YOKNEAM, Israel--(BUSINESS WIRE)-- Mellanox Technologies, Ltd. (NASDAQ: MLNX), a leading supplier of high-performance, end-to-end smart interconnect solutions for data center servers and storage systems, today announced that [Meituan.com](#) has selected Mellanox Spectrum™ Ethernet switches, ConnectX® adapters and LinkX™ cables to accelerate its multi-thousand servers for their artificial intelligence, big data analytics and cloud data centers. [Meituan.com](#) is the world's leading online and on-demand delivery platform, supporting 280 million mobile users and 5 million merchants across 2,180 cities in China, and processing up to 21 million orders a day during peak times. Utilizing Mellanox 25 Gigabit and 100 Gigabit smart interconnect solutions and RDMA technology, [Meituan.com](#) can better analyze and match user needs to merchant online offers, faster and more accurately, while lowering data center operational costs.

"We have selected Mellanox smart 25 Gigabit and 100 Gigabit Ethernet adapters, switches and cables solutions to accelerate our artificial intelligence, big data and cloud data center, due to their leading performance, scalability, and RDMA technology," said Hu XiangTao, Director of Meituan Cloud Operation at [Meituan.com](#). "We are excited to collaborate with Mellanox to integrate its world-leading interconnect technology into our data centers, resulting in our ability to offer better services to our users, and reduce our expenses."

"We are excited to collaborate with [Meituan.com](#), enabling them to utilize our interconnect technology to accelerate business decisions and to offer better service to its users," said Amir Prescher, senior vice president of business development at Mellanox Technologies. "Mellanox RDMA and our leading 25 Gigabit and 100 Gigabit Ethernet adapters and switches provide the needed data capacity and the ability to analyze growing amounts of data in real time, resulting in faster and more accurate business decisions, and better online services. We look forward to continuing to work with [Meituan.com](#) as it plans to scale its data center infrastructure."

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

This press release contains forward-looking statements within the meaning of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, including statements related to the market demands for greater data speeds and real time data analytics and, the performance impact of Mellanox's HDR 200Gb/s InfiniBand. These forward-looking statements are based on our current expectations, estimates and projections about our industry and business, management's beliefs and certain assumptions made by us, all of which are subject to change. Forward-looking statements can often be identified by words such as "projects," "anticipates," "expects," "intends," "plans," "predicts," "believes," "seeks," "estimates," "may," "will," "should," "would," "could," "potential," "continue," "ongoing," similar expressions and variations or negatives of these words. These forward-looking statements are not guarantees of future results and are subject to risks, uncertainties and assumptions that could cause our actual results to differ materially and adversely from those expressed in any forward-looking statement. More information about the risks, uncertainties and assumptions that may impact our business is set forth in our annual report on Form 10-K filed with the Securities and Exchange Commission

(SEC) on February 26, 2016 and our quarterly reports on Form 10-Q filed with the SEC on April 29, 2016, July 29, 2016 and November 4, 2016. Other risks, uncertainties and assumptions that could cause our actual results to differ materially from those projected may be described from time to time in reports we file with the SEC, including reports on Forms 10-Q and 8-K. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

About Mellanox

Mellanox Technologies (NASDAQ: MLNX) is a leading supplier of end-to-end InfiniBand and Ethernet smart interconnect solutions and services for servers and storage. Mellanox interconnect solutions increase data center efficiency by providing the highest throughput and lowest latency, delivering data faster to applications and unlocking system performance capability. Mellanox offers a choice of fast interconnect products: adapters, switches, software and silicon that accelerate application runtime and maximize business results for a wide range of markets including high performance computing, enterprise data centers, Web 2.0, cloud, storage and financial services. More information is available at: www.mellanox.com.
